Great, thanks.

OK, thanks. The client expects the DBS approval of the fault rupture study tomorrow. That will fit our timeline.

Thanks, Brad. We are doing a last check over the mailing lists (agency, radius, interested parties) as well as the NOP and enclosures. I'll let you know by either the end of the day today or first thing tomorrow.

Will,

I want to get ahead on as much as possible. Was the revised Agency List OK?

Thanks, Brad.

I also saw that you added scoping meeting information to the NOP on Dropbox. Please also provide PDFs of the NOP enclosures (Project Location Map, Conceptual Site Plan, 500-Foot Radius Map). In addition, we would need a Scoping Meeting Location map. On the Scoping Meeting Location map, please include where the surface parking is located.

Best,

Will,

Our publications manager made some slight changes to the agency list. He had some more current info. His edits are in track changes with notes.

Brad,

As part of the PDF proof, can you please also provide the Appendices? Once we get to the website upload, those would normally be either separate individual PDFs or a consolidated single PDF of all the appendices. My preference would be individual PDF files to make it easier to navigate.

Thanks,

Will

Will,

I uploaded a PDF proof of the IS. Didn't look like that was done yet.
