

TENTATIVE GRADING CALCULATIONS

The following information shall be submitted as part of all applications for Tentative Tracts, Parcel Maps and Private Streets when grading is in excess of 2,500 cubic yards/acre. Updates shall be provided, as required by the Advisory Agency, to reflect changes in grading totals during case processing.

The following parameters have been used in the estimate of total amounts needed to develop the proposed Tentative Tract Map, Parcel Map, Private Street, or Other.
