RE: Extend Public Comment Period for Draft Environmental Impact Report
Hollywood Center Project (Case No. ENV-2018-2116-EIR)

Dear Ms. Nguyen:

It's my understanding that in spite of receiving many requests to extend the Public Comment Period for the Hollywood Center Project DEIR, the requests have been denied. I'm hopeful that perhaps by this date, that is no longer the case.

In light of the fact that this city and the entire country is in the midst of an unprecedented emergency that prohibits the gathering of citizens to conduct business and discussion face to face, such an action on behalf of the City of Los Angeles is appalling. While the city and the developer have considerable resources at their disposal, the citizens of this community must rely on their own limited, volunteer, resources with which to engage in such an important and time-consuming undertaking.

Surely, when this project has been underway for several years, an extension of time asked by the Hollywood United Neighborhood Council and Hollywood Heritage Inc., and other interested parties in which to reply during a national health emergency situation is not an unreasonable request.

This letter adds another voice to respectfully request the extension of time be granted.

Sincerely,

Nyla C. Arslanian
Editor
