Dear Mindy Nguyen.

I noticed today you posted my email in the public record.

However it appears as though you forgot to include the attachment I included in my initial email. I'm sure this was just a simple mistake and you didn't mean to exclude important information submitted by the public from getting into the record, right?

Here it is again attached in this email. All 35 pages. Please include the entire body of this email and the 35 page attachment.

Hello.

At the conclusion of today's hearing you made a point to state how it is your contention that CGS participated in Millennium's trenching activity. I think you are mistaken on this and have not reviewed all of the documents.

Please see page 35 of the attached FER that shows **CGS** had incredibly brief and limited access to the site in general, and were **not permitted to take photos, notes or do any exploring.** Millennium and their consultants cancelled their future visit.

The public would appreciate if you didn't leave these key factors out when cheerleading for the developers.

Thanks.
