Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

**CERTIFIED ENAMELING INC (Continued)**

**S106103009**

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System  
STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Historical Generators:

Date form received by agency: 02/25/2008  
 Site name: BRENNTAG PACIFIC, INC  
 Classification: Large Quantity Generator

. Waste code: D001  
 . Waste name: IGNITABLE WASTE

Biennial Reports:

Last Biennial Reporting Year: 2013

Annual Waste Handled:

Waste code: D001  
 Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

Amount (Lbs): 2411

Waste code: D002  
 Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.

Amount (Lbs): 12783

Waste code: D007  
 Waste name: CHROMIUM  
 Amount (Lbs): 8712

Waste code: D039  
 Waste name: TETRACHLOROETHYLENE  
 Amount (Lbs): 5360

Waste code: U188  
 Waste name: PHENOL  
 Amount (Lbs): 8712

Violation Status: No violations found

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Site History: The Soco-Lynch Corporation facility (site) is located in an industrial area in southeast Los Angeles. Sanborn maps and historical chain-of-title search reports indicate that the site was located in the southern portion of the property between Union Pacific Avenue and Olympic Boulevard. The property was once a wood manufacturing mill from at least 1928 to 1943 and was later used for lumber storage and for wood treatment activities. There were also metal manufacturing companies onsite from at least 1956 to 1976 and most lately the Site was used for the storage of metal barrels. The records on file indicate that in 1976, the property was divided into portions with the southern portion being acquired by Western Chemical & Manufacturing Company, predecessor to Soco-Lynch Corporation. Since

then, the site has been a chemical blending facility that focuses on transporting, loading, blending and repackaging of various chemicals for sale. A total of 15 underground storage tanks (USTs) were installed at the Site to store organic solvents such as xylene, acetone and alcohols, various petroleum derivatives and mineral spirits. The USTs were removed in June 1999 and the Los Angeles City Fire Department (LACFD) granted a UST case closure to the Sites owner in 2000, after the removal of contaminated soil and the collection of confirmation samples from the base of the excavation. Site investigations indicated that a limited area near the southeast corner of the tank farm was impacted by volatile organic compounds (VOCs) such as acetone, bromomethane, tetrachloroethene (PCE), toluene and xylenes. Site assessment is still being conducted under Regional Board's oversight.

**Environmental Interest/Information System**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110002903403

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System  
AIR EMISSIONS CLASSIFICATION UNKNOWN

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Biennial Reports:

Last Biennial Reporting Year: 2013

Annual Waste Handled:

Waste code: D001  
 Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.  
 Amount (Lbs): 5362.7

Waste code: D002  
 Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.  
 Amount (Lbs): 41209.9

Waste code: F006  
 Waste name: WASTEWATER TREATMENT SLUDGES FROM ELECTROPLATING OPERATIONS EXCEPT FROM THE FOLLOWING PROCESSES: (1) SULFURIC ACID ANODIZING OF ALUMINUM; (2) TIN PLATING ON CARBON STEEL; (3) ZINC PLATING (SEGREGATED BASIS) ON CARBON STEEL; (4) ALUMINUM OR ZINC-ALUMINUM PLATING ON CARBON STEEL; (5) CLEANING/STRIPPING ASSOCIATED WITH TIN, ZINC AND ALUMINUM PLATING ON CARBON STEEL; AND (6) CHEMICAL ETCHING AND MILLING OF ALUMINUM.  
 Amount (Lbs): 57555

Environmental Interest/Information System  
 AIR EMISSIONS CLASSIFICATION UNKNOWN

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System  
AIR EMISSIONS CLASSIFICATION UNKNOWN

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also

Owner/operator name: BERG FAMILY TRUST  
 Owner/operator address: EAST PICO BLVD  
 LOS ANGELES, CA 90023  
 Owner/operator country: US  
 Owner/operator telephone: (800) 499-7145  
 Legal status: Private  
 Owner/Operator Type: Owner  
 Owner/Op start date: 02/04/1993  
 Owner/Op end date: Not reported

Handler Activities Summary:

U.S. importer of hazardous waste: No  
 Mixed waste (haz. and radioactive): No  
 Recycler of hazardous waste: Yes  
 Transporter of hazardous waste: Yes  
 Treater, storer or disposer of HW: Yes  
 Underground injection activity: No  
 On-site burner exemption: No  
 Furnace exemption: No  
 Used oil fuel burner: No  
 Used oil processor: No  
 User oil refiner: No  
 Used oil fuel marketer to burner: No  
 Used oil Specification marketer: No  
 Used oil transfer facility: No  
 Used oil transporter: No

Biennial Reports:

Last Biennial Reporting Year: 2013

Annual Waste Handled:

Waste code: D001  
 Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

 Waste Category: Metal sludge (Alkaline solution (pH >= 12.5) with metals)  
 Disposal Method: Metals Recovery Including Retoring,Smelting,Chemicals,Ect  
 Tons: 3.3712  
 Cat Decode: Not reported  
 Method Decode: Not reported  
 Facility County: Los Angeles

Environmental Interest/Information System  
 AIR EMISSIONS CLASSIFICATION UNKNOWN

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or

FINDS:

Registry ID: 110002138909

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

HAZARDOUS AIR POLLUTANT MAJOR

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Completed Area Name: PROJECT WIDE  
 Completed Sub Area Name: Not reported  
 Completed Document Type: Site Inspections/Visit (Non LUR)  
 Completed Date: 03/01/2012  
 Comments: DTSC PM and Geology staff and JESCI (consultant) conducted a Site visit with Mr. Washington (RP rep). A facility walk-through was conducted at the main facility building (3424 E. Olympic Blvd), metal forming building (3409 E. Olympic Blvd.), powder coating building (3501 E. Pico Blvd.) and chemical storage area. A walk-through was not conducted at the former building (3450 E. Pico Blvd.) that was destroyed in a fire in 2005. The purpose of the Site visit was for DTSC staff to be familiar with the Site conditions in order to properly assess sampling locations proposed in the Work Plan dated August 2011.

corrective action activities required under RCRA.

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

HAZARDOUS AIR POLLUTANT MAJOR

STATE MASTER

HAZARDOUS WASTE BIENNIAL REPORTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

 Primary Waste Type: Not reported  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

WDS:

Facility ID: 4 19I010511  
 Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.  
 Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.  
 NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board  
 Subregion: 4  
 Facility Telephone: 3232697311  
 Facility Contact: ED BEDSWORTH  
 Agency Name: DAVIS COLORS  
 Agency Address: 3700 E Olympic Blvd  
 Agency City,St,Zip: Los Angeles 900233123  
 Agency Contact: ED BEDSWORTH  
 Agency Telephone: 3232697311  
 Agency Type: Private

 SIC Code 2: Not reported  
 Primary Waste Type: Not reported  
 Primary Waste: Not reported  
 Waste Type2: Not reported  
 Waste2: Not reported  
 Primary Waste Type: Not reported  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

**Environmental Interest/Information System**

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110055054603

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110000473390

**Environmental Interest/Information System**

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Event date:	08/11/2000
Event:	RFI Imposition
Event date:	08/06/2010
Event:	Current Human Exposures under Control, Yes, Current Human Exposures Under Control has been verified. Based on a review of information contained in the EI determination, current human exposures are expected to be under control at the facility under current and reasonably expected conditions. This determination will be re-evaluated when the Agency/State becomes aware of significant changes at the facility.

This determination will be re-evaluated when the Agency/State becomes aware of significant changes at the facility.
Event date:	12/08/2010
Event:	Igration of Contaminated Groundwater under Control, Yes, Migration of Contaminated Groundwater Under Control has been verified. Based on a review of information contained in the EI determination, it has been determined that migration of contaminated groundwater is under control at the facility. Specifically, this determination indicates that the migration of contaminated groundwater is under control, and that monitoring will be conducted to confirm that contaminated groundwater remains within the existing area of contaminated groundwater. This determination will be re-evaluated when the Agency becomes aware of significant changes at the facility.

