Subject: Re: ENV-2018-2116-EIR

Hi William,

Thank you for your email. Your comments have been received and will be included in the administrative record for the Hollywood Center Project EIR. Response to your comments will be provided in the Final EIR, for which you will be notified once available for public review.

Once the Final EIR is released, there will be a public hearing process for the related entitlements, at which time, I would advise that you provide any comments regarding non-CEQA related issues for the decision maker's consideration.

Please let me know if you have any questions in the meantime.

This is a comment about the proposed Hollywood Center project
ENV-2018-2116-EIR

As a local tenant living on Yucca Street near the corner of Ivar Street this project would effect me greatly. I have enjoyed living here and working from home since 2014. As it stands currently the neighborhood is crowded and noisy, especially in the summertime when tourists abound. The idea of HC bringing in the amount of additional people proposed would be a disaster. It is already very difficult to cross the streets in this area without danger of being struck by a vehicle driven by someone unfamiliar with the neighborhood and distracted. Also, if those somewhat reasonable parking lots are gone it would be very difficult for anyone on a budget to visit, as street parking is severely limited. One of the nicest things which the lots provide, aside of course from parking, is a tremendous amount of glorious sunshine. This is what California is famous for and a key feature for tourism. The view of the HOLLYWOOD sign and the lovely hills where it sits will definitely be obstructed for many walking down the Boulevard, as well as the longtime tenants that live in original low profile buildings.

In conclusion I do Not consider this project a welcome addition to my neighborhood. The years of construction, noise and inconvenience for all residents and businesses would be unbearable to say the least. On top of all that, as a seasoned Set Designer and architecture buff I find the proposed project visually unappealing.

Thank you for your consideration, William Doig
