What's up Eduardo,

I spoke to Roy about the signal last Friday. In concept, the new signal on Argyle should be ok. He wants me to reach out to the consultant so they can provide a justification of why a right turn reduction wasn't applied to their warrants, and just "clean it up" a little so we have solid justification before signing off on it...

Will they be preparing the TCR? It may be better for us to do it.

I'm free to talk about this Monday if you want. Feel free to call me on my cell!

Whats up brother,

I'll try and get you more OT for this project. I left you a voice message in regards to the email below.

I am in on Monday if you want to talk in the afternoon. If not, we can leave it for Tuesday or another day.

Thanks!

I believe the feasibility is there. At this point, we just wait for their official submittal to review. This is of course, after they secure a signed TCR from Bhuvan.

Mike,

The Traffic Consultant reached out to me to check the status for the two locations they are proposing striping changes. As you recall in our last project meeting (when the signalized alley was the topic of conversation), Tom Gaul & Miguel Nunez inquired if the proposed striping at both locations would be feasible per B-Permits. After the meeting, we had left off that you would be providing an answer.

Thanks Mike, I appreciate all your help.
