

1. Topics Discussion

- a. Summary
 - i. Group generally agreed on the proposed structure on policy board.
- b. Notes
 - i. Concept of desire lines/paths of desire as a nuance of connections, since they are not really planned but do impact how we connect to open space.
 - ii. Deconstruct concept of access – define/value/quantify/categorize
 - 1. Example: ADA requirements may not be applied the same to certain connection categories such as stairways.

2. Issue Discussion

- a. Summary and Top 3 Issues
 - i. Access
 - ii. Equity

3. Trends Discussion

- a. Table dialogue.

4. Goal Discussion

- a. Summary
 - i. Goal: Equitable access.
- b. Notes
 - i. This chapter is a 'catch-all' -- the fabric that weaves together all the other aspects of open space, including the human health and comfort of our community. This fabric must be celebrated and strengthened to enable the partnerships necessary to realize connectivity.
 - ii. Additionally, there was a need to further define the system of connections in order to address them as a hierarchy/network of contextualized priorities.
