**REQUEST FOR INFORMATION REGARDING RECREATIONAL AND PARK SERVICES FOR
THE 3600 WILSHIRE PROJECT IN THE CITY OF LOS ANGELES**

Dear Ms. Zacuto:

The following has been prepared in response to your request for Recreation and Parks information relative to the proposed 3600 Wilshire Project. This project proposes the development of 760 residential units and 6,359 square feet of commercial space on an approximately 4.2 acre site located at 3600 Wilshire Boulevard in the Wilshire Community Plan Area of the City of Los Angeles.

1. Which parks and recreational facilities would serve the proposed project?

The following Department of Recreation and Parks facilities are between 1 and 10 acres and so are classified as neighborhood parks and are located within a one-mile radius of the project site:

- Seoul Int'l Park, a 3.47 acre park located at 3250 W. San Marino Avenue.
- Shatto Recreation Center, a 5.45 acre park located at 3191 W. 4th Street.

The following Department of Recreation and Parks facility is between 10 and 50 acres and so is classified as a community park and is located within a two-mile radius of the project site:

- MacArthur Park, a 29.87 acre park located at 2230 W. 6th Street.

For additional information regarding facilities and features available in these parks visit our website: www.laparks.org.

2. Does the City have any plans to develop new parks or recreational facilities or expand existing parks or recreational facilities within a two-mile radius of the project site?

While the Department is currently in the process of implementing the 50 Parks Initiative, these are small pocket parks typically less than half an acre, often only one tenth of an acre, and have a service radius of one-half mile. None of these planned parks will be sited within a half mile of the project site.

3. What is the area's existing parkland acres-to-population ratio and what is the desired acres-to-population ratio?

The Wilshire Community Plan Area, within which the project is located, has a parkland acres-to-population ratio of neighborhood and community parks of 0.23 acres per 1,000 residents. The Public Recreation Plan, a portion of the Service Element of the City's General Plan, sets a goal of a parkland acres-to-population ratio of neighborhood and community parks of 4.0 acres per 1,000 residents.

Thank you for the opportunity to provide information relative to the proposed project's impact on recreation and park services. If you have any questions or comments regarding this information please contact Melinda Gejer, of my staff, at (213) 202-2602 or melinda.gejer@lacity.org.

Sincerely,

MICHAEL A. SHULL
