Re: 6220 West Yucca ENV-2014-4706-EIR
Hollywood Center Project ENV- 2013-1451-EIR
REQUEST FOR COMBINED CONSTRUCTION SCHEDULES

The Hollywood United Neighborhood Council's Board of Directors at their June 8, 2020 Board Meeting voted to send this request:

The above projects are next to each other in Hollywood. Both project's Draft Environmental Impact Reports were issued several weeks ago. Our requests for additional time to review both of these massive project's DEIR's were denied by the Planning Department. It appears that both projects are being fast-tracked to start construction as soon as possible which would mean that both projects will be under construction at the same time. If this occurs, the impact on Hollywood, the surrounding communities and LA in general could be significant and severe.

As a result, we are requesting that following the issuance of the Final Environmental Impact Report and in anticipation of both projects being under construction at the same time, that a combined study of both project's construction schedules, haul routes, transportation of workers and materials, public transportation around these projects and the timing of these be prepared for community input.

Sincerely yours,

Jim Van Dusen *
 Chair, Planning and Land Use Management Committee

George Skarpelos *
 President
