## RECOMMENDATION REPORT

**CULTURAL HERITAGE COMMISSION**

**CASE NO.: CHC-2015-4017-HCM  
ENV-2015-4018-CE**

**HEARING DATE:** November 19, 2015  
**TIME:** 10:00 AM  
**PLACE:** City Hall, Room 1010  
200 N. Spring Street  
Los Angeles, CA  
90012

Location: 221 South St. Andrews Place  
Council District: 4  
Community Plan Area: Wilshire  
Area Planning Commission: Central  
Neighborhood Council: Greater Wilshire  
Legal Description: Tract TR 269, Lot 52

**PROJECT:** Historic-Cultural Monument Application for the  
RESIDENCE BY HEINEMAN ON ST. ANDREWS PLACE

**REQUEST:** Declare the property a Historic-Cultural Monument

**OWNER(S)/  
APPLICANT(S):** Kevin J. Cohen and Clare K. Sebenius  
221 South St Andrews Place  
Los Angeles, CA 90020

**PREPARER:** Anna Marie Brooks  
1109 4<sup>th</sup> Avenue  
Los Angeles, CA 90019

**RECOMMENDATION**      **That the Cultural Heritage Commission:**

1. **Take the property under consideration** as a Historic-Cultural Monument per Los Angeles Administrative Code Chapter 9, Division 22, Article 1, Section 22.171.10 because the application and accompanying photo documentation suggest the submittal warrants further investigation.
2. **Adopt** the report findings.

## **SUMMARY**

The 1912 Residence by Heineman on St. Andrews Place is located at 221 South St. Andrews Place just south of Second Street. It was designed by Arthur S. Heineman (1878-1972) as a speculative residence for contractor and owner Wilbur F. Miner. Records indicate that the property was used as a rental early on and that the first two owners lived in Portland, Oregon. The first person to make the house his home was William F. Radis in 1921. Radis was a real estate salesperson and later the secretary of a bond house.

Arthur S. Heineman did not have formal architectural training. He came to California at a young age in 1894, and lived in Pasadena with his family including his brother Alfred. He first entered into the real estate development field but by 1911 had become a respected and in-demand designer of homes. Legend has it that Los Angeles architects encouraged him to become licensed and after only a few exam questions he was granted an architect's certificate. Heineman designed many buildings in Los Angeles including the Fuller House in Hollywood, the Cumnock School for Expression in Hancock Park, and the J.R. Dennison House in West Adams, HCM #818. He is most well-known for developing the concept of the motor hotel or Mo-Tel, which he later trademarked.

The Residence by Heineman on St. Andrews Place was designed in the Craftsman style with Oriental influences. It features low-pitched cross gables, a side gabled roof with Oriental peaks, deep overhanging eaves, stone and cement piers flanking a full-length front porch, and decorative clapboard siding. Interior elements of the house include the Grueby tile inglenook with art glass windows, wooden ceiling beams, built-in buffet, original entry door with decorative glass inset, and original hardware.

The citywide historic resources survey, SurveyLA, found the Gramercy Place-St. Andrews Place Residential Historic District, which includes the subject property as a contributing element, as eligible for listing in the National Register of Historic Places, the California Register of Historical Places, and as eligible for designation as a local Historic Preservation Overlay Zone. The survey identified the area for its significant concentration of Arts and Crafts residential architecture in the Wilshire area and as an example of early 20<sup>th</sup> century streetcar suburbanization in the Wilshire area.

## **CRITERIA**

The criterion is the Cultural Heritage Ordinance which defines a historical or cultural monument as any site (including significant trees or other plant life located thereon) building or structure of particular historic or cultural significance to the City of Los Angeles, such as historic structures or sites in which the broad cultural, economic, or social history of the nation, State or community is reflected or exemplified, or which are identified with historic personages or with important events in the main currents of national, State or local history or which embody the distinguishing characteristics of an architectural type specimen, inherently valuable for a study of a period style or method of construction, or a notable work of a master builder, designer or architect whose individual genius influenced his age.

## **FINDINGS**

Based on the facts set forth in the summary and application, the Commission determines that the application is complete and that the property may be significant enough to warrant further investigation as a potential Historic-Cultural Monument.

# HISTORIC-CULTURAL MONUMENT NOMINATION FORM

## 1. PROPERTY IDENTIFICATION

Proposed Monument Name: <b>Residence by Heineman on St. Andrews Place</b>		Notable architect/builder	
Other Associated Names: <b>Arthur Heineman, Wilbur F. Miner, William H. Grueby, William F. Radis</b>			
Street Address: <b>221 South St Andrews Place</b>		Zip: <b>90004</b>	Council District: <b>4</b>
Range of Addresses on Property: <b>221 South St Andrews Place</b>		Community Name: <b>Wilshire</b>	
Assessor Parcel Number: <b>5516-023-004</b>	Tract: <b>TR 269</b>	Block: <b>None</b>	Lot: <b>52</b>
Identification cont'd:			
Proposed Monument Property Type:	<input checked="" type="radio"/> Building	<input type="radio"/> Structure	<input type="radio"/> Object
		<input type="radio"/> Site/Open Space	<input type="radio"/> Natural Feature
Describe any additional resources located on the property to be included in the nomination, here: <b>Original two car garage, adaptively re-purposed.</b>			

