**SEC. 11.5.8. GENERAL PLAN REVIEW.
(Added by Ord. No. 184,745, Eff. 12/13/16.)**

A. Planning Areas. The City is hereby divided into 37 planning areas. Each planning area constitutes an area for which either a community plan, a district plan, or other portion of the Land Use Element of the General Plan has been adopted by the City. The boundaries of each planning area shall be those of the applicable adopted community or district plan, or other portion of the Land Use Element of the General Plan as they existed on enactment of this section. These boundaries may be only changed by amendment to the General Plan pursuant to the procedures set forth in Section 11.5.6 of this Code. No amendment to a plan for any of the 37 planning areas, including reduction in the number of such areas, changes in their respective boundaries, land uses permitted within or at any particular location in any such area, or any other material change, may be made until the completion of a comprehensive assessment of such proposed changes by the Planning Department to ensure that such changes do not:

1. Reduce the capacity for creation and preservation of affordable housing and access to local jobs; or
2. Undermine California Government Code Section 65915 or any other affordable housing incentive program; and

The changes must include a program to create and monitor an inventory of units within the Community Plan Area that are: subject to a recorded covenant, ordinance or law that restricts rents to levels affordable to persons and families of Lower or Very Low-Income; subject to the City Rent Stabilization Ordinance; and/or occupied by Lower-Income or Very Low-Income households.

B. Action on Proposed Amendments. The City Planning Commission shall receive the assessment by the Planning Department and shall by vote make a recommendation to accept or reject the amendment. The Commission's recommendation will be received by City Council and the Council shall vote to either accept or reject the proposed amendment. The current plans for the 37 planning areas shall remain in full force and effect until or unless the City Council votes to amend them in accordance with this section.

Commented [58]: No changes are proposed. A reference to these provisions has been added to Sec. 13B.1.1.E.1. (General Plan Adoption/Amendment; Standards for Review and Required Findings; General Plan Review) of Chapter 1A.

~~B. **Limitations.** The withdrawal of the application must be in writing and does not require the decision maker to concur. The withdrawal of the application shall be permanent and any associated authorization shall be void.~~

SEC. 11.5.10. WITHDRAWAL OF APPEAL. (Added by Ord. No. 177,335, Eff. 3/20/06.)

~~A. See Sec. 13A.2.8.D. (Appeals; Withdrawal of Appeals) of Chapter 1A of this Code. **Procedures.** The appellant(s) may withdraw an appeal of a determination made pursuant to the sections listed in Subsection C. below, provided that the withdrawal is filed with the Department at least fifteen days prior to the public hearing by the appellate decision maker or appellate body on the appeal subject to the following limitations.~~

~~B. **Limitations.** The withdrawal of the appeal shall be in writing and does not require the decision maker to concur. The withdrawal shall be filed with the Department. If the withdrawal of the appeal is received by the Department after the close of the original appeal period, the~~

~~Department shall notify the same persons who received notice of the decision that was appealed, that an appeal had been filed and was now withdrawn. The notice shall state that the appeal period is being reopened. The reopened appeal period shall run for ten days from the date the notice of withdrawal of the appeal is mailed. If more than one appeal was filed, the appeal period is not reopened unless the withdrawal of the appeal would result in no appeal going forward. The appeal period shall only be reopened once. If the withdrawal is received by the Department before any required public hearing notice has been mailed, then the time for the appellate body or appellate decision maker to act shall be extended for ten days. If the withdrawal is received by the Department after the public hearing notice has been mailed, then any appeal filed during the reopened appeal period shall be heard on the same date and time as set forth in the previously mailed public hearing notice and no further notice of the appeal hearing is required.~~

SEC. 11.5.11. AFFORDABLE HOUSING.
(Added by Ord. No. 184,745, Eff. 12/13/16.)

(a) Affordable Housing. To be eligible for a discretionary General Plan amendment pursuant to Subdivision B. of Section 11.5.6 of the Los Angeles Municipal Code or otherwise, or any zone change or height-district change that results in increased allowable residential floor area, density or height, or allows a residential use where previously not allowed, Projects with ten or more residential dwelling units shall meet one of the following on-site affordability provisions, or satisfy one of the alternative options in subdivision (b) and shall comply with the job standards in subdivision (i).

1. Rental Projects shall provide the following:

(i) No less than the affordability percentage corresponding to the level of density increase as provided in California Government Code Section 65915(f), inclusive of any Replacement Units; or

(ii) If the General Plan amendment, zone change or height district change results in a residential density increase greater than 35%, then the Project shall provide no less than 5% of the total units at rents affordable to Extremely Low Income households, and either 6% of the total units at rents affordable to Very Low

Income households or 15% of the total units at rents affordable to Lower Income households, inclusive of any Replacement Units; or

(iii) If the General Plan amendment, zone change or height district change allows a residential use where not previously allowed, then the Project shall provide no less than 5% of the total units at rents affordable to Extremely Low Income households, and either 11% of the total units at rents affordable to Very Low Income households or 20% of the total units at rents affordable to Lower Income households, inclusive of any Replacement Units.

2. **For-sale Projects** shall provide the following:

(i) No less than the affordability percentage corresponding to the level of density increase as provided in California Government Code Section 65915(f), inclusive of any Replacement Units; or

(ii) If the general plan amendment, zone change or height district change results in a residential density increase greater than 35% or allows a residential use where not previously allowed, then the Project shall provide no less than 11% of the total units at rents affordable to Very Low Income households, or 20% of the total units at rents affordable to Lower Income households, or 40% of the total units at rents affordable to Moderate Income households, inclusive of any Replacement Units.

3. **100% affordable.** Each residential unit in the Project, exclusive of a manager's unit or units, is affordable to, and occupied by, either a Lower or Very Low Income household.

4. **Projects with both for-sale and rental units.** When a Project includes both for-sale and rental dwelling units, the provisions of this Section that apply to for-sale residential development shall apply to that portion of the Project that consists of for-sale dwelling units, while the provisions of this Section that apply to rental dwelling units shall apply to that portion of the development that consists of rental dwelling units.

All Projects qualifying for development bonuses pursuant to this Section shall be required to meet any applicable replacement requirements of California Government Code Section 65915(c)(3).

A Developer seeking and receiving a density or development bonus under the provisions of California Government Code Section 65915 or any other State or local program that provides development bonuses shall not be eligible for the development bonuses pursuant to this Section. For purposes of this provision, development bonuses shall include discretionary General Plan amendments, zone changes, and height district changes.

(b) Alternative compliance options. A Project may satisfy the affordability provisions of this section through the following off-site options in lieu of providing affordable units on site:

Commented [61]: No changes are proposed. A reference to these provisions has been added to Sec. 13B.1.1.E.2. (General Plan Adoption/Amendment; Standards for Review and Required Findings; Affordable Housing) of Chapter 1A.

1. **Off-site Construction.** The affordability provisions of this Section may be satisfied by constructing off-site affordable units at the following rate:

(i) No less than the same number of on-site affordable units, at the same or greater mix of unit type and affordability levels as provided in paragraph (a), if constructed within one-half mile of the outer edge of the Project;

(ii) No less than 1.25 times the number of on-site affordable units, at the same or greater mix of unit type and affordability levels as provided in paragraph (a), if constructed within 2 miles of the outer edge of the Project;

(iii) No less than 1.5 times the number of on-site affordable units, at the same or greater mix of unit type and affordability levels as provided in paragraph (a), if constructed within 3 miles of the outer edge of the Project.

The off-site units created pursuant to this paragraph must be on a site that is zoned for residential development at a density to accommodate at least the number of otherwise required units; is suitable for development of the units in terms of configuration, physical characteristics, location, access, adjacent uses and other relevant planning and development criteria; and environmental review has been completed to the satisfaction of the City prior to acceptance of the site by the City. The development of off-site affordable units shall include integration of community space and services as required by the Housing and Community Investment Department for comparable affordable housing development. The first Certificate of Occupancy for the off-site units shall be issued prior to or concurrent with the first Certificate of Occupancy for the original Project. In no event shall the Certificate of Occupancy for the market rate units for the original project be issued prior to the Certificate of Occupancy for the affordable off-site units. Individual affordable units constructed as part of an off-site project under this Section shall not receive development subsidies from any Federal, State or local program established for the purpose of providing affordable housing, and shall not be counted to satisfy any affordable housing requirement for the off-site development. Other units in the same offsite project may receive such subsidies. In addition, subsidies may be used, only with the express written permission by the Department of Housing and Community Investment, to deepen the affordability of an affordable unit beyond the level of affordability required by this Section.

2. **Off-site Acquisition.** The affordability provisions of this Section may be satisfied by the acquisition of property containing At-Risk Affordable Units and converting the units to non-profit, Community Land Trust, and/or tenant ownership prior to issuance of the Certificate of Occupancy for the original Project. Prior to transferring ownership to a qualified entity, the At-Risk Affordable Units shall achieve a minimum of a C2 rating based on the Fannie Mae Uniform Appraisal Dataset Property Condition Ratings, as assessed and certified by the Housing and Community Investment Department (HCID), or as required by HCID to be completed by the Developer and subsequently certified by HCID. Any entity taking ownership of At-Risk Affordable Units pursuant to this Section shall record an affordability covenant, consistent with the provisions of subsection (d),

guaranteeing affordability to Lower or Very Low Income Households. The number of At Risk Affordable Units that must be acquired and converted to non-profit or tenant ownership under this subdivision shall be as follows:

(i) No less than the same number of on-site affordable units, at the same or greater mix of unit type and affordability levels as provided in paragraph (a), if acquired within one-half mile of the outer edge of the Project;

(ii) No less than 1.25 times the number of on-site affordable units, at the same or greater mix of unit type and affordability levels as provided in paragraph (a), if acquired within 1 mile of the outer edge of the Project;

(iii) No less than 1.5 times the number of on-site affordable units, and affordability levels as provided in paragraph at the same or greater mix of unit type if acquired within 2 miles of the outer edge of the Project.

3. In-Lieu Fee. The affordability provisions of this Section may be satisfied by the payment of a fee to the City in lieu of constructing the affordable units within the Project. The in lieu fee shall be determined by the City based on the following:

(i) The number of units equivalent to 1.1 times the required number of on-site affordable units pursuant to paragraph (a), in the same proportion of affordability, multiplied by the applicable Affordability Gap, as defined herein.

(ii) No later than 90 days from the enactment of this ordinance, the City shall produce a study identifying the Affordability Gap for rental and ownership units of each bedroom size (studio, 1 bedroom, 2 bedroom and 3 bedroom) for each required affordability level. For rental housing, the study shall collect and determine, by unit type and affordability level, the following information from recently completed affordable housing projects funded by the City's Affordable Housing Trust Fund: total development costs and operating expenses. The study shall also determine the amounts of permanent financing available based on restricted rents and prevailing interest rates. The difference between the total development cost and permanent financing amount shall be the Affordability Gaps per unit by unit type and affordability level. For ownership housing, the study shall identify the market median sales prices by unit type in the 37 Community Plan areas. It shall determine the restricted sales prices of for-sale units by unit type and affordability level. The difference between the market median sales price and the restricted sales price shall be the Affordability Gaps per unit by unit type and affordability level.

(iii) The City shall adjust the fee every two years, based on the results of a new Affordability Gaps study (as defined Section 5(b)(3)(ii)). An Affordability Gaps study, the proposed adjusted Affordability Gaps, and the adjusted fees shall be published within 2 years of the date that the original Affordability Gaps study is released, and consecutively thereafter by the date that is 2 years after the release

of the previous Gaps study.

The fee is due and payable to the Affordable Housing Trust Fund at the time of and in no event later than issuance of the first building permit, concurrent with and proportional to project phases. The Developer shall have an option to defer payment of all or a portion of the fee upon agreeing to pay a Deferral Surcharge, with the fee and the Deferral Surcharge due and payable at the time of and in no event later than issuance of the Certificate of Occupancy. The Deferral Surcharge will be assessed at the Wall Street Journal Prime Rate plus 200 basis points at the time such fee is due, at the issuance of the building permit. The Deferral Surcharge fee shall be deposited into the Affordable Housing Trust Fund and accounted for and used as provided in Section (c).

(c) Use of Funds. All monies contributed pursuant to this Section shall be deposited in the City's Affordable Housing Trust Fund. All funds collected under this Section shall be used in the following manner:

1. Except as provided in Subdivision (2) below, the funds collected under this Section shall be used to create and/or preserve housing affordable to Extremely Low-, Very Low-, and Lower-Income households.

2. The City shall designate and separately account for all Deferral Surcharge payments that it receives under this Section to support the creation and/or preservation of affordable housing within one-half mile of a Major Transit Stop ("TOC area"), with priority to TOC Areas where there is a demonstrated decline in units affordable to and/or occupied by Extremely Low, Very Low and/or Lower Income households. Use of the Deferral Surcharge funds shall include but not be limited to the following:

(i) Acquisition and/or remediation of land, and/or acquisition, construction, rehabilitation, and/or financing of housing units by a Community Land Trust or non-profit entity which guarantees perpetual affordability of these units for Extremely Low, Very Low and/or Lower-Income Households or a term of affordability of these units that has a duration of a minimum of 55 years.

(ii) Funding for proactive enforcement of the City's Rent Stabilization Ordinance.

Commented [62]: No changes are proposed. A reference to these provisions has been added to Sec. 13B.1.1.E.3. (General Plan Adoption/Amendment; Standards for Review and Required Findings; Alternative Compliance Options) of Chapter 1A.

Commented [63]: No changes are proposed. A reference to these provisions has been added to Sec. 13B.1.1.E.4. (General Plan Adoption/Amendment; Standards for Review and Required Findings; Use of Funds) of Chapter 1A.

(d) Continuing Affordability / Standards for Affordable Units.

1. All affordable rental housing units created or acquired pursuant to this Section shall be subject to an affordability covenant acceptable to the Housing and Community Investment Department, and recorded with the Los Angeles County Recorder, guaranteeing continuing affordability to the targeted income group for no less than 55 years. In addition, when units are acquired and conveyed pursuant to the Off-Site Acquisition option, the Developer and/or entity taking ownership of the units shall create and implement a plan to prevent involuntary displacement of current tenants. Affordable units provided under this Section shall be comparable to the market rate units in the

Project (or off-site location in the case of off-site affordable units) in terms of unit type, number of bedrooms per unit, quality of exterior appearance, energy efficiency, and overall quality of construction.

2. All for-sale housing units created pursuant to this Section shall be subject to an affordability covenant acceptable to the Los Angeles Housing and Community Investment Department, and recorded with the Los Angeles County Recorder, consistent with the for-sale requirements of California Government Code Section 65915(c)(2).

3. A longer term of affordability may be required if the Project receives a subsidy which requires a longer term of affordability. If the duration of affordability covenants provided for in this subsection conflicts with any other government requirement, the longest duration shall control.

(e) Developer Incentives. In addition to the requested General Plan amendments, zone changes and/or height district changes, a Project that provides affordable housing consistent with this Section shall also be entitled to three incentives or concessions specified in California Government Code Section 65915(k) or the applicable Affordable Housing Incentive Program.

(f) Processing. A Project that provides affordable housing consistent with this Section shall be entitled to review and processing by the Expedited Processing Section of the Planning Department dedicated solely to processing entitlements for such Projects with the goal of expediting such Projects.

(g) City Council Approved Adjustments to Affordable Housing Set-asides Contained Herein. The City may, by majority vote of City Council, adjust the affordable housing percentages set forth in this Section upon a showing of substantial evidence that such adjustments are necessary to maximize affordable housing while ensuring a reasonable return on investment for Developers.

(h) Waiver/Adjustment. Notwithstanding any other provision of this Section, the requirements of this Section may be waived or adjusted only if a Project applicant shows, based on substantial evidence, that compliance with its requirements would result in a deprivation of the applicant's constitutional rights. The applicant shall bear the burden of presenting substantial evidence to support the request and set forth in detail the factual and legal basis for the claim, including all supporting technical documentation.

In determining whether an applicant has presented substantial evidence to support the request for waiver/adjustment, if upon legal advice provided by or at the behest of the City Attorney, it is determined that applying the requirements of this Section would effectuate an unconstitutional taking of property or otherwise have an unconstitutional application to the property, the requirements of this Section shall be adjusted or waived only to the extent necessary to avoid an unconstitutional result. If an adjustment or waiver is granted, any change in the use within the project shall invalidate the adjustment or waiver. If it is determined that no violation of the United States or California Constitutions would occur through application of this Section, the requirements of this Section remain fully applicable.

Commented [64]: No changes are proposed. A reference to these provisions has been added to Sec. 13B.1.1.E.5. (General Plan Adoption/Amendment; Standards for Review and Required Findings; Continuing Affordability/ Standards for Affordable Units) of Chapter 1A.

The description of the development shall also include any feasible alternatives or any feasible mitigation measures available which would substantially lessen any significant adverse impact which the development may have on the environment. For purposes of this section the term "significant adverse impact on the environment" shall be defined as in the California Environmental Quality Act and the State and City Guidelines adopted pursuant thereto.~~

~~2. A description and documentation of the applicant's legal interest in the property on which the Development is to be located if the application were approved (e.g., ownership, leasehold, enforceable option, authority to acquire the specific property by eminent domain.)~~

(Amended by Ord. No. 175,691, Eff. 1/19/04.)

~~A. See Sec. 13B.9.2. (Coastal Development Permit (Post-Certification)) of Chapter 1A of this Code. **Requirement of a Coastal Development Permit.** A Coastal Development Permit issued by the City in conformance with the provisions of this section is required for all Coastal Development located within an area of the City covered by a certified local coastal program, unless the Coastal Development is exempted under Section 12.20.1 C., or the proposed project site lies completely within the Coastal Commission Permit jurisdiction, or the Coastal Commission previously issued a Coastal Development Permit for the Coastal Development. Coastal Development undertaken pursuant to a Coastal Development Permit shall conform to the plans, specifications, terms and conditions approved in the Permit. Amendments to these procedures are not effective until certified by the Coastal Commission.~~

~~**B. Definitions.** The following definitions shall apply to the Coastal Zone of the City within areas subject to certified Local Coastal Programs. Words and phrases not defined here shall be construed as defined in Section 12.03 or the California Coastal Commission regulations, if defined there.~~

~~**Appealable Area** shall mean the area identified in Public Resources Code Section 30603. The area that meets this criteria includes, but is not limited to, the area shown on the "Post LCP Certification Permit and Appeals Jurisdiction Map" certified by the Coastal Commission in accordance with the provisions of California Code of Regulations Title 14 Section 13576 and attached as an exhibit in each certified coastal specific plan.~~

~~**Appealable Development** shall mean, in accordance with Public Resources Code Section 30603(a), any development that constitutes a major public works project or a major energy facility, or any development located in the Appealable Area.~~

Commented [112]: Sec. 12.20.2.1 A. has been removed from Chapter 1 and added to Sec. 13B.9.2.A. and F. (Coastal Development Permit (Post-Certification); Applicability and Scope of Decision) of Chapter 1A. Sec. 12.20.2.1 A. now includes a reference to the new location of this process in Chapter 1A.

~~— **Categorically Excluded Development** shall mean a development, which is excluded from the Coastal Development Permit requirements pursuant to a categorical exclusion order adopted by the Coastal Commission that sets forth the specific categories of development that qualify for the exclusion within a specific geographic area, and which establishes that those categories of development in the specified geographic areas will have no potential for significant adverse effects, either individually or cumulatively on coastal resources or on public access to or along the coastline.~~

~~— **Coastal Bluff** shall mean the upper termination of a bluff, cliff, or seacliff. In cases where the top edge of the cliff is rounded away from the face of the cliff as a result of erosional processes related to the presence of the steep cliff face, the bluff line or edge shall be defined as that point nearest the cliff beyond which the downward gradient of the surface increases more or less continuously until it reaches the general gradient of the cliff. In a case where there is a steplike feature at the top of the cliff face, the landward edge of the topmost riser shall be taken to be the cliff edge. The termini of the bluff line, or edge along the seaward face of the bluff, shall be defined as a point reached by bisecting the angle formed by a line coinciding with the general trend of the bluff line along the inland-facing portion of the bluff. Five hundred feet shall be the minimum length of bluff line or edge to be used in making these determinations.~~

~~— **First Public Road Paralleling the Sea** shall mean that road nearest to the sea, as defined in Public Resources Code Section 30415, which:~~

- ~~— (a) is lawfully open to uninterrupted public use and is suitable for that use;~~

- ~~— (e) does, in fact, connect with other public roads, providing a continuous access system, and generally parallels and follows the shoreline of the sea so as to include all portions of the sea where the physical features, such as bays, lagoons, estuaries and wetlands cause the waters of the sea to extend landward from the generally continuous coastline.~~

~~— **Public Project** shall mean any development initiated by the Department of Public Works or any of its bureaus, any development initiated by any other department or agency of the City of Los Angeles, and any development initiated or to be carried out by any other governmental agency that is required to obtain a local government permit. Public Project shall also not include any development on tidelands, submerged lands, or on public trust lands, whether filled or unfilled.~~

~~(8) any improvement to a structure where the development permit issued for the original structure by the Coastal Commission indicated that any future improvements would require a Coastal Development Permit;~~

~~(9) any improvement to a structure that results in a Change in the Intensity of Use of the structure; and~~

~~(b) **Definitions.**~~

~~Acts~~ the Federal Fair Housing Amendments Act of 1988 and California's Fair Employment and Housing Act.

