Hi Andrei,

The Project is consistent with 2012 and 2016 SCAG/RTP projections and is located in a Transit Priority Area (TPA).

Bradley,

The City's water demand projections in the most recently adopted LADWP's 2015 UWMP were developed based on the 2012 Regional Transportation Plan (RTP) demographic projections by the Southern California Association of Governments (SCAG). If the Project is consistent with the 2012 SCAG/RTP demographic projections, we are able to conclude that the Project's demand was included in the 2015 UWMP and Information from 2015 UWMP can be incorporated in the Project's water supply assessment.

Please answer the following questions that would allow us to proceed and complete the WSA:

1. Is the Project currently consistent with the 2012 SCAG/RTP demographic projections?
2. Is the Project currently consistent with the 2016 SCAG/RTP demographic projections?

Let me know if there are any questions. Thanks.

Andrei Tcharssov
