Canyon Hills Project DEIR Comments

Dear Ms Zaitzevsky:

The Upper Hanson Heights Channel, a USGS blueline stream, crosses the 210 freeway at Hidden Oak Drive, South of Apperson Street within Missing Link #27. Exhibit #1 depicts the Upper Hanson Heights Channel as a blue line. Exhibit #1 also contains a partial listing of mule deer, fox and coyote sightings within a few hundred feet of this rapidly disappearing wildlife corridor on the north side of the 210 freeway.