~~(4) Prior to the issuance of any permits relative to an approved reasonable accommodation, the Director may require the applicant to record a covenant in the County Recorder's Office acknowledging and agreeing to comply with the terms and conditions established in the determination. ~~(4) that the requested accommodation would not require a fundamental alteration in the nature of the City's land use and zoning program.~~

~~(f) **Applicability.** If the Director grants the request, the request shall be granted to an individual and shall not run with the land unless the Director determines that (1) the modification is physically integrated into the residential structure and cannot easily be removed or altered to comply with the Code or (2) the accommodation is to be used by another Individual with a Disability.~~

~~(g) **Notice.** Notice of the determination shall be provided to the applicant and to abutting owners of the property, which is the subject of the request for reasonable accommodation. ~~(h) **Appeal of Determination.**~~

~~(1) A determination by the Director shall be final unless appealed to the City Council within 15 calendar days of the date of mailing of the determination.~~

~~(2) Only the aggrieved applicant and abutting owners who received notice of the reasonable accommodation determination have a right to appeal the decision.~~

~~(3) An appeal shall be made in writing, pursuant to procedures established in Section 12.24 1.2. through 5. of this Code.~~

Section 71. Amend Subdivision 1 of Subsection W of Section 12.24. of Article 2 of Chapter 1 of the Los Angeles Municipal Code to read as follows:

1. The sale or dispensing for consideration of alcoholic beverages, including beer and wine, for consumption on the premises or off-site of the premises in the CR, C1, C1.5, C2, C4, C5, CM, MR1, MR2, M1, M2 and M3 Zones, or as an incidental business in or accessory to the operation of clubs, lodges, hotels or apartment hotels, or as an incidental business in or accessory to a conditional use approved pursuant to the provisions of this section, provided that:

(a) **Findings.** In addition to the findings otherwise required by ~~this section~~ Sec. 13B.2.2. (Class 2 Conditional Use Permit) of Chapter 1A of this Code, the Zoning Administrator shall make all of the following findings:

(1) that the proposed use will not adversely affect the welfare of the pertinent community;

(2) that the granting of the application will not result in an undue concentration of premises for the sale or dispensing for consideration of alcoholic beverages, including beer and wine, in the area of the City involved, giving consideration to applicable State laws and to the California Department of Alcoholic Beverage Control's guidelines for undue concentration; and also giving consideration to the number and proximity of these establishments within a one thousand foot radius of the site, the crime

rate in the area (especially those crimes involving public drunkenness, the illegal sale or use of narcotics, drugs or alcohol, disturbing the peace and disorderly conduct), and whether revocation or nuisance proceedings have been initiated for any use in the area; and

(3) that the proposed use will not detrimentally affect nearby residentially zoned communities in the area of the City involved, after giving consideration to the distance of the proposed use from residential buildings, churches, schools, hospitals, public playgrounds and other similar uses, and other establishments dispensing, for sale or other consideration, alcoholic beverages, including beer and wine.

(b) **Notice to Councilmember.** Whenever an application for a conditional use has been filed pursuant to this subdivision, the Zoning Administrator shall give notice of this fact promptly to the councilmembers whose districts include portions of the area of the City involved.

If that specific plan ceases to be operative, then a conditional use approval granted pursuant to the provisions of that specific plan for sale or dispensing may continue subject to the same rights and limitations as a conditional use granted pursuant to the provisions of this Section.

(d) **Existing Uses.** The use of a lot for an establishment dispensing, for sale or other consideration, alcoholic beverages, including beer and wine, for on-site or off-site consumption may not be continued or re-established without conditional use approval granted in accordance with the provisions of this Section if, after September 13, 1997, there is a substantial change in the mode or character of operation of the establishment, including any expansion by more than 20 percent of the floor area, seating or occupancy, whichever applies; except that construction for which a building permit is required in order to comply with an order issued by the Department of Building and Safety to repair or remedy an unsafe or substandard condition is exempt from this provision. (b) **Supplemental Findings. (Amended by Ord. No. 182,095, Eff. 5/7/12.)** In addition to the findings set forth in ~~Section 12.24 E. Sec. 13B.2.2.~~ (Class 2 Conditional Use Permit) of Chapter 1A of this Code, the Zoning Administrator shall find:

(1) that project approval will not create or add to a detrimental concentration of automotive uses in the vicinity of the proposed automotive use;

(2) that based on data provided by the Department of Transportation or a licensed traffic engineer, ingress to, egress from and associated parking of the automotive use will not constitute a traffic hazard or cause significant traffic congestion or disruption of vehicular circulation on adjacent streets;

(3) that any spray painting will be conducted within a fully enclosed structure located at least 500-feet away from a school or A or R zone, and that all spray painting will be conducted in full compliance with the provisions of Article 7, Chapter 5 of this Code, as well as South Coast Air Quality Management District Rules 1132 and 1151, regulating these installations; and

However, the floor area ratio for the unified development, when calculated as a whole, may not exceed the maximum permitted floor area ratio for the height district(s) in which the unified development is located.

(b) **Residential Density Transfer.** The transfer of residential density may be permitted for buildings which will comprise a unified mixed-use development in the C zones citywide or in the R5 zone within the Central City Community Plan Area, even if buildings on each individual parcel or lot would exceed the permitted density. However, the number of all dwelling units and guest rooms for the unified development, when calculated as a whole, may not exceed the maximum number permitted based on the minimum lot area per dwelling unit and guest room standards set forth in the zone(s) in which the unified development is located.

(c) **Definition.** A unified development for purposes of this subdivision shall mean a development which is:

(1) a combination of functional linkages, such as pedestrian or vehicular connections;

(2) in conjunction with common architectural and landscape features,

which constitute distinctive design elements of the development;

(3) is composed of two or more contiguous parcels, or lots of record separated only by a street or alley; and

(4) when the development is viewed from adjoining streets appears to be a consolidated whole.

(d) **Supplemental Finding.** In addition to the findings otherwise required by ~~this section~~ Sec. 13B.2.2. (Class 2 Conditional Use Permit) of Chapter 1A of this Code, before granting an approval, the Zoning Administrator shall find that the development, although located on separate parcels or lots of record, is a unified development as defined by this Subdivision.

(Class 2 Conditional Use Permit) of Chapter 1A of this Code, all persons with an ownership interest in the property requesting floor area ratio averaging, residential density transfer, or both, and all persons with mortgage interests, including those persons holding ground leases, must sign the application. A current title search shall be submitted with the application to ensure that all persons with an ownership interest in the property have signed the application.

(f) **Covenant.** If the Zoning Administrator approves the floor area ratio averaging or residential density transfer, then the applicants shall file a covenant running with the land with the Department of Building and Safety prior to the issuance of any building permits:

(1) guaranteeing to continue the operation and maintenance of the development as a unified development;

(2) indicating the floor area and, if applicable, density used on each parcel and the floor area and, if applicable, density potential, if any, that would remain;

(3) guaranteeing the continued maintenance of the unifying design elements; and

(4) specifying an individual or entity to be responsible and accountable for this maintenance and the fee for the annual inspection of compliance by the Department of Building and Safety, required pursuant to Section 19.11. of this Chapter.

(b) **Findings. (Amended by Ord. No. 182,095, Eff. 5/7/12.)** In addition to the findings set forth in ~~12.24 E. Sec. 13B.2.2. (Class 2 Conditional Use Permit)~~ of Chapter 1A of this Code, the Zoning Administrator shall find:

(1) that based on data provided by the City Department of Transportation or by a licensed traffic engineer, that ingress to and egress from the project will not create a traffic hazard or cause significant traffic congestion or disruption of vehicular circulation on adjacent streets; and

(iii) Buildings designated on the National Register of Historic Places, the California Register of Historical Resources, or the City of Los Angeles List of Historic-Cultural Monuments. (Class 1 Conditional Use Permit) of Chapter 1A of this Code, if the Adaptive Reuse Project is in the MR1, MR2, M1, M2 or M3 Zones inside the Downtown Project Area, then the Zoning Administrator shall:

A current title search shall be submitted with the application to insure that all required persons have signed the application.

If the Zoning Administrator approves the floor area averaging, then all owners of the property requesting floor area averaging and all owners of each lot contained in the unified Adaptive Reuse Project shall execute and record an affidavit. A copy of each executed and recorded affidavit shall be filed with the Office of Zoning Administration. Each affidavit shall run with the land, be approved by the Zoning Administrator prior to the issuance of any building permits, and shall guarantee the following: (1) The use of any floor area converted to dwelling units or joint living and work quarters shall be maintained and not changed; and (2) The number of these units or quarters approved by the Zoning Administrator shall not be increased.

(1) **Setback Requirements.** That the reduction in yards will not be materially detrimental to the public welfare or injurious to the adjacent property or improvements.

Commented [335]: Sec.12.24 X.28(a) has been amended to reflect the correct Code citations.

(2) **Additions to Structures Existing Prior to August 1, 2010.** That the increase in Residential Floor Area will result in a Building or Structure which is compatible in scale with existing Structures in the vicinity; and that the approval is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the vicinity.

(5) **Grading.**

(i) That Grading in excess of the absolute maximum Grading quantities listed in ~~Subparagraph (4) of Paragraph (f) of Subdivision 10. of Subsection C. of Section 12.21. Notching into hillsides is encouraged so that projects are built into natural terrain as much as possible.

(ii) That the increase in the maximum quantity of earth import or export will not lead to the significant alteration of the existing natural terrain, that the hauling of earth is being done in a manner that does not significantly affect the existing conditions of the Street improvements and traffic of the Streets along the haul route, and that potentially significant impacts to the public health, safety, and welfare of the surrounding community are being mitigated to the fullest extent feasible.

(6) **Off-Street Parking.** That the reduction of the parking requirements will not create an adverse impact on Street access or circulation in the surrounding neighborhood; and that the reduction will not be materially detrimental or injurious to the property or improvements in the vicinity in which the Lot is located.

(7) **Street Access.**

(i) That the vehicular traffic associated with the Building or

Structure will not create an adverse impact on Street access or circulation in the surrounding neighborhood; and

(ii) That the Building or Structure will not be materially detrimental or injurious to the adjacent property or improvements; and

(iii) That the Building or Structure will not have a materially adverse safety impact on the surrounding neighborhood.

(iv) That the site and/or existing improvements make strict adherence to ~~Paragraph (i) of Subdivision 10. of Subsection C. of Section 12.21. C.10.(i) of this Code Chapter~~ impractical or infeasible.

(c) **Procedures.** An application pursuant to this Subdivision 28. shall follow the procedures set forth in ~~Section 12.28 C.1., 2. and 3. Sec. 13B.2.1. (Class 1 Conditional Use Permit) of Chapter 1A~~ of this Code. The Zoning Administrator shall request the City Engineer to determine the effect of any import or export on the structural integrity of the public Streets and to determine the effect on public safety relative to Street alignment, width, and Grade.

In taking action on such ~~Zoning Administrator Determination Class 1 Conditional Use Permit~~, the Zoning Administrator shall impose conditions of approval to mitigate any detrimental effects of the hauling operations necessary to import or export earth, including but not limited to: limiting truck weight, length and/or speed; and other conditions of approval as may be necessary to ensure repair of damages to public Streets along the hauling route that may reasonably be expected to be caused by hauling operations. Y. Special Permission for Reduction of Off-Street Parking Spaces by the Director. (Amended by Ord. No. 173,492, Eff. 10/10/00.) A reduction in the number of off-street parking spaces required by Section 12.21, A.4. of this Chapter may be permitted by the Director as the initial decision-maker or by the Area Planning Commission as the appellate body. The procedures for decisions on these uses shall be the same as those for Variances as provided in ~~Section 12.27 B.~~ Sec. 13B.5.3. (Variance) of Chapter 1A of this Code in addition to those set out below, except that the initial decision-maker shall be the Director, there is only one level of appeal and the findings necessary to grant the reduction shall be that the action is in conformity with the public necessity, convenience, general welfare and good zoning practice and that the action will be in substantial conformance with the various elements and objectives of the General Plan.

If the Director finds that a commercial or industrial building is located on a lot not more than 1,500 feet distant from the portal of a fixed rail transit station, or bus station, or other similar transit facility, then the required number of parking spaces for that commercial or industrial building shall be decreased by ten percent of the number otherwise required by Section 12.21, A.4.(c) of this Chapter. If the Director makes this finding, then no more than 90 percent of the parking spaces required by Section 12.21, A.4.(c) of this ~~subdivision~~ Chapter are required to be provided on the lot. The 1,500-foot distance shall be measured as specified in Section 12.21 A.4.(g) of this Chapter. A portal shall be defined as the street-level entrance, exit or escalator of a transit station.

A station may be used as the basis of a reduction if the Director decides that it is currently in use; that a full funding contract for a proposed station's location and portals have been signed by all funding partners; or that a resolution to fund a preferred alignment has been adopted by the Los Angeles County Transportation Commission by a resolution detailing specific stations and portal locations. Before approving a parking reduction application filed pursuant to this subdivision, a Director shall find that the surrounding area will not be adversely affected by overflow parking or traffic congestion originating or terminating at the lot, and that the reduction will not otherwise be materially detrimental to the public welfare or injurious to the properties or improvements in the surrounding area.

In the following cases, an application pursuant to this subsection shall be set for public hearing and notice shall be given pursuant to ~~Section 12.27 C.~~ Sec. 13B.5.3. (Variance) of Chapter 1A of this Code:

- (i) when it can reasonably be anticipated that approval of the application could have a significant adverse effect on adjoining properties or on the immediate neighborhood; or

(ii) when the application is likely to evoke public controversy. In all other cases an application pursuant to this subdivision need not be set for public hearing, unless the Director determines that a hearing would further the public interest.

A copy of each application shall be promptly submitted to the Councilmember of the district in which the property is located.

Section 82. Amend Subsection Z of Section 12.24. of Article 2 of Chapter 1 of the Los Angeles Municipal Code to read as follows:

The City Planning Commission may delegate its authority in this matter to the Director.

~~1. **Hearing and Decision.** After the hearing, the Area or City Planning Commission or the Director may revoke, temporarily suspend or impose further restrictions on the conditional use or other similar quasi-judicial approval. An appeal from this revocation action may be taken to the City Council in the same manner prescribed in Subsection I. The City Council's decision on appeal shall be reviewable as an approval of a conditional use or other similar quasi-judicial approval in the manner prescribed in Subsection I.6.~~

~~After revocation, the property affected shall be subject to all the regulations of the zone in which the property is located, as provided in this article.~~

~~2. **Fees.** A fee as set forth in Section 19.01 of this Code shall be paid to the City within 30 days of the effective date of the decision by the Director or Area or City Planning Commission. The wording has been revised to reflect the change in decision maker from Director to Zoning Administrator. The Area Planning Commission is no longer an initial decision maker on any conditional use, and therefore not an initial decision maker on the Evaluation of Non-Compliance. The appellate public hearing notification requirements for notice by mail have been changed from 24 days to 21 days, 500 feet to 300 feet, and mail notification to the Certified Neighborhood Council representing the area in which the subject property is located is now required.

Any action granting a modification shall be recorded and entered in the files of the Department.~~

6. **ENFORCEMENT.** Applicants shall execute and record a Covenant and Agreement that the trip reduction features required by this ordinance will be maintained, that required material specified in Subdivision 3 (a) (1)-(5) will be continually posted, and that additional carpool/vanpool spaces within the designated preferential area will be signed and striped for the use of ridesharing employees based on demand for such spaces. bureau of the City at the public counter of the Department of City Planning. The filing of an appeal stays, with respect to that site, all enforcement proceedings and actions pertaining to Chapter I of this Code and other land use ordinances pending the Director's decision. However, the filing of an appeal will not prevent the issuance of a building permit or performance of work authorized by the permit when all Code and other land use requirements have been met to the satisfaction of the Department of Building and Safety, and only after consideration of the issues set forth in the appeal to the Department of Building and Safety made pursuant to Section 98.0403.2(a). In no case shall the filing of an appeal delay enforcement proceedings or actions related to the abatement of imminent life safety hazards.

~~2. **Filing of an Appeal.** The appeal shall be filed at the public counter of the Department of City Planning on a form prescribed by the Department within 15 days after the Department of Building and Safety has rendered a decision in writing providing justification and findings on the issues set forth in the appeal made pursuant to Section 98.0403.2(a). The appeal to the Director must be accompanied by a written copy of the decision of the Department of Building and Safety, and any written copy of the underlying order, interpretation, requirement, determination or action taken on the matter by the Department of Building and Safety. The appellant shall set forth specifically how there was error or abuse of discretion in the action of the Department of Building and Safety. Each appeal shall be accompanied by a filing fee as specified in Section 19.01 B. of this Code. **(Last Sentence Amended by Ord. No. 181,141, Eff. 5/16/10.)**~~

The Department shall mail the notice at least 15 days prior to the hearing.~~

The Director, as part of the determination, shall make a finding regarding whether the matter may have a Citywide impact. ~~6. **Appeals of Director's Decision.** An applicant or any other person aggrieved by a decision of the Director may appeal that decision to the City Planning Commission on a matter that the Director found may have a Citywide impact, or may appeal to the Area Planning Commission if the Director found the matter may not have a Citywide impact.~~

~~An appeal shall set forth specifically the points at issue, the reasons for the appeal, and the basis upon which the appellant claims there was error or abuse of discretion by the Director. The appeal shall be filed within 15 days of the date of mailing of the initial decision on forms provided by the Department. Any appeal not filed within the 15 day period shall not be considered by the Area Commission or the City Planning Commission. The filing of an appeal stays, with respect to that site, all enforcement proceedings and actions pertaining to Chapter 1 of this Code and other land use ordinances until a decision by the Area Planning Commission or the City Planning Commission, except as set forth in Subdivision 1. above. Once an appeal is filed, the Director shall transmit the appeal and the file to the Area Planning Commission or the City Planning Commission. Notice shall be mailed at least 24 days prior to the hearing. When considering an appeal from the decision of the Director, the Area Planning Commission or the City Planning Commission shall make its decision setting forth how there was error or abuse of discretion by the Director.~~

~~8. **Time for Appellate Decision.** The Area Planning Commission or the City Planning Commission shall act within 75 days after the expiration of the appeal period or within any additional period as may be agreed upon in writing by the applicant and the Area Planning Commission or the City Planning Commission. The failure of the Area Planning Commission or the City Planning Commission to act within this time period shall be deemed a denial of the appeal from the Director's action.~~

~~9. **Appellate Decision.** In considering an appeal, the Area Planning Commission or the City Planning Commission shall be subject to the same limitations as are applicable~~

Commented [396]: Sec. 12.27 B has been removed from Chapter 1 and added to Sec. 13B.5.3.D.1. and 2. (Variance; Decision; General Procedures and Decision Maker) of Chapter 1A. The decision maker's ability to approve, conditionally approve, or disapprove an application is addressed by the General Procedural Elements referenced in Sec. 13B.5.3.D.1.

~~The Zoning Administrator may set the variance for hearing even though a public hearing is not otherwise required, if the Zoning Administrator determines that it would be in the public interest. In that event, notwithstanding the notice requirements below, notice of the public hearing shall be mailed to the owners of all properties abutting, across the street or alley from or having a common corner with the subject property.~~

~~When a public hearing is required by this Code for an application for a variance, evidence shall be taken at that hearing and notice of the time, place, and purpose of the hearing shall be given:~~

~~1. by mailing a written notice at least 24 days prior to the date of the hearing to the owner or owners of the property involved, and to the owners of all property within and outside of the City that is within 500 feet of the exterior boundaries of the property involved, using for the purpose of notification, the last known name and address of owners as are shown on the records of the City Engineer or the records of the County Assessor; and (Amended by Ord. ~~4. that the granting of the variance will not be materially detrimental to the public welfare, or injurious to the property or improvements in the same zone or vicinity in which the property is located; and~~

~~5. that the granting of the variance will not adversely affect any element of the General Plan.~~

~~A variance shall not be used to grant a special privilege or to permit a use substantially inconsistent with the limitations upon other properties in the same zone and vicinity. The Zoning Administrator may deny a variance if the conditions creating the need for the variance were self imposed.~~

~~Upon making a decision, the Zoning Administrator shall transmit a copy of the written findings and decisions to the applicant, the Director of Planning, the Department of Building and Safety, owners of all properties abutting, across the street or alley from, or having a common corner with the subject property and to all persons who have filed written requests for this notice with the Office of Zoning Administrator. The appeal shall be filed in the Department of City Planning on a form provided by the Department, and shall set forth specifically the points at issue, the reasons for the appeal, and the basis upon which the appellant claims there was an error or abuse of discretion by the Zoning Administrator. **SEC. 12.27.1. ADMINISTRATIVE NUISANCE ABATEMENT PROCEEDINGS.
(Amended by Ord. No. 180,409, Eff. 1/18/09.)**

~~**A.** See Sec. 13B.6.2. (Nuisance Abatement/Revocation) of Chapter 1A of this Code. **Purpose.** It is the intent of this section to consolidate a number of existing code provisions relating to the administrative abatement of public nuisances, and revocations, rescissions, discontinuances or modifications of discretionary zoning approvals. In addition, this section also sets forth procedures allowing the Director to modify or remove conditions imposed as a result of nuisance abatement proceedings; to enforce conditions imposed as part of any discretionary zoning approval; and to require that the cost of a proceeding instituted pursuant to this section be paid by those responsible for the maintenance and operation of the subject use.~~

~~These provisions allow the City's zoning authorities to protect the public peace, health and safety from any land use which becomes a nuisance; adversely affects the health, peace or safety of persons residing or working in the surrounding area; or violates any land use related condition imposed pursuant to this chapter or other provision of law, while protecting the constitutional rights of the parties involved.~~

~~**B. Authority.** Notwithstanding any other provision of this Code to the contrary, the Director may require the modification, discontinuance or revocation of any land use or discretionary zoning approval if it is found that the land use or discretionary zoning approval as operated or maintained:~~

~~1. Jeopardizes or adversely affects the public health, peace, or safety of persons residing or working on the premises or in the surrounding area; or~~

~~2. Constitutes a public nuisance; or~~

~~3. Has resulted in repeated nuisance activities, including, but not limited to, disturbances of the peace, illegal drug activity, public drunkenness, drinking in public, harassment of passersby, gambling, prostitution, sale of stolen goods, public urination, theft, assaults, batteries, acts of vandalism, loitering, excessive littering, illegal parking, excessive loud noises (especially in the late night or early morning hours), traffic violations, curfew violations, lewd conduct, or police detentions and arrests; or~~

~~4. Adversely impacts nearby uses; or~~

~~5. Violates any provision of this chapter; or any other city, state, or federal regulation, ordinance, or statute; or~~

~~6. Violates any condition imposed by a prior discretionary land use approval including approvals granted pursuant to Sections 12.24, 12.27, 12.28, 12.32 or 14.00 of this Code; or an approval initiated by application of a property owner or owner's representative related to the use of land including, but not limited to, parcel map, tentative tract map, coastal development permit, development agreement, density transfer plan, exception from a specific plan, and project permit pursuant to a moratorium or an interim control ordinance.~~

~~**C. Procedures: Notice, Hearings and Appeals.** The Director shall give notice to the record owner and lessee(s) of the real property affected to appear at a public hearing at a time and place fixed by the Director and show cause why the land use or discretionary zoning approval should not be modified, discontinued, or revoked.~~

~~1. **Notice.** A written notice shall be mailed not less than 24 calendar days prior to the date of hearing to the owner and lessee(s) of the property involved, and to the owners of all property within and outside of the City that is within 500 feet of the exterior boundaries of the property involved, using for the purpose of notification the last known name and~~

If all property within the 500 foot radius is under the same ownership as the property involved in the proceeding, then the owners of all property which adjoins that ownership shall be included in this notification. Written notice shall also be mailed to residential, commercial and industrial occupants of the property involved, and all property within 500 feet of the exterior boundaries of the property involved. This requirement can be met by mailing the notice to "occupant". If this notice provision will not result in notice being given to at least 20 different owners of at least 20 different lots other than the subject property, then the 500-foot radius for notification shall be increased in increments of 50 feet until the required number of persons and lots are encompassed within the expanded area. Notification shall then be given to all property owners and occupants within the expanded area.~~

Conditions imposed may include the establishment of amortization schedules, the closure or removal of buildings or structures, and affect the establishment, maintenance, or operation of the subject use, and related land uses, buildings, or structures.~~

~~Whenever the Director initiates an action pursuant to this section he or she shall impose a condition requiring payment of the fee set forth in Section 19.01 P. of this Code (fee condition) to cover the City's costs in processing the matter. A fee is not required if the Director finds that the operation of the land use does not create a nuisance or that the property owner, business operator or person in control, is in substantial compliance with the conditions of operation. The fee condition shall further provide that if the decision is not appealed, then the fee shall be paid in full to the City with confirmation of the payment being provided to the Director within 30 days of the decision date. If an appeal is filed and the decision of the Director is upheld on appeal, then the fee shall be paid in full with confirmation made to the Director within 30 days of the effective date of the decision. If the Council reverses in total the decision of the Director, then no payment of fees other than the appeal fee specified in Section 19.01 P. shall be required.~~

(ii) There are exceptional circumstances or conditions applicable to the subject property involved or to the intended use or development of the subject property that do not apply generally to other properties in the CPIO District and/or Subarea;

(iii) An exception from the CPIO regulation is necessary for the preservation and enjoyment of a substantial property right or use generally possessed by other property within the CPIO District and/or Subarea in the same zone and vicinity but which, because of special circumstances and practical difficulties or unnecessary hardships, is denied to the property in question;

(iv) The granting of an exception will not be detrimental to the public welfare or injurious to the property or improvements adjacent to or in the vicinity of the subject property; and

(v) The granting of an exception will be consistent with the principles, intent and goals of the CPIO District and/or Subarea and any applicable element of the General Plan.

