Subject: Re: Millenium Project -- Geological trenching today

Hi Patricia,

Thank you for your email. It has been received and will be added to the administrative record for the Hollywood Center Project.

Moving forward, please direct any comments regarding this project to Jason McCrea and Alan Como, as they have been reassigned this case. They are cc'ed for your convenience.

Regards,

As you are aware, the Millennium Project appears to have begun trenching on the site.

Our community has been demanding open, transparent and proper trenching by neutral experts not paid by Millennium.

We are writing to request that your offices take immediate action—

[Enforce the August 2020 recommendation of LADBS to the Planning Department... and ensure that CGS geologists are present to observe the Millennium trenching, and verify the exploration results.](#)

This is an urgent matter that determines the earthquake safety of thousands of L.A. residents.

Thank you,

Patricia Peyser
