---

Alan,

Sorry I missed getting in touch with you today. Please give me a call tomorrow morning when you are available.

Thanks.

Hi Eddie,

Happy Holidays!

Please give me a call when you are available today.

Caltrans would like to be on the same page with the City before we meet with the developer and traffic consultant. I will find out Caltrans engineer's availability once we can move forward.

Thank you!

Alan Lin, P.E.

Alan / Miya,

We are understanding of your concerns regarding this project but we are also trying to be respectful of the project's request to have a meeting with our two agencies as soon as possible. That said, if there is an opportunity for us to have a small meeting between our two groups before the end of the month then we would be happy to do so, otherwise please let us know your earliest availability to meet with the project and we will reserve a conference room for the meeting.

Thank you for your consideration.

Regards.

Hi Alan,

We understand you would like to meet with us and we are still waiting for that meeting to be scheduled. That being said, our process is very transparent. I have worked on dozens of projects just like this with this consultant and all parties are very aware of what to expect from our review of a large project with impacts.

Wes

Hi Wes,

This project has a long history. Caltrans would like to meet with the City first before we schedule any meeting with the developer's team. Caltrans needs to know what's the City's plan on SB743 and threshold of significance, and methodology of preparing the traffic study on the State facilities, etc. If there is any issue, we would like to resolve it before we meet with developer's team. It is imperative that both agencies are on the same page to move this project forward to avoid any delay.

Thank you!
