Subject: Re: extension for comments on EIR - millenium/hollywood center project

Dear Barbara,

Thank you for your email. Your comments have been received and will be included in the administrative record for the Hollywood Center Project EIR. Please be advised, however, that no extension to the Draft EIR comment period has been granted at this time. Please also note that the City did not hold any public meetings relating to this Project during the comment period.

While we encourage that any comments related to the environmental document be made during the Draft EIR comment period so that they may be responded to in the Final EIR, we continue to collect general public comment at any time throughout the process. Any concerns that are not related to the environmental review portion of the Project may be reiterated at future public hearings and meetings to ensure that the decision-makers understand your concerns. As you are an interested party, you will be notified of when these hearings and meetings will take place.

Let me know if you have any further questions.

TO DAVID RYU AND HIS STAFF -- As a voting constituent of your district and a long-time Hollywood resident, I ask you to do whatever is possible to extend the date for comments on the EIR for this disaster of a project known as Hollywood Center or Millenium. The whole city has come to a standstill in the 45 days since the report was made available and, as I understand it, even the planning commission does not hold meetings as normally required because of the coronavirus. Yet this deadline ---- alone among almost every other deadline -- is not being extended. For example, the courts of appeal extended all briefing deadlines because of the virus situation, even though briefing does not require in-person meetings. There is no excuse except corruption for this deadline not to be extended. This whole project stinks to high heaven, as they used to say. The traffic mess alone that this project will cause is sufficient to have it be denied.

I urge you and anyone else involved to demand an extension for comments on this EIR . Thank you.
