**Subject:** Hollywood Center Project

---

Hi Mindy,

I own a condo at 1645 Vine Street, Los Angeles 90028. I'm a bit concerned about the proposed Hollywood Center Project. First, I want to make it clear that I'm all for development in Hollywood. My concerns with the project are the height of the buildings and traffic. A) Hollywood has a fairly uniform look and feel to it. I don't think the proposed buildings fit with the community. They seem way too big and out of place. B) Traffic on Vine during peak hours is already a mess. What is the city planning to do about this? Construction and additional residents will only make this worse. Vine has 3 lanes going in each direction and a turning lane, yet traffic is often choked to one lane in each direction. Street parking is permitted 24/7 and takes up 1 lane. In addition, you have ride share vehicles frequently double parked waiting for passengers. Construction and adding additional residents with no change to the current traffic situation will be disastrous. Please take these comments into consideration as you work through the development planning process.