 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

**FINDS:**

Registry ID: 110002833685

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**WDS:**

Facility ID: 4 19I016738  
 Facility Type: Other - Does not fall into the category of Municipal/Domestic, Industrial, Agricultural or Solid Waste (Class I, II or III)  
 Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.  
 NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board  
 Subregion: 4  
 Facility Telephone: 3232612121  
 Facility Contact: Joe Francis  
 Agency Name: BODYCOTE THERMAL PROCESSING  
 Agency Address: Not reported  
 Agency City,St,Zip: 0  
 Agency Contact: Not reported  
 Agency Telephone: Not reported  
 Agency Type: Private  
 SIC Code: 3398  
 SIC Code 2: Not reported  
 Primary Waste Type: Nonhazardous Solid Wastes/Influent or Solid Wastes that contain nonhazardous putrescible and non putrescible solid, semisolid, and liquid wastes (E.G., garbage, trash, refuse, paper, demolition and construction wastes, manure, vegetable or animal solid and semisolid waste).  
 Primary Waste: STORMS  
 Waste Type2: Not reported  
 Waste2: Stormwater Runoff  
 Primary Waste Type: Nonhazardous Solid Wastes/Influent or Solid Wastes that contain nonhazardous putrescible and non putrescible solid, semisolid, and liquid wastes (E.G., garbage, trash, refuse, paper, demolition and construction wastes, manure, vegetable or animal solid and semisolid waste).  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: No reclamation requirements associated with this facility.  
 POTW: The facility is not a POTW.  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 Latitude: 34.0170066762364  
 Longitude: -118.218791484833  
 Case Type: Cleanup Program Site  
 Case Worker: AMT  
 Local Agency: Not reported  
 RB Case Number: 0998B  
 File Location: Regional Board  
 Potential Media Affected: Aquifer used for drinking water supply, Soil, Soil Vapor  
 Potential Contaminants of Concern: 1,1,1-Trichloroethane (TCA), Tetrachloroethylene (PCE), Trichloroethylene (TCE), Lead, Other Petroleum  
 Site History: The Site is comprised of the former Cal Doran facility, which consists of two parcels of land totaling approximately 9.76 acres. It is located along the southern side of East Washington Boulevard, just east of Soto Street, and includes one block of Lugo Street, in the City and County of Los Angeles, California. The Cal Doran facility has been closed since early 2006, and the buildings have been demolished. Bodycote Thermal Processing, Inc. (Bodycote) owns two parcels of land totaling approximately 9.76 acres, located along the southern side of East Washington Boulevard and east side of Soto Street, and including one block of Lugo Street, in the City of Los Angeles, California. The subject site (Site) is also known as the Former Cal Doran Facility. Volatile organic compounds (VOC) used during previous operations at the Site (currently vacant) have been released to soil and groundwater. Subsurface investigations conducted at the Site have detected VOCs throughout the Site in the vapor phase, in soil to depths of 230 feet below ground surface (bgs), and

in the underlying groundwater. The underlying groundwater, first encountered at approximately at 238 feet bgs, flows toward the northwest with a calculated gradient of 0.003 foot per foot (ft/ft). The most recent reported trichloroethene (TCE) concentrations in groundwater monitoring wells MW-3, MW-4 and MW-7 (a new well) are 867, 214 and 210 micrograms per liter ("g/l), respectively. The VOC impact down-gradient of these three monitoring wells has not been delineated. Since 2007, Soil Vapor extraction has been ongoing to remove VOC impact in soils. Quarterly groundwater monitoring .

Environmental Interest/Information System

AFS (Aerometric Information Retrieval System (AIRS) Facility Subsystem) replaces the former Compliance Data System (CDS), the National Emission Data System (NEDS), and the Storage and Retrieval of Aerometric Data (SAROAD). AIRS is the national repository for information concerning airborne pollution in the United States. AFS is used to track emissions and compliance data from industrial plants. AFS data are utilized by states to prepare State Implementation Plans to comply with regulatory programs and by EPA as an input for the estimation of total national emissions. AFS is undergoing a major redesign to support facility operating permits required under Title V of the Clean Air Act.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

AIR MINOR

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit

Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**FINDS:**

Registry ID: 110000621202

**Environmental Interest/Information System**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

FINDS:

Registry ID: 110009530043

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

HAZARDOUS AIR POLLUTANT MAJOR

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

WDS:

Facility ID: 4 19I001338  
 Facility Type: Industrial - Facility that treats and/or disposes of liquid or semisolid wastes from any servicing, producing, manufacturing or processing operation of whatever nature, including mining, gravel washing, geothermal operations, air conditioning, ship building and repairing, oil production, storage and disposal operations, water pumping.  
 Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.  
 NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board  
 Subregion: 4  
 Facility Telephone: 3232682886  
 Facility Contact: MORENO LOU  
 Agency Name: CALMAT CO.  
 Agency Address: Not reported  
 Agency City,St,Zip: 0  
 Agency Contact: Not reported

 Primary Waste Type: Not reported  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: Not reported  
 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System  
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Registry ID: 110002648902

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Waste Type2: Not reported  
 Waste2: Not reported  
 Primary Waste Type: Not reported  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: No reclamation requirements associated with this facility.  
 POTW: The facility is not a POTW.  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

CA BOND EXP. PLAN:

Responsible Party:	RESPONSIBLE PARTY-LEAD SITE CLEANUP WORKPLAN
Project Revenue Source Company:	Not reported
Project Revenue Source Addr:	Not reported
Project Revenue Source City,St,Zip:	Not reported
Project Revenue Source Desc:	Harshaw/Filtrol is funding the characterization and remedial investigation at the site. DHS will be issuing a remedial action order or entering into an enforceable agreement with the responsible parties. DHS has budgeted \$15,000 for oversight/monitoring of cleanup efforts. DHS will recover 100 percent of direct costs plus staff costs and overhead related to the project. The responsible parties will pay all costs associated with the remedial investigation activities.
Site Description:	Harshaw/Filtrol manufacturers clay absorbents for use by the Filtrol Division Petroleum Industry.
Hazardous Waste Desc:	Formic acid is used as a process chemical at the site. A ruptured pipeline caused leakage of an undetermined amount of acid. Formic acid is a colorless, flammable, fuming liquid with a pungent odor.
Threat To Public Health & Env:	Known soil contamination extends to a depth of 40 feet and is probably found at lower depths. Ground water contamination is suspected but has not been verified. The ground water is at a depth of 50 feet at the site.
Site Activity Status:	A remedial investigation is ongoing at the site involving monitoring well installation and soil sampling. The RWQCB and Los Angeles County Health Department have been advised of the formic acid leak.

should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.

Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System  
 STATE MASTER

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

WDS:

Facility ID: 4 19I016066  
 Facility Type: Other - Does not fall into the category of Municipal/Domestic, Industrial, Agricultural or Solid Waste (Class I, II or III)  
 Facility Status: Active - Any facility with a continuous or seasonal discharge that is under Waste Discharge Requirements.  
 NPDES Number: CAS000001 The 1st 2 characters designate the state. The remaining 7 are assigned by the Regional Board  
 Subregion: 4  
 Facility Telephone: 3232689933  
 Facility Contact: Ted Kang  
 Agency Name: AM-MEX RECYCLING CO.  
 Agency Address: Not reported  
 Agency City,St,Zip: 0  
 Agency Contact: Not reported  
 Agency Telephone: Not reported  
 Agency Type: Private  
 SIC Code: 5093  
 SIC Code 2: Not reported  
 Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.  
 Primary Waste: STORMS  
 Waste Type2: Not reported  
 Waste2: Stormwater Runoff  
 Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: No reclamation requirements associated with this facility.  
 POTW: The facility is not a POTW.  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or thosewho must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

**FINDS:**

Registry ID: 110002768078

**Environmental Interest/Information System**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKEY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.

**FINDS:**

Registry ID: 110000500716

**Environmental Interest/Information System**

NCDB (National Compliance Data Base) supports implementation of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Toxic Substances Control Act (TSCA). The system tracks inspections in regions and states with cooperative agreements, enforcement actions, and settlements.

**AIR EMISSIONS CLASSIFICATION UNKNOWN**

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**STATE MASTER**

**HAZARDOUS WASTE BIENNIAL REPORTER**

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and its Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also

has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

US EPA RACT/BACT/LAER Clearinghouse (RBLC) database contains case-specific information on the "Best Available" air pollution technologies that have been required to reduce the emission of air pollutants from stationary sources (e.g., power plants, steel mills, chemical plants, etc.). RACT, or Reasonably Available Control Technology, is required on existing sources in areas that are not meeting national ambient air quality standards. BACT, or Best Available Control Technology, is required on major new or modified sources in clean areas. LAER, or Lowest Achievable Emission Rate, is required on major new or modified sources in non-attainment areas.

Environmental Interest/Information System

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

 POTW: Not reported  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Environmental Interest/Information System

**AIR EMISSIONS CLASSIFICATION UNKNOWN**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

US EPA TRIS (Toxics Release Inventory System) contains information from facilities on the amounts of over 300 listed toxic chemicals that these facilities release directly to air, water, land, or that are transported off-site.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Treat To Water:	Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.
Complexity:	Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

Agency Telephone: Not reported  
 Agency Type: Private  
 SIC Code: 2511  
 SIC Code 2: Not reported  
 Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.  
 Primary Waste: STORMS  
 Waste Type2: Not reported  
 Waste2: Stormwater Runoff  
 Primary Waste Type: Inert/Influent or Solid Wastes that do not contain soluble pollutants or organic wastes and have little adverse impact on water quality. Such wastes could cause turbidity and siltation. Uncontaminated soils, rubble and concrete are examples of this category.  
 Secondary Waste: Not reported  
 Secondary Waste Type: Not reported  
 Design Flow: 0  
 Baseline Flow: 0  
 Reclamation: No reclamation requirements associated with this facility.  
 POTW: The facility is not a POTW.  
 Treat To Water: Minor Threat to Water Quality. A violation of a regional board order should cause a relatively minor impairment of beneficial uses compared to a major or minor threat. Not: All nurds without a TTWQ will be considered a minor threat to water quality unless coded at a higher Level. A Zero (0) may be used to code those NURDS that are found to represent no threat to water quality.  
 Complexity: Category C - Facilities having no waste treatment systems, such as cooling water dischargers or those who must comply through best management practices, facilities with passive waste treatment and disposal systems, such as septic systems with subsurface disposal, or dischargers having waste storage systems with land disposal such as dairy waste ponds.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## FEDERAL RECORDS

### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/05/2017	Source: EPA
Date Data Arrived at EDR: 04/21/2017	Telephone: N/A
Date Made Active in Reports: 05/12/2017	Last EDR Contact: 06/08/2017
Number of Days to Update: 21	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Quarterly

### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/05/2017	Source: EPA
Date Data Arrived at EDR: 04/21/2017	Telephone: N/A

Number of Days to Update: 21	Next Scheduled EDR Contact: 07/17/2017
	Data Release Frequency: Quarterly

### Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991	Source: EPA
Date Data Arrived at EDR: 02/02/1994	Telephone: 202-564-4267
Date Made Active in Reports: 03/30/1994	Last EDR Contact: 08/15/2011
Number of Days to Update: 56	Next Scheduled EDR Contact: 11/28/2011
	Data Release Frequency: No Update Planned

## SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 02/07/2017	Source: EPA
Date Data Arrived at EDR: 04/19/2017	Telephone: 800-424-9346
Date Made Active in Reports: 05/05/2017	Last EDR Contact: 06/08/2017
Number of Days to Update: 16	Next Scheduled EDR Contact: 07/31/2017
	Data Release Frequency: Quarterly

## SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 02/07/2017	Source: EPA
Date Data Arrived at EDR: 04/19/2017	Telephone: 800-424-9346

Number of Days to Update: 16	Next Scheduled EDR Contact: 07/31/2017
	Data Release Frequency: Quarterly

## LIENS 2: CERCLA Lien Information

A Federal CERCLA ("Superfund") lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 02/18/2014	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/18/2014	Telephone: 202-564-6023

## CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 12/12/2016	Source: EPA
Date Data Arrived at EDR: 12/28/2016	Telephone: 800-424-9346
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 06/29/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Quarterly

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 06/29/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Quarterly

## RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 06/29/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Quarterly

## RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 06/29/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Quarterly

## RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 12/12/2016	Source: Environmental Protection Agency
Date Data Arrived at EDR: 12/28/2016	Telephone: (415) 495-8895
Date Made Active in Reports: 02/10/2017	Last EDR Contact: 06/29/2017
Number of Days to Update: 44	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Varies

## RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

## US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

## US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 03/02/2017  
Date Data Arrived at EDR: 03/02/2017

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ROD: Records Of Decision

Record of Decision. ROD documents mandate a permanent remedy at an NPL (Superfund) site containing technical and health information to aid in the cleanup.

Date of Government Version: 11/25/2013	Source: EPA
Date Data Arrived at EDR: 12/12/2013	Telephone: 703-416-0223
Date Made Active in Reports: 02/24/2014	Last EDR Contact: 06/09/2017
Number of Days to Update: 74	Next Scheduled EDR Contact: 09/18/2017
	Data Release Frequency: Annually

## UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Date of Government Version: 09/14/2010	Source: Department of Energy
Date Data Arrived at EDR: 10/07/2011	Telephone: 505-845-0011

Number of Days to Update: 133	Next Scheduled EDR Contact: 09/04/2017
	Data Release Frequency: Annually

## TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2012	Source: EPA
Date Data Arrived at EDR: 01/15/2015	Telephone: 202-260-5521
Date Made Active in Reports: 01/29/2015	Last EDR Contact: 06/21/2017
Number of Days to Update: 14	Next Scheduled EDR Contact: 10/02/2017
	Data Release Frequency: Every 4 Years

## FTTS: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

FTTS tracks administrative cases and pesticide enforcement actions and compliance activities related to FIFRA, TSCA and EPCRA (Emergency Planning and Community Right-to-Know Act). To maintain currency, EDR contacts the Agency on a quarterly basis.

Date of Government Version: 04/09/2009	Source: EPA/Office of Prevention, Pesticides and Toxic Substances
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667

## FTTS INSP: FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)

A listing of FIFRA/TSCA Tracking System (FTTS) inspections and enforcements.

Date of Government Version: 04/09/2009	Source: EPA
Date Data Arrived at EDR: 04/16/2009	Telephone: 202-566-1667
Date Made Active in Reports: 05/11/2009	Last EDR Contact: 05/19/2017
Number of Days to Update: 25	Next Scheduled EDR Contact: 09/04/2017
	Data Release Frequency: Quarterly

## HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

## SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

Date of Government Version: 12/31/2009

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995	Source: EPA
Date Data Arrived at EDR: 07/03/1995	Telephone: 202-564-4104

## RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 02/01/2017	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/09/2017	Telephone: 202-564-8600

## US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000

## 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

## ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

## FUELS PROGRAM: EPA Fuels Program Registered Listing

This listing includes facilities that are registered under the Part 80 (Code of Federal Regulations) EPA Fuels Programs. All companies now are required to submit new and updated registrations.

Date of Government Version: 02/22/2017	Source: EPA
Date Data Arrived at EDR: 02/22/2017	Telephone: 800-385-6164
Date Made Active in Reports: 05/12/2017	Last EDR Contact: 05/24/2017
Number of Days to Update: 79	Next Scheduled EDR Contact: 09/04/2017
	Data Release Frequency: Quarterly

## STATE AND LOCAL RECORDS

### HIST CAL-SITES: Calsites Database

The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

Date of Government Version: 08/08/2005	Source: Department of Toxic Substance Control
Date Data Arrived at EDR: 08/03/2006	Telephone: 916-323-3400
Date Made Active in Reports: 08/24/2006	Last EDR Contact: 02/23/2009
Number of Days to Update: 21	Next Scheduled EDR Contact: 05/25/2009
	Data Release Frequency: No Update Planned

### CA BOND EXP. PLAN: Bond Expenditure Plan

Department of Health Services developed a site-specific expenditure plan as the basis for an appropriation of Hazardous Substance Cleanup Bond Act funds. It is not updated.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Date of Government Version: 01/01/1989

Next Scheduled EDR Contact: 10/02/2017  
Data Release Frequency: No Update Planned

## DEED: Deed Restriction Listing

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 03/06/2017	Source: DTSC and SWRCB
Date Data Arrived at EDR: 03/07/2017	Telephone: 916-323-3400
Date Made Active in Reports: 05/23/2017	Last EDR Contact: 06/06/2017
Number of Days to Update: 77	Next Scheduled EDR Contact: 09/18/2017
	Data Release Frequency: Semi-Annually

### VCP: Voluntary Cleanup Program Properties

Contains low threat level properties with either confirmed or unconfirmed releases and the project proponents have request that DTSC oversee investigation and/or cleanup activities and have agreed to provide coverage for DTSC's costs.

Date of Government Version: 01/30/2017	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/31/2017	Telephone: 916-323-3400

Number of Days to Update: 13	Next Scheduled EDR Contact: 10/09/2017
	Data Release Frequency: Varies

### CDL: Clandestine Drug Labs

A listing of drug lab locations. Listing of a location in this database does not indicate that any illegal drug lab materials were or were not present there, and does not constitute a determination that the location either requires or does not require additional cleanup work.

Date of Government Version: 12/31/2016	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 03/17/2017	Telephone: 916-255-6504
Date Made Active in Reports: 05/10/2017	Last EDR Contact: 04/10/2017
Number of Days to Update: 54	Next Scheduled EDR Contact: 07/24/2017
	Data Release Frequency: Varies

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

## ENF: Enforcement Action Listing

A listing of Water Board Enforcement Actions. Formal is everything except Oral/Verbal Communication, Notice of Violation, Expedited Payment Letter, and Staff Enforcement Letter.

Date of Government Version: 01/23/2017	Source: State Water Resources Control Board
Date Data Arrived at EDR: 01/27/2017	Telephone: 916-445-9379
Date Made Active in Reports: 05/25/2017	Last EDR Contact: 04/24/2017
Number of Days to Update: 118	Next Scheduled EDR Contact: 08/07/2017
	Data Release Frequency: Varies

## RESPONSE: State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 01/30/2017	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/31/2017	Telephone: 916-323-3400
Date Made Active in Reports: 05/23/2017	Last EDR Contact: 05/02/2017
Number of Days to Update: 112	Next Scheduled EDR Contact: 08/14/2017
	Data Release Frequency: Quarterly

## HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

Date of Government Version: 12/31/2015	Source: California Environmental Protection Agency
Date Data Arrived at EDR: 10/12/2016	Telephone: 916-255-1136

Number of Days to Update: 64	Next Scheduled EDR Contact: 07/24/2017
	Data Release Frequency: Annually

## EMI: Emissions Inventory Data

Toxics and criteria pollutant emissions data collected by the ARB and local air pollution agencies.

Date of Government Version: 12/31/2014	Source: California Air Resources Board
Date Data Arrived at EDR: 09/23/2016	Telephone: 916-322-2990
Date Made Active in Reports: 10/24/2016	Last EDR Contact: 06/23/2017
Number of Days to Update: 31	Next Scheduled EDR Contact: 10/02/2017
	Data Release Frequency: Varies

## ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 01/30/2017	Source: Department of Toxic Substances Control

## WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water board's review found that more than one-third of the region's active disposal pits are operating without permission.