Instead of the findings set forth in Sec. 13B.4.5. (Project Exception) of Chapter 1A of this Code, the Area Planning Commission may permit an exception from a CPIO regulation concerning signage if it makes all the following findings:

(i) Strict compliance would result in practical difficulty or unnecessary hardship inconsistent with the purposes of the zoning restrictions due to unique existing physical circumstances on the subject property;

(iii) The exception would not constitute a special grant of privilege.

Average Natural Slope. (Amended by Ord. No. 179,035, Eff. 9/17/07.) The average of the ungraded slopes at selected contours within a given parcel of land divided by its area as computed from either the City's Engineer's topographic maps or a topographic map prepared by a California registered civil engineer or California licensed land surveyor. Regardless of which map is used, calculations cannot be derived or interpolated from a map that originally had contour intervals of greater than 25 feet for subdivisions or greater than five feet for parcel maps. Average natural slope shall be computed by the following formula:

$$S = \frac{C \times L}{A} \times 100$$

Where: S = average natural slope in percent.

C = contour interval in feet, at no greater than 25-foot intervals for subdivisions or five-foot intervals for parcel maps, resulting in at least five contour lines.

L = total accumulated length of all contours of interval "C" in feet.

A = the area being considered in square feet.

Slopes may be computed only by the entire subdivision or parcel map area. The calculation "L" (contour lengths) and "A" (area in square feet) can be computed by 500-foot grid increments, as shown on the City Engineer's topographic maps. The "L" for each grid increment must be added to the "L" for every other grid increment and the "A" for each grid increment must be added to the "A" for every other grid increment to determine the "L" and the "A" for the entire subdivision or parcel map, prior to calculating the average natural slope for that subdivision or parcel map. In any matter where the average natural slope is used to calculate density pursuant to Sections 17.05 (Design Standards) or 17.50 (Parcel Maps – General Provisions) of this Code Chapter, the subdivision file shall contain copies of all maps and all calculations so that the figures can be verified. All maps and all calculations are required to be submitted at the time of the filing of a subdivision application or the application is deemed incomplete.

And shall have the authority to grant deviations of no more than 20 percent from the applicable area, yard, and height requirements. The subdivider must ask for adjustments at the time of filing. In permitting adjustments, the Advisory Agency shall make the findings contained in ~~Section 12.28 C.4 Sec. 13B.5.2. (Adjustment)~~ of Chapter 1A of this Code. **(Added by Ord. No. 176,321, Eff. 1/15/05.)**

No. 177,103, Eff. 12/18/05.)**~~

Commented [630]: This unnumbered paragraph of Sec. 17.03 A. has been removed from Chapter 1 and added to Sec. 13B.7.3.D.5. (Tentative Tract Map; Decision; Condition Consistency) of Chapter 1A.

1, Article 7 of this Code.

The Advisory Agency shall require, as a condition of approval of any tentative tract map or preliminary parcel map showing one or more air space lots, that the final map or parcel map showing such air space lots be based upon a site plan which accurately describes the location of such lots. After recordation of such map and upon construction of the buildings or structures within the air space lots, if it is determined by the Department of Building and Safety that there are minor discrepancies between the site plan and the actual physical location of the air space lots in such buildings or structures, lot lines for the air space lots may be adjusted as necessary through the parcel map exemption procedure set forth in Los Angeles Municipal Code Section 17.50B3c.

SEC. 17.05. DESIGN STANDARDS.

A. Street Standards Committee. There is hereby created a Street Standards Committee (Committee) to be composed of the Director of Planning, as Chair, the City Engineer and the General Manager of the Department of Transportation, or their designees. (Amended by Ord. No. 184,718, Eff. 3/4/17.)

This Committee shall:

1. Recommend to the Commission minimum width and improvement standards for all classes of public and private streets and alleys. The Commission shall adopt such minimum width and improvement standards as it determines are necessary for the safe and adequate movement of pedestrians, bicyclists, transit service and vehicular traffic, the increased retention and detention of stormwater, the installation of necessary utilities and for reasonable and proper access to abutting properties. Such standards shall not be applicable to any street or alley for which the City Council, by ordinance, adopts specific standards.

2. Modify the Complete Street Design Guide (CSDG) on an as-needed basis to align the CSDG with current and innovative street design practice.

B. Adoption of Standards. A public hearing shall be conducted by the Commission prior to the approval of any change in the standards, pursuant to the procedures in Sec. 13B.1.5. (Policy Action) of Chapter 1A of this Code. (Amended by Ord. No. 184,718, Eff. 3/4/17.)

C. Conformance To General Plan. Each Tentative Map shall be designed in compliance with the zoning applying to the property or approved by the City Council for change or shall be subject to a condition requiring compliance with such zoning prior to the recordation of the final map. (Amended by Ord. No. 156,960, Eff. 8/27/82.)

In addition, where a Tentative Map involves land for which a General Plan including dwelling unit densities has been adopted by the Council, and said land is also in an "H" Hillside or Mountainous Area established by Article 2 (Specific Planning – Zoning Comprehensive Zoning Plan) of this Chapter, the number of lots on said map shall be limited so that the number of dwelling units permitted by the applicable zoning regulations shall not substantially exceed the

Commented [634]: Sec. 17.04 has been removed from Chapter 1 and added to Sec. 13B.7.1.D. (General Provisions; Subdivision Committee) of Chapter 1A. This Section now includes a reference to the new location of these provisions in Chapter 1A.

Commented [DCP635]: No changes are proposed.

Commented [636]: Sec. 17.05 B. has been amended to cite the new location of the applicable process in Chapter 1A.

dwelling unit densities shown on said plan. **(Amended by Ord. No. 149,402, Eff. 4/18/77.)**

Each Tentative Map shall substantially conform to all other elements of the General Plan. In computing the number of dwelling units, only the area being designated for residential use and land that is being dedicated for public uses shall be considered, excepting, however, land set aside for street purposes, or land required to be dedicated for park and recreation purposes pursuant to Ordinance 141,422. However, in the Greater Downtown Housing Incentive Area, the area used for computing the allowable floor area of a residential (including Apartment Hotel or mixed-use) building shall be the lot area including any land to be set aside for street purposes. **(Amended by Ord. No. 179,076, Eff. 9/23/07.)**

In Hillside Grading Areas, as defined in ~~Chapter 4 of the Los Angeles Municipal Code~~ Section 17.05 (Definitions) of this Article, which are designated in the Minimum Density housing category by the applicable element of the General Plan adopted by the City Council, the dwelling unit density shall not exceed that allowed by the following formula: **(Paragraph and following formula Amended by Ord. No. 179,035, Eff. 9/17/07.)**

$$D = \frac{50 - S}{35}$$

Where : D = the maximum number of dwelling units per gross acre allowable, and
S = the average natural slope of the land in percent.

Where the total allowable number of dwelling units per parcel map or tentative tract map calculated under the above formulas results in a number other than a whole number, it shall be rounded to the nearest whole number as follows: where the fractional portion of the total allowable number of dwelling units equals .5 or more, the total number of allowable dwelling units shall be rounded to the next larger whole number; where the fractional portion of the total allowable number of dwelling units equals less than .5, the total number of allowable dwelling units shall be rounded to the next smaller whole number. **(Added by Ord. No. 162,144, Eff. 5/11/87.)**

In no case shall the permitted density be less than 0.05 dwelling units per gross acre. Where the total allowable number of dwelling units per tentative tract map calculated under the above formula results in a number less than one, it shall be rounded up to allow one dwelling unit per tentative tract map. Where previous grading on a site makes it difficult to determine average natural slope using the above formula, the Director of Planning shall determine the average natural slope in a manner to carry out the purpose and intent of this Subsection. **(Amended by Ord. No. 179,035, Eff. 9/17/07.)**

Commented [637]: Sec. 17.05 C. has been amended to include additional citation information.

D. Streets.

1. **Right-of-Way and Roadway Widths.** All streets and alleys shall be designed to conform with the Commission's adopted standards. The requirements and exceptions set forth in Section 12.37 (Highway and Collector Street Dedication and Improvement), however, shall apply. **(Amended by Ord. No. 184,718, Eff. 3/4/17.)**

2. **Street Grades.** Grades of all streets shall be as flat as consistent with adequate surface drainage requirements and the approved development of the proposed subdivision. The minimum grade permitted shall be four-tenths of one per cent, except in extremely flat areas where a grade of two-tenths of one per cent may be used. The maximum grade permitted for major and secondary highways shall be six per cent, except where a grade not to exceed ten percent will eliminate excessive curvature, fill or excavation. The maximum grade permitted for collector streets shall be ten per cent and for local streets shall be 15 per cent. Variations from these requirements may be granted by the Advisory Agency upon recommendation by the City Engineer in individual cases in accordance with the provisions of Section 17.11.

Changes in grade greater than four-tenths of one per cent shall be connected by vertical curves. The length of vertical curves shall conform to standards for sight distance and riding qualities established by the City Engineer.

3. **Future Streets.** In the event certain streets or alleys in a subdivision are to be reserved for future public use and they have been approved as to location and width, they shall be indicated on the Final Map and offered for dedication as future streets or future alleys. Certificates providing that the City may accept the offer to dedicate such easement at any time shall be shown on the Final Map.

4. **Corner Cut-Off.** At all block corners the property line shall be rounded. On all major and secondary highways, the corner shall have a 20-foot radius curve and on all other streets, a 15-foot radius curve; provided, however, that where commercial development is permitted, a diagonal cutoff of 15-feet x 15-feet in lieu of a 20-foot radius curve and a ten-foot x ten-foot cutoff in lieu of a 15-foot radius curve may be used. In industrial zones the curves shall have a minimum radius of at least 40 feet.

5. **Curves – Horizontal.** The center line radii of curves shall be as large as possible, consistent with conditions. All curves shall have sufficient length to avoid the appearance of an angle point. Reversing curves shall be connected by tangents of length approved by the City Engineer as sufficient to safely reverse the unbalanced centrifugal force. In any case, horizontal curves shall have the following minimum center line radii:

Major and Secondary Highways 1,000 feet
Collector Streets 500 feet
Local Streets, Not Hillside 300 feet
Local Streets, Hillside Area 125 feet

6. **Intersections.** Street intersections shall be at as near to a right angle as possible. No jogs shall be allowed in the continuity of an arterial street. Jogs in a non-arterial street where crossing an arterial street shall be held to a minimum. Multiple intersections of more than four approaches should be avoided. In hillside areas special conditions may be required. **(Amended by Ord. No. 184,718, Eff. 3/4/17.)**

7. **Cul-de-sac Streets.** Cul-de-sac streets should be avoided except in locations where physical constraints prohibit the continuation of the street (such as where a river or railroad infrastructure is present) or where made necessary by historical development patterns. Where cul-de-sac streets are approved, they shall be terminated by a turning area conforming to the latest standards approved by the Commission. Where feasible, existing cul-de-sacs should be modified and new cul-de-sacs should be designed to include a passageway for bicycles and pedestrians to access the surrounding area. **(Amended by Ord. No. 184,718, Eff. 3/4/17.)**

8. **General. (Added by Ord. No. 157,811, Eff. 8/13/83.)** All streets within and/or immediately adjacent to the subdivision shall be improved with curbs and gutters, unless not required by the Advisory Agency upon recommendation of the City Engineer.

Streets within and/or immediately adjacent to the subdivision shall be improved with sidewalks, except that in mountainous, hillside or rural areas, sidewalks may be omitted or may be provided on only one side of the street with the approval of the Advisory Agency.

Commented [638]: Sec. 17.05 D. has been amended to include additional citation information.

E. Alleys. (Amended by Ord. No. 184,718, Eff. 3/4/17.)

1. Alleys shall be not less than 20 feet in width. Alleys serving industrial zones shall be 30 feet wide, unless otherwise approved by the Advisory Agency. All dead-end alleys shall be constructed with adequate turning areas. Whenever practicable, alleys shall be required at the rear of all lots that are in residential zones and that front an arterial street. Alleys may also be required at the rear of lots in commercial and industrial zones.

2. **Alley Intersections.** Where two alleys intersect, a triangular corner cut-off of not less than 10 feet along each alley line shall be provided.

F. Pedestrian Walks. If the Advisory Agency determines that inner-block pedestrian walks are necessary for the public health, safety or welfare, they shall be dedicated to a width of not less than 12 feet. The Advisory Agency, however, shall only impose such a dedication requirement after finding that the dedication bears an essential nexus and rough proportionality to a project impact. **(Amended by Ord. No. 184,718, Eff. 3/4/17.)**

G. Blocks. Blocks in residentially and industrially zoned areas shall not exceed 1,700 feet in length, except in hilly areas. Commercial blocks shall not exceed 800 feet in length except in locations where the prevailing block length (within 1/2 mile) is less than 800 feet. In such instance, the new block shall not exceed the average prevailing block length. **(Amended by Ord. No. 184,718, Eff. 3/4/17.)**

Commented [DCP639]: No changes are proposed.

H. Lot Size. (Amended by Ord. No. 141,474, Eff. 2/27/71.) Every lot shall have a minimum width and area to comply with the requirements as specified in Article 2 (Specific Planning – Zoning Comprehensive Zoning Plan) of this Chapter for the zone in which the lot is located, provided, however, that every lot located in a “C” Commercial Zone and for which no minimum width is specified in said article shall have a minimum width of 40 feet. All lots in a

residential planned development shall comply with the standard residential conditions of Sec. 13.04 (“RPD” Residential Planned Development Districts) of this Code, and the conditions of approval of the development.

1. (Amended by Ord. No. 142,861, Eff. 2/4/72.) When the Advisory Agency determines that traffic access, topography, and drainage conditions will safely allow lot averaging, and when the subdivider has demonstrated to the satisfaction of the Advisory Agency in a written report that such averaging is consistent with proper subdivision design, and in addition will produce, one or more of the following benefits: require less grading than would a subdivision of conventional design not utilizing lot averaging; result in improved lot design; or produce other environmental benefits; the Advisory agency may permit the width and area of not more than 20 percent of the lots in a subdivision located in the “H” Hillside or Mountainous Area to be reduced as specified below, provided that the average area of all lots in said subdivision is not less than the following requirements:

[LOT AREA IN SQUARE FEET]
(Amended by Ord. No. 142,861, Eff. 2/4/72.)

[Zone]	Minimum to Which Width May Be Reduced	Lot Minimum to Which May Be Reduced	Area Average Requirement
RA-H	63 feet	14,000	17,500
RE40-H	No Reduction	32,000	40,000
RE20-H	72 feet	16,000	20,000
RE15-H	72 feet	12,000	15,000
RE11-H	63 feet	8,800	11,000
RE9-H	60 feet	7,200	9,000

In computing such average, that portion of any lot exceeding 150 percent of the average requirement shall not be included, provided however, that in the RA Zone the maximum area of any lot that may be used in computing the average shall be 24,500 square feet.

In a tract wherein one or more lots have less than the average requirement for the zone, no lot shall be rearranged or divided unless: (1) the average requirement for the original Final Map is maintained, and (2) such rearrangement or division is accomplished by recording a new Final Map or a Parcel Map, or by securing determination that said proposed rearrangement or division is exempt from the Parcel Map procedure as provided for in Section 17.50. B.3.(c) (Parcel Maps General Provisions; Scope). (Amended by Ord. No. 146,985, Eff. 4/11/75.)

2. Where it finds it necessary in order to promote the general welfare, the Advisory Agency may require that lots which are contiguous or nearby to existing lots on the same street may be increased in size so as to be compatible with the size of such existing lots. However, in no case may the Advisory Agency require such lots to contain an area of over 50 per cent more than that required by the applicable provisions of Article 2 (Specific Planning – Zoning Comprehensive Zoning Plan) of this Chapter.

3. Property in commercial or industrial ones need not be divided into more than one lot where such property is to be operated as a unit.

4. Each portion of the lot which is platted so as to be divided by a City or County boundary line shall be given a separate letter or number on the recorded tract map.

5. The side lines of lots shall be approximately at right angles to the streets, or radial to the street on curved streets, except where topography or other conditions make this impracticable.

6. Where it finds that there will be no material increase in the dwelling unit density permitted by the zone, and that the public health, safety or welfare and good subdivision design would be promoted by the dedication of public streets to a width in excess of the approved standards provided for in this section, or the dedication of service roads, or the dedication or reservation of land for public parks, public uses or other open areas, the Advisory Agency may permit the required area of one or more of the lots in a subdivision in an RA, RE, or RS Zone to be reduced to the extent of such dedication or reservation. Provided however, that in no event shall such a reduction exceed 15%; and, no lot in a RA-H or RE-H Zone shall be permitted to be reduced below the minimum area specified therefor in Subdivision 1. of this Subsection. **(Added by Ord. No. 129,693, Eff. 5/2/65.)**

7. Where the Advisory Agency finds the project is consistent with the dwelling unit density permitted by the General Plan, and that the public health, safety or welfare and good subdivision design will be promoted by the preservation of protected trees, the Advisory Agency may permit the required area of one or more of the lots in a subdivision in an "RA," "RE," "RS" or "R1" Zone to be reduced by an amount sufficient to provide for protected tree preservation in accordance with Subsection-Section 17.05 PR: (Protected Tree Regulations) of this ~~Code Section~~. Provided, however, that in no event shall the reduction exceed 50 percent of the required lot area; no "RA" or "RE" lot shall be reduced below 50 feet in width; no "RS" or "R1" lot shall be reduced below 40 feet in width; and no lot in a designated "K" Horsekeeping District shall be reduced below 17,500 square feet. **(Amended by Ord. No. 177,404, Eff. 4/23/06.)**

8. Notwithstanding any other provision of this ~~Code Chapter~~, where the Advisory Agency finds that there will be no increase in density and that the density provisions of the General Plan will not be exceeded, it may approve subdivisions in the R2, RD, R3, R4 and R5 zones, meeting the requirements of Section 12.22 C.25, (Exceptions; Area; Zero Side and Rear Yard Development in Multiple Residential Zones) of this ~~Code Chapter~~. The minimum lot area of lots in any such subdivision shall be 2,500 square feet. **(Added by Ord. No. 159,532, Eff. 1/3/85.)**

9. In calculating the density of a subdivision proposed to be developed with residences permitted by Sections 12.08.3 B.1. (RZ Residential Zero Side Yard Zone; Use) and 12.22 C.25. (Exceptions; Area; Zero Side and Rear Yard Development in Multiple Residential Zones) of this ~~Code Chapter~~, the area contained within public streets shall be deducted

from the gross area of the subdivision; however, the area contained within private streets, public alleys and driveways shall not be deducted from the gross area of the subdivision. **(Added by Ord. No. 159,532, Eff. 1/3/85.)**

10. In calculating the allowable floor area of a subdivision proposed to be developed as a residential (including Apartment Hotel or mixed use) building in the Greater Downtown Housing Incentive Area, any land required to be dedicated for street purposes shall be included as part of the lot area of the subdivision. **(Added by Ord. No. 179,076, Eff. 9/23/07.)**

I. Easements. Easements for public utilities, water system, sewers, street lights, storm drains or flood control channels, and slope rights shall be provided wherever determined necessary by the Advisory Agency upon recommendations of the City Engineer.

Wherever it is determined that future easements are necessary, a certificate shall be placed on the Final Map indicating that the City may accept such easements at any time.

