

ORDINANCE NO. 181340

WHEREAS, the Hollywood Signage Supplemental Use District also encompasses the Hollywood Media District, home to numerous studios serving the film and television industries and home to one of the largest concentrations of live theaters in Los Angeles;

The maximum areas established by this Ordinance are legal maximums only and as such may not necessarily be permitted.

Applicants may apply for a modification of maximum permitted combined sign area up to a maximum of 20 percent of the total wall area of the Principal Building Facade by following the procedures established in Section 8 of this Ordinance to obtain a sign area bonus. All signs on a lot shall be included in the calculation of maximum permitted combined sign area except for the following signs:

H. **Illumination.** In addition to the provisions of Article 4.4 of the Code, all illuminated signs shall be designed, located or screened so as to minimize to the greatest reasonable extent possible direct light sources onto any exterior wall of a residential unit and into the window of any commercial building. If signs are to be externally lit, the source of the external illumination shall be shielded from public view.

Sec 6. **SUPPLEMENTAL USE DISTRICT COMPLIANCE REQUIREMENTS.**

A. **Prohibition.** The Department of Building and Safety (LADBS) shall not issue a permit for a sign, a sign structure, sign illumination, or alteration of an existing sign unless the sign complies with the requirements of this Ordinance, as determined by the Director, and relevant requirements of the Code and Article 22.171 of the LAAC as it pertains to review of projects affecting Historic-Cultural Monuments. Unless otherwise specified in this Ordinance to the contrary, all signs shall comply with the provisions of Article 4.4 of Chapter 1 and Article 7 of Chapter 5 of the Code.

All applications for signs within a redevelopment project area shall be approved both by the Director pursuant to the regulations set forth in this Ordinance, and by the CRA staff for that area pursuant to any regulations or design guidelines adopted by the CRA.

E. Signs on Historic-Cultural Monuments and Historic Buildings. Signs proposed to be located on Historic-Cultural Monuments, Historic Buildings, or buildings identified in a historic survey established by the Director or the CRA must also be approved by the Cultural Heritage Commission pursuant to Article 22.171 of the LAAC.

F. Application for Project Permit Compliance. An application for Project Permit Compliance shall comply with Section 11.5.7 of the Code. The application may request review of one or multiple signs. The application shall be accompanied by photos of all existing signage and architectural renderings of proposed signage, as well as a scaled plot plan showing the locations of all existing and proposed signage.

1. **Proof of Compliance.** A sign applicant shall provide copies of permits for all existing signage which is located on the same property as a proposed sign. All existing signs that do not have a valid permit, are not legally constructed, or are not in compliance with an issued permit shall be brought into compliance prior to the approval of any additional sign(s) on the same lot, or on multiple lots that are part of an integrated development having the same ownership.

2. In addition to the requirements above, all sign permits shall be reviewed and approved by the Los Angeles Fire Department (LAFD), as part of the LADBS building permit review process.

The following findings, which relate to the architectural design of the sign structure or layout and not its content, shall be used solely to condition an approval and shall not be used to deny a project:

5. All existing and proposed signs are appropriately scaled to the architectural character of all buildings and structures on the lot.
6. All existing and proposed signs result in a complementary enhancement to the architecture on the lot.
7. All existing and proposed signs result in a visually uncluttered appearance.

H. **Request for Exceptions from Regulations.** The Area Planning Commission shall have initial decision-making authority for granting exceptions from the provisions of this Ordinance. An applicant who is requesting an exception from the provisions of this Ordinance shall utilize the procedures for a Specific Plan Exception set forth in Section 11.5.7 F of the Code. In granting an exception, the Area Planning Commission shall make all of the following findings:

1. Strict compliance would result in practical difficulty or unnecessary hardship inconsistent with the purposes of the zoning restrictions, due to unique physical or topographic circumstances or conditions of design;
2. Strict compliance would deprive the applicant of privileges enjoyed by owners of similarly zoned property; and
3. An exception would not constitute a grant of special privilege.

I. **Existing Signs.** Every existing sign and/or sign support structure constructed under a valid permit and used in conformance with the Code regulations and LADBS approvals in effect at the time of construction shall be allowed to continue to exist under those regulations and approvals even though subsequent adopted regulations and approvals have changed the requirements. All existing non-conforming signs shall be included in computing total sign area. There shall be no increase in sign area or height and no change in the location or orientation of any existing non-conforming sign. Before the issuance of a building permit for a new sign on a lot, all existing unpermitted signage on that lot shall be removed or demolished.

J. **Alterations, Repairs or Rehabilitation.** Any alteration, repair or maintenance work on a legally permitted sign or sign structure shall be governed by the Code.

K. **Grandfathering Exception.**

1. **Vested Rights Under California Law.** The prohibition of Supergraphic Signs in this Ordinance shall not apply to any development that is vested under California law. A development is vested under California law if:

- a. Prior to the effective date of this ordinance, a building permit for Supergraphic Signs or Supergraphic Sign structures has issued and substantial work has been performed and substantial liabilities have been incurred in good faith reliance on the building permit;
- b. A vesting tentative map is ultimately approved, but only if: (1) the application materials and/or the environmental review documents for the tentative map reflect that the development includes the installation of Supergraphic Signs; and (2) the application for the vesting tentative map was deemed complete during the time in which City law authorized the installation of

Supergraphic Signs pursuant to the regulations set forth in the prior Hollywood Signage SUD, Ordinance No. 176172; or

c. A development agreement is executed for a development including Supergraphic Signs during the time in which City law authorized the installation of Supergraphic Signs pursuant to the regulations set forth in the prior Hollywood Signage SUD, Ordinance No. 176172.

2. **Grandfather Rights For Previously Approved Developments.** The prohibition of Supergraphic Signs in this Ordinance shall not apply to developments where a Project Permit Approval for Supergraphic Signs was granted on or before November 12, 2008, or where a Sign Covenant Agreement concerning Supergraphic Signs was approved by the Community Redevelopment Agency Board on or before November 12, 2008.

3. **Use of Sign Bank Reduction Program Credits.** Sign Bank Reduction Program credits obtained prior to the effective date of this Ordinance may be used for developments that are grandfathered under this section. Otherwise, such credits may not be used to install a sign that is prohibited by this Ordinance.

L. **Tolling.** In recognition of the delays created by sign litigation, which led to the adoption of Interim Control Ordinance 180445, all Project Permit approvals that had not expired as of December 26, 2008 shall be extended so that they expire six months after the effective date of this Ordinance, or on the expiration date set forth in the Project Permit approval, whichever comes later.
