Hi Cheryl,

This case was filed Thursday of last week. It has yet to be transferred to our office from the counter. Also, this will be an EIR, so the process will be lengthy. We won't begin processing of the case until such time as we receive the documents necessary to begin the environmental review. So to answer his question, the first step is the EIR, which will take at least a year. The EIR process will need to run its course before we have any hearings. It's really speculative at this point to provide specific timelines.

Hi Cheryl. I was hoping you could provide some information/application info for the proposed Hollywood Center project, which is proposed near Hollywood and Vine near the Capitol Records Building. I am not sure of the exact address, other than the Capitol Records building is at [1750 N. Vine St.](#) I was also hoping you could provide a timeline about what's next for the project, i.e. hearings, EIR, etc. Please forward or let me know, and thank you very much, Ed.
