Hello Elva,

We are in the process of completing the Water Supply Assessment (WSA) Board Package for the Hollywood Center Project (Proposed Project). The Los Angeles Department of Water and Power (LADWP) requests that the Department of City Planning (Planning Department) confirm, by e-mail, the correct detailed scope (shown below) for the Proposed Project. Your scope confirming e-mail will be included as part of the WSA, and the confirmed scope will be used for calculating the water demand in the WSA.

LADWP received the WSA Request Letter for the Proposed Project on September 11, 2018. The scope considered in LADWP's water demand calculations, as received in the WSA Request Letter and from the Applicant team is as follows:

Existing uses to be Removed:

Existing to be Removed ¹	Quantity
Storage Building ²	1,237 sf

1. Existing to be removed also includes surrounding parking, which is assumed to have no water use. Existing Capitol Records Complex and Gogerty Building will not be affected.

2. The existing storage building currently used as a work space is assumed to have minimal regular water use.