J. Hillside Grading Areas. Design requirements for subdivisions in Hillside Grading Areas shall meet the grading standards established by the Board of Public Work and the grading regulations established by Article 1 (Building Code), of Chapter 9 (Building Regulations) of this Code. Such requirements may also include providing soil reports prepared by a Registered Civil Engineer specializing in Soil Mechanics and/or reports on geological investigations.

K. Problem Areas. Areas designated by resolution of the Board of Public Works as problem areas shall not be subdivided except when approved by the Advisory Agency upon recommendation of the Superintendent of Building and the City Engineer.

L. Grading Plans. (Amended by Ord. No. 142,877, Eff. 2/24/ 72.) The Advisory Agency may require a proposed grading plan with the Tentative Map of any subdivision. Upon recommendation of the Superintendent of Building or the City Engineer, or where it appears that cuts and fills will occur in the grading of the property which may be contrary to the objectives of this Article, the Advisory Agency shall require the subdivider to submit grading plans for all or part of the tract before action on the Tentative Map will be taken. Any grading plan submitted shall contain thereon a statement of the quantities (in cubic yards) of cut and fill and quantities of export or import material involved. If the amount of earth material to be imported to or exported from a subdivision site is 1,000 cubic yards or more, statements of the following shall also be included: the proposed borrow or disposal site; the proposed haul route; the total gross weight with load of the proposed haul vehicles; as well as other pertinent data which the Advisory Agency may require.

Failure to furnish such a grading plan (where necessary to complete the investigation of the Tentative Map within the time specified in the written notice requesting its submission) shall be cause for the disapproval of the Tentative Map unless an extension of the time for acting on said map is mutually agreed upon between the subdivider and the Advisory Agency.

If changes in the design of the lots or street system can be made to correct the conditions set

M. Storm Drains. (Amended by Ord. No. 139,199, Eff. 10/10/69.) Storm drains shall be designed in conformance with standards approved by the City Engineer. Storm drain facilities to intercept and convey all runoff to a suitable point of disposal shall be required when runoff from the entire area tributary to and including the subdivision exceeds the limiting depth of street flow as determined by the City Engineer. These storm drain requirements shall also include the following:

1. In areas without sumps, storm drains shall be designed to remove all runoff from a storm of 10-year frequency.
2. In sump areas, storm drains shall be designed to remove all runoff from a storm of 50-year frequency.
3. Storm drains shall be of sufficient capacity in all cases to prevent flooding of building sites from a storm of 50-year frequency.
4. On sidehill streets, the maximum depth of water as determined by the City Engineer shall be based on a storm of 50-year frequency.

N. Installation Of Utilities. (Added by Ord. No. 131,820, Eff. 3/28/66.) Utility lines, including but not limited to those required for electricity, communication, street lighting and cable television services necessary for the general use of the lot owners in the subdivision, shall be installed or guaranteed to be installed in the same manner as other required improvements.

In all portions of a Tract Map area classified in the A, R or C zones, all such utility lines shall be installed underground, provided, however, that incidental, appurtenant equipment such as transformers, terminal boxes and meter cabinets may be placed above ground but shall conform with regard to placement and height with those standards adopted by the Commission as it determines are necessary to safeguard the public against hazards created by said equipment and to further the purposes of this article. The Subdivision Committee shall make its report and recommendation of the Commission prior to the adoption of said standards. **(Amended by Ord. No. 146,985, Eff. 4/11/75.)**

The subdivider shall make the necessary Cost and other arrangements for such underground installation and for relocation of existing facilities with each of the persons, firms, or corporations furnishing utility services involved.

O. Sites for Models. (Amended by Ord. No. 172,839, Eff. 11/1/99.) Not more than 15% of the lots and in no case more than 20 lots at any one time in a subdivision may be designated as sites for the construction of models, and, with respect to multiple unit structures, not more than 15% of the units and in no case more than 20 units at any one time in a proposed building designated as a model site, may be designated as models.

Each of the sites shall be located in a manner as to not adversely affect existing developed residential properties. Further, each of the sites shall be easily accessible and provision for the accessibility shall be assured at the time that the tentative map is conditionally approved.

P. Park And Recreation Sites. Park and recreation sites to serve the future inhabitants of each new subdivision shall be provided and located in conformance with the standards contained in the Recreation Element of the General Plan. **(Amended by Ord. No. 141,422, Eff. 2/11/71.)**

Q. Where Subdivision Includes Land Within Drainage District. No. 142,862, Eff. 2/13/72.)**

Commented [DCP643]: No changes are proposed.

R. Protected Tree Regulations. (Amended by Ord. No. 177,404, Eff. 4/23/06.) No protected tree may be relocated or removed except as provided in this Article or Article 6 (Preservation of Protected Trees) of Chapter ~~IV~~ 4 (Public Welfare) of this Code. The term "removed" or "removal" shall include any act that will cause a protected tree to die, including but not limited to acts that inflict damage upon the root system or other parts of the tree by fire, application of toxic substances, operation of equipment or machinery, or by changing the natural grade of land by excavation or filling the drip line area around the trunk.

1. Required Determinations. Subject to historical preservation requirements set forth in Subdivision 3. of this Subsection, when a protected tree exists within a proposed subdivision, the tree may be relocated or removed if the Advisory Agency, in consultation with the City's Chief Forester, determines the existence of either (a) or (b) below:

(a) There has been prior applicable government action in which:

(i) The removal of the tree had been approved by the Advisory Agency;
or

(ii) The property upon which the protected tree is located has been the subject of a determination by the City Planning Commission, the City Council, a Zoning Administrator, or an Area Planning Commission, the appeal period established by this Code with respect to the determination has expired, the determination is still in effect, and pursuant to the determination, the protected tree's removal would be permissible; or

(iii) A building permit has been issued for the property upon which the protected tree is located, the permit is still in effect, and the removal or relocation is not prohibited by the permit.

(b) The removal of the protected tree would not result in an undesirable, irreversible soil erosion through diversion or increased flow of surface waters that cannot be mitigated to the satisfaction of the City's Chief Forester, and the physical

condition or location of the tree is such that:

(i) Its continued presence in its existing location prevents the reasonable development of the property; or

(ii) According to a report required pursuant to Section 17.06 C. (Protected Tree Report for Tentative Tract Maps), acceptable to the Advisory Agency and prepared by a tree expert, there is a substantial decline from a condition of normal health and vigor of the tree, and its restoration through appropriate and economically reasonable preservation procedures and practices is not advisable; or

(iii) It is in danger of falling due to an existing and irreversible condition.

(iv) Its continued presence at its existing location interferes with proposed utility services or roadways within or without the subject property, and the only reasonable alternative to the interference is the removal of the tree; or

(v) It has no apparent aesthetic value, which will contribute to the appearance and design of the proposed subdivision; or it is not located with reference to other trees or monuments in such a way as to acquire a distinctive significance at the location.

2. Supplemental Authority. In the event the Advisory Agency, in consultation with the City's Chief Forester, determines pursuant to Subdivision 1.(b) above, that a protected tree may be removed or relocated, the Advisory Agency may:

(a) Require relocation elsewhere on the same property where a protected tree has been approved for removal, and where the relocation is economically reasonable and favorable to the survival of the tree. Relocation to a site other than upon the same property may be permitted where there is no available or appropriate location on the property and the owner of the proposed off-site relocation site consents to the placement of a tree. In the event of relocation, the Advisory Agency may designate measures to be taken to mitigate adverse effects on the tree.

(b) Permit protected trees of a lesser size, or trees of a different species, to be planted as replacement trees for protected trees permitted by this Code to be removed or relocated, if replacement trees required pursuant to this Code are not available. In that event, the Advisory Agency may require a greater number of replacement trees.

3. Historical Monuments. The Advisory Agency, except as to Subdivision 1.(b)(iii) above, shall require retention of a protected tree at its existing location, if the tree is officially designated as an Historical Monument or as part of an Historic Preservation

Overlay Zone.

4. **Requirements.** In the event the Advisory Agency, in consultation with the City's Chief Forester, determines pursuant to Subdivision 1.(b) above that a protected tree may be removed or relocated, the Advisory Agency shall require that:

(a) The protected tree is replaced within the property by at least two trees of a protected variety included within the definition set forth in Section 17.02 (Definitions) of this Article, except where the protected tree is relocated pursuant to Subdivision 2.(a) above. The size of each replacement tree shall be a 15-gallon, or larger, specimen, measuring one inch or more in diameter at a point one foot above the base, and not less than seven feet in height, measured from the base. The size and number of replacement trees shall approximate the value of the tree to be replaced.

(b) The subdivider record those covenants and agreements approved by the Advisory Agency necessary to assure compliance with conditions imposed by the Advisory Agency and to assure protected tree preservation.

(c) The subdivider provide protected tree maintenance information to purchasers of lots within the proposed subdivision.

(d) The subdivider post a bond or other assurance acceptable to the City Engineer to guarantee the survival of trees required to be replaced or permitted or required to be relocated, in a manner to assure the existence of continuously living trees at the approved replacement or relocation site for three years from the date that the trees are replaced or relocated. The City Engineer shall use the provisions of Section 17.08 G (Improvements; Guarantees) of this Article, as its procedural guide in satisfaction of the bond requirements and processing. Any bond required shall be in a sum estimated by the City Engineer to be equal to the dollar value of the replacement tree or of the tree that is to be relocated. In determining value for these purposes, the City Engineer shall consult with the Advisory Agency, the City's Chief Forester, the evaluation of trees guidelines approved and adopted for professional plantmen by the International Society of Arboriculture, the American Society of Consulting Arborists, the National Arborists Association and the American Association of Nurserymen, and other available, local information or guidelines.

5. **Grading.** The Advisory Agency is authorized to prohibit grading or other construction activity within the drip line of a protected tree.

U. Preliminary Soils Report. (Added by Ord. No. 157,517, Eff. 5/2/83,) A preliminary soils report, prepared by a civil engineer registered in California, and based upon adequate test borings is required with the Tentative Map of any subdivision. Provided that the Advisory Agency may waive the preliminary soils report upon its determination that no preliminary analysis is necessary due to its knowledge of the soils qualities of the soils of the subdivision.

If the preliminary soils report indicates the presence of critically expansive soils or other soils problems which, if not corrected, would lead to structural defects, a soils investigation of each lot in the subdivision may be required. Such soils investigation shall be done by a civil engineer registered in California, who shall recommend the corrective action which is likely to prevent structural damage to each structure proposed to be constructed in the area where such soils problem exists. The Advisory Agency may approve the subdivision or a portion thereof where such soils problems exist if it determines that the recommended corrective action is likely to prevent structural damage to each structure to be constructed, and as a condition to the issuance of any building permit may require that the approved recommended action be incorporated in the construction of each structure.

Commented [DCP645]: No changes are proposed.

All such reports must be submitted in writing. Such reports shall be made within 30 calendar days after the filing of the map or within such additional time as the Advisory Agency may approve.~~

~~The members of said committee shall, at the time of the submission of their reports to the Advisory Agency, submit copies of such reports to the subdivider. This requirement shall be deemed complied with when such reports or recommendations are placed in the mail, directed to the subdivider at his designated address, and bearing the proper postage. Failure of any member of said committee to submit his report in writing within the time limits specified above shall be construed as indicating that said member has no recommendation to submit concerning the Tentative Map.~~

Commented [DCP646]: Certain provisions of Sec. 17.06 A.1 have been removed from Chapter 1 and added to Sec. 13B.7.3. D.3. (Tentative Tract Map; Decision; Recommendation of Subdivision Committee) of Chapter 1A.

(Tentative Tract Map) of Chapter 1A of this Code.

Commented [648]: Sec. 17.06 A.2 has been amended to cite the new location of the applicable process in Chapter 1A. Certain provisions have been removed from this Section, as these provisions are addressed by Sec. 13B.7.3. (Tentative Tract Map) of Chapter 1A.

(a) The Advisory Agency may disapprove a Tentative Map because of the flood hazard, inundation, lack of adequate access, lack of adequate water supply or fire protection, insufficient sewerage facilities, potentially hazardous geological conditions or non-compliance with the requirements of this Article, the Subdivision Map Act, or the standards, rules or regulations adopted by the Commission pursuant to the provisions of Section 17.05 (Design Standards) of this Article Code.

Commented [649]: Sec. 17.06 A.2(a) has been amended to include additional citation information.

(b) Whenever two or more lots are to be created on a common slope and the City Engineer or Superintendent of Building determines that conditions so dictate, the Advisory Agency may require as a condition of approval of the Tentative Map that appropriate deed covenants, on a form approved by the City Attorney, be recorded which provide to each owner of said common slope a joint right of entry for necessary access of men and equipment, and a joint easement over the slope area to maintain and repair any portions of said common slope.

(c) All streets on the Tentative Map shall be identified by their proposed names. All proposed street names shall be approved by the City Engineer. The Advisory Agency may withhold approval of the map if the City Engineer has determined that a proposed street name would create confusion, be misleading, be unduly long or carry connotations offensive to good taste and decency. **(Added by Ord. No. 158,691, Eff. 3/12/84.)**

This covenant and agreement shall state that the applicant and the applicant's successors and assignees agree that the building permit is issued on the condition that a certificate of occupancy (temporary or final) for the building cannot be issued until after the final map has been recorded. The Department of Building and Safety shall then issue the building permit based upon the approved Tentative or Preliminary Map and its conditions of approval. The dedication, improvement, and sewer requirements identified in the approved Tentative or Preliminary Map or its conditions of approval must be guaranteed to the satisfaction of the Bureau of Engineering at the time of building permit issuance. Projects with the following features are not eligible to receive building permits prior to the recordation of a final map: off-site common access or a street or alley vacation or merger. (Added by Ord. No. 183,165, Eff. 9/15/14.)

~~1. Within 36 months after the approval or conditional approval of the Tentative Map, the subdivider shall cause the proposed subdivision to be accurately surveyed and a final map prepared and filed with the City Engineer. The failure of a subdivider to file a map with the City Engineer within that period and to have the map submitted by the City Engineer to the City Council within the specified time limit shall automatically terminate and void the proceedings unless the time is extended by the Advisory Agency, the Appeal Board, or the City Council upon appeal from a denial of the extension by the Advisory Agency. The appeal shall follow the time limits and procedures set forth in Subdivisions 3., 4., and 5. of Subsection A. of Section 17.06 of this Code.~~

When a Final Map covers only a portion of the property shown on the Tentative Map, it shall be submitted to the Advisory Agency for its approval prior to submission to the City Engineer for checking. The Advisory Agency may refuse to approve the recording of any such map that does not by itself provide adequate or satisfactory access, design or improvements. The City Engineer may refuse to approve the recording of a Final Map covering only a portion of a Tentative Map, when in the process of checking the Final Map, he determines that it will not be feasible from an engineering standpoint to construct satisfactory improvements in the reduced area, unless additional street or easement dedications and improvements beyond the boundaries of the Final Map are provided.~~

~~1. The Final Map shall be accepted by the City Council provided;~~

~~(a) The necessary improvements as set forth in the approval of the Tentative Map have been installed and approved by the City, or provided the subdivider submits satisfactory improvement plans together with the necessary guarantee that the improvements will be installed.~~

E. Monuments.

1. **Boundary. (Amended by Ord. No. 129,967, Eff. 6/14/65.)** Each Final Map shall show durable monuments of not less than two-inch steel pipe at least 24 inches long found or set at or near each boundary corner and at intermediate points, approximately 1,000 feet apart, or at such lesser distance as may be necessary by topography or culture to assure accuracy in reestablishment of any point or line without unreasonable difficulty. The precise position and character of each monument shall be shown on the Final Map. Where the elevation of the top of each such monument is not approximately level with the surface of the ground, its relative position shall be indicated.

The establishment of boundary monuments may be required by the Advisory Agency, the Appeal Board or the City Council upon appeal, prior to the recordation of the Final Map, however, such requirement may be modified to accept the submission of complete field notes as evidence of a thorough survey, or the setting of only a portion of the boundary monuments, or the referencing of monuments to adjacent reference points. The City Engineer shall submit a recommendation concerning this matter. Said reference points shall be indicated in a set of field notes showing clearly the ties between such monuments and sufficient number to set accurately each boundary monument after recordation of the Final Map. When the placement of monuments is to be deferred, the Bureau of Engineering shall charge and collect a fee of \$443 for the service of receiving and processing a bond to guarantee placement of the monuments. **(Amended by Ord. No. 184,054, Eff. 3/6/16.)**

2. **Notes to be Furnished.** For such center line monument set, the engineer or surveyor under whose supervision the survey has been made shall furnish to the City Engineer a set of notes showing clearly the ties such monument and a sufficient number (normally four) of durable distinctive reference points or monuments. Such reference points may be lead and tacks in sidewalks, or curbs, or two-inch × two-inch stakes set back of the curb line and below the surface of the ground or such substitute thereof as appears to be not more likely to be disturbed.

Such set of notes shall be of such quality, form and completeness, and shall be on paper of such quality and size as may be necessary to conform to the standardized office records of the City Engineer. All such notes shall be indexed by the City Engineer as part of the permanent public records of his office.

1. **Basis.** The Final Map shall indicate thereon the basis of bearings, making reference to some recorded subdivision map, or other record acceptable to the City Engineer.

The Final Map shall have as the basis of bearings a line based on the Geodetic

Triangulation System where ties to said system are deemed feasible by the City Engineer.

2. **Distances.** The bearing and length of each lot line, block line and boundary line shall be shown on the Final Map, and each required bearing and distance shall be indicated.

H. Lot Numbers. The lots shall be numbered consecutively commencing with the number 1, except as otherwise provided herein, with no omissions or duplications. each numbered lot shall be shown entirely on one sheet.

I. Curve Data. The length, radius and total central angle and bearings of terminal radii of each curve and the bearing of each radial line to each lot corner on each curve, and the central angle of each segment within each lot shall be shown on the Final Map.

J. Easements.

1. **Lines.** The Final Map shall show all the necessary data including width and side lines of all public easements to which the lots in the subdivision are subject. If the easement is not definitely located on record, a statement as to the easement shall appear on the title sheet.

2. **Designation.** Easements shall be denoted by broken lines.

1. In addition to permanent improvements, temporary improvements may be required to be made prior to or concurrent with permanent improvements. In Hillside Grading Areas, temporary erosion control devices shall be designed and installed in a manner approved by the Board of Public Works and the Department of Building and Safety.

2. If the subdivision has been submitted only for the purpose of clarifying records by consolidating existing lots and/or metes and bounds parcels, or for the purpose of

G. Guarantees.

1. No Final Tract or Final Parcel Map shall be presented to the Council for approval until the subdivider/owner has completed the improvements, or has guaranteed that all improvements will be constructed and installed within a specified time. The requirement of guaranteeing the construction and installation of improvements shall not be waived under any condition except as provided herein. Final Parcel Maps, the preliminary maps for which have been approved by the Advisory Agency specifying that improvements are not required until such time as a building permit or other grant of approval for development is issued, are exempt from this provision. California non-profit corporations shall be

exempt from these requirements to the extent provided in the Subdivision Map Act.

2. The guarantee shall be furnished in accordance with the provisions of this subsection:

a. **Improvement Agreement.** The subdivider/owner shall execute an Improvement Agreement. Under the terms of this agreement, the subdivider/owner shall, among other things, agree to construct and install the improvements at the subdivider/owner's expense; shall warrant all work performed against any defective work or labor done, or defective materials furnished for a period of one year following acceptance by the City Engineer of all improvements; and shall agree to reimburse the City for all costs and reasonable expenses and fees incurred by the City in enforcing the terms of the agreement including reasonable attorney's fees.

b. **Improvement Security.** Performance of the Improvement Agreement shall be guaranteed by one of the following, at the option of and subject to the approval of the City:

(1) A surety bond or bonds payable to the City, executed by the subdivider/owner as principal and one or more corporate sureties authorized to act as surety under the laws of the State of California and having a certificate of authority as acceptable surety on Federal bonds; or

(2) A deposit of cash; or

(3) A deposit of negotiable United States Treasury bonds or notes, for which the faith and credit of the United States are pledged for the payment of principal and interest, payable to the bearer; or

(4) A deposit of fully insured certificates of deposit issued by a financial institution whose deposits are insured by an instrumentality of the Federal Government, together with a nonrevocable assignment to the City that pledges that the funds are on deposit and guaranteed for the performance of the Improvement Agreement. Such certificates of deposit may provide that interest shall be paid to the depositor. The assignment shall allow the City to withdraw the principal amount, or any portion thereof, upon declaration of default by the Board of Public Works without the necessity of any further consent by the depositor. The Improvement Security shall be on a form prepared by the City Engineer, shall be a joint and several obligation, and shall be in an amount estimated by the City Engineer to be reasonably necessary to complete the construction and installation of all of the improvements required to be done pursuant to the Improvement Agreement and to warrant the work against defective work or labor done, or defective materials furnished in the performance of the work.

The term of the Improvement Security shall begin on the day it is approved by the City Council and shall continue until the work is accepted by the City Engineer.

The Improvement Security shall contain the further conditions that in addition to the face amount, all parties executing the security shall be firmly bound under a continuing obligation for payment of all reasonable costs, expenses and fees, including reasonable attorney's fees incurred by the City in enforcing the obligation secured thereby; that all parties agree to any extensions of time within which to construct and install the improvements; and that all parties further agree to such alterations of or additions to the work as may be deemed necessary by the City Engineer provided the cost increase does not exceed 10 percent of the value of the Improvement Security.

c. **Improvement Warranty Guarantee.** As a part of the Improvement Security there shall be included an amount to be determined by the City Engineer sufficient for the guarantee and warranty of the work for a period of one year following the date of acceptance of the work by the City Engineer against any defective work or labor done, or defective materials furnished in the performance of the work.

d. **Labor and Material Payment Security.** Security shall be furnished for payment of labor and materials furnished in the construction and installation of the improvements. The security shall be furnished in one of the forms described in Paragraph b of Subdivision 2 of this Section, hereof, and shall be in an amount equal to not less than 50 percent of the Improvement Security as estimated by the City Engineer. The security shall inure to the benefit of all persons, and entities furnishing services, supplies or equipment for the improvements as referenced in Sections 3110, 3111 and 3112 of the California Civil Code. All claims under this labor and materials payment security must be filed with the City Clerk on or before the expiration of 90 days after the completion of the improvements.

e. **Existing Security.** Notwithstanding the foregoing requirements, if the subdivider/owner already has on file with the City Engineer an Improvement Security in one of the forms described in Paragraph b of Subdivision 2 of this Section, hereof, posted pursuant to Section 62.111 (Class "B" Permits-Plans-Bonds-Insurance) of Article 2 (Streets and Sidewalks) of Chapter 6 (Public Works and Property) of this Code which guarantees completion of all of the improvements designated in the Improvement Agreement and in an amount at least equal to the amount determined by the City Engineer to be necessary to complete all of the improvements, no additional Improvement Security shall be required; however, improvement warranty guarantee and labor and material security may be required.

