Subject: Re: More misrepresentations of the record in Millenium's illegal project

Hello,

Thank you for your email. These comments, along with your other comments. have been received and will be included in the administrative record for the Hollywood Center Project.

Please be advised that if you scroll to page 2-9 (Form 1) and page 2-16 (Forms 2 and 3), you will see that the boxes which apply to all of the commenters under each respective Form Letter No. are checked. Further, each column indicates what issues are raised in each respective letter. Therefore, if there is a box checked related to a certain category (i.e. Aesthetics, Air Quality, Cultural Resources, etc.), that is indicative of the fact that the commenter took issue, or had concerns or comments regarding one of those topics.

Regards,

Dear Mindy.

Not only are there several blank pages to the tables regarding letters from the public as seen in the attached, but you have not included an "OPPOSITION" column in your table.

This is more misleading information you are leaving out of the record to try and conceal just how much this project is rejected by the public and residents.

If you aren't going to include all of the opposition this proposal received, then you should also leave out the "support" column you included.

As usual, your department avoids the substance of the issues raised and pastes is favorite template text as predicted:

"No further response is required"

"no further response is warranted"

Please include this email in the administrative record
