Emails in the Daniel Schneiderei folder have not been updated since 2019. There have been multiple requests made since then to collect internal emails, yet none have been uploaded.

Luci Ibarra's folder has not been updated since April 2020.

Will Lamborn since March of 2020.

Again, there have been requests made since these dates for staff to send their correspondence to you for uploading into the record. Nothing has been uploaded.

On another topic I was wondering if you can please provide some details in regards to the data and information provided by the applicants that dates back to their first attempt at this build. Why would that data be acceptable and considered when that project was shut down by the courts and invalidated.

Thanks.

We are currently in the process of collecting internal emails from City staff those who may have correspondence regarding the Project. If you like, you can check back in with me in a week or two to see when those will be posted.

Regards,

Please also update Lucy Ibarra's folder as it does not reflect all of the communications that are a matter of public record.

Thank you.
