**Subject:** Re. Hollywood Center construction, aka Millennium Project

---

Dear Minduy Nguyen,

I hope this email finds you well during these tumultuous times.

I am a resident of Hollywood/Beachwood Canyon, and have lived here for nearly 12 years. We have seen much change in Hollywood during that time, some good, some not good. The Hollywood Center project, aka Millennium Project, falls under "not good." I oppose the construction of this project, and am writing to express my opinion - as many other citizens have been urged to do, as well.

The traffic generated by such a huge project would overwhelm all the onramps to the 101 freeway. Beachwood Canyon Neighborhood Association shares that concern and is also well aware that this same traffic will clog all of the streets in Hollywood.

The project involves two multi-use towers 35 and 46 stories adjacent to and across the street from the Capitol Records Building. The issues that were present with that first rendition are the same with this new one. New name - same issues:

- Emergency Response: We know that such a monstrosity of a development will tap the already thin emergency response resources we now count on. Also, we are surrounded on three sides by parkland and need to know that the fire department can get up here and quickly.

- Traffic/Parking: Parking on every street near the development will be impacted and overflow cars will be driving up Beachwood in search for parking. Our parking situation is already a nightmare and these extra cars will only make it worse. Beyond that, all those extra cars will mean exiting the canyon in an emergency will only be more difficult.

- Infrastructure: Imagine the amount of water that will be siphoned off to support this development not to mention the sewer and other services.

Please consider these concerns, as expressed by tax payers of Los Angeles and Hollywood. Consider what is good, and best, for Hollywood and Los Angeles in the long term. This project is not that. There are a thousand other better ways to update Hollywood - this isn't it.

Thank you for your work and consideration of this urgent matter.

Sincerely,

Rebecca Waer
