There are myriad reasons this development has been stopped year after year. Hollywood is overrun with multi-use luxury/retail Developments. We need sensible minds to take over. Gigantic towers that will be unsafe! The Earthquake fault line is only ONE bad thing. Unsafe density due to Traffic! Emergency response will be slow! Luxury housing instead of affordable (NOT LOW-INCOME... AFFORDABLE). Create affordable housing units to prevent even more homelessness!! Gleaming towers are not the answer.
