Hi Alek,

As that particular detail of the Project is not related to the contents of the Draft EIR, additional information would not typically be included in the Final EIR. However, I will forward your recommendation to the Applicant and recommend that you bring this up at the City Planning Commission meeting, where the initial decision on the entitlement requests will be considered, and to which specific design features would be more pertinent.

Let me know if you have any other questions.

Dear Mindy,

Thank you for the information.

I reviewed the documents; however, found nothing that would pertain to improving the sidewalks aesthetics -- specifically, installing \*decorative pavers\*.

Do you know whether the developer is considering Pavers - for the sidewalks adjacent to the property? (I believe, they certainly should be installed, considering it's a very prominent area and has high pedestrian activity).

Thank you.