## EDR PROPRIETARY RECORDS

### EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A	Source: EDR, Inc.
Date Data Arrived at EDR: N/A	Telephone: N/A
Date Made Active in Reports: N/A	Last EDR Contact: N/A
Number of Days to Update: N/A	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

### EDR Hist Auto: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

### EDR Hist Cleaner: EDR Exclusive Historic Dry Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A	Source: EDR, Inc.

## OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

### NY MANIFEST: Facility and Manifest Data

Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a TSD facility.

Date of Government Version: 01/30/2017  
Date Data Arrived at EDR: 02/01/2017  
Date Made Active in Reports: 02/13/2017  
Number of Days to Update: 12

Source: Department of Environmental Conservation  
Telephone: 518-402-8651  
Last EDR Contact: 05/03/2017  
Next Scheduled EDR Contact: 08/14/2017  
Data Release Frequency: Annually

### PA MANIFEST: Manifest Information

Hazardous waste manifest information.

Date of Government Version: 12/31/2015  
Date Data Arrived at EDR: 07/22/2016  
Date Made Active in Reports: 11/22/2016  
Number of Days to Update: 123

Source: Department of Environmental Protection  
Telephone: 717-783-8990

This map includes information copyrighted by PennWell Corporation. This information is provided on a best effort basis and PennWell Corporation does not guarantee its accuracy nor warrant its fitness for any particular purpose. Such information has been reprinted with the permission of PennWell.

**Sensitive Receptors:** There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

## AHA Hospitals:

Source: American Hospital Association, Inc.  
Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

## Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services  
Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

## Nursing Homes

Source: National Institutes of Health  
Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

## Public Schools

Source: National Center for Education Statistics  
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

## Private Schools

Source: National Center for Education Statistics  
Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

## Daycare Centers: Licensed Facilities

Source: Department of Social Services  
Telephone: 916-657-4041

**Flood Zone Data:** This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

## GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory  
Source: Department of Fish & Game  
Telephone: 916-445-0411

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

## Noise Measurement Report Form

Project: Boyle Heights CPA Contract No (s): N/A  
 Date: 5-27-14 Day of Week: Thursday Time: 12:00 12:02  
 Monitoring Site Number: 7 Monitoring Site Address: 3115 Boulder St  
 Measurement Taken By: \_\_\_\_\_  
 Approximate Wind Speed: 0 mph [km/hr] Approximate Wind Direction: From the \_\_\_\_\_  
 Approximate distance of Sound Level Meter from Receptor Location: \_\_\_\_\_  
 Approximate distance of Sound Level Meter from Project Site: \_\_\_\_\_

Receptor Land Use (Check One)  Residential / Institutional  Commercial / Recreational  
 Sound Level Meter: Make and Model: \_\_\_\_\_ Serial Number: \_\_\_\_\_  
 Meter Setting  A-Weighted Sound Level (SLOW)  C-Weighted Sound Level (FAST) for Impacts  
 During of Measurement: \_\_\_\_\_  
 Check the measurement purpose:  
 Baseline condition  Ongoing construction  Major change  Complaint response

### Measurement Results:

Measurement Type	Measured Level	Noise Criteria Threshold	Exceedance
Calibration	119.0	n/a	n/a
Leq	58.0		
Lmax			
Ldn			
CNEL			

### Field Notes:

1. Some flyover noise, head end street
2. ~~one right under flight path~~
3. Under flight path, five jet flyovers
4. kids at lunch at school, audible

## Noise Measurement Report Form

Project: Boyle heights RACPA Contract No (s): N/A  
 Date: 5/1 Day of Week: Wednesday Time: 10:53 Am  
 Monitoring Site Number: 15 Monitoring Site Address: 2901 Whittier Blvd  
 Measurement Taken By: Andy  
 Approximate Wind Speed: 3 mph [km/hr] Approximate Wind Direction: From the SW  
 Approximate distance of Sound Level Meter from Receptor Location: 5 feet  
 Approximate distance of Sound Level Meter from Project Site: \_\_\_\_\_

Receptor Land Use (Check One)  Residential / Institutional  Commercial / Recreational  
 Sound Level Meter: Make and Model: \_\_\_\_\_ Serial Number: \_\_\_\_\_  
 Meter Setting  A-Weighted Sound Level (SLOW)  C-Weighted Sound Level (FAST) for Impacts  
 During of Measurement: 15 min  
 Check the measurement purpose:  
 Baseline condition  Ongoing construction  Major change  Complaint response

### Measurement Results:

Measurement Type	Measured Level	Noise Criteria Threshold	Exceedance
Calibration	<u>114 dba</u>	n/a	n/a
L <sub>eq</sub>	<u>68.6 dba</u>		
L <sub>max</sub>			
L <sub>dn</sub>

# PARK METRICS

## PARK LAND: Is there enough park land for the population?

**53.8** PARK ACRES  
within study area

**85,937**  
POPULATION

**0.6** PARK ACRES  
PER 1,000

The county average is 3.3 park acres per 1,000

**PARK ACCESSIBILITY:**  
Is park land located where  
everyone can access it?

**75%** of population living  
WITHIN 1/2 MILE  
of a park

The county average is 49% of the population living  
within 1/2 mile of a park

## PARK PRESSURE

How much park land is available to residents in the area around each park?

