Dear Mindy Nguyen,

I am writing today to support the proposed Hollywood Center project. After reviewing the proposal and its Draft Environmental Impact Report, I'm convinced that this project will be a benefit to the city of Los Angeles and Hollywood. The developers have addressed affordable housing component, carbon footprint, and historic preservation factors.

We are long time businessmen within Hollywood having been part of the Hollywood Chamber of commerce for over 25 years. Hollywood needs to continue to evolve and we feel this project will help Hollywood continue to prosper for the next 25 years.

The over \$1 billion in economic investment for Hollywood represents one of the largest private investments for the area. Thousands of prevailing wage jobs will be created, both during construction and once the project opens. Especially now, investment in our community is vital to creating jobs. And with unemployment increasing at historically high rates, these jobs are sorely needed. It was recently reported that less than half of Los Angeles County residents currently have jobs, with that number continuing to grow. Hollywood Center's positive impacts on job creation will make a meaningful difference for thousands of Angelenos currently out of work.
