None of this can happen within the next two days.
Even if my neighbors were able to get it tomorrow, they need more than 24 hours to review.

They are older and do not have computers but are **very upset they cannot view the documents.**

Hello,

Per my original email, if special accommodations are needed, the individual may contact me directly. We can print and mail a copy to the requester or make one available for pick-up. The presentation will also become part of the Administrative Record and can be made available for duplication at any time.

Let me know if you have any other questions.

Hello,

As explained in my previous email, the Applicant's presentation will be accessible via a Shared Google Drive link also provided on the Meeting Agenda (https://tinyurl.com/shared-drive), at least 72 hours before the public hearing. In fact, it is available now under the 8/26 DAA/HOH Agenda folder. We invite you to follow along from your home device.

Let me know if you have any other questions.

How are the public participants going to be able to see the presentations made or the documents submitted by the applicants at the public hearing?   The notice says the entire hearing will be held telephonically.
