Hi Paul,

I apologize for the delayed response. I would only add that the table on page 7 be edited to clarify that 6220 Yucca is "In Progress" rather than construction to commence in 2019. This may be problematic for anyone from the public reading this and taking this information as indication that we're further along on this project than we actually are.

Thank you,
Luci

Hi everyone,

Attached is a draft of my AB 900 report that you guys helped me out with. If you have time, would you mind taking a look at it for technical accuracy? I would also appreciate any feedback you might have on my conclusions and recommendations. I do recommend extending the timelines for posting on the website and certifying the record.

I also list my interviews in the appendix, so can you check your names and titles for accuracy too? Also let me know if I left anybody out that was on our phone call.

Any feedback would be great if you can get it to me by Thursday of this week.

Thanks again for your input and assistance with this project!