## 2. CONSTRUCTION HISTORY & CURRENT STATUS

Year built: <b>1912</b>	<input checked="" type="radio"/> Factual	<input type="radio"/> Estimated	Threatened? <b>Other:</b>
Architect/Designer: <b>A[rthur] Heineman</b>	Contractor: <b>W[ilbur] F. Miner</b>

WINDOWS	Type: <b>Casement</b>	Type: <b>Fixed</b>	
	Material: <b>Wood</b>	Material: <b>Wood</b>	
ENTRY	Style: <b>Off-center</b>	Style: <b>Corner</b>	
DOOR	Type: <b>Plank</b>	Type: <b>Double</b>	

# HISTORIC-CULTURAL MONUMENT NOMINATION FORM

## 4. ALTERATION HISTORY

List date and write a brief description of any major alterations or additions. This section may also be completed on a separate document. Include copies of permits in the nomination packet. Make sure to list any major alterations for which there are no permits, as well.

	Please see attached "Permits" sheet.

## 5. EXISTING HISTORIC RESOURCE IDENTIFICATION (if known)

Listed in the National Register of Historic Places	
Listed in the California Register of Historical Resources	
Formally determined eligible for the National and/or California Registers	
Located in an Historic Preservation Overlay Zone (HPOZ)	Contributing feature Non-contributing feature
Determined eligible for national, state, or local landmark status by an historic resources survey(s)	Survey Name(s):
Other historical or cultural resource designations:	

## 6. APPLICABLE HISTORIC-CULTURAL MONUMENT CRITERIA

The proposed monument exemplifies the following Cultural Heritage Ordinance Criteria (Section 22.171.7):	
	Reflects the broad cultural, economic, or social history of the nation, state, or community
✓	Is identified with historic personages or with important events in the main currents of national, state, or local history
✓	Embodies the distinguishing characteristics of an architectural-type specimen, inherently valuable for study of a period, style, or method of construction
✓	A notable work of a master builder, designer, or architect whose individual genius influenced his or her age

**Permits: 221 S. St. Andrews Place**

- 1912 Original residence erection permit. Owner & Contractor: W(ilbur) F. Miner. Architect: A. Heineman.
- 1912 Original garage erection permit. W. F. Miner, Owner & Contractor.
- 1933 Tile bath & drain board. Owner: H. L. Miller.
- 1986 Install smoke detectors. Owner: Virginia Rowe.
- 1989 Install 2 outlets and 1 fan. Owner: J. Poole.
- 1989 Install 4 circuits. Owner: Joe Poole.
- 2002 Tear off existing roofing. Reroof with Class A fiberglass or asphalt shingles/mas 2 overlays total 40 sqrs. Owner: Wayne Chan.
- 2002 Voluntary earthquake repair: Install new foundation and retaining walls in portion of basement.
- 2003 Change out hot water heater.
- 2006 Interior remodel of 2-story single family dwelling. Structural upgrade. Owners: David M Cunningham, Jr. & Jenn Cunningham.
- 2006 New deck (approx. 350 sq. ft.) attached to rear of existing single family dwelling. Owners: Matthew Drake and Michelle Nader.
- 2006 One story addition to extend garage. Add a half bathroom—210 sq. ft. per type V sheet. Owners: Matthew Drake and Michelle Nader.

# HISTORIC-CULTURAL MONUMENT NOMINATION FORM

## 7. WRITTEN STATEMENTS

*This section allows you to discuss at length the significance of the proposed monument and why it should be designated an Historic-Cultural Monument. Type your response on separate documents and attach them to this form.*

**A. Proposed Monument Description** - Describe the proposed monument's physical characteristics and relationship to its surrounding environment. Expand on sections 2 and 3 with a more detailed description of the site. Expand on section 4 and discuss the construction/alteration history in detail if that is necessary to explain the proposed monument's current form. Identify and describe any character-defining elements, structures, interior spaces, or landscape features.

**B. Statement of Significance** - Address the proposed monument's historic, cultural, and/or architectural significance by discussing how it satisfies the HCM criteria you selected in Section 6. You must support your argument with substantial evidence and analysis. The Statement of Significance is your main argument for designation so it is important to substantiate any claims you make with supporting documentation and research.

## 8. CONTACT INFORMATION

### Applicant

Name: Anna Marie Brooks		Company:	
Street Address: 1109 4th Avenue		City: Los Angeles	State: CA
Zip: 90019	Phone Number: 310-650-2143	Email: historichomesla@aol.com	

### Property Owner

Is the owner in support of the nomination?  Yes  No  Unknown

Name: Kevin J Cohen & Clare K Sebenius		Company:	
Street Address: 221 South St Andrews		City: Los Angeles	State: CA
Zip: 90004	Phone Number:	Email: clare_sebenius@me.com	

### Nomination Preparer/Applicant's Representative

Name: Anna Marie Brooks		Company:

## 9. SUBMITTAL

When you have completed preparing your nomination, compile all materials in the order specified below. Although the entire packet must not exceed 100 pages, you may send additional material on a CD or flash drive.

