Subject: Re: Proposed Hollywood Center Project.

Hi Diane,

Thank you for your email. Your comments have been received and will be included in the administrative record for the Hollywood Center Project EIR. Response to your comments will be provided in the Final EIR, for which you will be notified once available for public review.

Once the Final EIR is released, there will be a public hearing process for the related entitlements, at which time, I would advise that you provide any comments regarding non-CEQA related issues for the decision maker's consideration.

Please let me know if you have any questions in the meantime.

To whom it may concern,

This project is out of scale with this community. It's an abomination. There is already severe traffic flow issues in and around this area. It has on occasion taking 20 minutes to drive from Sunset to Franklin on Vine. There has been and should continue to be a height moratorium on structures in Hollywood, that of the height of the mast on the Capitol Records building.

It was already determined when the Millennium project tried to force its way into our community, that it was out of scale, problematic for safe traffic flow, and seismically dangerous. Please put a halt to these skyscrapers in Hollywood.

Thank you for your attention,

Diane Laskin
