Subject: Hollywood Center Project

Dear Mr. Bullock,

Along with Councilman Ryu, my husband and I are NOT in favor of the Hollywood Canter Project, also known as the Millennium Project.

The California Geological Survey report makes it clear that there is the possible presence of an active earthquake fault strand at this site. How can any *responsible* city official or developer be in favor of building here? It's a selfish, greedy and foolish idea.

Thank you for registering our disfavor to those who need to know our concerns.

Best,

Susan and Robert Harmon