### APPLICATION CHECKLIST

- |   |   |
|---|---|
| 1. ✓ Nomination Form  | 5. ✓ Copies of Primary/Secondary Documentation  |
| 2. ✓ Written Statements A and B   | 6. ✓ Copies of Building Permits for Major Alterations<br>(include first construction permits) |
| 3. ✓ Bibliography   | 7. ✓ Additional, Contemporary Photos  |
| 4. ✓ Two Primary Photos of Exterior/Main Facade<br>(8x10, the main photo of the proposed monument. Also<br>email a digital copy of the main photo to:<br>planning.ohr@lacity.org) | 8. Historical Photos  |
|   | 9. ✓ Zimas Parcel Report for all Nominated Parcels<br>(including map)                         |

## 10. RELEASE

Please read each statement and check the corresponding boxes to indicate that you agree with the statement, then sign below in the provided space. Either the applicant or preparer may sign.

- I acknowledge that all documents submitted will become public records under the California Public Records Act, and understand that the documents will be made available upon request to members of the public for inspection and copying.
- I acknowledge that all photographs and images submitted as part of this application will become the property of the City of Los Angeles, and understand that permission is granted for use of the photographs and images by the City without any expectation of compensation.
- I acknowledge that I have the right to submit or have obtained the appropriate permission to submit all information contained in this application.

**Name: Gramercy Place-St. Andrews Place Residential Historic District**

**Description:**

The Gramercy Place-St. Andrews Place Residential Historic District is a district of almost exclusively single-family residences located in the Wilshire Center area of central Los Angeles. The one and two-story residential district includes parcels on both sides of South Gramercy Place and South St. Andrews Place, between 2nd Street and 3rd Street. The topography of the district is generally flat, and the area is characterized by its regular, rectilinear street grid pattern. Lot sizes are modest, and properties have uniform setbacks with detached garages and driveways with curb cuts; some properties have concrete steps integrated into walkways to accommodate sloped/elevated front lawns. Historically developed as a single tract, the district has original sidewalks and various species of mature street trees, including magnolias and jacarandas. Of the 50 total properties, 43 are contributors and seven are non-contributors to the district.

