**Subject:** Re: Millennium Project comments

---

Hi Lori,

Thank you for your email. Your comments have been received and will be included in the administrative record for the Hollywood Center Project EIR. Response to your comments will be provided in the Final EIR, for which you will be notified once available for public review.

Once the Final EIR is released, there will be a public hearing process for the related entitlements, at which time, I would advise that you provide any comments regarding non-CEQA related issues for the decision maker's consideration.

Please let me know if you have any questions in the meantime.

As there are no real and constructive changes to the plans that might avoid all previous objections I still think this is a destructive addition to the area. Ignoring all Hollywood history and creating an ugly, useless and expensive anthill adds nothing but problems for the area. The massive "dwellings" are beyond the budgets of most who live here and those who could afford it will find it ugly and inconvenient.

It's a no on every level! Hideous to look at, useful only to the investors and construction group, costly to the city and Hollywood stakeholders, destructive to the environment and designed to attract more and more homeless to the area. The increase in traffic problems, alone should be a disqualifer for this project!

No. No. No.