3. **Extension of Time.** If it appears that the improvements cannot be completed by the date specified in the Improvement Agreement, written application may be made to the City Engineer for an extension of the completion date. One extension of time shall be

granted to a time at which the City Engineer determines the work of improvement should reasonably be completed. Further extensions of time may be granted at the discretion of the City Engineer. If the subdivider disagrees with the determination of the City Engineer such decision may be appealed to the Board of Public Works. Any extension may be considered upon agreement by the surety and principal to:

- a. Begin or resume construction of the improvements on a schedule to be specified by the City Engineer, and/or
- b. Update the estimated cost of construction and installation of the improvements with an adjustment in the Improvement Security commensurate with the updated estimates, and/or
- c. To the extent possible, construct and install the required improvements in accordance with the standards and specifications of the Board of Public Works in effect at the time such extension of time is granted; and/or
- d. Comply with other conditions as may be deemed necessary by the City Engineer to insure diligent prosecution of the work.

4. Reduction of Improvement Security. When a portion of the improvements have been completed to the satisfaction of the City Engineer, the City Engineer may consent to a reduction in the amount of the Improvement Security upon written request from the subdivider/owner. The City Engineer may consent to two reductions provided the original security for the improvements exceeds \$200,000 and the work completed is identifiable, capable of being maintained by the City, and accepted by the City Engineer. In extreme hardship circumstances the City Engineer may consent to one reduction without regard to the preceding provisions. The remaining security shall be adequate to cover the estimated cost of completing the remaining improvements, the improvement warranty guarantee, and reasonable expenses and fees for enforcement of the terms of the Improvement Agreement. If a cash deposit or negotiable security is on deposit, that portion of the cash or negotiable security not required as a guarantee for the remaining improvements, improvement warranty guarantee and reasonable expenses and fees for enforcement of the terms of the Improvement Agreement, shall be returned to the depositor. If a certificate of deposit is on file, reduction in the Improvement Security will be accomplished by the City Engineer issuing a notice of reduction to the depositor and financial institution. If a surety bond is on file, reduction in the Improvement Security will be accomplished by the execution of a rider to the improvement surety bond by the principal and surety thereon and shall be effective upon approval by the City Engineer and the City Attorney.

5. Release of Improvement Security. When all of the requirements of the Improvement Agreement and the Improvement Security have been completed to the satisfaction of the City Engineer and the improvement warranty guarantee has expired, the City Engineer shall issue a Certificate of Acceptance and Termination of Improvement Warranty Bond to the subdivider/owner and a copy thereof shall be sent to the surety

company if a surety bond is on file. However, if the improvement warranty guarantee has not expired, the City Engineer may issue a Certificate of Acceptance, which exonerates the portion of the Improvement Security guaranteeing completion of the construction and installation of the improvements, but not the improvement warranty guarantee. Said warranty guarantee shall thereafter be released in total by the City Engineer on or after one year from the date of the completion notice from the Bureau of Engineering, provided no claims against said guarantee have been made by the City.

6. Release of Labor and Material Payment Security. On or after ninety (90) days from the date of completion notices from both the Bureau of Contract Administration and the Bureau of Engineering, security posted under Paragraph d of Subdivision 2-4 of this Section ~~hereof~~ to secure payment for labor and materials may be released by the City Engineer in whole if no claims are filed or reduced to an amount equal to one-hundred and fifty (150) percent of those claims filed with the City Clerk. If a cash, negotiable security, or certificate of deposit payment security is on file, the City Engineer shall:

- a. Release the cash, negotiable security or certificate of deposit payment bond in total, if no claims have been filed; or
- b. Reduce the cash or negotiable security or certificate of deposit payment bond to an amount equal to one-hundred and fifty (150) percent total amount of the claims filed with the City Clerk.

H. Enforcement. If the subdivider/owner neglects, refuses or fails to construct the improvements with such diligence as to insure completion within the time specified, or within such extensions of said time as may have been granted by the City Engineer or the Board of Public Works or if the subdivider/owner neglects, refuses or fails to perform satisfactorily any act required under the Improvement Agreement, the Board of Public Works may declare the Improvement Agreement in default, and shall take whatever actions are necessary to enforce the terms and conditions of the Improvement Security. The Board is hereby empowered to order all or any part of the work to be done either by City forces or by separate contract, and the City shall be entitled to reimbursement for all costs and expenses as a result of such construction. If the Improvement Security is a cash deposit, negotiable security or certificate of deposit the Board is empowered to deduct therefrom, on behalf of the City, an amount sufficient to reimburse and to indemnify the City for any and all damages, costs and expenses sustained or incurred by the City in enforcing the terms and conditions of the Improvement Agreement.

A Private Street Map need not be filed with the Advisory Agency in addition to the maps required by the provisions of this Article, however, provided that the maps filed in conformance with the provisions of this Article show such street and contain the information pertaining thereto which is required to be provided in such Private

Street Maps.

B. If a private street located within the proposed subdivision has been approved in accordance with the then applicable regulations prior to filing the Tentative Map of the subdivision, such street shall be deemed to comply with the requirements of this Section and Article 8 (Private Street Regulations) of this Chapter and no further approval thereof shall be required. **(Amended by Ord. No. 126,486, Eff. 3/1/64.)**

SEC. 17.10. REVERSION TO ACREAGE. (Amended by Ord. No. 168,447, Eff. 1/31/93.)

A. Proceedings for reversion to acreage of subdivided real property may be initiated by the City Council on its own motion or by petition of all of the owners of record of the real property within the subdivision pursuant to Sec. 13B.7.3. (Tentative Tract Map) of Chapter 1A of this Code.

1. The petition shall take the form of a tentative tract map application to the Department of City Planning in a form prescribed by the Department. Upon the title sheet of each map filed for the purpose of reverting subdivided land to acreage, the subtitle shall consist of the words "A reversion to acreage of...". Any map so submitted shall be accompanied by evidence of title and non-use or lack of necessity of any streets or easements which are to be vacated or abandoned. Any streets or easements to be left in effect after the reversion shall be adequately delineated on the map.

2. Notice shall be given and a public hearing shall be held in accordance with the procedures set forth in Sec. 13B.7.3. (Tentative Tract Map) of Chapter 1A of this Code Section 17.06 of the Los Angeles Municipal Code.

3. A tentative tract map shall be filed under the provisions of this section for the purposes of reverting to acreage land previously subdivided. A final parcel map may be recorded in lieu of a final tract map, if the property involved originally consisted of four or fewer parcels or condominium units or if the project meets the exception criteria of Section 66426 of the State Government Code and Section 17.50 C of the Los Angeles Municipal Code. Except as provided in Government Code Section 66445 (e), a certificate shall appear signed and acknowledged by all parties having any record title interest in the land being reverted, consenting to the preparation and filing of the parcel map.

4. Maps recorded solely for the purpose of combining portions of vacated streets with adjoining lots shall be treated in procedure as Reversion to Acreage Maps.

B. Subdivided real property may be reverted to acreage only if the City Council finds that:

1. Dedications or offers of dedication to be vacated or abandoned by the reversion to acreage are unnecessary for present or prospective public purposes; and

2. Either:

(a) All owners of an interest in the property within the subdivision have consented to reversion; or

(b) None of the improvements required to be made have been within two years from the date the final or parcel map was filed for record, or within the time allowed by agreement with the City Engineer for completion of the improvements, whichever is the later; or

(c) No lots shown on the final or parcel map have been sold within five years from the date the map was filed for record.

C. As conditions of reversion the City Council shall require:

1. Dedications or offers of dedications necessary following reversion;

2. Retention of all previously paid fees necessary to accomplish the purposes of this article;

3. Retention of any portion of required improvement security or deposits if necessary to accomplish the purposes of this article.

D. When a reversion is effective, all fees and deposits shall be returned and all improvement security released, except those retained pursuant to Subdivisions 2 and 3 of Subsection C above.

E. After approval of the reversion by the City Council, the final map or parcel map shall be delivered to the county recorder. The filing of the final tract map or parcel map shall constitute legal reversion to acreage of the land affected thereby and shall also constitute abandonment of all streets and easements not shown on the map.

SEC. 17.10.1. MERGER AND RESUBDIVISION.

(Added by Ord. No. 168,447, Eff. 1/31/93.)

Subdivided lands may be merged and resubdivided without reverting to acreage by complying with all the applicable requirements for the subdivision of land as provided by this Article. The filing of the final map or parcel map, pursuant to Div. 13B.7. (Division of Land) of Chapter 1A of this Code, shall constitute legal merging of the separate parcels into one parcel and the resubdivision of the parcel. Any unused fees or deposits previously made pursuant to this Article pertaining to the property shall be credited pro rata towards any requirements which are applicable at the time of resubdivision. Any streets or easements to be left in effect after the resubdivision shall be adequately delineated on the map. After approval of the merger and resubdivision by the City Council, the map shall be delivered to the County Recorder. The filing of the map shall constitute legal merger and resubdivision of the land affected thereby and shall

also constitute abandonment of all streets and easements not shown on the map.

SEC. 17.10.5. MAPS – LOCAL DRAINAGE DISTRICTS – EXEMPTION FROM FEES.

(Added by Ord. No. 148,331, Eff. 6/26/76.)

A(a) Payment of fees shall be required in the sums fixed by ordinance for local drainage districts involved and as a condition to approval of final subdivision maps, parcel maps and private street maps, except as provided in Subsection ~~B(b)~~ of this Section below, whenever the City Council determined such need pursuant to former Section 11543.5 of the Business and Professions Code of the State of California or finds and determines such need pursuant to Section 66483 of the Government Code of the State of California, effective March 1, 1975 for a local drainage district, and finds:

~~1.(4)~~ that subdivision and development of property requires or will require construction of facilities described in the local drainage plan, and

~~2.(2)~~ that the fees are fairly apportioned within the area on the basis of benefits conferred on the property proposed for subdivision or on the need for facilities created by the proposed subdivision and development of other property within such area.

B(b) In the event the owner filing the map petitions the City Council for an exemption from payment of fees required by ordinances to be paid to defray actual or estimated costs of constructing planned drainage facilities for removal of surface and storm waters from local or neighborhood drainage areas, and the City Council finds and determines that the final subdivision map, or the parcel map, or the private street map filed for approval is not filed for subdivision or development purposes, the City Council may thereupon exempt that map from payment of said fees or other consideration notwithstanding provisions of Section 17.05 ~~QO~~ (Design Standards; Where Subdivision Includes Land Within Drainage District), Section 17.53 ~~GB~~ (Approval of Preliminary Parcel Map; Where Parcel Map Includes Land Within Drainage District), or Section 18.05 ~~J-4~~ (Private Street, Lot or Building Site Standards; Improvements, Drainage And Sewage) of this Chapter or requirements of Subsection A of this Section ~~Subdivision (a) above~~ or of said ordinance for such payment.

~~1.(4)~~ For purposes of this Subsection the term “subdivision” and the term “development” shall neither include nor apply to final subdivision maps, parcel maps or private street maps that are filed within the City:

(a) in connection with a sale of land which is to be further divided by the filing of either a subdivision map, parcel map or private street map prior to development occurring,

(b) solely for the purposes of reversion to acreage, or to combine portions of vacated streets with adjoining lots or parcels, or to make boundary line adjustments without creating any new lots or parcels, or to effect technical

corrections on existing recorded maps in order to cause those maps to conform to actual fact, clarify the record, and cause them to read correctly, provided however that approval or recordation of such new maps does not or will not otherwise change or amend any existing recorded map or any legend thereon.

SEC. 17.11. MODIFICATIONS.

~~A. See Sec. 13B.7.3.H. (Tentative Tract Map; Modification of Entitlement) of Chapter 1A of this Code. (Amended by Ord. No. 131,820, Eff. Eff. 3/28/66.) The Advisory Agency may grant modifications to any of the provisions of this article on its own initiative or upon recommendation of any member of the Subdivision Committee whenever the property to be divided is of such size or shape, is subject to such title limitations of record, is affected by such topographical location or subsurface or topographical conditions, is to be devoted to such use, is subject to such regulation by the provisions of Article 1 of this chapter that it is impractical to conform to the strict application of the requirements of this article.~~

~~B. Such modification may be made by the Advisory Agency prior to its action on the Tentative Map without specific or written application therefor by the subdivider. After the Tentative Map has been acted upon by the Advisory Agency, however, no such modification may be granted by the Advisory Agency except upon compliance with the following requirements:~~

~~1. A request for modification shall be submitted by the subdivider in writing, setting forth the facts relied upon.~~

~~2. Such request shall clearly indicate that the modification is reasonably necessary and is in conformity with the spirit and intent of this article and the Subdivision Map Act.~~

~~C. The actions of the Advisory Agency on a request for a modification after approval of the Tentative Map may be appealed in the same manner and subject to the same restrictions which apply to appeals from the action of the Advisory Agency on Tentative Maps. However, in no event shall such appeals be construed as extending the time limit within which to record a Final Map.~~

Commented [671]: Sec. 17.11 has been removed from Chapter 1 and added to Sec. 13B.7.3.H. (Tentative Tract Map; Modification of Entitlement) of Chapter 1A. Sec. 17.11 now includes a reference to the new location of the applicable procedures in Chapter 1A.

(Amended by Ord. No. 184,505, Eff. 1/11/17.)

See Sec. 13B.7.4.E. (Final Tract Map; Standards for Review and Required Findings) of Chapter 1A of this Code.~~

SEC. 17.13. SUBDIVISION REQUIRING IMPORT OR EXPORT OF EARTH.
(Added by Ord. No. 142,877, Eff. 2/24/72.)

Upon the filing of a Tentative Map which requires for its implementation the import and/or export of more than 1,000 cubic yards of earth materials, the Advisory Agency shall request that the Superintendent of Building and the General Manager of the Department of Transportation investigate the circumstances of the proposed import or export of earth materials and the effect thereof upon the public health, safety, and welfare. The Advisory Agency shall request the City Engineer to determine the effect of any import and export on the structural integrity of the public streets and to determine the effect on public safety relative to street alignment, width, and grade. (Amended by Ord. No. 152,425, Eff. 6/29/79.)

In taking action on such Tentative Map, the Advisory Agency shall impose conditions of approval to mitigate any detrimental effects of the hauling operations necessary to import or export earth, including but not limited to: designating routes to be followed by trucks hauling earth materials; limiting truck weight, length and/or speed; and other conditions of approval as may be necessary to insure repair of damages to public streets along the hauling route that may reasonably be expected to be caused by hauling operations. Such additional conditions may include a condition that the developer shall file a bond for the benefit of the City. Any such bond shall be in a form approved by the City Attorney, executed by the developer and a corporate surety authorized to do business in the State in an amount sufficient to cover the repair of any damage to the public streets reasonably expected to be caused by the hauling operations. The conditions of the bond shall guarantee to indemnify the City for all costs and expense in repairing the damaged streets or other public facilities. In lieu of a surety bond, the developer may file a cash bond with the Department upon the same terms and conditions and in an amount equal to that which would be required in the surety bond. The deposit submitted may be in the form of cash or negotiable United States securities. The term of such bond shall begin on the date of filing and shall remain in effect until the completion of the hauling operations and subsequent inspection of the affected public streets by the Department of Public Works. The Advisory Agency may disapprove the Tentative Map as provided in Section 17.06_A-2.(a) (Tentative Map Standards; Tentative Map Requirements; Action of Advisory Agency) of this Article.

SEC. 17.14. MODIFICATION OF RECORDED FINAL MAPS.
(Amended by Ord. No. 157,533, Eff. 5/12/83.)

~~A. See Sec. 13B.7.4.H. (Final Tract Map) of Chapter 1A of this Code. In addition to amendments to final maps authorized by Government Code Section 66469, after a final map is filed with the Office of the County Recorder, such recorded map, including the conditions of approval thereof, may be modified pursuant to the provisions of this Section. The provisions of this Section are not applicable to certificates of correction or amending maps filed pursuant to Government Code Section 66469.~~

~~B. Applications for certificates of correction or amending maps filed pursuant to this section may be filed with the Advisory Agency. The filing and processing of such applications, including appeals, shall conform to the provisions of Section 17.11 of this Code relating to the filing and~~

~~processing of modifications of tentative maps. In addition to such requirements, a public hearing shall be held by the Advisory Agency and 10 days notice thereof shall be published in a newspaper of general circulation and mailed to the applicant and to the owners of all property located within 500 feet of the subdivision (as shown on records of the City Engineer and on the records of the County Assessor for property located outside of the City of Los Angeles). Written notice shall also be mailed to residential, commercial and industrial occupants of all property, within 500 feet of the exterior boundaries of the property involved. This requirement can be met by mailing such notice to "occupant". This notice shall also conform to the requirements of Government Code Section 66451.3. (Amended by Ord. No. 181,595, Eff. 4/10/11.)~~

~~Notice of the public hearing shall be posted, by the applicant, in a conspicuous place on the property involved at least ten days prior to the date of the public hearing. (Added by Ord. No. 164,845, Eff. 6/17/89.)~~

~~C. Consideration of and action on such applications shall be limited to the proposed modifications.~~

~~D. No such modification or amending map may be approved unless the Advisory Agency, or the City Planning Commission or City Council on appeal finds each of the following:~~

- ~~1. That there are changes in circumstances which make any or all of the conditions of such map no longer appropriate or necessary;~~
- ~~2. That the modifications do not impose any additional burden on the present fee owner of the property;~~
- ~~3. That the modifications do not alter any right, title or interest in the real property reflected on the recorded map;~~
- ~~4. That the map and conditions as modified conform to the provisions of Government Code Section 66474 and of this Code;~~
- ~~5. That the decision maker has given consideration, among other factors, to the effects of the modifications on surrounding properties.~~

~~E. (Added by Ord. No. 163,641, Eff. 7/1/88.) Modifications and amending maps shall be governed by the following limitations.~~

- ~~1. No modifications involving increases in density shall be allowed which would change the density of a subdivision as approved on appeal by the City Planning Commission or the City Council, where such density was the subject of the appeal to the City Planning Commission or the City Council.~~
- ~~2. No condition may be modified if it was imposed as a mitigating measure identified in a mitigated or conditional negative declaration or in an Environmental Impact Report.~~

~~3. Modifications involving increases in density over that originally approved by the Advisory Agency in approving the tentative map shall be limited as follows:~~

~~(a) For subdivision of fewer than 10 lots or dwelling units, any density increase shall be limited to one lot or dwelling unit; and~~

~~(b) For subdivisions containing 10 or more lot or dwelling units, any increase shall be limited to not more than 10 percent of that originally approved.~~

~~4. Modifications involving either increase in the height of structures, or in the elevation of building pads where the elevation of such pads has been specified by the Advisory Agency, shall be limited as follows:~~

~~(a) an increase in the height of structures of not more than 10 percent above the approved height of such structures; or~~

~~(b) an increase in the elevation of building pads of not more than 5 feet above the approved elevation of such pads.~~

~~Any such increase in height or elevation shall not obstruct the view from surrounding properties. A greater increase in the elevation of building pads may be approved if such increase has been determined to be necessary for health and safety reasons by the Department of Building and Safety.~~

~~5. No modifications shall be permitted which violate the intent of any of the original conditions of the tract map approval as that intent is expressed in the findings or otherwise by the decision maker.~~

~~F. An amending map or certificate of correction shall be recorded with the Office of the County Recorder in the manner specified in Government Code Section 66472. If the modification of one or more conditions does not require an amending map or certificate of correction, the approval of the modification shall be evidenced in a letter mailed to the subdivider and made a part of the subject tract file. (Former Subsection E Redesignated F by Ord. No. 163,641, Eff. 7/1/88.)~~

SEC. 17.15. VESTING TENTATIVE MAPS.
(Added by Ord. No. 163,300, Eff. 3/27/88.)