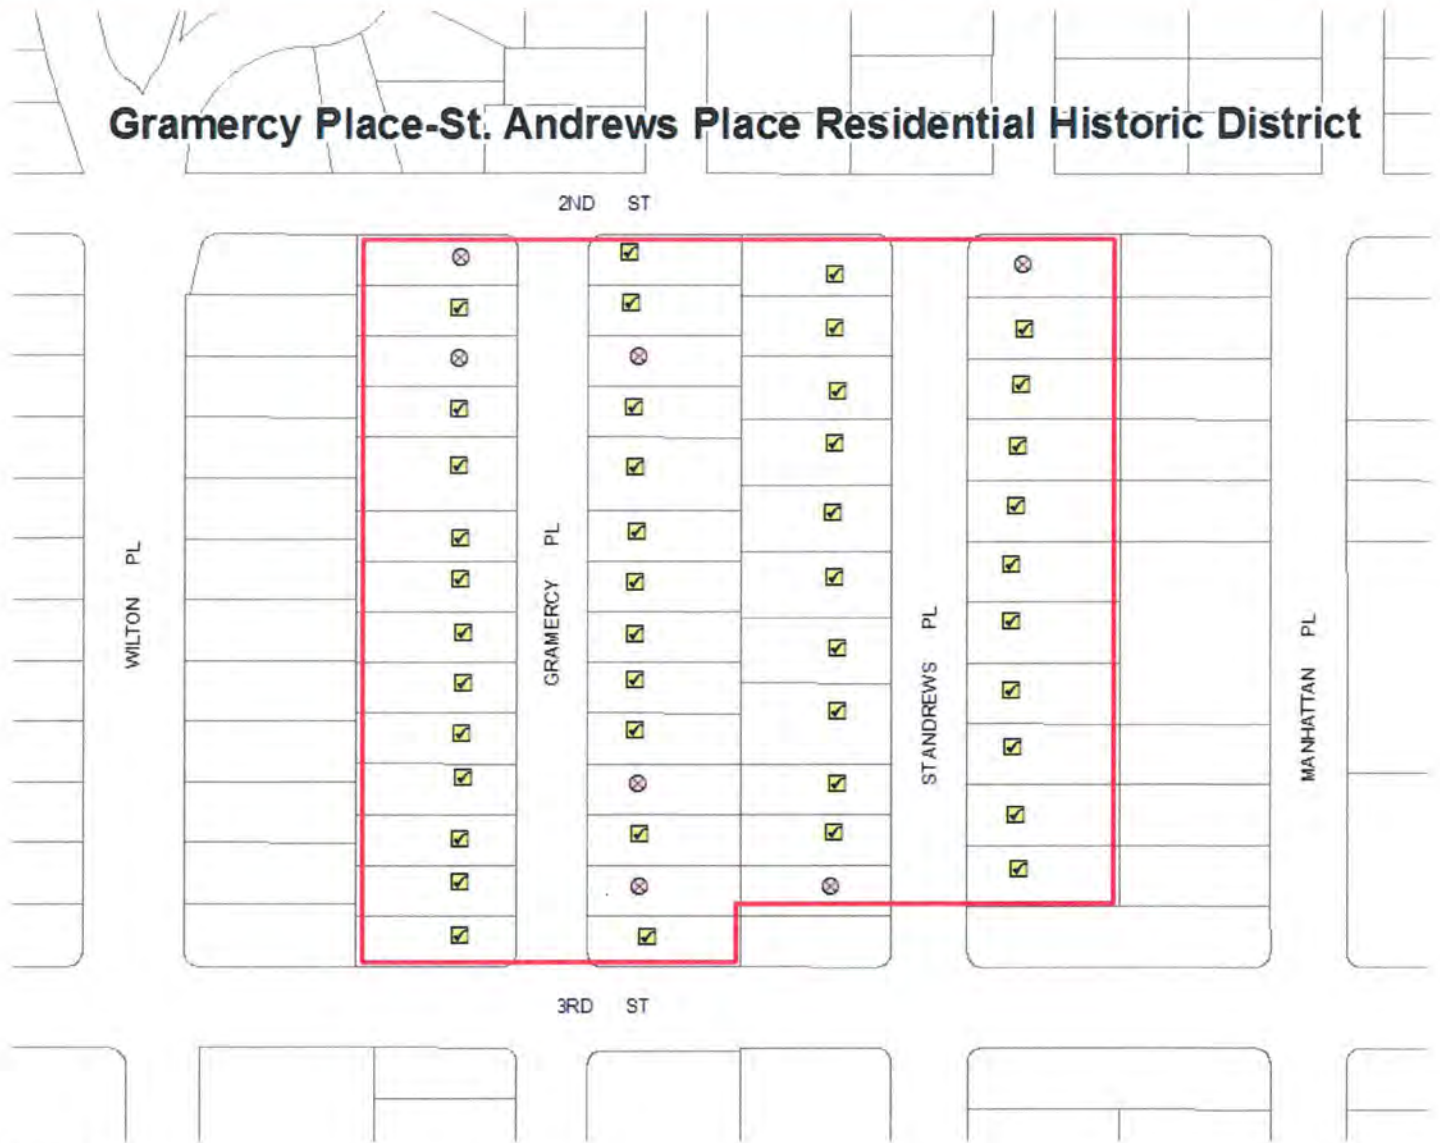

The dominant period of development for the district is 1908 to 1932, and most residences are constructed in the Craftsman style (with a few in the American Colonial Revival style); various Period Revival styles are scattered throughout the district as well. The district consists of one and two-story single-family residences, and one apartment house. Typical architectural features include wood clapboard siding, front porches and wide eaves.

**Significance:**

The Gramercy Place-St. Andrews Place Residential Historic District is significant as an excellent collection of Arts and Crafts residential architecture from the early 1900s to the 1920s and as an excellent example of a streetcar suburb in the Wilshire CPA. Residences within the district retain their original plans, massing, scale and character-defining features, mostly of the Craftsman style. The historic district is located near major streetcar corridors such as Western Avenue and West 3rd Street. Of its 50 residences, 86% contribute to the district's significance.

The district consists of a single tract, originally called Plummer Square, which was subdivided by several proprietors in 1906; however, the majority of houses were not constructed until the 1910s and continued into the 1930s. No evidence was found suggesting that this tract was advertised as a cohesive development. The period of significance for the historic district is 1908 to 1932, which captures its major period of development and the time during which all of its buildings were constructed.

## Gramercy Place-St. Andrews Place Residential Historic District

**Context 1:**

Context:	Architecture and Engineering, 1850-1980
Sub context:	No Sub-context
Theme:	Housing the Masses, 1880-1975
Sub theme:	Arts and Crafts Neighborhoods, 1890-1930
Property type:	Residential Suburb
Property sub type:	Subdivision
Criteria:	C/3/3
Status code:	3S;3CS;5S3
Reason:	Significant concentration of Arts and Crafts residential architecture in the Wilshire area.

**Context 2:**

Context:	Residential Development and Suburbanization, 1850-1980
Sub context:	No Sub-context
Theme:	Streetcar Suburbanization, 1888-1933
Sub theme:	Suburban Planning and Development, 1888-1933
Property type:	Streetcar Suburb
Property sub type:	Subdivision
Criteria:	A/1/1
Status code:	35;3CS;5S3
Reason:	Excellent example of early 20th century streetcar suburbanization in the Wilshire area, developed due to its proximity to streetcar lines that historically served the area.

The Craftsman Airplane Bungalow with Oriental influence with multiple low pitched cross gabled, as well as side gabled roofs with Oriental peaks, with deeply overhanging eaves supported by triangular knee braces was designed by architect Arthur S. Heineman in 1912.

The front/east porch runs the length of the east elevation and wraps along the south elevation where it intersects with the paired double panel screen doors and paired transomed window doors of the dining room. The east facing porch has a concrete base and curved finished steps at either end. The east facade is a raised concrete low wall divided by vertical and horizontal brick-work courses. The porch is covered by a low pitched gabled roof with a tongue and groove ceiling and a complex underpinning of beam work, as well as horizontal venting beneath its eaves, which are supported by Orientalist brackets. Square stone and cement piers, topped by a horizontal band of bricks, support wooden beams which in turn support a cross-member below the venting and roof. The south elevation portion of the porch is covered by a side-gabled roof of the porte-cochere, then that porch's own gabled roof.

