Los Angeles, CA 90012

Re: CANYON HILLS PROJECT, EIR Case no: ENV-2002-2481-EIR and Reference Nos: SCH # 2002091018

Dear Ms. Zaitzevsky:

I believe that the EIR regarding the above referenced project is deficient because it seriously understates the impact of this development on the community. Accordingly, I urge you, in your response to the EIR, to (1) have the consultant revise the EIR to correct the deficiencies, and (2) have the City of Los Angeles re-release the EIR for additional comments once said deficiencies and concerns are corrected.

156-1

I believe the following concerns are not adequately addressed by the EIR:

156-2

*The Development threatens the rural nature of the surrounding communities without adequate mitigation.

*Loss of rare habitat and significant impact to other area plants and animals.

156-3

*The number of daily vehicle trips generated by the development.

156-4

* Will cause Erosion of precious environmentally preserved mountains and hillsides

156-5

*The disruption caused by 5 years of construction necessary for full development

156-6

*Scarring from grading visible from the 210 and La Tuna Canyon.

156-7

*Light pollution from new street lights.

156-8

*Elimination of areas, and access to areas, used by equestrians, hikers, and mountain bikers.

156-9

*Grading of ridoelines by as much as 80 feet and permanent alteration

156-10

- of 310 acres. _____ 156-10
- *Increase air pollution and dust during and after construction. _____ 156-11
- *Significant loss of mature trees. _____ 156-12
- *Addition of 420 children to our local area schools. _____ 156-13
- *Danger of loss of life and property during a wildfire, as the northern portion of the development would effectively have only one way to escape a fire. _____ 156-14
- *numerous trash truck trips to haul out the estimated 5,000,000 lbs of trash generated during construction. _____ 156-15

Sincerely

Sally A. MacAller
851 W. Mountain St.
Glendale, CA 91202
