Hello.

I'm forwarding an email received by Vince.

Thank you.

Subject: Planned Towers by Capital Records
To:

I am emailing about my concerns on Case Number: ENV-2018-2116-EIR which is the plan to construct to huge towers by Capital Records. An area that is already congested.
How will this affect traffic patterns in the area? Especially near the argyle exit of the 101 which already gets back up even when it's not rushhour.

There is so many things about this project that is so wrong how can any member of the city approve of this. And would alter my view of ever voting for a member that did. First of all its way too big for the area. Second its on a fault line! Third its from a company that is losing money in their buildings in San Franciso. It is bring nothing to the neighborhood but a money pit. That building after this pandemic is going to sit empty and you all know it.

Thank you

Nelinda Palomino