The porte-cochere is a south facing gable with extended eaves and beam ends at all outer edges. Immediately behind is the shorter south facing gable porch roof. An added fence/gate, across the east/west driveway is at the southeast corner of the two-story house. The south elevation begins here with wood clapboard with an exaggerated half-round finish at the lower edge of each, on the first level, and a pattern of a full clapboard with a half-clapboard tucked beneath repeated on the second level, and flaring out above the first level.

The rear/two-story façade has a one-story gabled portion beginning at the southwest corner. A deck, spanning the west elevation, was added by the former owner.

The north elevation is difficult to visualize as a hedge of house-height bamboo grows along it.

A cement driveway along the south elevation of the home, leads to the original two car garage with double wood doors with X-crossed planks, a forward facing gable with Oriental peak, extended eaves with exposed beam ends. It was repurposed as an entertainment space by architect Barbara Bestor for a former owner, and a half-bath was added, along with paired contemporary sliding glass in aluminum frames doors on the north façade.

The centered single-panel wooden door with a wooden S-form inlaid in the circular art glass enters the living room. This room has a central beam running under the peak of the gable with perpendicular beams which intersect the ceiling molding at the east and west walls. At the north end is an independently framed Inglenook with the north, Grueby-tiled fireplace wall with a wooden mantel and a smaller, centered fire brick box, wooden benches at either end, with lifting seats, providing storage beneath, and reversed bat-and-board wall at the west end and a bat-and board wall, with paired transomed casement windows with a curving transom pattern, at the east end of the Inglenook. Above the Inglenook is a rectangle of boxed beams at each corner and a non-period ceiling fixture, at center, left by the former owner, to be replaced by the current owners. To either side of the non-original centered, horizontal, beveled mirror above the firebox is an art glass casement window with a central flower motif. The Inglenook floor is Grueby-tiled.

The living room east wall has a large, fixed window with an Orientalist curved and straight line, fixed-transom above, joined by a horizontal wood trim piece which is the top piece of the entry door, and

continues around the room, providing the top of the windows and doors. The south wall fixed, centered, square window has single transomed casement windows to either side. The north wall southerly opening is to the dining room with the northerly one being to a short hall with a powder room to the north, the stair entry to the south and the now-family room at the west. At the wall is a floor register.

The dining room east wall has paired, single transomed doors and screen doors to the south wrapping porch. The south wall has four transomed, casement windows. The west wall breakfront is composed of a buffet with drawers and cabinetry with original drawer pulls and cabinet knobs, an angled china closet with custom curved-top doors at the north and south ends, connected by a horizontal beveled mirror. The north wall is paneled, as are the others, and a complex, deep ceiling molding is above. The north wall closet entry, contains an interior cellar entry. An original doorbell is above the closet door.

The cellar stairs are along the northern wall and turn south, entering the cellar with its water heater, furnace, and sump pump.

The kitchen, breakfast room, service porch have been reconfigured as one: kitchen/entertainment space/breakfast nook/casual office which retains all original windows, with a southerly single pane in a single wood door exit in the west wall to the raised, added deck.

The now-family room west exit is composed of contemporary periodesque, paired, single panel wood with glass doors to the added deck. Three casement windows are on the north wall; an entry to the short hall to living room is on the east wall and book cases and a kitchen entry are at the south. There is a powder room to the north of the hall and concealed stairs to the second level is at the south.

The upstairs is accessed via a one-return, concealed staircase which intersects a north/south hallway with a closet at the north end. Two bedrooms, with original windows are at the north. A bathroom is west off the hall. The master bedroom, bath and his and her closets were fashioned by a former owner and their architect from the south bedroom and sleeping porch, retaining all original bedroom windows. There is an attic entry hatch from the ceiling of the closet.

The residence at 221 South St. Andrews Place was designed in the Craftsman Airplane Bungalow style with Oriental influences by architect Arthur S. Heineman for contractor and speculative owner Wilbur F. Miner in 1911. No architect's announcement was discovered, although a permit notice, not mentioning Heineman, but only Miner, the contractor, was found in the Los Angeles Times, Jan 7, 1912, p. VI 5, as follows:

**Residence, nine rooms, St Andrews'  
place, near Second street; W. T.  
Miner. \$3900.**

The residence appears to have had ownership as a rental property during its early years. It was first sold in March 1913 to John C. P. Edwards who was a department store buyer residing in Portland, OR. During 1915 the house was purchased by Henry Schulderman, an attorney, also of Portland, OR. Neither lived in the residence full-time, if at all.

The fourth owner purchased the residence in 1921. William F. Radis, a real estate salesperson dealing in land, also sold oil drilling operations, and later was secretary of a bond house. Radis was the first owner to make the house at 221 S. St. Andrews his home.

Arthur Heineman lacked formal architectural training. He came to California as a very young person in 1894, and grew up, with his brother Alfred and their family, at Pasadena, CA. He first entered the development and real estate field. By 1910 he had become a well-respected and in-demand designer of homes—so much so that Los Angeles architects insisted he become licensed in order to practice architecture. Legend has it that he took the exam and after a few questions was granted an architect's certificate. (Winter. Toward a Simpler Way of Life. pg.138.)

At the end of 1911 he designed the Craftsman Airplane Bungalow with a few Oriental influences, for speculator Wilbur F. Miner to be erected at 221 South St. Andrews Place, for which a permit was requested and Permit No. 87 was granted Jan. 3, 1912. The same day, Permit No. 86 was issued for the erection of a garage at the same address, listing W. F. Miner as owner, with architect (though he was not) checked, as well as contractor, for the much simpler project with matching Oriental peaks at the east and west gable ends.