**Aliso-Pico Recreation Center (0.23 Acres)**  
0.14 park acres per 1,000

**Boyle Heights Sports Center Park (7.22 Acres)**  
1.03 park acres per 1,000

**Evergreen Rec. Center (5.39 Acres)**  
0.36 park acres per 1,000

**Hollenbeck Park (20.47 Acres)**  
4.38 park acres per 1,000

**Lou Costello Recreation Center (1.72 Acres)**  
0.27 park acres per 1,000

**Pecan Playground (4.28 Acres)**  
0.88 park acres per 1,000

**Prospect Park (2.7 Acres)**  
0.79 park acres per 1,000

**Ramon Garcia Rec. Center (5.69 Acres)**  
0.55 park acres per 1,000

**Roosevelt High School Pool (1.5 Acres)**  
0.63 park acres per 1,000

**Ross Valencia Community Park (0.09 Acres)**  
0.01 park acres per 1,000

**State Street Rec. Center (2.62 Acres)**  
0.57 park acres per 1,000

**Wabash Rec. Center (1.87 Acres)**  
0.12 park acres per 1,000

# WHERE ARE PARKS MOST NEEDED?

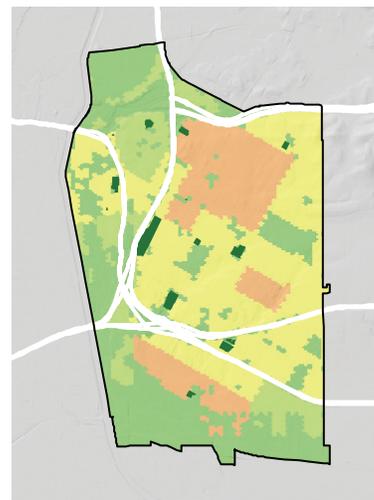

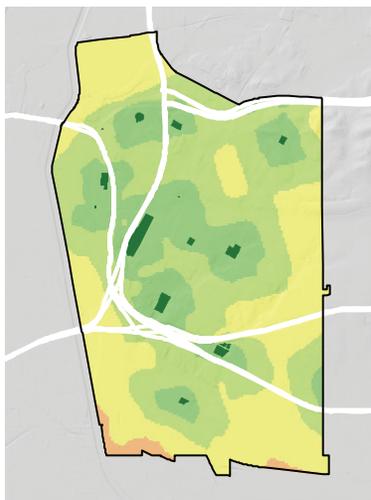

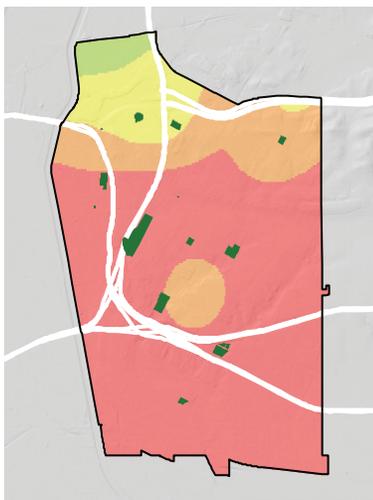

PARK ACRE NEED

+

DISTANCE TO PARKS

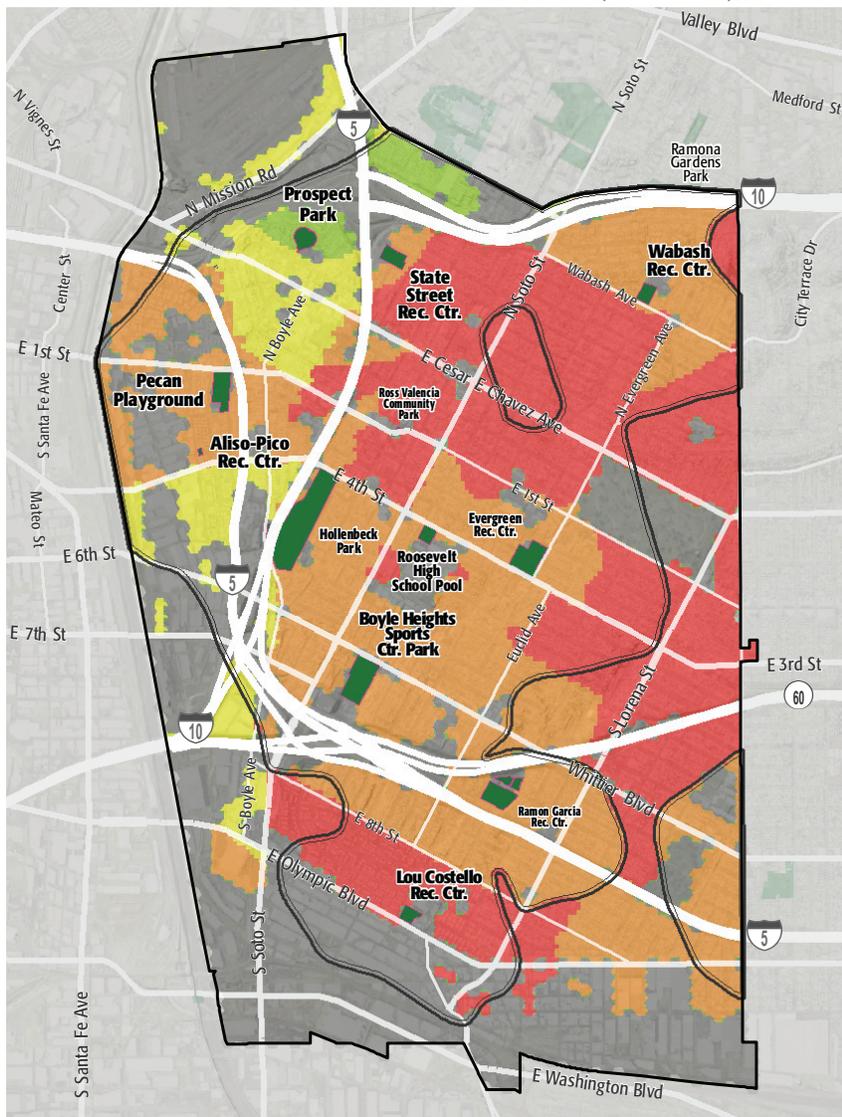

+

POPULATION DENSITY

= PARK NEED

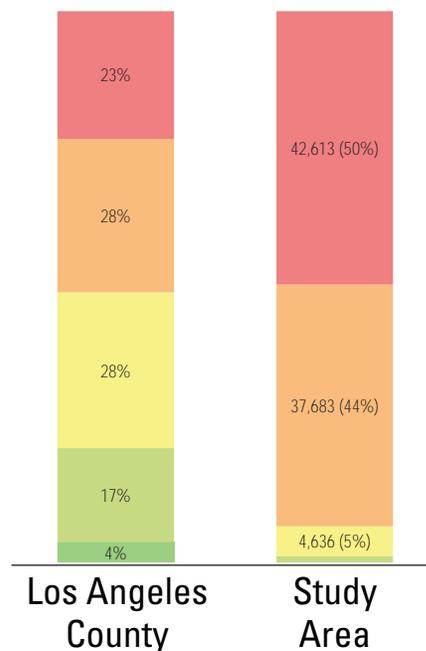

\*Calculated using the following weighting: (20% x Park Acre Need) + (20% x Distance to Parks) + (60% x Population Density)

## PARK NEED CATEGORY

- Very High
- High
- Moderate
- Low
- Very Low
- No Population
- Area within 1/2 mile walk of a park

# PARK NEEDS FRAMEWORK: COUNTYWIDE ASSESSMENT OF NEED

The results of the analysis of the park metrics were used to determine an overall park need level for each Study Area. Please refer to Section 3.0 Park Needs Framework of the main report for additional information.

City of LA Boyle Heights (#135) has a very high park need.

# PROJECT COST ESTIMATES

Study Area:

City of LA Boyle Heights

Study Area ID

135

## Prioritized Projects

Project Number	Project Description	Cost
1	Replace Multipurpose Field- Artificial at Aliso-Pico Recreation Center	\$2,290,000
2	Replace Pools/Aquatic Facilities at Lou Costello Recreation Center	\$8,290,000
3	Replace Community/Recreation Center at Hollenbeck Park	\$6,300,000
4	Replace Community/Recreation Center at Boyle Heights Sports Center	\$6,300,000
5	Repair ADA Walkway/Sidewalk Improvement at All Parks in Study Area	\$1,431,080
6	Replace Lighting- LED Conversion at All Parks in Study Area	\$585,882
7	Repair ADA Restroom Upgrade at All Parks in Study Area	\$140,000
8-10	Build New Park in the General Vicinity of Mission Road and Lamar Street	\$10,980,594
	New Park Tasks:	
	Land Acquisition	\$6,586,594
	Infrastructure/General	\$2,280,000
	Picnic Shelters	\$250,000
	Multipurpose Field- Grass	\$1,864,000

## Study Area Total Costs

TOTAL COST FOR PRIORITIZED PROJECTS	\$36,317,556
TOTAL DEFERRED MAINTENANCE*	\$94,980,347
Replace amenities in "poor" condition	\$86,450,638
Repair amenities in "fair" condition	\$8,529,709
<b>GRAND TOTAL</b>	<b>\$131,297,903</b>

*Each Study Area prioritized 10 projects. These project lists are not intended to supersede or replace any planning documents, nor to obligate the lead agency to implement these projects. For further discussion of projects, please refer to the "Potential Park Projects and Cost Estimates" section of the report.*

*\*Does not include repairs or replacement projects listed as prioritized projects.*

**Study Area Name:**

Boyle Heights

## Prioritized Project Reporting Form

Please provide descriptions of the park projects prioritized during your Study Area's community engagement workshop. The details you provide will contribute to cost estimates that will be included with your projects in the final report of the LA Countywide Park Needs Assessment. Please be as specific as possible by providing all details that may have an impact on cost estimates (including quantities and acres where appropriate). Along with this form, please attach copies or scans of all voting forms presented at your engagement workshop.

**Please return this form to [robinson@parks.lacounty.gov](mailto:robinson@parks.lacounty.gov) no later than February 29, 2016**

1. Project Name: Aliso-Pico Recreation Center - Synthetic Fields

Project Location (address, assessor's parcel number, or nearest intersection):

370 South Clarence Street, Los Angeles, CA 90033

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing
- Park Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Replace existing fields with synthetic fields.

2. Project Name: Lou Costello Recreation Center - Swimming Pool

Project Location (address, assessor's parcel number, or nearest intersection):

3121 E. Olympic Blvd., Los Angeles, CA 90023

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Replace swimming pool.

3. Project Name: Hollenbeck Park - Replace Recreation Center

Project Location (address, assessor's parcel number, or nearest intersection):

415 South St Louis Street, Los Angeles, CA 90033

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Replace recreation center with new recreation center building.

4. Project Name: Boyle Heights Sports Center - Replace Recreation Center  
Project Location (address, assessor's parcel number, or nearest intersection):

933 South Mott St, Los Angeles, CA 90023

Project Type (choose one):

- Repairs to Existing Amenities  
 Add/Replace Amenities in Existing Park  
 Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Replace recreation center with new recreation center building.

5. Project Name: ADA Upgrades to Paths of Travel  
Project Location (address, assessor's parcel number, or nearest intersection):

All Parks in Study Area

Project Type (choose one):

- Repairs to Existing Amenities  
 Add/Replace Amenities in Existing Park  
 Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Upgrade all paths of travel and walkways in the study area to meet current ADA standards.

6. Project Name: Upgrade Security Lighting

Project Location (address, assessor's parcel number, or nearest intersection):

All parks in Study Area

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Increase and upgrade current security lighting to LED lighting.

7. Project Name: ADA Upgrades to Restrooms

Project Location (address, assessor's parcel number, or nearest intersection):

All Parks in Study Area

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Upgrade all restrooms in the study area to meet current ADA standards.

8. Project Name: New Park

Project Location (address, assessor's parcel number, or nearest intersection):

General vicinity of Mission Road and Lamar Street

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

Acquire 2 acres of land for future picnic shelters and multipurpose fields along the Los Angeles River.

9. Project Name:

Project Location (address, assessor's parcel number, or nearest intersection):

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

10. Project Name:

Project Location (address, assessor's parcel number, or nearest intersection):

Project Type (choose one):

- Repairs to Existing Amenities
- Add/Replace Amenities in Existing Park
- Build New Park or Specialty Facility (include acreage in description)

Brief Description of Project:

If the projects reported on this form were subject to any type review process, please give a brief description of that process:

The projects listed above are not prioritized in any particular order. The projects are recommended following input from the community and the Department of Recreation and Parks' evaluation of recreational amenities.

no later than **February 29, 2016****

### Community Engagement Plan

A Community Engagement Meeting must be held in each Study Area between December 1, 2015 and February 15, 2016. The meeting can be run by city staff or by a community-based organization of your choice. The meeting facilitator must attend one of three trainings. At the training, facilitators will receive all information needed to hold the meeting. To offset the cost of the Community Engagement Meeting, a \$2,500 stipend is available for each Study Area.

