Hi Meghan,

No worries. Here's the updated sheet.

Thanks,
Ryan

Hi Ryan,

Wait I lied, we also need the amounts that all the developments paid in the excel sheet. Sorry!

Hi Ryan,

Ya sorry that is what I meant. This list is great.

Adding additional development data isn't urgent but something we are interested in.

Hello Meghan,

There are no developments that have a value of 1 for dwelling units AND a value of 1 for second dwellings units. I'm attaching the data with developments that have a value of 1 for dwelling units OR a value of 1 for seconds dwelling units in case you can use it.

If you want to add another attribute to the development data, it's possible but it'll be a while. In the meantime, it's no big deal for me to generate these tailored reports. They're pretty quick.

Thanks,

Ryan

Hi Ryan,

Can you please generate an excel list of all the developments in QTS2 that have a value of 1 for "# of dwelling units" and "number of second dwelling unit" in the development details screen. It would be ideal that the # of dwelling units and second units be their own column if possible. We are trying to figure out how many cases that have been processed are ADUs.

Also, would it be possible to add a drop down list in the Development Details page for "Dwelling Unit Type" with options like, ADU, UDU, SFD, Duplex, Condo, Apartment, etc? Adding this info will hopefully eliminate the need to bother you in future if we encounter this type of request again.

Let me know if you have any questions. Thanks!