There is no comprehensive list of works for Arthur Heineman. This historian also nominated the J. R. Dennison House designed by Heineman later in 1912, at 1919 S. Harvard Blvd. It became Los Angeles Historic-Cultural Monument 818. There are many known works by Heineman in Pasadena and Los Angeles, as well as other locales. He continued designing in the Arts & Crafts mode until 1917.

In the commercial realm Heineman designed in 1911, for the Salvation Army, a six story building with a gym and a swimming plunge in the basement and roof top open-air sleeping area, in addition to the sleeping quarters below. There was a large fireplace, library, billiard room, and writing room. The building also included the amenities of a first class hotel, since this would be the first home for many working men at Los Angeles.

In addition Heineman designed the largest building in the West for printing, lithography and book binding in wood, steel and concrete, for the Western Lithography Company.

Heineman designed the Pig 'n' Whistle Cafes beginning in 1915 and the franchise extended from San Diego to Seattle. He did the White Oak Farm Sanatorium in Marion, Ohio, as an adaptation of the bungalow court concept which, while they did not conceptualize same, they certainly capitalized on it by building bungalow courts in Pasadena and Hollywood.

For the Panama-California Exposition at San Diego in 1915 he designed lower art exhibits including the Ostrich Farm and the Chinese Underground Life exhibits. For the Panama-Pacific International Exposition in San Francisco he designed the Cawston Ostrich Farm.

Heineman became fascinated by the automobile and is said to have purchased the second or third one sold in Los Angeles. He is recognized for the invention of the Mo-Tel (combining motor and hotel) or the modern over-night sleeping location for motorists. He trademarked the word "motel" with the State of California and registered the name with the Library of Congress in 1925. He opened the Milestone Mo-tel as the world's first such structure. It was designed in California Missionesque style in San Luis Obispo, CA, also in 1925. He made plans to expand to a chain called Milestone Interstate Corporation, but competition for his new idea proved intense. He also conceived drive-thru banking and introduced the concept to the world through the Hellman Banks. And lastly, Heineman conceptualized drive-up health care.

Heineman was also a known inventor and improver on the ideas of others. Among his inventions were a version of the electric iron; and a process for packaging small items, such as sliced butter, in a paper or cardboard box providing easy access to the package contents.

He continued to design, obviously in other styles, through the 1920s and 1930s. In 1923 he designed all the buildings on the Cumnock School for Expression at Third Street at Los Palmas Avenue. The campus has since served as home to varied educational enterprises.

Also in 1923 Heineman designed the automobile accessory showroom on the northwest corner of 15<sup>th</sup> Street and Grand Avenue.

Arthur S. and his brother Alfred Heineman were a productive design team for several decades. They represent entrepreneurs who acquired the necessary credentials to leave an everlasting aesthetic imprint on the architectural face of Southern California. Arthur S. Heineman, architect, who lived with his brother, following the death of his wife, died in 1972, at age 91, and Alfred followed him in death two years later. They left behind a legacy of graceful Arts & Crafts residences and bungalows as well as a wealth of residential, commercial and institutional buildings in later styles.

## CURBED FEATURES

The Creation of Beachwood Canyon's Theosophist "Dreamland"

### *Proposed Layout of Theosophical University in Hollywood.*

Tentative Sketch by Arthur S. Hineman for "Krotona" Group.

The administration building, at the left, will be started at once. At the right are the proposed university buildings, while at the crest of the hill is shown the mammoth temple projected by the society.

[Arthur Heineman's tentative sketch of Krotona from the September 29, 1912, LA Times.]

In 1918, LA Times reporter Grace Kingsley went to visit Krotona, the national headquarters of the Theosophical Society. This idealistic community of around 300 or so was nestled in the hills of Beachwood Canyon, above the expanding village of Hollywood. It featured stunning buildings by some of California's most influential architects, including Mead & Requa and Arthur and Alfred Heinemen. Like most visitors, Kingsley was quickly enraptured with the mysterious commune's architecture and beauty:

Away from the hum of the trolley, your climbing automobile will suddenly at a twist in the road, land you in a wonderful garden, facing a picturesque Moorish house which might have been transported from ancient India. Inside the house, instead of the turbaned, white-robed dreamers of India, whom you feel you have every right to expect, you come upon a group of gentle mannered women, all clad in very long dresses. [Outside] you won't see nor hear any movement ... except the birds in the trees, the humming insects in the lazy sunshine, and the daring goldfish in the splashy fountains, while the roses nod to you, and the little Moorish summer houses with their enveloping vines will make you sure you've discovered a bit of dreamland.

# Roadside Dreamin'

THE WORLD'S FIRST MOTEL OPENED A NEW CHAPTER IN CALIFORNIA CAR CULTURE

BY MATTHEW W. ROTH

Most Delightful and Complete Motorist's Hotel in the World Half Way Between San Francisco and Los Angeles Complete Hotel Service in Fireproof Bungalows

COURTESY JIM HEIMANN COLLECTION

TODD MASINER

The Milestone Mo-Tel in a promotional postcard from the 1930s (top); the remaining portion of the Motel Inn as it appears today (above).