~~A. See Sec. 13B.7.3.I. (Tentative Tract Map; Vesting Tentative Map) of Chapter 1A of this Code. **Application.** Whenever a provision of the Subdivision Map Act, as implemented and supplemented by this article, requires the filing of a tentative map, a vesting tentative map may instead be filed, in accordance with the provisions hereof. If a subdivider does not seek the rights conferred by this Section, the filing of a vesting tentative map shall not be a prerequisite to any approval for any proposed subdivision, permit for construction or work preparatory to construction. (Amended by Ord. No. 163,944, Eff. 10/8/88.)~~

~~B. Procedures.~~

~~1. Filing and Processing.~~

~~(a) A vesting tentative map shall be filed on the same form and have the same contents, accompanying data and reports and shall be processed in the same manner as set forth in this article for a tentative map except as hereinafter provided. At the time a vesting tentative map is filed, it shall have printed conspicuously on its face the words "Vesting Tentative Map". If it is known at the time of filing that an additional approval (such as a variance or coastal development permit) is necessary, the application for such additional approval shall be filed prior to or simultaneously with the vesting tentative map.~~

~~(b) At the time a vesting tentative map is filed, a subdivider shall provide all information required in connection with the filing of a tentative map by this Code, including the information required by Section 17.06 B and C. Where the proposed subdivision is in a designated Hillside area, the Advisory Agency shall require the filing of a proposed grading plan pursuant to Section 17.05 L and may not waive the requirement to file preliminary soils report pursuant to Section 17.05U. A subdivider shall also indicate whether the proposed subdivision is in the vicinity of the Mulholland Scenic Parkway and the dedication of land for such purposes may be necessary. In addition, if design review of the proposed subdivision is required by the applicable community or district plan or by a specific plan, the subdivider shall provide the information necessary for such review. The plan of building envelope shall be submitted, showing the height, size, number of units and approximate location of buildings, driveways and any proposed exterior garden walls.~~

~~2. Expiration. The approval or conditional approval of a vesting tentative map shall expire at the end of the same time period, and shall be subject to the same extensions established by Section 17.07 of this Code for the expiration or extension of the approval or conditional approval of a tentative map.~~

~~C. Development Rights.~~

~~1. The approval or conditional approval of a vesting tentative map shall confer a vested right to proceed with development in substantial compliance with the ordinances, policies and standards in effect on the date the application is deemed complete, and with the conditions of approval imposed and specifically enumerated by the Advisory Agency, including the submittal of a detailed grading plan under an approved grading permit prior to recordation of the final map. Such rights shall not include exemptions from subsequent changes in the Building and Safety and Fire regulations contained in Chapters V and IX of the Los Angeles Municipal Code and policies and standards relating thereto.~~

~~2. Notwithstanding Subsection C 1 of this section, a permit, approval, extension or~~

~~entitlement may be conditioned or denied if the Advisory Agency, or the City Planning Commission or the City Council on appeal determines:~~

~~(a) A failure to do so would place the occupants of the subdivision or the immediate community, or both, in a condition dangerous to their health or safety, or both; or **(Amended by Ord. No. 163,944, Eff. 10/8/88.)**~~

~~(b) The condition or denial is required in order to comply with state or federal law.~~

~~3. The rights conferred by a map approved or conditionally approved pursuant to this section shall expire if a final map is not recorded prior to the expiration of the vesting tentative map as provided in Subsection B 2 of this section. If the final map is recorded, the rights conferred by this section shall be for the following time periods:~~

~~(a) An initial time period of one year beyond the recording of the final map. Where several final maps are recorded on various phases of a project covered by a single vesting tentative map, this initial time period shall begin for each phase when the final map for the phase is recorded~~

~~(b) The initial time period set forth in Section C 3 (a) above shall be automatically extended by any time used thereafter by the City for processing a complete application for a grading permit or for design or architectural review, if such time exceeds 30 days, from the date a complete application for such permit or review is filed.~~

~~(c) A subdivider may apply to the Advisory Agency for a one year extension at any time before expiration of the initial time period set forth in Paragraph (a) of this subdivision. Denial of the time extension may be appealed to the City Council within 15 days by the subdivider.~~

~~(d) If the subdivider submits a complete application for a building permit during the periods of time specified in Subsections C 3(a) (c) of this section, the rights conferred by this section shall continue until the expiration of that permit or any extension of that permit.~~

~~4. (a) Consistent with Subsection C 1 of this section, an approved or conditionally approved vesting tentative map shall not limit the City from imposing reasonable conditions on subsequently required approvals or permits necessary for the development and authorized by the ordinances, policies, and standards described in Subsection C 1 of this section~~

~~(b) If the ordinances, policies, or standards described in this Subsection C 1 of this section are changed subsequent to the approval or conditional approval of a vesting tentative map, the subdivider, or his or her assignee, at any time prior to the expiration of the vesting tentative map, may apply for an amendment to the~~

~~vesting tentative map to secure a vested right to proceed with the changed ordinances, policies, or standards. An application shall clearly specify the changed ordinances, policies, or standards for which the amendment is sought. In addition, such application shall conform to the provisions relating to modifications of tentative maps set forth in Section 17.11 of this Code.~~

~~D. Development Inconsistent With Zoning – Conditional Approval.~~

~~1. Whenever a subdivider files a vesting tentative map for a subdivision whose intended development is inconsistent with the zoning ordinance in existence at that time, that inconsistency shall be noted on the map. The City may deny such a vesting tentative map or approve it conditioned on the subdivider, or his or her designee, obtaining the necessary change in the zoning ordinance to eliminate the inconsistency. If the change in the zoning ordinance is obtained, the approved or conditionally approved vesting tentative map shall confer the vested right to proceed with the development, notwithstanding Subsection C 1 of this section, in substantial compliance with the change in the zoning ordinance and the map, as approved.~~

~~2. The rights conferred by this subsection shall be for the time periods set forth in Subsections C 3(a) – (d) of this section.~~

S = the average natural slope of the land in percent.

Where the total allowable number of dwelling units per parcel map or tentative tract map calculated under the above formulas results in a number other than a whole number, it shall be rounded to the nearest whole number as follows: where the fractional portion of the total allowable number of dwelling units equals .5 or more, the total number of allowable dwelling units shall be rounded to the next larger whole number; where the fractional portion of the total allowable number of dwelling units equals less than .5, the total number of allowable dwelling units shall be rounded to the next smaller whole number

The map may be prepared by the applicant, except that the Advisory Agency may require the map to be prepared by a licensed land surveyor or registered civil engineer and that it be based upon a field survey when it determines that such is necessary to provide the information required by this section. The map shall be made on one or more sheets of tracing paper or cloth at least 8 1/2 inches by 11 inches but shall not exceed 18 × 26 inches. It shall be legibly drawn using a decimal or an engineer's scale and shall clearly show the following information:

1. The dimensions and record boundaries of the total parcel together with a legal description of the total parcel attached to the map.
2. The dimensions and boundaries of each proposed parcel.
3. The names, addresses and telephone number of the property owners, the person filing the map, and the registered civil engineer or licensed land surveyor, if any, who prepared the map.
4. The abutting streets and alleys and existing surface improvements and proposed dedications and improvements.
5. The location of other existing public easements and/or private street easements. **(Amended by Ord. No. 176,321, Eff. 1/15/05.)**

No application for a preliminary parcel map approval for a parcel where a protected tree is located shall be considered complete unless it includes a report pertaining to preserving the tree. The report shall be prepared by a tree expert and shall evaluate the subdivider's proposals for protected tree preservation, removal, replacement and/or relocation. In the event the subdivider proposes any grading, land movement, or other activity within the drip line of any protected tree referred to in the report, or proposes to relocate or remove any tree, the report shall also evaluate any mitigation measures proposed by the subdivider and the anticipated effectiveness in preserving the tree. **(Amended by Ord. No. 177,404, Eff. 4/23/06.)**

Commented [684]: Section 17.51 has been amended to reflect the correct Code citations, as well as include additional citation information.

1. No preliminary Parcel Map shall be approved which violates or would result in a violation of, or fails to comply with, the Subdivision Map Act or any other applicable law of this City or State. **(Amended by Ord. No. 130,871, Eff. 9/20/65.)**

2. In addition the Advisory Agency may disapprove a preliminary Parcel Map if, after investigation, it determines that said map does not substantially comply with the various elements of the City's General Plan, or does not provide such street or alley dedication

or improvements as are necessary to achieve the purposes of these regulations, or fails to provide acceptable lot design or lot sizes which closely conform to the size of the contiguous or nearby lots on the same street, or results in reorientation of a lot or parcel in such a manner as to be detrimental to adjoining properties or the surrounding neighborhood. **(Amended by Ord. No. 138,800, Eff. 6/23/69.)**

3. Where a Parcel Map involves land for which a General Plan, including dwelling unit densities, has been adopted by the Council, and said land is also in an "H" Hillside or Mountainous Area established by Article 2 (Specific Planning-Zoning Comprehensive Zoning Plan) of this Chapter, the number of lots or parcels on said map shall be limited so that the number of dwelling units permitted by the applicable zoning regulations shall not substantially exceed the dwelling unit densities shown on said plan. **(Amended by Ord. No. 138,800, Eff. 6/23/69.)**

4. Where a Parcel Map includes land upon which either a combination of parking and commercial zones or a combination of parking and industrial zones has been established, the Parcel Map shall not be approved unless each parcel being created substantially conforms to the established ratio of space for parking to space for commercial use or space for parking to space for industrial use as such ratio existed immediately prior to the land division. **(Amended by Ord. No. 141,831, Eff. 5/30/71.)**

5. The Advisory Agency shall disapprove a preliminary Parcel Map when the property is situated in a Hillside Grading Area as defined in Article 1 (Building Code) of Chapter 9 (Building Regulations) of this Code and the Department of Building and Safety or the Bureau of Engineering has submitted a report in writing to the Advisory Agency recommending disapproval of the preliminary Parcel Map because of any existing or potential geologic hazards lacking satisfactory engineering solutions. **(Amended by Ord. No. 143,254, Eff. 5/14/72.)**

6. The Advisory Agency may disapprove a preliminary Parcel Map unless the proposed name of each street thereon has been approved by the City Engineer. Advisory Agency approval shall be withheld if the City Engineer has determined that a proposed street name would create confusion, be misleading, be unduly long or carry connotations offensive to good taste and decency **(Added by Ord No 158,691, Eff. 3/12/84)**

B. Lots May Be Increased In Size.

1. Where the Advisory Agency finds it necessary in order to promote the general welfare, to provide for a more consistent development for the area, and to preserve property values, it may require that lots or parcels described in a Parcel Map and located in an RA or R Zone be increased in size from that proposed so as to more closely conform to the size of existing contiguous lots or nearby parcels on the same street. However, in no case may the Advisory Agency require such parcels in the aforementioned zones other than RA, RE20 and RE40 to contain an area of more than 20,000 square feet **(Amended by Ord. No. 133,753, Eff. 2/12/67)**

2. Where the Advisory Agency finds that a future public easement will be needed on a portion of such lots or parcels for street or other public uses, it may require that such lots or parcels be increased in size from the proposed so as to provide space for such easement; and in addition, it may impose conditions prohibiting or restricting the erection for buildings, or structures on that portion needed for such easement. **(Amended by Ord. No. 130,871, Eff. 9/20/65.)**

C. Maps Involving Private Road Easements. Whenever a proposed division of land involves one or more parcels which are contiguous or adjacent to a private road easement with the remaining parcel contiguous or adjacent to a dedicated street, only the Parcel Map need be filed, without requiring the payment of additional fees or the filing of a Private Street Map. The Advisory Agency may approve, conditionally approve, or disapprove the map subject to the applicable provisions of this Article or Article 8 (Private Street Regulations), of this Chapter. **(Amended by Ord. No. 130,871, Eff. 9/20/65.)**

D. Lots In The Very High Fire Hazard Severity Zone. (Title Amended by Ord. No. 176,943, Eff. 10/5/05.)

1. **(Amended by Ord. No. 176, 943, Eff. 10/5/05.)** The Advisory Agency may disapprove a preliminary Parcel Map for land located in the Very High Fire Hazard Severity Zone, pursuant to Section 57.4908 of Chapter 5 (Fire Code) of the Municipal Code this Code, because of inadequate fire protection facilities unless:

(a) The designated area in which buildings are to be erected on each proposed parcel or lot, as shown on said map, are located not more than 1,000 feet from a fire hydrant, said distance to be measured along a route providing reasonable access, as determined by the Fire Chief, for the laying of fire hoses in an emergency, or

(b) Said Fire Chief reports that adequate fire protection exists, or is in the process of being provided, for said parcels or lots.

2. Upon proper application to the City Council, and upon recommendation of the Chief Engineer of Waterworks of the Department of Water and Power, the City may provide for contribution toward the cost of installation of water mains and hydrants necessary to comply with this Subsection where said Chief Engineer determines that the cost of such installation is greatly in excess of normal charges for providing like facilities.

E. Maps Involving Future Streets. In the event that the Advisory Agency determines that certain streets or alleys in a proposed division of land must be reserved for future public use, they shall be indicated on the preliminary Parcel Map and offered for dedication as future streets or future alleys prior to recording the Parcel Map. The applicant shall furnish the Bureau of Right of Way and Land an offer of dedication therefor in accordance with the provisions of Section 17.53 of this Article Code. **(Amended by Ord. No. 130,871, Eff. 9/20/65.)**

G. Maintenance Of Accessory Structures. (Added by Ord. No. 133,795, Eff. 2/17/67.)

Where the Advisory Agency determines that a proposed Parcel Map complies with all provisions of these Parcel Map Regulations, but finds that the proposed division of land will result in an accessory building or structure being on a parcel separated from the main building or a residential building being on a parcel without the required off-street parking spaces and, in order to afford the applicant time to properly provide a main building on the same parcel with the accessory structure or building, or to remove same, or to provide the required off-street parking spaces with the residential building, the Advisory Agency may approve the proposed Parcel Map and the continued use and maintenance of said accessory structures or buildings separated from the main building for a period of time not to exceed one year and the residential building without the off-street parking spaces for a period of time not to exceed 90 days subject to the following conditions:

1. That as a prerequisite to the filing of the final Parcel Map with the City Engineer, the owner or owners of record of the subject property shall record in the office of the County Recorder of Los Angeles County, California, a covenant running with the and in which such owner or owners agree to comply with an the conditions imposed by the Advisory Agency in approving the Parcel Map.
2. That upon approval of the proposed Parcel Map, in addition to the permanent copy placed on file in the City Planning Department, the Advisory Agency shall furnish a copy of said action to the applicant and to the Department of Building and Safety.

Whenever two or more lots are to be created on a common slope and the City Engineer or Superintendent of Building determines that condition so dictate, the Advisory Agency may require as a condition of approval of the preliminary Parcel Map that appropriate deed covenants on a form approved by the City Attorney be recorded which provide to each owner of said common slope a joint right on entry for access of men and equipment, and a joint easement over the slope area to maintain and repair said common slope. **(Added by Ord. No. 143,254, Eff. 5/14/72.)**

I. When a protected tree exists on a proposed parcel, the preservation of the tree at its existing location, its relocation for preservation purposes, or the removal of the tree shall be regulated in the same manner as that provided under subdivision regulations set forth in this ~~Article chapter~~. **(Amended by Ord. No. 177,404, Eff. 4/23/06.)**

J. Greater Downtown Housing Incentive Area. In calculating the allowable floor area of a parcel map proposed to be developed as a residential (including Apartment Hotel or mixed use) building in the Greater Downtown Housing Incentive Area, any land required to be dedicated for street purposes shall be included as part of the lot area of the parcel map. **(Added by Ord. No. 179,076, Eff. 9/23/07.)**

~~2. A copy of the preliminary Parcel Map shall be forwarded to the Chief Engineer of the Fire Department for report and recommendation to the Advisory Agency. The Chief Engineer shall make his report within seven days after the map is transmitted to him. Said report shall indicate whether the designated areas in which buildings are to be erected on each proposed parcel or lot, as shown on said map are less than 1,000 feet from a Los Angeles City Fire Department fire hydrant, said distance to be measured along a route providing reasonable access for the laying of fire hoses in an emergency, or whether adequate alternative fire protection exists or is in the process of being provided for said parcel or lots. (Amended by Ord. No. 143,254, Eff. 5/14/72.)~~

B. Approval. See Sec. Sec. 13B.7.5.D.5. Section 169. Amend Subsection C. of Section 18.00. of Article 8 of Chapter 1 of the Los Angeles Municipal Code to read as follows:

SEC. 18.00. SCOPE.

Further, on such lot or building site additions and alterations may be made to such dwelling, and accessory buildings may be erected on said lot if no additional dwelling units or guest rooms are created.

Commented [DCP705]: Sec. 18.00 C. has been amended to better clarify the requirements to qualify for a "deemed to be approved" private street. Section 170. Amend the definition of "Private road easement" in Section 18.01. of Article 8 of Chapter 1 of the Los Angeles Municipal Code to read as follows:

~~"Private road easement" See Div. 13C.1. (Amended by Ord. No. 122,064, Eff. 6/14/62.)~~

Commented [706]: This definition has been removed from Chapter 1 and added to Div. 13C.1. (Administration Definitions) of Chapter 1A. The definition has been amended to clarify that the private road easement must have been granted, rather than merely "proposed to be", in order to be considered a valid private road easement. This definition now includes a reference to the new location of the definition in Chapter 1A.

Section 171. Amend the definition of "Private street" in Section 18.01. of Article 8 of Chapter 1 of the Los Angeles Municipal Code to read as follows:

~~"Private street" See Div. 13C.1. (Administration Definitions) of Chapter 1A of this Code, shall mean, except as otherwise provided in this article, a parcel of land not dedicated as a public street over which a private easement for road purposes has been granted to the owners of property contiguous or adjacent thereto which intersects or connects with a public street, or another private street, and the instrument creating same has been duly recorded or filed in the office of the Recorder of Los Angeles County, and which has been determined by the Director to be adequate for the access and for the purposes defined in this article. (Amended by Ord. No. 158,691, Eff. 3/12/84.)~~

Commented [707]: This definition has been removed from Chapter 1 and added to Div. 13C.1 (Administration Definitions) of Chapter 1A. This definition now includes a reference to the new location of the definition in Chapter 1A.

3. Qualifications of Membership

If no eligible person is known to be available for appointment in the designated disciplines who resides, operates a business, or is employed within the specific plan area, then the Councilmember(s) may make the appointment from the community plan area(s) in which the specific plan area is located. If a specific plan is located in more than one community plan area, then the members may be chosen from any of those community plan areas.

- b. If the design review board area is represented by more than one Councilmember, then the President of the City Council shall, to the extent feasible, determine the number of members appointed by the Councilmember of each Council District, based on the percentage of design review board area located in each Council District.

4. Terms of Membership

Appointments are limited to two consecutive four-year terms. Members of the board whose terms have expired shall remain members until their replacements have been appointed.

5. Vacancies

In the event of a vacancy occurring during the term of a design review board member, the Councilmember(s) who appointed the member, or the Councilmember(s)' successor, shall make an appointment to serve the unexpired term of that member. Where the member is required to have specific qualifications, the vacancy shall be filled by a person having similar qualifications.

If a design review board cannot obtain a quorum for action within the stated time limits, the application shall be transferred to the Director for action with no recommendation from the design review board. An action by the board requires a majority vote of the members of the board. An action by the board cannot be made by a simple majority of those members present.

Div. 13A.1. Authorities

C. Specific Authority

Design review boards shall review applications and accompanying materials in relation to compliance with the design components and criteria set forth in Sec. 13B.4.3. See Div. 13B.8. (Historic Preservation).

DIV. 13A.2. GENERAL PROCEDURAL ELEMENTS

SEC. 13A.2.1. APPLICABILITY

A. General

This Article applies to any application for:

1. An amendment to any part of the Zoning Code (Chapters 1 and 1A of the LAMC), including the text or Zoning map;
2. Any other activity that is subject to the provisions of this Article.

B. Procedural Categories

This Article establishes procedures for land development decisions made under this Article. These include:

1. Legislative Decisions

Examples of legislative decisions include Zone Changes, and amendments to the General Plan, a specific plan, and other ordinances. These may involve a new policy or rule, or a change in land use regulation and development regulation.

2. Quasi-Judicial Decisions

Examples of quasi-judicial decisions include Director Determinations, Conditional Use Permits and Variances. These proceedings involve the exercise of discretion by the decision making body, which requires a weighing of evidence, an application of rules, regulations and ordinances to facts and a resolution of specific issues. These may involve a public hearing (unless the hearing is waived).

3. Ministerial Decisions

Examples of ministerial decisions include clearances or review for compliance. These apply the provisions of this Code or conditions of a quasi-judicial decision or legislative action to a project that is either clearly defined in this Code, or that has already obtained all necessary legislative and quasi-judicial approvals. Because these involve the application of non-discretionary rules to projects, these applications are reviewed by City staff without a public hearing.

Commented [DCP88]: Sec. 13A.2.1. contains new language that was added for clarification purposes.

SEC. 13A.2.2. PROCESS ELEMENTS

A. Overview

This Article sets up rules for procedures, such as applications, notices, and public hearings. It then describes the processes for specific land use decisions. The procedures all have a common workflow and description, as follows:

Div. 13A.2. General Procedural Elements

Table 1 - Procedure Workflows

Element	Description
Applicability	The type of development or situation that is subject to the process.
Initiation	This is how the application process begins, where the application is filed and the department or official who conducts initial processing (such as completeness review).
Notice	This describes the type of notice, and how it is provided.
Decision	This states who approves the application, how notice is provided, and the type of proceeding that leads to the decision.
Review Criteria	These are any particular standards or findings that determine whether the application is approved. All applications are subject to this Chapter or Chapter 1 (General Provisions and Zoning) and the applicable zoning regulations.
Appeals	This provides a way to review an application that is approved, denied, or that has conditions disputed by the applicant or a party with standing to appeal.
Scope of Decision	This refers to the activities that the application authorizes. For example, some approvals send the applicant to the next step in the overall process or only require compliance review, while others authorize construction or use.
Modification	This describes how the decision can be revised, changed, amended, or modified after final approval or conditional approval.

Note: Flowcharts illustrating the general steps for each procedure are included in this Article. In the case of a conflict between the text of the Article and any illustration or flowchart, the text controls.

A final decision of the City Planning Commission or Area Planning Commission becomes final at the expiration of the next five meeting days of the City Council during which the City Council has convened in regular session, unless the City Council acts pursuant to Sec. 245 (City Council Veto of Board Actions) of the City Charter. However, after the initial Commission action, applicants may ask for their item to be reconsidered at the next meeting of the Commission.

Commented [DCP115]: Sec. 13A.2.5.E.2. is based on Sec. 11.5.7 C.6(e) and Sec. 12.24 I.6(b) of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

3. Appellate Decision

Except as provided in Subdivision 2. (City Planning Commission or Area Planning Commission) above, the appellate agency’s decision becomes final on the day the appellate agency submits a written decision, if it is subject to no further appeals to an agency or official of the City or to the City Council’s jurisdiction under Sec. 245 (City Council Veto of Board Actions) of the City Charter.

Commented [DCP116]: Sec. 13A.2.5.E.3. is based on Sec. 12.26 K.10 and Sec. 12.24 I.6(b) of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

SEC. 13A.2.6. TRANSFER OF JURISDICTION

A. Applicability

When outlined in a specific process, the applicant may request a transfer of jurisdiction.

Commented [DCP117]: Sec. 13A.2.6.A. contains new language that was added for clarification purposes.

B. Failure to Act

- 1. If the initial decision maker fails to act on an application within 75 days from the date a filed application has been deemed complete, or within a mutually agreed upon extension of time, the applicant may file

Div. 13A.2. General Procedural Elements

a request for a transfer of jurisdiction to the designated appellate body for decision. The designated appellate body is the body to whom the matter would normally be appealable, pursuant to Div. 13B.2. (Quasi-Judicial Review). The Director of Planning shall prescribe the form and manner of filing requests for transfers of jurisdiction.