Please answer the questions below and return this form to Rita Robinson  
**robinson@parks.lacounty.gov** by **October 15, 2015**

Please tell us about your community engagement meeting:

Date: 01/14/2016

Time: 7 PM

Location: LINCOLN PARK 3501 VALLEY BOULEVARD LOS ANGELES, CA 90031

- Parking provided
- Accessible by public transportation

What translation services (if any) will be provided? Languages: Upon Request (with 72 hour notice)

Who will be facilitating your community engagement event(s)?

- City Staff
- Community-Based Organization. Name of CBO:

Please provide the contact information for the primary facilitator **and** any secondary facilitator (if applicable) that will be attending the mandatory training. You may have a **maximum** of 2 people.

Name: Linda Fisher  
 Title: Recreation Supervisor  
 Address: 929 Academy Road, L.A. CA 90012  
 Phone: 323-266-1402, linda.fisher@lacity.org  
 Email: 323-266-1402, linda.fisher@lacity.org

Name: Abel Perez  
 Title: Senior Park Maintenance Supervisor  
 Address: (213) 485-4833, abel.perez@lacity.org  
 Phone: (213) 485-4833, abel.perez@lacity.org  
 Email: (213) 485-4833, abel.perez@lacity.org

Please rank your preference for a mandatory facilitator training date. Space is limited at each training and spaces will be reserved based on the timely return of this form.

RE: Boyle Heights Community Plan Environmental Impact Report  
Case No: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear President Ortega:

The City of Los Angeles is preparing an environmental document pursuant to the California Environmental Quality Act (CEQA) for the Boyle Heights Community Plan. Consistent with Assembly Bill 52 (AB 52) and pursuant to Public Resources Code 21080.3.1, this letter serves as formal notification of consultation under AB 52. A project summary is presented below and maps showing the project's location are attached. Contact information of the project's point of contact are also included in this notification letter.

A tribal consultation notice was originally sent out for this project in August of 2017 (please see Attachment 1, below). The City of Los Angeles Department of Planning anticipates public release of the environmental impact report (EIR) Winter 2021 (subject to change).

## **PROJECT SUMMARY**

The Proposed Plan is a comprehensive revision of the adopted 1998 Boyle Heights Community Plan. The primary goal of the Proposed Plan is to accommodate the growth projected for Boyle Heights in a manner that enhances the quality of life of existing and future residents of Boyle Heights and the City of Los Angeles. The Proposed Plan aims to preserve the existing character and density of the community's residential neighborhoods while encouraging most new housing to be developed along identified corridors where future residents would live, within walking reach of transit and commercial amenities. The Proposed Plan envisions the evolution of the Community Plan Area's (CPA) major corridors into livable mixed-use environments with higher concentrations of pedestrian and retail activity supported by residential development ranging from two stories to six stories, based on incentives and exchanges for affordable housing, as well as accessible transit. Beyond the mixed-use corridors, strictly residential areas within the CPA are broadly distinguished as either suitable for limited change where some levels of additional development and density can occur, or as areas where the conservation of existing character and density is the goal. Additional job growth would occur along the corridors where new residential development would be developed along with commercial uses. Employment growth is also targeted for the industrial land located at the western edge of the CPA along the Los Angeles River where increased development pressure is anticipated. Facilitating job growth and development along the Los Angeles River is intended to coincide with efforts to establish the Los Angeles River as a public destination.

## **PROJECT LOCATION**

The Boyle Heights CPA is located immediately east of Downtown Los Angeles (Downtown) and the Los Angeles River (please see Attachment 2, Boyle Heights Community Plan Area map and Attachment 3, Regional Location map, below) and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights CPA is roughly bound by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the CPA align with the city limits of Los Angeles, with the City of Vernon

located to the south and the unincorporated community of East Los Angeles located to the east of the CPA. Located to the north are the Los Angeles communities of Lincoln Heights and El Sereno and located to the west are the industrial districts of Downtown, which include the Arts District.

Four freeways traverse the Boyle Heights CPA, with the San Bernardino Freeway (I-10 Freeway) traversing through the northern portion of the Boyle Heights CPA, and Interstate 5 (I-5), the Pomona Freeway (SR-60) and the Hollywood Freeway (US 101) traversing through the southern portion of the Boyle Heights CPA. All four freeways converge over much of the western portion of the Boyle Heights CPA to form the East Los Angeles Interchange. Major east-west corridors include (from north to south) Marengo Street, Cesar E Chavez Avenue, 1st Street, 4th Street, Whittier Boulevard, and Olympic Boulevard. Major north-south corridors include (from west to east) Soto Street, Lorena Street, and Indiana Street.

Please respond within 30 days from the receipt of this letter to submit a written request for consultation with the City of Los Angeles and send your request to Kiran Rishi, Department of City Planning, 200 N. Spring Street Rm 667, Los Angeles, CA, 90012. If you have any questions prior to submitting a written request, please contact Kiran Rishi, City Planner at (213) 978-1169 or by e-mail at [kiran.rishi.org](mailto:kiran.rishi.org).

Please let us know if the lead contact person's contact information has been changed and we will make sure our files reflect this for all future correspondence.

Sincerely,

RE: Boyle Heights Community Plan Environmental Impact Report  
Case No: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear Mr. Avila:

The City of Los Angeles is preparing an environmental document pursuant to the California Environmental Quality Act (CEQA) for the Boyle Heights Community Plan. Consistent with Assembly Bill 52 (AB 52) and pursuant to Public Resources Code 21080.3.1, this letter serves as formal notification of consultation under AB 52. A project summary is presented below and maps showing the project's location are attached. Contact information of the project's point of contact are also included in this notification letter.

A tribal consultation notice was originally sent out for this project in August of 2017 (please see Attachment 1, below). The City of Los Angeles Department of Planning anticipates public release of the environmental impact report (EIR) Winter 2021 (subject to change).

## **PROJECT SUMMARY**

The Proposed Plan is a comprehensive revision of the adopted 1998 Boyle Heights Community Plan. The primary goal of the Proposed Plan is to accommodate the growth projected for Boyle Heights in a manner that enhances the quality of life of existing and future residents of Boyle Heights and the City of Los Angeles. The Proposed Plan aims to preserve the existing character and density of the community's residential neighborhoods while encouraging most new housing to be developed along identified corridors where future residents would live, within walking reach of transit and commercial amenities. The Proposed Plan envisions the evolution of the Community Plan Area's (CPA) major corridors into livable mixed-use environments with higher concentrations of pedestrian and retail activity supported by residential development ranging from two stories to six stories, based on incentives and exchanges for affordable housing, as well as accessible transit. Beyond the mixed-use corridors, strictly residential areas within the CPA are broadly distinguished as either suitable for limited change where some levels of additional development and density can occur, or as areas where the conservation of existing character and density is the goal. Additional job growth would occur along the corridors where new residential development would be developed along with commercial uses. Employment growth is also targeted for the industrial land located at the western edge of the CPA along the Los Angeles River where increased development pressure is anticipated. Facilitating job growth and development along the Los Angeles River is intended to coincide with efforts to establish the Los Angeles River as a public destination.

## **PROJECT LOCATION**

The Boyle Heights CPA is located immediately east of Downtown Los Angeles (Downtown) and the Los Angeles River (please see Attachment 2, Boyle Heights Community Plan Area map and Attachment 3, Regional Location map, below) and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights CPA is roughly bound by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the CPA align with the city limits of Los Angeles, with the City of Vernon

located to the south and the unincorporated community of East Los Angeles located to the east of the CPA. Located to the north are the Los Angeles communities of Lincoln Heights and El Sereno and located to the west are the industrial districts of Downtown, which include the Arts District.

Four freeways traverse the Boyle Heights CPA, with the San Bernardino Freeway (I-10 Freeway) traversing through the northern portion of the Boyle Heights CPA, and Interstate 5 (I-5), the Pomona Freeway (SR-60) and the Hollywood Freeway (US 101) traversing through the southern portion of the Boyle Heights CPA. All four freeways converge over much of the western portion of the Boyle Heights CPA to form the East Los Angeles Interchange. Major east-west corridors include (from north to south) Marengo Street, Cesar E Chavez Avenue, 1st Street, 4th Street, Whittier Boulevard, and Olympic Boulevard. Major north-south corridors include (from west to east) Soto Street, Lorena Street, and Indiana Street.

Please respond within 30 days from the receipt of this letter to submit a written request for consultation with the City of Los Angeles and send your request to Kiran Rishi, Department of City Planning, 200 N. Spring Street Rm 667, Los Angeles, CA, 90012. The southern and eastern borders of the CPA align with the city limits of Los Angeles, with the City of Vernon

located to the south and the unincorporated community of East Los Angeles located to the east of the CPA. Located to the north are the Los Angeles communities of Lincoln Heights and El Sereno and located to the west are the industrial districts of Downtown, which include the Arts District.

