Subject: FW: Mill-005: HCP Announcement re Meeting Postponed

Dear Ms. Nguyen,

This is a follow-up to my phone call.

The email below has been circulating today and people are concerned and confused.

I wanted to confirm that the email below is an inaccuracy, and the hearing is still planned for this Thursday, October 15, sometime after 10:00 AM. There is an active link (it is hardly visible as white font at the top of the page.) The link will take you to the Hollywood Center Projects official site. However, it looks like it was a document originally 4/17/2020.

Once again, if you could please confirm that the hearing is happening.

Thank you,

Best,

Brian Dyer

HOLLYWOOD C E N T E R

Dear Supporters,

We are overwhelmed by the outpouring of support from friends and neighbors for our catalytic Hollywood project. As a strong supporter of our project, we wanted you to be the first to hear that we have agreed to delay the City Planning Commission hearing on the project. We have done so to allow the City sufficient time to ensure that the project is delivered consistent with the highest standards of seismic safety.

Nothing will make us prouder than finally having the opportunity to bring desperately needed affordable housing, public open space, well-paying jobs, and numerous other community benefits to Hollywood. We remain steadfast in our goal to bring forth a resilient and safe project that responds to the input and needs of community members like yourself.

We sincerely appreciate your continuing interest Hollywood Center and will be sure to keep you in the loop when the hearing is rescheduled. We remain unwavering in our vision to shape and deliver a program that responds to Hollywood's most pressing needs.

With regards,

- The Hollywood Center team