2. When the designated appellate body receives the applicant’s request for a transfer of jurisdiction, the initial decision maker shall lose jurisdiction. However, the body to whom the matter is transferred may remand the matter to the initial decision maker who shall regain jurisdiction for the time and purpose specified in the remand action. In addition, upon receipt of a written request by the applicant for withdrawal of the transfer of jurisdiction prior to the matter being heard by the appellate body, the matter shall be remanded to the initial decision maker.
3. If the matter is not remanded, the decision maker to whom the matter has been transferred shall consider the application following the same procedures and subject to the same limitations as are applicable to the initial decision maker, except that the body to which the matter has been transferred shall act within 45 days of the transfer of jurisdiction. The Department of City Planning, including the Office of Zoning Administration, shall make investigations and furnish any reports requested by the body to which the matter has been transferred.

Commented [DCP118]: Sec. 13A.2.6.B. is based on: Sec. 11.5.7 C.5; Sec. 11.5.7 F.6; Sec. 12.24 H.; and Sec. 12.27 G. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

SEC. 13A.2.7. SCOPE OF DECISION

A. Discretionary Project Approvals Time Limits

1. Unless otherwise provided in this Chapter, Chapter 1 (General Provisions and Zoning), or in the conditions of approval, any approval by the Zoning Administrator, Director of Planning, an Area Planning Commission, or the City Planning Commission as initial decision makers that is not effectuated within three years of its effective date becomes null and void.
2. When approvals are granted as part of a project requiring multiple approvals (see Sec. 13A.2.10.), the following time limits apply unless a different time period is provided in a signed and effectuated development agreement:

Approvals	Granted in Conjunction With	Expiration
Quasi-judicial Approvals	Legislative Approvals	Expires with the Legislative Approval, not to exceed 6 years unless the initial decision maker extends the time period (see Subsection C.1 of this Section)
Quasi-judicial Approvals	Subdivision Approval	Expires with the Subdivision Approval pursuant to Div. 13B.7 (Division of Land) of this Article. If the expiration date on a Subdivision Approval is extended pursuant to Div. 13B.7 (Division of Land) or by amendment to the Subdivision Map Act, the Quasi-judicial Approval is automatically extended for the same time period.
Legislative Approvals	Subdivision Approval	Extended for the full time limit of the Subdivision Approval, including time extensions pursuant to Div. 13B.7 (Division of Land), as needed to record an approved map.

B. Effectuation of Approvals

1. A discretionary project approval is considered effectuated by the Department of City Planning when the conditions of approval of the grant are satisfied. This must be done before the privileges of the grant may be utilized. Effectuation is accomplished upon procedural steps being followed and completed by the applicant to demonstrate compliance with all conditions of approval. The Department of City Planning must verify such compliance and assess appropriate fees. Effectuation is completed when fees are paid, plans are verified and stamped as approved, and authorization is obtained to utilize grant. Authorization is typically demonstrated by a clearance on a building permit. However, if a project site includes a use that is existing, and there is no physical work and/or change of use involved and the description of work in any previously issued permits do not specifically exclude or prohibit the entitled operation, then a permit from Department of Building and Safety may not be necessary. If this is a project not requiring permits for construction or alteration from the Department of Building and Safety, then effectuation in this scenario occurs when Department of City Planning ascertains compliance with all conditions of the grant, including payment of all fees, and stamping of plans.
2. **Approvals with Effective Dates Between July 15, 2005 and December 31, 2010**

The expiration period of any approval by the Zoning Administrator, Director of Planning, an Area Planning Commission, or the City Planning Commission as initial decision makers (as well as any approval by a Deputy Advisory Agency acting in the capacity as a Zoning Administrator or as the Director of Planning's designee), pursuant to the provisions of Chapter 1 (General Provisions and Zoning) or any ordinance adopted pursuant to Chapter 1 (General Provisions and Zoning), shall automatically be increased by 60 months if the effective date of approval was July 15, 2005, through December 31, 2007; by 48 months if the effective date of approval was January 1, 2008, through December 31, 2008; and 24 months if the effective date of approval was January 1, 2009, through December 31, 2010, provided that the Director makes a written finding that the prior discretionary approval and the required environmental review considered significant aspects of the approved project and that the existing environmental documentation under the California environmental Quality Act is adequate for the issuance of the extension. This one-time extension of time supersedes any previous extensions of time granted pursuant to Ordinances Nos. 180,647 and/or 181,269.

C. Utilizing the Grant

1. A discretionary project approval is considered utilized after it has been effectuated by the Department of City Planning and a building permit has been issued by the Department of Building and Safety. Utilization of a grant must occur no later than 3 years from the last date an action can be effectuated. An approval not requiring building permits from the Department of Building and Safety is considered utilized when compliance with all conditions of approval have been demonstrated, appropriate fees paid, plans stamped and authorization has been obtained from the Department of City Planning. The initial decision maker referred to above may establish a longer time period to effectuate or utilize the approval, as a Review or Modification of Entitlement (see Sec. 13B.5.4.).
2. **Exceptions**
 - a. **Religious and Institutional Uses**

Div. 13A.2. General Procedural Elements

Where a lot or lots have been approved for use as a governmental enterprise, religious use, hospital, educational institution or private school, including elementary and high schools, no time limit to utilize the privileges shall apply provided that all of the following conditions are met:

- i. The property involved is acquired or legal proceedings for its acquisition are commenced within one year of the effective date of the decision approving the conditional use.
- ii. A sign is immediately placed on the property indicating its ownership and the purpose to which it is to be developed, as soon as legally possible after the effective date of the decision approving the conditional use. This sign shall have a surface area of at least 20 square feet.
- iii. The sign is maintained on the property and in good condition until the conditional use privileges are utilized.

b. Affordable Housing Projects

A six year time limit to utilize the privileges will apply where a lot or lots have been approved for housing that includes 100% restricted Affordable Units, exclusive of a manager's unit or units, as defined in Sec. 12.22 A.25(b) (Exceptions; Affordable Housing Incentives – Density Bonus; Definitions) of Chapter 1 (General Provisions and Zoning) of this Code.

D. Abandonment of Approval

- 1. For a Quasi-judicial approval, the applicant shall send a certified letter to the Director stating that they want to abandon their approval. The Director shall then issue a revised Letter of Determination, with the letter from the applicant attached, memorializing the decision to abandon the project.
- 2. For a Legislative approval, any change shall be processed pursuant to the same legislative process that was used for the original approval.

E. Planning and Zoning Matters in Litigation

The time limits set forth in Subsections A. (Discretionary Project Approvals Time Limits) and B. (Effectuation of Approvals) of this Section shall not include any time period during which the approval or the environmental clearance for the approval is challenged in court.

F. California Coastal Commission Approvals

The time limits set forth in Subsections A. (Discretionary Project Approvals Time Limits) and B. (Effectuation of Approvals) of this Section shall not include any time period during which the subdivider or applicant is awaiting a land use approval from the California Coastal Commission. The subdivider or applicant shall submit a written request for a suspension of time and a copy of the submitted California Coastal Commission application for such approval to the Department of City Planning within 10 days of filing the application with the California Coastal Commission. Suspensions of time shall be automatically granted until the California Coastal Commission has rendered a final decision on the application, including any appeal period. The subdivider or applicant shall submit a copy of the California Coastal Commission's final action to the Department of City Planning within 10 days of the final decision.

Commented [DCP119]: Sec. 13.A.2.7.A.-C. are based on: Sec. 12.25 A.; 12.26 A.3; Sec. 12.29; and Sec. 12.36 G. of Chapter 1. This Section clarifies the timeline for expiration of project approvals by defining "utilization" versus "effectuation." The time limit of 3 years to "utilize" an approval has been changed to 3 years to "effectuate" an approval, and a separate 3 years to "utilize" an approval. Additionally, 100% affordable housing projects have been added to the list of exceptions to the utilization provisions, and are granted 6 years to "utilize" the grant.

Commented [DCP120]: Sec. 13A.2.7.D. contains new language that establishes procedures for abandonment of a project approval.

Commented [DCP121]: Sec. 13A.2.7.E. and F. are based on Sec. 12.25 B. and C. of Chapter 1.

G. Violation of Conditions – Penalty

A Quasi-judicial action or any conditional approval granted by the Director, pursuant to the authority of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code shall become effective upon utilization of any portion of the privilege, and the owner and applicant shall immediately comply with its conditions. The violation of any valid condition imposed by the Director, Zoning Administrator, Area Planning Commission, City Planning Commission, or City Council in connection with the granting of any action taken pursuant to the authority of this Chapter or Chapter 1 (General Provisions and Zoning), shall constitute a violation of this Chapter or Chapter 1 (General Provisions and Zoning) and shall be subject to the same penalties as any other violation of this Code.

Commented [DCP122]: Sec. 13A.2.7.G. is based on Sec. 12.29 of Chapter 1.

SEC. 13A.2.8. APPEALS

A. Filing of Appeals

1. Appeals shall be in writing and filed on forms maintained by the Department.
2. An appeal shall specifically state the points at issue and the reasons why the decision should be overturned.
3. An appeal not properly or timely filed shall not be accepted, and will not be considered by the appellate body.

Commented [DCP123]: Sec. 13A.2.8.A. is based on: Sec. 11.5.7 C.6; Sec. 11.5.7 F.7; Sec. 12.24 I.; Sec. 12.26 K.6; and Sec. 12.27 H. and O. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

B. Time Limits for Appeal

1. Unless otherwise required by a specific process, appeals must be filed within 15 days after the date on the letter of determination to the applicant.
2. Despite any provisions of this Chapter, whenever the final day for filing an appeal from any action, decision or determination of the Director of Planning, Zoning Administrator, Area Planning Commission, or City Planning Commission falls on a Saturday, Sunday or legal holiday, the time for filing an appeal shall be extended to the close of business on the next succeeding working day, and the effective or final date of any action, decision, or determination shall be extended to the close of that appeal period.
3. No appeal shall be accepted or in any way considered as officially on file which is not presented in proper form and received within the appeal period specified by other sections of this Chapter or the extended period specified above in this Subsection.
4. If in any individual case involving a 15-day appeal period, that appeal period fails to include at least 10 working days, then the appeal period shall be extended as many days as the Director of Planning, Zoning Administrator, Area Planning Commission, City Planning Commission or City Council determines are necessary to include 10 working days.

Commented [DCP124]: Sec. 13A.2.8.B.1. is based on: Sec. 11.5.7 C.6; Sec. 11.5.7 F.4; Sec. 12.24 I.; Sec. 12.26 K.6; and Sec.12.27 H. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

C. Appeal Procedures

1. An appeal stays proceedings in the matter until the appellate body makes a decision.

Commented [DCP125]: Sec. 13A.2.8.B.2.-4. are based on Sec. 19.00 B. of Chapter 1.

Div. 13A.2. General Procedural Elements

2. After an appeal is filed, the initial decision maker will transmit the appeal and the file to the appellate body, together with any report if one was prepared by staff responding to the points raised made in the appeal. The Department of City Planning will make investigations and furnish any reports requested by the body to which the matter is transferred.
3. When the appellate body receives the appeal, the initial decision maker loses jurisdiction.
4. Upon the date set for the hearing, the appellate body shall either hear the appeal, or continue the matter by mutual agreement to another date if there is cause to do so. No notice of continuance need be given if the continuance is announced at the time for which the hearing was set.
5. The appellate body will conduct a public hearing. After the public hearing, the appellate body will render a decision:
 - a. Affirming the initial decision in whole or in part; or
 - b. Reversing the initial decision in whole or in part, after which it may render its own decision or remand the decision to the initial decision maker for further proceedings.
6. The appellate body may impose conditions that it determines are needed to ensure substantial compliance with the standards or findings for approval.
7. The appellate body may extend the time period for deciding an appeal to allow the consideration of changes to the project requested by the applicant. If the appellate body finds that the changes are substantial, the hearing may be continued by mutual agreement after additional posted notice is provided. The time period required for additional notice is at least the same amount of time required to post a notice on the original application. If no posted notice was required on the original application, the time period is the longest period required for mailed or published notice as applicable.
8. The appellate body may take additional evidence, make its own record, or base its decision on the record created by the initial decision maker.

D. Withdrawal of Appeals

1. Procedures

Appellant(s) may withdraw an appeal of an initial determination if the withdrawal is filed with the Department at least 15 days prior to the public hearing by the appellate body on the appeal.

2. Requirements

a. Filing

Withdrawal of an appeal shall be in writing and does not require the decision maker to concur. The withdrawal shall be filed with the Department.

b. Withdrawal Before Close of Appeal Period

- i. If the withdrawal of the appeal is received by the Department after the close of the original appeal period, the Department shall notify the same persons who received notice of the

Commented [DCP126]: Sec. 13A.2.8.C. is based on: Sec. 11.5.7 C.6; Sec. 11.5.7 C.; Sec.12.24 I.2; Sec. 12.26 K.6; and Sec. 12.27 H.,I., N., and O. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

Div. 13A.2. General Procedural Elements

decision that was appealed, that an appeal had been filed and was now withdrawn. The notice shall state that the appeal period is being reopened.

- ii. The reopened appeal period shall run for 10 days from the date the notice of withdrawal of the appeal is mailed.
- iii. If more than one appeal was filed, the appeal period is only reopened if the withdrawal of the appeal would result in no other appeal going forward.
- iv. The appeal period shall only be reopened once.

c. **Withdrawal Before Public Notice**

If the withdrawal is received by the Department before any required public hearing notice is mailed, then the time for the appellate body to act is extended for 10 days.

d. **Withdrawal After Public Notice**

If the withdrawal is received by the Department after the public hearing notice is mailed, then any appeal filed during the reopened appeal period shall be heard on the same date and time as set forth in the previously mailed public hearing notice. No further notice of the appeal hearing is required.

e. **Withdrawal Resulting in No Appeal**

If the withdrawal of the appeal, and the subsequent reopening of the appeal period, results in no appeal going forward:

- i. The withdrawal of the appeal is permanent; and
 - ii. The decision from which the appeal was taken automatically becomes final at the end of the appeal period or reopened appeal period.
- f. Appeals challenging Variance decisions cannot be withdrawn.

E. **Standards for Review and Required Findings**

1. **Standard of Review**

The appellate body shall hear the matter de novo, considering the whole of the project with no deference given to the decision of the initial decision maker. The appellate body shall make its decision based on the record before the initial decision maker and any other evidence or testimony presented at or before the appellate body's hearing.

2. **Findings for Appeals**

Unless required otherwise by this Chapter, in making a decision to grant a project approval, the appellate body shall make the same findings as required to be made by the initial decision maker, supported by substantial evidence.

Commented [DCP127]: Sec. 13A.2.8.D. is based on Sec. 11.5.10 of Chapter 1.

Commented [DCP128]: Sec. 13A.2.8.E.1. contains new language that establishes a "de novo" standard of review. This is a change from the appellate standard of review in Chapter 1, which requires the appellate body to only consider how the initial decision maker erred or abused its discretion on the initial decision, instead of considering the matter as a whole.

Commented [DCP129]: Sec. 13A.2.8.E.2. is based on Sec. 12.24 I.5 and Sec. 12.27 L. and P. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

F. Lack of Timely Decision on Appeal

1. Unless otherwise required by a specific process, the appellate body shall act within 75 days after the expiration of the appeal period or within any additional period mutually agreed upon by the applicant and the appellate body.
2. Failure of the appellate body to render a timely decision shall result in the denial of the appeal.

SEC. 13A.2.9. PERMITS ISSUED IN ERROR

A. Void Permits

Notwithstanding any other provisions of this Code or any other ordinance of the City, no permit or license shall be issued in violation of any provisions of this Code or any other ordinance of the City. Any permit or license issued in violation of any provision of this Code or any other ordinance of the City is void. Any permit or license that purports to authorize any act prohibited by any other provision of this Code or any other ordinance of the City is void.

B. Building Permits for a Zone Change

Upon publication of a Zone Change, height district, or building line ordinance, the Department of Building and Safety may issue a permit for a building or structure which will comply with all of the requirements of the new zone, height district, or building line. No such permit shall be issued unless the applicant has first executed and filed with the Superintendent of Building a notarized agreement assuming all risk and agreeing to remove all buildings or structures authorized by the permit if the Zone Change, height district, or building line ordinance should become effective.

Commented [DCP130]: Sec. 13A.2.8.F. is based on: Sec. 11.5.7 C.6; Sec. 12.24 I.; Sec. 12.32 D.3; and Sec. 16.05 H.3 and 4. of Chapter 1. In order to better fit the purpose of the General Procedural Elements, the wording has been revised to apply to all processes generally, rather than any specific process.

Commented [DCP131]: Sec. 13A.2.9. is based on Sec. 11.02 of Chapter 1.

SEC. 13A.2.10. MULTIPLE APPROVALS

A. Applicability

1. General

This Section applies to applications for projects that require multiple Legislative and/or Quasi-judicial Approvals.

2. Terms

The following terms apply to this Article. Table 5 (Classification of Actions for Multiple Approvals) below classifies actions for the purposes of qualification for the multiple approvals process:

a. Legislative Approval

Any action that formulates a rule of general applicability that applies to all future cases. These typically require an action by the City Council, such as those as set forth in Div. 13B.1 (Legislative Action) of this Article.

b. Quasi-Judicial Approval

Div. 13A.2. General Procedural Elements

These actions apply rules to specific facts and are subject to procedural due process principles. These include the processes described in Div. 13B.2. (Quasi-Judicial Review), 13B.4. (Specific Plan Implementation), and 13B.5. (Quasi-Judicial Relief) of this Article.

c. Subdivision Approval

Any approval under the Division of Land regulations set forth in Div. 13B.8. (Division of Land) of this Article.

d. Ministerial Action

Any action involving only the nondiscretionary application of objective standards, including the processes described in Div. 13B.3 (Ministerial Action) of this Article. Ministerial Actions are not subject to the multiple approvals processes established below.

Commented [DCP132]: Sec. 13A.2.10.A. is based on Sec. 12.36 A. of Chapter 1. Sec. 13A.2.10.A.2.d. contains new language that was added for clarification purposes.

Key: ■ = qualifies for multiple approval — = does not qualify for multiple approval

Commented [DCP133]: Table 5 of Sec. 13A.2.10.A. is a visual summary of how each action is classified and whether it qualifies for multiple approvals.

Div. 13A.2. General Procedural Elements

B. Initiation

1. Applicants shall file applications at the same time for all approvals reasonably related and necessary to complete the project.
2. The procedures and time limits set forth in this Section only apply to multiple applications filed concurrently. Prior to a public hearing, the Director may require an applicant to amend an application for a project requiring multiple approvals to ensure that all relevant approvals are reviewed concurrently.

Commented [DCP134]: Sec. 13A.2.10.B. is based on Sec. 12.36 B. of Chapter 1.

C. Decision Makers and Procedures

Despite any provision of this Code to the contrary, the following procedures apply to projects requiring multiple approvals.

1. Legislative Decisions

- a. The City Planning Commission or Area Planning Commission has initial authority to submit a recommendation, and the City Council has final decision-making authority for all approvals involving legislative decisions.

b. Procedures

- i. To the extent permitted by California law and the City Charter, the procedures for consideration of all decision are those set forth in:
 - a) Sec. 13B.1.1. (General Plan Adoption/Amendment) if a General Plan Amendment is involved;
 - b) Sec. 13B.1.2. (Specific Plan Adoption/Amendment) if a Specific Plan Amendment, but no General Plan Amendment, is involved; or
 - c) Sec. 13B.1.4. (Zone Change) if a Zone Change is combined with a Zoning Code Amendment.
- ii. If a development agreement is combined with a General Plan Amendment, Specific Plan, Zoning Code Amendment, or Zone Change, the City Planning Commission shall submit a Planning Commission recommendation, and all required notices and hearings required by this Chapter and the California Government Code shall be combined to the extent permitted by law.

Commented [DCP135]: Sec. 13A.2.10.C.1. is based on Sec. 12.36 C.1(a) of Chapter 1.

2. City Planning Commission

- a. The City Planning Commission has initial decision-making authority for all approvals and/or recommendations if a project requires:
 - i. A separate approval or recommendation by an Area Planning Commission, the Zoning Administrator, and/or the Director, as the initial decision maker; and
 - ii. An approval or recommendation by the City Planning Commission as the initial decision maker.

b. Procedures

Div. 13A.2. General Procedural Elements

- i. If all of the applications are for Quasi-judicial Approvals, the procedures for consideration and appeal of all the applications are those set forth in Sec. 13B.2.3. (Class 3 Conditional Use Permit) of this Code.
- ii. If any Legislative Approval is included, the procedures for consideration and appeal of all the applications are those set forth in Sec. 13B.1.4. (Zone Change) of this Code.
- iii. If there is a request for a Review or Modification of Entitlement, the Director may act on behalf of the City Planning Commission unless the City Planning Commission is specified to be the decision maker for any such modifications.

c. Appellate Body

The City Council shall decide all appeals of the City Planning Commission's decisions or recommendations under this Subdivision.

A. Applicability

This Section applies to exceptions from specific plan regulations, as follows:

1. Description

A Project Exception grants relief from a specific plan on the basis of particular standards or criteria established in this Section, or in a particular section of a specific plan. Like a Variance, a Project Exception must show a hardship. However, a Project Exception typically includes additional standards that relate to the purposes of the specific plan.

2. Project Exception Relationship to Other Entitlements

a. Exception for Relief from a Specific Plan Regulation and the Same Type of Regulation With the Same Standard in Chapter 1 of this Code

If a specific plan contains a regulation that is the same type of regulation with the same standard as one contained in an applicable provision of Chapter 1 (General Provisions and Zoning) of this Code, an applicant seeking relief from those regulations need only apply for and receive a Project Exception. In this situation, the specific plan regulation is considered to supersede the Code provision and thus a Variance is not required.

b. Exception for Relief from Specific Plan Regulation and the Same Type of Regulation With a Different Standard in Chapter 1 of this Code Where Specific Plan Supersedes the Code

If a specific plan contains a regulation that conflicts with the same type of regulation but with a different standard contained in an applicable provision of Chapter 1 (General Provisions and Zoning) of this Code and the specific plan supersedes the Code by its terms, then an applicant seeking relief from that specific plan regulation need only apply for and receive a Project Exception. In this situation, a Variance is not also required.

c. Exception for Relief from Specific Plan Regulation and the Same Type of Regulation With a Different Standard in Chapter 1 of this Code Where Specific Plan Does Not Supersede the Code

If a specific plan contains a regulation that conflicts with the same type of regulation but with a different standard contained in an applicable provision of Chapter 1 (General Provisions and Zoning) of this Code and the specific plan does not supersede the Code by its terms, then an applicant seeking relief from those regulations must apply for and receive both a Project Exception and a Variance for relief from those Code provisions.

