Luci, I just noticed that you are the same lead agency for the Crossroads Hollywood Project, so we would like to include that project also in our discussion.

Thanks,
Paul

Subject: AB 900-Hollywood Center Project

Hi Luci,

My name is Paul Jacobs and I work for the CA Senate Office of Research. I have been requested to investigate issues related to the CEQA streamlining bills such as AB 900 (Chapter 354/Statutes of 2011). I am looking at producing a report on these issues sometime in March of this year. For part of my investigation I would like to speak with all of the lead agencies for projects that qualified under AB 900 (or similar bills). Specifically related to the Hollywood Center Project, I would like to discuss and learn more about the following topics:

- Status of the project
- Experience with the concurrent preparation of the record
- Thoughts on the environmental benefits gained through the enhanced requirements

If possible, we would like to schedule a phone call with you to discuss this project in more detail. Could you provide us with your availability starting next week?

Thanks in advance for your assistance!
