Hi Wes,

I've finished the draft for this letter. The PDF is attached & saved in the project folder, and the word doc is saved in the 2021 letters folder.

Regarding the LOS table on this, there were 4 intersections where one of the LOS got worse:

- Wilcox/Selma: AM went from level B to C
- Wilcox/Sunset: PM went from level C to D
- Cole/De Longpre: PM went from level C to D
- Wilcox/Fountain: AM went from level C to D

Included in the table was a queue length analysis, and none of the above concerns contributed to "unacceptable queue" (as defined by TAG). Because of this, I included in the letter the typical wording "DOT reviewed....adequately discloses operational concerns" in the circulation section.

Let me know if there are any changes or updates you'd like me to make!

Pete
