ENVIRONMENTAL
UNIT

attn: Mrs Maya Zaitzovsky

I am absolutely against the Whitebird Canyon Hills Project.

86-1

I have lived in the 8500 block of La Jena Cyn for 54 yrs. Before the road was opened and the freeway was built. It has been a night-mare ever since.

86-2

If the people who decide this project, they would change their mind if they lived here. The planning dept should come out and spend the day from early morning till dark.

The traffic is terrible you can hardly get out your driveway. There is so many accidents. The road is too narrow and winding to handle any more traffic.

86-3

Also the noise from the traffic you cant open your doors or windows. You also get the exhaust smell from the cars.

86-4

When we get heavy rains the flood channel fills up. I lost my home during the flood of 1978, and so many of my possessions.

When the freeway was built they left a lot of debris which blocked the channel and there was no place for the water to go except through

Page 2

86-4

respects yards. The street was a river of mud and debris, you can't change the flow of the water.

86-5

We are A-1 gone and do not want that changed, this was base country, we don't need that changed.

We have to protect what wild life we have left all the oak trees which can't be replaced. Cutting down the hill sides would destroy every thing.

86-6

Cars speed up the canyon and down the canyon they don't pay any attention to the speed limits. Its very dangerous by our schools. There isn't enough police officers to patrol the area. The school can't handle any more children.

86-7

No developer should have the right to come in and destroy what hillside we have left, our wildlife, trees ect, no one in the canyon wants it. I hope you will put a stop to it.

Respectfully

Virginia Sloane