Automobile touring opened up a vast new territory for travelers in the early 20th century. "Tin can tourists" could take their cars wherever a hint of a road existed, then pitch a tent or bundle up under a blanket in the backseat whenever they needed to stop for the evening. Automobile campgrounds opened on major tourist routes, particularly in the West.

In the early 1920s, several entrepreneurs experimented with different styles of roadside accommodations that would combine a campground's convenience with a hotel's respectability and comforts. They coined the word "motel," which combined "motor" and "hotel." The first building in the world to do business as a motel was the Milestone Mo-Tel in San Luis Obispo. It was built in 1925 by Arthur S. Heineman, an architect and developer from Glendale.

The word *motel* has become commonplace, but when Heineman put up a billboard in San Luis Obispo to announce the imminent construction, people deluged him with reports of an apparent error. They said his sign painter had put an "M" in place of the "H." He had the sign repainted as "Mo-Tel" to signal the word's compound character.

Heineman envisioned the Milestone Mo-Tels as a chain stretching from San Diego to Seattle. He chose San Luis Obispo for the first location because it was the midpoint in the

two-day automobile journey between Los Angeles and San Francisco. His original plan called for each Milestone Mo-Tel to have a mix of both free-standing bungalow units and attached apartments, with parking outside each door and private garages for some apartments. The biggest departure from the auto camps was that every unit had its own indoor bathroom with a shower. He planned the locations at the outskirts of major towns to help travelers avoid urban traffic and noise. Each Milestone Mo-Tel would include laundry facilities, a restaurant, and a grocery store.

In promoting the chain, Heineman characterized it as an updated version of the California missions, a string of way stations for the modern traveler. His architecture reflected this agenda: The San Luis Obispo building featured a three-stage bell tower modeled after Mission Santa Barbara.

Heineman incorporated his firm as the Milestone Interstate Corporation and raised money from investors to complete the chain of Mo-Tels. But competition was fierce, and Heineman's attempt to register the name as a trademark did not prevent others from adopting it. The Milestone Mo-Tel was his vision for roadside accommodations, but less extravagant alternatives became far more numerous.

A boarded-up portion of the Milestone Mo-Tel (most recently known as the Motel Inn) stands today, tucked beside the Monterey Avenue exit of Route 101. ☉

grueby-landscape.jpg

Grueby Faience Company William H. Grueby

William H. Grueby (1867-1925) founded the Grueby Faience Company in 1894 in Boston, Massachusetts. Beginning in 1898, focusing primarily on art pottery vases, he introduced his own version of French matte finishes, including the matte green finish that became his signature work.

The popularity of his work, however, spawned mass market competition and eventually resulted in the company's demise in 1909. Grueby emerged from bankruptcy and began limited production runs that included statues, pottery, and tiles, before the company closed for good in 1920.

This company specialized in architectural tiles, brick and terra cotta. Grueby's work won international acclaim, earning medals at the 1900 International Exposition in Paris, the 1901 Pan -American Exposition in Buffalo, and the 1904 Louisiana Purchase Exposition in St. Louis. They were renowned for the matte green glaze which can be found in the 50th Street station. The company, which became even better known for its art pottery, was bought out by the C. Pardee Works in Perth Amboy, New Jersey in 1917.

It closed completely in 1938. The Grueby Faience Company produced many of the larger and more distinctive plaques: the ships at Columbus Circle; the eagle at 33rd Street; the beaver at Astor Place; as well as numerous decorative name and number plaques at Brooklyn Bridge, Bleeker Street, 14th, 18th, 42nd, 50th, 103rd, 110th and 116th Streets

### DECLARATIONS AND CERTIFICATIONS

#### LICENSED CONTRACTORS DECLARATION

I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 9000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.

Lic. Class C-10 Lic. Number 180603 Contractor's/Agent's Signature John Ralph Date 2-28-89

#### OWNER-BUILDER DECLARATION

I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7791.5, Business and Professions Code: Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure, prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code) or that he is exempt therefrom and the State for the alleged exemption. Any violation of Section 7001.5 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).)

I, as owner of the property, or my employees with wages as their sole compensation, will do it's work, and the structure is not intended or offered for sale (Sec. 7004, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves structure, and who does such work himself or through his own employees provided that such improvements are not intended for resale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.)

I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7004, Business and Professions Code: The Contractor's License Law does not apply to an owner of property who builds or improves structure, and who contracts for such projects with a contractor's licensed pursuant to the Contractor's License Law.)

I am exempt under Sec. 7791.5, B. & P. C. for this reason.

Date: 2-28-89

#### WORKERS' COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a certificate of coverage (Sec. 8000, Lab. C.)

Policy No. W-123456 Insurance Company American State

Certified copy is hereby furnished.

Certified copy is filed with the Los Angeles City Dept. of Bldg. & Safety.

Applicant's Signature: John Ralph

Applicant's Mailing Address: 221 S St Anthrens Pl, LA 36

#### CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become a subject to the Workers' Compensation Laws of California.

Date: 2-28-89 Applicant's Signature: John Ralph

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be revoked.

#### CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued.

Lender's Name: \_\_\_\_\_

Lender's Address: \_\_\_\_\_

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county rules and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above mentioned property for inspection purposes.

