Subject:	Re: Hollywood Center Project

## Hi Lindse,

Thank you for your email. Your comments have been received and will be included in the administrative record for the Hollywood Center Project.

Regards,

I was at the meeting for three hours this morning but when it was my turn to talk I randomly had an anxiety attack and couldnt say everything I intended to say.

Here is what I meant to say at the meeting. Please add this to the record:

My name is Lindse Fletcher and I am a longtime Hollywood resident.

I fully opposed the Hollywood Center Project - as well as the Walk of Fame Plan. I appreciate council member Ryu for speaking up against this project. It is unfortunate Mitch O'farrell does not have community interests at heart and didn't even show up to this meeting.

These units will not be safe or affordable, they will ruin the skyline and create more traffic and pollution. With this project you are not in fact sending the message that "the city is for everyone" you are sending the message that the city is for the rich. District 13's median income is 25K a year - at that income "affordable apartments" for this group would average \$700 a month (1/3 monthly income). I dont think this new development will actually accommodate the price range or people in our district.

When Hollywood was designed it was stated that no building should be taller than Capital Records. Capital Records is a focal point of our cities skyline and it is important that it is preserved and not drawfed by repulsive cement high rises.

Additionally this project would block the views from people who cant afford to live in high rises - further gentrifying our community. These types of developments force out families who have been living here for a long time in favor of out of state residents. Please take care of the people who are already living here.

The only thing we need you to build in Hollywood is a safe public restroom- so people dont have to defecate in the streets. I have seen more human beings pooping in the streets of our district than I ever expected to see in one life time.

Also this building is on a fault line and WILL KILL PEOPLE.

Thanks.

-Lindse

Thank you for your email. The comment period for comments on the Draft Environmental Impact Report has closed, but we continue to accept general public comment up until a final decision is made on the Project. That said, your comments have been received and will be included in the administrative record for the Hollywood Center Project.

Let me know if you have any questions.

I am writing to oppose this project as it will obstruct views of the city for residents who do not live in high rise buildings.

Hollywood was never designed or intended to have buildings taller than Capital Records. The original design plan states this. Capital records is a focal point of our skyline and these luxury apartments will detract from the beauty of our city. As well as create more cement high rises that only rich people can afford.

Please stop running the skyline and turning our city into a concrete jungle. Preserve our skyline, preserve the original Hollywood City Plan and stop being ran by greed.

Lindse Fletcher District 13 resident 6036 Romaine Street 352-598-8935
