The Design Guidelines will address context-sensitive design and neighborhood compatibility as well as overarching design themes found in the City's Framework Element and 35 Community Plans. The Objectives under which individual Design Guidelines are organized are rooted in the 10 Urban Design Principles in the Framework Element (pending adoption by City Council) with a focus on addressing neighborhood compatibility, ensuring that new buildings are of high architectural quality, and integrating sustainability. The Guidelines cover a range of topics such as Site Planning and Building Orientation, Building Design and Articulation, Open Space and Landscaping, and Signage and Lighting.

The Citywide Design Guidelines will be implemented on discretionary projects subject to review by the Department of City Planning.