I realize that this permit is an application for inspection, that it does not approve or authorize the work specified herein, that the contractor or permittee is responsible to comply with the building laws, that the contractor or permittee is not to be held liable by the Department, officer or employee thereof, and that any warranty or shall be responsible for the performance or results of any work done on the property or on any work which such work is performing. (Sec. 86.020, LAMC)

Signed: John Ralph (Owner or agent having property owner's consent) Position: President Date: 2-28-89

Permit expires if work is not commenced within 180 days after fee is paid or if work is suspended for period of more than 180 days.

DECLARATIONS AND CERTIFICATIONS LICENSED CONTRACTOR'S DECLARATION

I hereby affirm that I am licensed under the provisions of Chapter 9 commencing with Section 7000 of Division 3 of the Business and Professions Code and my license is in full force and effect.

OWNER-BUILDER DECLARATION I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7031.5, Business and Professions Code):

I am owner of the property, or my employees with wages as their sole compensation, will do the work, and the structure is not intended or offered for sale (Sec. 7044, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor(s) licensed pursuant to the Contractor's License Law.

WORKERS' COMPENSATION DECLARATION

I hereby affirm that I have a certificate of consent to self-insure, or a certificate of Worker's Compensation Insurance, or a related copy thereof (Sec. 3800, Lab. C.).

Applicant's Signature: [Signature] Date: [Date]

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the Workers' Compensation Laws of California.

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must forthwith comply with such provisions or this permit shall be deemed revoked.

CONSTRUCTION LENDING AGENCY

I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3997, Civ. C.). Lender's Name: [Name] Lender's Address: [Address]

I certify that I have read this application and state that the above information is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes.

I realize that this certificate is a permission for inspection, that it does not approve or authorize the work specified herein, that I shall not withdraw or permit any violation or failure to comply with any applicable law, that neither the city of Los Angeles nor any County representative shall be responsible for the performance or results of any work described herein.

Signed: [Signature] Position: [Position] Date: [Date] Permit expires if work is not commenced within 180 days after fee is paid or if work is suspended for a period of more than 180 days.

DECLARATIONS AND CERTIFICATIONS

LICENSED CONTRACTORS DECLARATION  
 I hereby affirm that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect.  
 Date: 2/8/89 Lic. Cl. No. C20 Lic. No. 22022 Contractor's Agents' Signature: [Signature]

OWNER-BUILDER DECLARATION:  
 I hereby affirm that I am exempt from the Contractor's License Law for the following reason (Sec. 7051.8, Business and Professions Code): Any city or county which requires a permit to construct, alter, improve, demolish, or repair any structure prior to its issuance, also requires the applicant for such permit to file a signed statement that he is licensed pursuant to the provisions of the Contractor's License Law (Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code); or that he is exempt therefrom, and the basis for the alleged exemption. Any violation of Section 7051.8 by any applicant for a permit subjects the applicant to a civil penalty of not more than five hundred dollars (\$500).  
 I, as owner of the property, or my employee with wages as their sole compensation, will do the work, and the structure is not intended for sale (Sec. 7051.8, Business and Professions Code). The Contractor's License Law does not apply to or over a property who builds or improves thereon, and who does such work himself or through his own employees, provided that such improvements are not intended or offered for sale. If, however, the building or improvement is sold within one year of completion, the owner-builder will have the burden of proving that he did not build or improve for the purpose of sale.  
 I, as owner of the property, am exclusively contracting with licensed contractors to construct the project (Sec. 7051.8, Business and Professions Code). The Contractor's License Law does not apply to an owner of property who builds or improves thereon, and who contracts for such projects with a contractor, licensed pursuant to the Contractor's License Law.  
 I am exempt under Sec. [ ] B & P. C. for this reason.

WORKERS' COMPENSATION DECLARATION  
 I hereby affirm that I have a certificate of contract to pay wages, or a certificate of Worker's Compensation Insurance, or a certified copy thereof (Sec. 3200, Lab. C.).  
 Policy No. WTS 249 2247 Insurance Company: CNA Comp  
 Certified copy is filed with the Los Angeles City Dept. of Bldg. & Insp.  
 Date: 2/8/89 Applicant's Signature: [Signature]

CERTIFICATE OF EXEMPTION FROM WORKERS' COMPENSATION INSURANCE  
 I certify that in the performance of the work specified in this permit, I shall not employ any person in any manner as to become subject to the Workers' Compensation Laws of California.  
 Date: [ ] Applicant's Signature: [ ]

NOTICE TO APPLICANT: If, after making this Certificate of Exemption, you should become subject to the Workers' Compensation provisions of the Labor Code, you must terminate contract with, and provisions of this permit shall be deemed void.  
 CONSTRUCTION LENDING AGENCY  
 I hereby affirm that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3207, Lab. C.).  
 Lender's Name: [ ]

I certify that I have read the conditions and terms of this permit, and I understand and agree to comply with all the conditions and terms of this permit, and I agree to be bound by the provisions of this permit.  
 I certify that the work to be done is as specified in this permit, and I shall not improve or otherwise the work specified until I have obtained the approval of the City of Los Angeles. I shall not improve or otherwise the work specified until I have obtained the approval of the City of Los Angeles. I shall not improve or otherwise the work specified until I have obtained the approval of the City of Los Angeles.