Four freeways traverse the Boyle Heights CPA, with the San Bernardino Freeway (I-10 Freeway) traversing through the northern portion of the Boyle Heights CPA, and Interstate 5 (I-5), the Pomona Freeway (SR-60) and the Hollywood Freeway (US 101) traversing through the southern portion of the Boyle Heights CPA. All four freeways converge over much of the western portion of the Boyle Heights CPA to form the East Los Angeles Interchange. Major east-west corridors include (from north to south) Marengo Street, Cesar E Chavez Avenue, 1st Street, 4th Street, Whittier Boulevard, and Olympic Boulevard. Major north-south corridors include (from west to east) Soto Street, Lorena Street, and Indiana Street.

Please respond within 30 days from the receipt of this letter to submit a written request for consultation with the City of Los Angeles and send your request to Kiran Rishi, Department of City Planning, 200 N. Spring Street Rm 667, Los Angeles, CA, 90012. If you have any questions prior to submitting a written request, please contact Kiran Rishi, City Planner at (213) 978-1169 or by e-mail at [kiran.rishi.org](mailto:kiran.rishi.org).

RE: Boyle Heights Community Plan Environmental Impact Report  
Case No: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear Mr. Alvarez:

The City of Los Angeles is preparing an environmental document pursuant to the California Environmental Quality Act (CEQA) for the Boyle Heights Community Plan. Consistent with Assembly Bill 52 (AB 52) and pursuant to Public Resources Code 21080.3.1, this letter serves as formal notification of consultation under AB 52. A project summary is presented below and maps showing the project's location are attached. Contact information of the project's point of contact are also included in this notification letter.

A tribal consultation notice was originally sent out for this project in August of 2017. The City of Los Angeles Department of Planning anticipates public release of the environmental impact report (EIR) Winter 2021 (subject to change).

## **PROJECT SUMMARY**

The Proposed Plan is a comprehensive revision of the adopted 1998 Boyle Heights Community Plan. The primary goal of the Proposed Plan is to accommodate the growth projected for Boyle Heights in a manner that enhances the quality of life of existing and future residents of Boyle Heights and the City of Los Angeles. The Proposed Plan aims to preserve the existing character and density of the community's residential neighborhoods while encouraging most new housing to be developed along identified corridors where future residents would live, within walking reach of transit and commercial amenities. The Proposed Plan envisions the evolution of the Community Plan Area's (CPA) major corridors into livable mixed-use environments with higher concentrations of pedestrian and retail activity supported by residential development ranging from two stories to six stories, based on incentives and exchanges for affordable housing, as well as accessible transit. Beyond the mixed-use corridors, strictly residential areas within the CPA are broadly distinguished as either suitable for limited change where some levels of additional development and density can occur, or as areas where the conservation of existing character and density is the goal. Additional job growth would occur along the corridors where new residential development would be developed along with commercial uses. Employment growth is also targeted for the industrial land located at the western edge of the CPA along the Los Angeles River where increased development pressure is anticipated. Facilitating job growth and development along the Los Angeles River is intended to coincide with efforts to establish the Los Angeles River as a public destination.

## **PROJECT LOCATION**

The Boyle Heights CPA is located immediately east of Downtown Los Angeles (Downtown) and the Los Angeles River (please see Attachment 1, Boyle Heights Community Plan Area map and Attachment 2, Regional Location map, below) and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights CPA is roughly bound by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the CPA align with the city limits of Los Angeles, with the City of Vernon

located to the south and the unincorporated community of East Los Angeles located to the east of the CPA. Located to the north are the Los Angeles communities of Lincoln Heights and El Sereno and located to the west are the industrial districts of Downtown, which include the Arts District.

Four freeways traverse the Boyle Heights CPA, with the San Bernardino Freeway (I-10 Freeway) traversing through the northern portion of the Boyle Heights CPA, and Interstate 5 (I-5), the Pomona Freeway (SR-60) and the Hollywood Freeway (US 101) traversing through the southern portion of the Boyle Heights CPA. All four freeways converge over much of the western portion of the Boyle Heights CPA to form the East Los Angeles Interchange. Major east-west corridors include (from north to south) Marengo Street, Cesar E Chavez Avenue, 1st Street, 4th Street, Whittier Boulevard, and Olympic Boulevard. Major north-south corridors include (from west to east) Soto Street, Lorena Street, and Indiana Street.

Please respond within 30 days from the receipt of this letter to submit a written request for consultation with the City of Los Angeles and send your request to Kiran Rishi, Department of City Planning, 200 N. Spring Street Rm 667, Los Angeles, CA, 90012. If you have any questions prior to submitting a written request, please contact Kiran Rishi, City Planner at (213) 978-1169 or by e-mail at [kiran.rishi.org](mailto:kiran.rishi.org).

Please let us know if the lead contact person's contact information has been changed and we will make sure our files reflect this for all future correspondence.

RE: Boyle Heights Community Plan Update  
CASE No.: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear Tribal Representative,

This letter is to inform you that the Los Angeles Department of City Planning is preparing an Environmental Impact Report (“EIR”) for the Boyle Heights Community Plan Update Program (“Proposed Project”) in accordance with the requirements of the California Environmental Quality Act (“CEQA”). This notification is being forwarded to Native American tribes that are understood to be traditionally, culturally, and/or geographically affiliated with the Proposed Project area pursuant to the statutory requirements of Assembly Bill 52 (AB 52). Per AB 52, your tribe has the right to consult on the Proposed Project prior to the release of the related EIR and your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wishes to consult on the Proposed Project. The Proposed Project is a long-range land use plan that does not consist of any proposed development projects, includes no ground disturbing activity or any related construction activity.

**PROJECT LOCATION:**

The boundaries of the Proposed Project are shown in the attached Project Location Map. The Boyle Heights Community Plan area is located immediately east of downtown Los Angeles and the Los Angeles River, and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights Community Plan area is roughly bounded by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the Boyle Heights Community Plan area align with the city limits of Los Angeles with the City of Vernon located to the south and the unincorporated community of East Los Angeles is located to the east.

## **PROJECT DESCRIPTION**

The Proposed Project includes updates to the policies of the existing Community Plan, several text and map amendments to the General Plan to designate new areas for growth, zone and height district changes to allow for increased development along the corridors, and code amendments that enable the establishment of a comprehensive set of new zoning classifications as part of the City's comprehensive rezoning effort known as **re:code LA**.

The **re:code LA** is a program to comprehensively revise the City of Los Angeles Zoning Code. In summary, the **re:code LA** program will amend the text of the LAMC to replace the City's existing Zoning Ordinance (Chapter 1 of the LAMC) with a new City zoning ordinance (New Zoning Ordinance) and the community plan update process will apply the zoning regulations to land in the Project Area. The New Zoning Ordinance will include, among other provisions, new zone classifications and revised/reorganized development standards and requirements for those new zone classifications.

The Proposed Project seeks to accomplish the following goals: 1) retain existing single- and multiple-family residential uses and add new zoning regulations to protect the existing form and add design standards for appropriate neighborhood massing; 2) retain neighborhood serving commercial uses and add new zoning regulations for improved street frontage and pedestrian oriented design standards; 3) retain light industrial districts to prioritize jobs producing uses and add new zoning regulations for improved river access and standards for building form and industrial uses; 5) encourage mixed-use and equitable transit-oriented development; 6) preserve the historic character and commercial building forms for historically known Brooklyn Avenue Corridor, which is now Cesar E. Chavez Avenue and preserve the residential building forms in the Prospect Park and Hollenbeck Park neighborhoods; and 7) new zoning regulations to protect identified historic resources.

## **DEADLINE TO REQUEST CONSULTATION:**

As stated above, your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wants to consult on the Proposed Project pursuant to AB 52. In your request, please provide any updated contact information for your tribe's representative. Please mail your tribe's request to:

RE: Boyle Heights Community Plan Update  
CASE No.: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear Tribal Representative,

This letter is to inform you that the Los Angeles Department of City Planning is preparing an Environmental Impact Report (“EIR”) for the Boyle Heights Community Plan Update Program (“Proposed Project”) in accordance with the requirements of the California Environmental Quality Act (“CEQA”). This notification is being forwarded to Native American tribes that are understood to be traditionally, culturally, and/or geographically affiliated with the Proposed Project area pursuant to the statutory requirements of Assembly Bill 52 (AB 52). Per AB 52, your tribe has the right to consult on the Proposed Project prior to the release of the related EIR and your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wishes to consult on the Proposed Project. The Proposed Project is a long-range land use plan that does not consist of any proposed development projects, includes no ground disturbing activity or any related construction activity.

**PROJECT LOCATION:**

The boundaries of the Proposed Project are shown in the attached Project Location Map. The Boyle Heights Community Plan area is located immediately east of downtown Los Angeles and the Los Angeles River, and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights Community Plan area is roughly bounded by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the Boyle Heights Community Plan area align with the city limits of Los Angeles with the City of Vernon located to the south and the unincorporated community of East Los Angeles is located to the east.

## **PROJECT DESCRIPTION**

The Proposed Project includes updates to the policies of the existing Community Plan, several text and map amendments to the General Plan to designate new areas for growth, zone and height district changes to allow for increased development along the corridors, and code amendments that enable the establishment of a comprehensive set of new zoning classifications as part of the City's comprehensive rezoning effort known as **re:code LA**.

