Hollywood Center Project Concerns

Dear Ms. Nguyen:

I am a Hollywood property owner writing to ask that the public comment period on the *Hollywood Center Project* be extended for a minimum of 90 days after the City and State STAY AT HOME order has been lifted.

These are EXTENUATING CIRCUMSTANCES in that in-person meetings are not held, City Council and State Legislature meetings cannot be attended in person, travel by public transportation is a life threatening health risk, etc.

The proposed project itself must receive maximum examination in that it is similar to a project of the same developers in San Francisco that is presently SINKING because inadequate engineering and the Hollywood project is directly over the earthquake fault that has been designated by John G. Parrish, recently retired California State Geologist.

To risk safety and lives, both today and in the future, extension of the existing 45 day time is of the highest necessity.

Sincerely,

Aaron M. Epstein
