Plan Area: Wilmington – Harbor City

Last Day to Act: 04-09-25

Continued from: 01-09-25

PUBLIC HEARING REQUIRED**PROJECT SITE:**

The Harbor LA Community Plans consist of the boundaries of the Harbor Gateway Community Plan Area (CPA) and the Wilmington-Harbor City Community Plan Area (CPA). The two community plan areas are collectively known as the Harbor LA Plans. The plan areas are geographically continuous of one another. The combined area of the Harbor LA Community Plans is approximately 15.3 square miles. The Harbor Gateway CPA contains approximately 3,229 acres and is situated in the southern portion of Los Angeles. The CPA is a narrow corridor which links the City's harbor, San Pedro, Wilmington and Harbor City communities to the main body of the City. The Harbor Gateway CPA is bordered by the South and Southeast Los Angeles CPAs to the north (at 120th Street); the cities of Gardena and Torrance to the west; and Carson and unincorporated Los Angeles County to the east; and it shares a common boundary with the Wilmington-Harbor City CPA to the south (at Sepulveda Blvd). The Wilmington-Harbor City CPA contains approximately 6,481 acres and is situated in the far southern portion of the City, near Los Angeles Harbor. It is bordered by the Harbor Gateway CPA to the north; the San Pedro CPA and the Port of Los Angeles to the south; and is adjacent to the cities of Torrance, Lomita, and Rancho Palos Verdes to the west; and the cities of Carson, Long Beach, and unincorporated Los Angeles County to the east. *The modification is located at the northwest corner of the intersection of McFarland Avenue and East Opp Street, Assessor Parcel Number (APN): 7425008009.*

PROPOSED PROJECT:

The proposed project includes amending both the policy documents and General Plan Land Use Maps for the Harbor Gateway and Wilmington-Harbor City Community Plans. Unless otherwise provided, the updated Harbor Gateway and Wilmington-Harbor City Community Plans are collectively referred to as the "Proposed Plans." The Proposed Plans would also adopt several zoning ordinances to implement the updates to the Community Plans, including rezoning all parcels in the CPAs to regulate specific uses and apply development standards (including height of structures, Floor Area Ratios, and site configuration) using the City's New Zoning Code, amendments to the Clean Up Green Up (CUGU) Overlay, and related amendments to the General Plan, including the Framework Element and Mobility Plan necessary to implement the Plan. The amendments to the Policy Documents and the General Plan Land Use Maps for the Harbor LA Community Plans are intended to guide development through the year 2040 by establishing the City's broad planning goals, policies, and objectives, the arrangement of land uses and intensities, as well as specific development standards for the Plan areas. The Harbor LA Community Plans are intended to improve the link between land use and transportation in a manner that is consistent with the City's adopted General Plan Framework Element, Mobility Element, Senate Bill 375 and other state laws. *Additionally, the proposed modifications to the Wilmington-Harbor City Community Plan consist of a General Plan Amendment and Zone Change to the parcel located at 1020 North McFarland Avenue, including amendments to the General Plan Land Use Map and accompanying exhibits.*

REQUESTED ACTIONS:

In addition to the February 8, 2024 City Planning Commission decision, the City Planning Commission shall consider the following:

1. Find that the City Planning Commission has reviewed and considered the Draft Environmental Impact Report (EIR) (City EIR No. ENV-2019-3379-EIR and State Clearinghouse No. 2019080248), and direct staff to prepare a Final EIR, EIR findings, a Statement of Overriding Considerations, and a Mitigation Monitoring Program (MMP) for City Council consideration;
2. Conduct a public hearing on the General Plan Amendment for 1020 N. McFarland Ave.;
3. Modify the City Planning Commission action from February 8, 2024 to include the proposed land use and zoning for the property located at 1020 McFarland Avenue; Assessor Parcel Number (APN) 7425008009:

- a. Modify the General Plan Land Use designation from Low Residential GPLU to Hybrid Industrial GPLU; and
- b. Modify the zoning from [H1-FY1-12][RG2-1L][O] to [LB3-G3-14][IX6-15][O];
4. Authorize the Director of Planning to make refinements to the Wilmington-Harbor City Community Plan Resolution, Community Plan (Policy Document), the General Plan Land Use and Zoning Change Maps and Matrices, Zoning Code Maps (illustrative maps), and the General Plan Land Use Map inclusive of the symbol, footnote, corresponding zone and land use nomenclature changes (Exhibits A, A.1, A.3, A.4, A.8, B.1, and C.2), amending the Wilmington-Harbor City Community Plan as part of the General Plan Elements of the City of Los Angeles, and other geographic visual elements, as necessary to correspond to the proposed modifications of the subject parcel's land use and zoning.
5. Authorize the Director of Planning to present the resolution, Community Plan (Policy Document) and General Plan Amendments, to the Mayor and City Council, in accordance with Sections 555 and 558 of the City Charter;
6. Approve the Staff Recommendation Report as the Commission's report on the McFarland GPA, and direct these changes to be incorporated into the Commission's report adopted on February 8, 2024 approval; and

Telecommunication Relay Services

Telephone communication is one of the most important forms of communication in society today. Due to advancements in technology, telephone devices have evolved with new services and capabilities. Individuals who are deaf and hard of hearing, and individuals with a speech disability are following these trends and are rapidly migrating to more advanced telecommunications methods, both for peer-to-peer and third-party telecommunications relay service (TRS) communications.

Telecommunications Relay Service is a telephone service that allows persons with hearing or speech disabilities to place and receive telephone calls. TRS is available in all 50 states, the District of Columbia, Puerto Rico and the U.S. territories for local and/or long distance calls. TRS providers - generally telephone companies - are compensated for the costs of providing TRS from either a state or a federal fund. There is no cost to the TRS user.

What forms of TRS are available? There are several forms of TRS, depending on the particular needs of the user and the equipment available: TRS includes: Text to Voice TIY-Based TRS; Speech-to-Speech Relay Service; Shared Non-English Language Relay Service; Captioned Telephone Relay Service; Internet Protocol Relay Service; and Video Relay Service. Please visit this site for detailed descriptions, <https://www.fcc.gov/consumers/guides/telecommunications-relay-service-trs>.

Don't hang up! Some people hang up on TRS calls because they think the Communications Assistant (CA) is a telemarketer. If you hear, "Hello. This is the relay service ..." when you pick up the phone, please don't hang up! You are about to talk, through a TRS provider, to a person who is deaf, hard-of-hearing, or has a speech disability.

For more information about FCC programs to promote access to telecommunications services for people with disabilities, visit the FCC's Disability Rights Office website.