The **re:code LA** is a program to comprehensively revise the City of Los Angeles Zoning Code. In summary, the **re:code LA** program will amend the text of the LAMC to replace the City's existing Zoning Ordinance (Chapter 1 of the LAMC) with a new City zoning ordinance (New Zoning Ordinance) and the community plan update process will apply the zoning regulations to land in the Project Area. The New Zoning Ordinance will include, among other provisions, new zone classifications and revised/reorganized development standards and requirements for those new zone classifications.

The Proposed Project seeks to accomplish the following goals: 1) retain existing single- and multiple-family residential uses and add new zoning regulations to protect the existing form and add design standards for appropriate neighborhood massing; 2) retain neighborhood serving commercial uses and add new zoning regulations for improved street frontage and pedestrian oriented design standards; 3) retain light industrial districts to prioritize jobs producing uses and add new zoning regulations for improved river access and standards for building form and industrial uses; 5) encourage mixed-use and equitable transit-oriented development; 6) preserve the historic character and commercial building forms for historically known Brooklyn Avenue Corridor, which is now Cesar E. Chavez Avenue and preserve the residential building forms in the Prospect Park and Hollenbeck Park neighborhoods; and 7) new zoning regulations to protect identified historic resources.

## **DEADLINE TO REQUEST CONSULTATION:**

As stated above, your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wants to consult on the Proposed Project pursuant to AB 52. In your request, please provide any updated contact information for your tribe's representative. Please mail your tribe's request to:

The **re:code LA** is a program to comprehensively revise the City of Los Angeles Zoning Code. In summary, the **re:code LA** program will amend the text of the LAMC to replace the City's existing Zoning Ordinance (Chapter 1 of the LAMC) with a new City zoning ordinance (New Zoning Ordinance) and the community plan update process will apply the zoning regulations to land in the Project Area. The New Zoning Ordinance will include, among other provisions, new zone classifications and revised/reorganized development standards and requirements for those new zone classifications.

The Proposed Project seeks to accomplish the following goals: 1) retain existing single- and multiple-family residential uses and add new zoning regulations to protect the existing form and add design standards for appropriate neighborhood massing; 2) retain neighborhood serving commercial uses and add new zoning regulations for improved street frontage and pedestrian oriented design standards; 3) retain light industrial districts to prioritize jobs producing uses and add new zoning regulations for improved river access and standards for building form and industrial uses; 5) encourage mixed-use and equitable transit-oriented development; 6) preserve the historic character and commercial building forms for historically known Brooklyn Avenue Corridor, which is now Cesar E. Chavez Avenue and preserve the residential building forms in the Prospect Park and Hollenbeck Park neighborhoods; and 7) new zoning regulations to protect identified historic resources.

## **DEADLINE TO REQUEST CONSULTATION:**

As stated above, your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wants to consult on the Proposed Project pursuant to AB 52. In your request, please provide any updated contact information for your tribe's representative. Please mail your tribe's request to:

Phone: (213) 978-0627  
Email: alex.heath@lacity.org

If you have any questions, please contact us at your earliest opportunity.

Sincerely,

Alex Heath

Attachment: Project Location Map

**PROJECT DESCRIPTION**

The Proposed Project includes updates to the policies of the existing Community Plan, several text and map amendments to the General Plan to designate new areas for growth, zone and height district changes to allow for increased development along the corridors, and code amendments that enable the establishment of a comprehensive set of new zoning classifications as part of the City’s comprehensive rezoning effort known as **re:code LA**.

The **re:code LA** is a program to comprehensively revise the City of Los Angeles Zoning Code. In summary, the **re:code LA** program will amend the text of the LAMC to replace the City’s existing Zoning Ordinance (Chapter 1 of the LAMC) with a new City zoning ordinance (New Zoning Ordinance) and the community plan update process will apply the zoning regulations to land in the Project Area. The New Zoning Ordinance will include, among other provisions, new zone classifications and revised/reorganized development standards and requirements for those new zone classifications.

The Proposed Project seeks to accomplish the following goals: 1) retain existing single- and multiple-family residential uses and add new zoning regulations to protect the existing form and add design standards for appropriate neighborhood massing; 2) retain neighborhood serving commercial uses and add new zoning regulations for improved street frontage and pedestrian oriented design standards; 3) retain light industrial districts to prioritize jobs producing uses and add new zoning regulations for improved river access and standards for building form and industrial uses; 5) encourage mixed-use and equitable transit-oriented development; 6) preserve the historic character and commercial building forms for historically known Brooklyn Avenue Corridor, which is now Cesar E. Chavez Avenue and preserve the residential building forms in the Prospect Park and Hollenbeck Park neighborhoods; and 7) new zoning regulations to protect identified historic resources.

RE: Boyle Heights Community Plan Update  
CASE No.: CPC-2016-2905-CPU; ENV-2016-2906-EIR

Dear Tribal Representative,

This letter is to inform you that the Los Angeles Department of City Planning is preparing an Environmental Impact Report (“EIR”) for the Boyle Heights Community Plan Update Program (“Proposed Project”) in accordance with the requirements of the California Environmental Quality Act (“CEQA”). This notification is being forwarded to Native American tribes that are understood to be traditionally, culturally, and/or geographically affiliated with the Proposed Project area pursuant to the statutory requirements of Assembly Bill 52 (AB 52). Per AB 52, your tribe has the right to consult on the Proposed Project prior to the release of the related EIR and your tribe has 30 calendar days from receipt of this letter to notify us in writing that it wishes to consult on the Proposed Project. The Proposed Project is a long-range land use plan that does not consist of any proposed development projects, includes no ground disturbing activity or any related construction activity.

**PROJECT LOCATION:**

The boundaries of the Proposed Project are shown in the attached Project Location Map. The Boyle Heights Community Plan area is located immediately east of downtown Los Angeles and the Los Angeles River, and encompasses an area of approximately 4,271 acres (approximately 6.67 square miles). The Boyle Heights Community Plan area is roughly bounded by the San Bernardino Freeway (I-10 Freeway) and Marengo Street to the north, the Union Pacific and Santa Fe Railroad lines to the south, Indiana Street to the east, and the Los Angeles River to the west. The southern and eastern borders of the Boyle Heights Community Plan area align with the city limits of Los Angeles with the City of Vernon located to the south and the unincorporated community of East Los Angeles is located to the east.

## **PROJECT DESCRIPTION**

The Proposed Project includes updates to the policies of the existing Community Plan, several text and map amendments to the General Plan to designate new areas for growth, zone and height district changes to allow for increased development along the corridors, and code amendments that enable the establishment of a comprehensive set of new zoning classifications as part of the City's comprehensive rezoning effort known as **re:code LA**.

# GABRIELINO- TONGVA TRIBE

*A California Indian Tribe historically known as San Gabriel Band of Mission Indians*

## TRIBAL CULTURAL RESOURCES AB52/SECTION 106 CONSULTATION GABRIELINO TONGVA TRIB

Linda Candelaria  
Co-Chairwoman Gabrielino Tongva Tribe

September 23, 2019

Attention:  
Haydee Urita-Lopez  
Sr. City Planner for the City of Los Angeles

This letter is to inform the City of Los Angeles that the Gabrielino Tongva Tribe will be actively participating in the tribal consultation process. Our cultural resource representative will be Sam Dunlap (Email: [TongvaTCR@gmail.com](mailto:TongvaTCR@gmail.com), Mobile: (909) 262-9351). The Gabrielino Tongva Tribe has authorized Sam Dunlap to act on our behalf in the government to government consultation process.

**The Gabrielino Tongva Tribe would like to express our ongoing concerns with the AB52/Section 106 consultation process that the Gabrielino Tongva Tribe has encountered over the last few years. The Gabrielino Tongva Tribe has ancestral ties and cultural affiliation to the city's jurisdictional area. We therefore have a vested interest in the AB52 and Section 106 consultation process with the City of Los Angeles.**

**The City of Los Angeles should be aware that the State of California's Native American Heritage Commission (NAHC) maintains a list of culturally affiliated Gabrielino Tongva Tribes for your area for a reason. It has been our experience as one of the designated Gabrielino Tongva Tribes that several cities within our tribal territory have been misled into believing that one particular Gabrielino tribe has sole jurisdiction over another. This particular issue is being carried out by a recently formed (2008) tribal group that has managed to abuse the AB52 process for their own benefit.**

**The AB52/Section 106 consultation process enables our Tribe to have an equal opportunity in future mitigation measures that the City of Los Angeles may implement that affect Tribal Cultural Resources (TCR's), the Tribe would prefer to see language that enables our presence on site during ground disturbance/excavation activity so that we may identify and assess the significance of any Tribal Cultural resource that may be encountered.**

The Gabrielino Tongva Tribe looks forward to cooperating with the City of Los Angeles as an equal partner in determining a rational approach to environmental compliance and establishing a fair and equal protocol for our tribal participation.

Sincerely,

Linda Candelaria  
Co-Chairwoman  
Gabrielino Tongva Tribe

Linda Candelaria, Councilwoman  
Jerry Maldonado, Councilman

Vincent Holguin, Councilman  
Charles Alvarez, Councilman  
Jane Hussey, Councilwoman