 - a. That the strict application of the provisions of the zoning ordinance would result in practical difficulties or unnecessary hardships inconsistent with the general purposes and intent of the zoning regulations;
 - b. That there are special circumstances applicable to the subject property such as size, shape, topography, location or surroundings that do not apply generally to other property in the same zone and vicinity;
 - c. That the Variance is necessary for the preservation and enjoyment of a substantial property right or use generally possessed by other property in the same zone and vicinity but which, because of the special circumstances and practical difficulties or unnecessary hardships, is denied to the property in question;
 - d. That the granting of the Variance will not be materially detrimental to the public welfare, or injurious to the property or improvements in the same zone or vicinity in which the property is located; and
 - e. That the granting of the Variance will not adversely affect any element of the General Plan.
2. A Variance shall not be used to grant a special privilege or to permit a use substantially inconsistent with the limitations upon other properties in the same zone and vicinity. The Zoning Administrator may deny a Variance if the conditions creating the need for the Variance were self-imposed.

However, a decision by the Area Planning Commission granting or confirming the grant of a Variance shall become final after 15 days from the date it was mailed to the applicant, unless an appeal is filed with the City Council within that period. - v. If the Council fails to override the Mayor's disapproval within the 60 days, the Mayor's disapproval shall constitute a denial of the Variance. If the Mayor fails to return the matter to the City Clerk within 10 days of its presentation to him or her, the approval of the Variance shall become final.

No fee shall be required for the filing of appeals by other aggrieved persons.

In connection with the approval of such plans, a Zoning Administrator may impose conditions on the same basis as provided for in this Section in connection with the original Variance.

SEC. 13B.6.2. NUISANCE ABATEMENT/REVOCAION

Purpose. It is the intent of this Section to consolidate a number of existing Code provisions relating to the administrative abatement of public nuisances, and revocations, rescissions, discontinuances or modifications of discretionary zoning approvals. In addition, this Section also sets forth procedures allowing the Zoning Administrator to modify or remove conditions imposed as a result of nuisance abatement proceedings; to enforce conditions imposed as part of any discretionary zoning approval; and to require that the cost of a proceeding instituted pursuant to this Section be paid by those responsible for the maintenance and operation of the subject use.

These provisions allow the City's zoning authorities to protect the public peace, health and safety from any land use which becomes a nuisance; adversely affects the health, peace or safety of persons residing or working in the surrounding area; or violates any land use related condition imposed pursuant to this Code or other provision of law, while protecting the constitutional rights of the parties involved.

4. Development Rights

- a. The approval or conditional approval of a Vesting Tentative Map shall confer:
 - i. A vested right to proceed with development in substantial compliance with the ordinances, policies, and standards in effect on the date the application is deemed complete; and

Sec. 13B.7.3. Tentative Tract Map

- ii. With the conditions of approval imposed and specifically enumerated by the Director, including the submittal of a detailed grading plan under an approved grading permit prior to recordation of the Final Map.

- d. The rights conferred by a map approved or conditionally approved pursuant to this Section expire if a Final Map is not recorded prior to the expiration of the Vesting Tentative Map as provided in Subdivision 3. (Expiration) above. If the Final Map is recorded, the rights conferred by this Section are effective for the following time periods:
 - i. An initial time period of 2 years beyond the recording of the Final Map. Where several Final Maps are recorded on various phases of a project covered by a single Vesting Tentative Map, this initial time period begins for each phase when the Final Map for the phase is recorded. *Note: See Sec. 66498.5 of the California Government Code.*
 - ii. The initial time period set forth in Subparagraph i. above is automatically extended by any time used thereafter by the City to process a complete application for a grading permit or for design or architectural review, if that time exceeds 30 days, from the date a complete application for that permit or review is filed.
 - iii. A subdivider may apply to the Advisory Agency for a one-year extension at any time before expiration of the initial time period set forth in Subparagraph i. above. Denial of the time extension may be appealed to the City Council within 15 days by the subdivider.

- f. If the ordinances, policies, or standards described in Paragraphs a. and b. above are changed subsequent to the approval or conditional approval of a Vesting Tentative Map:

- b. The City may deny the Vesting Tentative Map or approve it conditioned on the subdivider obtaining the necessary change in this Chapter or Chapter 1 (General Provisions and Zoning) of this Code to eliminate the inconsistency. If the change in this Chapter or Chapter 1 (General Provisions and Zoning) of this Code is obtained, the approved or conditionally approved Vesting Tentative Map shall confer the vested right to proceed with the development (superseding Paragraphs a. and b. above) in substantial compliance with the change in this Chapter or Chapter 1 (General Provisions and Zoning) of this Code, as approved.
- c. The rights conferred by this Subdivision continue for the time periods set forth in Subdivision 4.d. (Development Rights) above.

All other applications for Coastal Development Permits shall be filed in a public office of the Department of City Planning.

Each application shall contain sufficient information concerning land and water areas in the vicinity of the site of the proposed project, (whether or not owned or controlled by the applicant) so that the permit issuing authority will be adequately informed as to present uses and plans, both public and private, insofar as they can reasonably be ascertained for the vicinity surrounding the project site. The description of the development shall also include any feasible alternatives or any feasible mitigation measures available which would substantially lessen any significant adverse impact which the development may have on the environment. For purposes of this Section the term "significant adverse impact on the environment" shall be defined as in the California Environmental Quality Act and the State and City Guidelines adopted pursuant thereto.
 - b. A description and documentation of the applicant's legal interest in the property on which the Development is to be located if the application were approved (e.g., ownership, leasehold, enforceable option, authority to acquire the specific property by eminent domain.)

The application shall state the reasons for the request and shall be accompanied by evidence of a valid, unexpired permit and of the applicant's continued legal ownership interest in the property. The applicant shall also furnish to the City the information required in Subsection C. (Notice) of this Section.

3. If the approving authority determines that there are no changed circumstances that may affect the consistency of the project with the findings required under Subsection E. (Standards for Review and Required Findings) of this Section, notice of the determination, including a summary of the procedures set forth in this Subsection, shall be posted on the subject property by the applicant and shall be mailed, by first class mail by the appropriate City agency, to all persons who testified at any public hearing on the original permit and left their names and addresses, or submitted written testimony or to any other persons requesting notice.
4. If no written objection to the determination is received within 10 working days of the posting and mailing, the extension shall be approved.

(Standards for Review and Required Findings) of this Section, or if objection is made to the determination of consistency, the approving authority shall set the matter for public hearing and give notice in accordance with the provisions of Subsection C. (Notice) of this Section. In addition, the approving authority shall notify any persons who objected to the approving authority's determination of consistency.
6. The approving authority shall make a determination based on the facts presented at the public hearing. - d. Unless otherwise required by a specific process, appeals must be filed within 15 days after the date on the letter of determination to the applicant.
- e. Despite any provisions of this Chapter, whenever the final day for filing an appeal from any action, decision or determination of the Director of Planning, Zoning Administrator, Area Planning Commission, or City Planning Commission falls on a Saturday, Sunday or legal holiday, the time for filing an appeal shall be extended to the close of business on the next succeeding working day, and the effective or final date of any action, decision, or determination shall be extended to the close of that appeal period.
- f. No appeal shall be accepted or in any way considered as officially on file which is not presented in proper form and received within the appeal period specified by other sections of this Chapter or the extended period specified above in this Subsection.
- g. If in any individual case involving a 15-day appeal period, that appeal period fails to include at least 10 working days, then the appeal period shall be extended as many days as the Director of Planning, Zoning Administrator, Area Planning Commission, City Planning Commission or City Council determines are necessary to include 10 working days.
- h. An appeal stays proceedings in the matter until the appellate body makes a decision.
- i. After an appeal is filed, the initial decision maker will transmit the appeal and the file to the appellate body, together with any report if one was prepared by staff responding to the points raised made in the appeal. The Department of City Planning will make investigations and furnish any reports requested by the body to which the matter is transferred.

- l. The appellate body will conduct a public hearing. After the public hearing, the appellate body will render a decision:
 - i. Affirming the initial decision in whole or in part; or
 - ii. Reversing the initial decision in whole or in part, after which it may render its own decision or remand the decision to the initial decision maker for further proceedings.
- m. The appellate body may impose conditions that it determines are needed to ensure substantial compliance with the standards or findings for approval.
- n. The appellate body may extend the time period for deciding an appeal to allow the consideration of changes to the project requested by the applicant. If the appellate body finds that the changes are substantial, the hearing may be continued by mutual agreement after additional posted notice is provided. The time period required for additional notice is at least the same amount of time required to post a notice on the original application. If no posted notice was required on the original application, the time period is the longest period required for mailed or published notice as applicable.
- o. The appellate body may take additional evidence, make its own record, or base its decision on the record created by the initial decision maker.
- p. Appellant(s) may withdraw an appeal of an initial determination if the withdrawal is filed with the Department at least 15 days prior to the public hearing by the appellate body on the appeal.
- q. Withdrawal of an appeal shall be in writing and does not require the decision maker to concur. The withdrawal shall be filed with the Department.
- r. If the withdrawal of the appeal is received by the Department after the close of the original appeal period, the Department shall notify the same persons who received notice of the decision that was appealed, that an appeal had been filed and was now withdrawn. The notice shall state that the appeal period is being reopened. The reopened appeal period shall run for 10 days from the date the notice of withdrawal of the appeal is mailed. If more than one appeal was filed, the appeal period is only reopened if the withdrawal of the appeal would result in no other appeal going forward. The appeal period shall only be reopened once.
- s. If the withdrawal is received by the Department before any required public hearing notice is mailed, then the time for the appellate body to act is extended for 10 days.
- t. If the withdrawal is received by the Department after the public hearing notice is mailed, then any appeal filed during the reopened appeal period shall be heard on the same date and time as set forth in the previously mailed public hearing notice. No further notice of the appeal hearing is required.
- u. If the withdrawal of the appeal, and the subsequent reopening of the appeal period, results in no appeal going forward:

Sec. 13B.9.1. Coastal Development Permit (Pre-Certification)

- i. The withdrawal of the appeal is permanent; and
- ii. The decision from which the appeal was taken automatically becomes final at the end of the appeal period or reopened appeal period.
- v. Appeals challenging Variance decisions cannot be withdrawn.
- w. The appellate body shall hear the matter de novo, considering the whole of the project with no deference given to the decision of the initial decision maker. The appellate body shall make its decision based on the record before the initial decision maker and any other evidence or testimony presented at or before the appellate body's hearing.
- x. Unless required otherwise by this Chapter, in making a decision to grant a project approval, the appellate body shall make the same findings as required to be made by the initial decision maker, supported by substantial evidence.
- y. Unless otherwise required by a specific process, the appellate body shall act within 75 days after the expiration of the appeal period or within any additional period mutually agreed upon by the applicant and the appellate body.
- z. Failure of the appellate body to render a timely decision shall result in the denial of the appeal.

2. Appellate Decision

Appeals from the approval, conditional approval, or disapproval of a permit under the provisions of this Section, may be taken by the applicant or any aggrieved person as follows:

- a. Where a Coastal Development Permit hearing has been combined with the hearing on the project itself, an appeal may be taken to the appellate body that would hear and decide the appeal from the underlying project. If the appeal from any underlying project is further appealable to a second appellate body, the Coastal Development Permit is likewise further appealable. The time within which to appeal shall be the same as that provided for an appeal of the project itself, but the decision of the permit granting authority on the coastal permit may be separately appealed, without appealing the action on the underlying project. The times for notification of hearing and action on such appeal shall be the same as for the underlying project, whether or not such underlying project is also appealed.
- b. Where a Coastal Development Permit application is for a public project, the action of the City Engineer may be appealed to the Board of Public Works. Such appeal shall be filed with the Office of the City Engineer within 15 days of the mailing of the decision of the permit granting authority.
- c. Where a Coastal Development Permit (other than for a Public Project) involves an underlying activity, which is not otherwise appealable, the action of a permit-granting authority on an application may be appealed to the Area Planning Commission. That appeal shall be filed with the Area Planning Commission within 15 days of the mailing of the decision of the permit-granting authority.
- d. Any appeal filed with either the City Engineer or the Area Planning Commission shall be heard and decided within 30 days of the filing of the appeal. Notice shall be mailed to the required parties at least 10 days prior to the hearing.

Sec. 13B.9.1. Coastal Development Permit (Pre-Certification)

- e. Action on any appeal shall be in writing, and if the appeal is granted, in whole or in part, such decision shall set forth wherein the permit granting authority, or the lower appeal body erred in its action on the permit under the criteria set forth in Subsection E. (Standards for Review and Required Findings) of this Section. If the action of any appeal body is further appealable within the City's appeal structure, notice of such intermediate appeal body's action approving, conditionally approving or disapproving any appeal of a Coastal Development Permit along with any findings made and conditions imposed in connection therewith, shall be mailed to the applicant, the appellants, and to any person or persons who, in writing, request a copy of such action.

Commented [DCP666]: Sec. 13B.9.1.G.2. is based on Sec. 12.20.2 H. of Chapter 1. The appeal period has been changed from 10 days to 15 days.

H. Amendments to Permits

1. The holder of a Coastal Development Permit may apply to amend the permit by filing a written application with the initial approving authority who approved the original permit. The application shall contain a description of the proposed amendment, the reason for the amendment, together with maps, plans or any other information as may be required by the approving authority, and shall be accompanied by evidence of a valid, unexpired permit and of the applicant's continued legal ownership interest in the property. The applicant shall also furnish to the City the information required in Subsection C. (Notice) of this Section. If the application is deemed complete and accepted, the approving authority shall determine if the requested amendment constitutes an immaterial or material change to the permit.
2. For applications representing immaterial changes, the approving authority shall prepare a written notice containing the same information required for the notice of the original application for a Coastal Development Permit, a description of the proposed amendment and a summary of the procedures outlined in this Subsection. The notice shall be posted on the subject property by the applicant and shall also be mailed, by first class mail by the appropriate City agency, to all persons who testified at any public hearing on the original permit and left their names and addresses, or submitted written testimony or to any other persons who requested to be notified. If no written objection is received by the approving authority within 10 working days of the posting and mailing, the approving authority shall approve the amendment provided the following findings are made:
 - a. That the proposed amendment will not lessen or avoid the intended effect of the original permit, as approved or conditioned consistent with the findings required in Subsection E. (Standards for Review and Required Findings) of this Section, unless the proposed amendment is necessitated by a change in circumstances, and the applicant has presented newly discovered material which he or she could not, with reasonable diligence, have discovered and produced before the original permit was granted;
 - b. That the proposed amendment will not lessen or eliminate any conditions imposed for the purpose of protecting a coastal resource or coastal access consistent with the findings required by Subsection E. (Standards for Review and Required Findings) of this Section;
 - c. That all of the findings required by Subsection E. (Standards for Review and Required Findings) of this Section can still be made;
 - d. That the proposed amendment will not result in any increase in the density or intensity of the project; and

Sec. 13B.9.1. Coastal Development Permit (Pre-Certification)

- e. That the proposed amendment will not cause any adverse impact on surrounding properties.
3. For applications representing material changes, applications whose immateriality has been challenged or applications for amendments which affect coastal resource or coastal access protection as required by Sec. 30604 of the California Public Resources Code, the approving authority shall set the matter for public hearing and shall give notice in accordance with the provisions of Subsection C. (Notice) of this Section. The approving authority shall also notify all persons who objected to the approving authority's determination of immateriality. If the approving authority can make the findings contained in Subdivision 2. above, it shall approve the application for amendment to the permit. If the approving authority cannot make the findings referenced above, the application for amendment shall be denied.
4. Notice of any action taken by the approving authority on an application for an amendment to a permit shall be provided as set forth in Subsection D.4 (Decision; Notice of Determination) of this Section.
5. Any action taken by the approving authority on an application for an amendment to a permit is appealable in the same manner as an appeal on the original permit as set forth in the Subsection G. (Appeals) of this Section.
6. The notification procedures and the procedures applicable to appeals to the Coastal Commission set forth in Subsection D.5 (Decision; Transmittal) of this Section are applicable to applications for amendments to permits.

G. Appeals

1. General Procedures

- a. Appeals shall be in writing and filed on forms maintained by the Department.
- b. An appeal shall specifically state the points at issue and the reasons why the decision should be overturned.
- c. An appeal not properly or timely filed shall not be accepted, and will not be considered by the appellate body.
- d. Unless otherwise required by a specific process, appeals must be filed within 15 days after the date on the letter of determination to the applicant.
- e. Despite any provisions of this Chapter, whenever the final day for filing an appeal from any action, decision or determination of the Director of Planning, Zoning Administrator, Area Planning Commission, or City Planning Commission falls on a Saturday, Sunday or legal holiday, the time for filing an appeal shall be extended to the close of business on the next succeeding working day, and the effective or final date of any action, decision, or determination shall be extended to the close of that appeal period.
- f. No appeal shall be accepted or in any way considered as officially on file which is not presented in proper form and received within the appeal period specified by other sections of this Chapter or the extended period specified above in this Subsection.
- g. If in any individual case involving a 15-day appeal period, that appeal period fails to include at least 10 working days, then the appeal period shall be extended as many days as the Director of Planning,

Sec. 13B.9.2. Coastal Development Permit (Post-Certification)

Zoning Administrator, Area Planning Commission, City Planning Commission or City Council determines are necessary to include 10 working days.

- h. An appeal stays proceedings in the matter until the appellate body makes a decision.
- i. After an appeal is filed, the initial decision maker will transmit the appeal and the file to the appellate body, together with any report if one was prepared by staff responding to the points raised made in the appeal. The Department of City Planning will make investigations and furnish any reports requested by the body to which the matter is transferred.
- j. When the appellate body receives the appeal, the initial decision maker loses jurisdiction.
- k. Upon the date set for the hearing, the appellate body shall either hear the appeal, or continue the matter by mutual agreement to another date if there is cause to do so. No notice of continuance need be given if the continuance is announced at the time for which the hearing was set.
- l. The appellate body will conduct a public hearing. After the public hearing, the appellate body will render a decision:
 - i. Affirming the initial decision in whole or in part; or
 - ii. Reversing the initial decision in whole or in part, after which it may render its own decision or remand the decision to the initial decision maker for further proceedings.
- m. The appellate body may impose conditions that it determines are needed to ensure substantial compliance with the standards or findings for approval.
- n. The appellate body may extend the time period for deciding an appeal to allow the consideration of changes to the project requested by the applicant. If the appellate body finds that the changes are substantial, the hearing may be continued by mutual agreement after additional posted notice is provided. The time period required for additional notice is at least the same amount of time required to post a notice on the original application. If no posted notice was required on the original application, the time period is the longest period required for mailed or published notice as applicable.
- o. The appellate body may take additional evidence, make its own record, or base its decision on the record created by the initial decision maker.
- p. Appellant(s) may withdraw an appeal of an initial determination if the withdrawal is filed with the Department at least 15 days prior to the public hearing by the appellate body on the appeal.
- q. Withdrawal of an appeal shall be in writing and does not require the decision maker to concur. The withdrawal shall be filed with the Department.
- r. If the withdrawal of the appeal is received by the Department after the close of the original appeal period, the Department shall notify the same persons who received notice of the decision that was appealed, that an appeal had been filed and was now withdrawn. The notice shall state that the appeal period is being reopened. The reopened appeal period shall run for 10 days from the date the notice of withdrawal of the appeal is mailed. If more than one appeal was filed, the appeal

Sec. 13B.9.2. Coastal Development Permit (Post-Certification)

period is only reopened if the withdrawal of the appeal would result in no other appeal going forward. The appeal period shall only be reopened once.

- s. If the withdrawal is received by the Department before any required public hearing notice is mailed, then the time for the appellate body to act is extended for 10 days.
- t. If the withdrawal is received by the Department after the public hearing notice is mailed, then any appeal filed during the reopened appeal period shall be heard on the same date and time as set forth in the previously mailed public hearing notice. No further notice of the appeal hearing is required.
- u. If the withdrawal of the appeal, and the subsequent reopening of the appeal period, results in no appeal going forward:
 - i. The withdrawal of the appeal is permanent; and
 - ii. The decision from which the appeal was taken automatically becomes final at the end of the appeal period or reopened appeal period.
- v. Appeals challenging Variance decisions cannot be withdrawn.
- w. The appellate body shall hear the matter de novo, considering the whole of the project with no deference given to the decision of the initial decision maker. The appellate body shall make its decision based on the record before the initial decision maker and any other evidence or testimony presented at or before the appellate body's hearing.
- x. Unless required otherwise by this Chapter, in making a decision to grant a project approval, the appellate body shall make the same findings as required to be made by the initial decision maker, supported by substantial evidence.
- y. Unless otherwise required by a specific process, the appellate body shall act within 75 days after the expiration of the appeal period or within any additional period mutually agreed upon by the applicant and the appellate body.
- z. Failure of the appellate body to render a timely decision shall result in the denial of the appeal.

2. **Filing**

- a. An Applicant or any other person aggrieved by the initial decision on a Coastal Development Permit may appeal the decision to the Area Planning Commission or to the Board of Public Works for a Public Project or for a private project where the approval of the underlying permit is within the jurisdiction of the City Engineer. The appeal on an Appealable Development and non-appealable development shall be filed within 15 days of the date of mailing of the decision.
- b. The appeal shall set forth specifically the points at issue and the reasons for the appeal. Any appeal not filed within the 15-day filing period shall not be considered by the Area Planning Commission or Board of Public Works. The filing of an appeal stays proceedings in the matter until the Commission or Board has made a decision. Once an appeal is filed, the initial decision maker shall transmit the appeal and the file to the Commission or Board, together with any reports responding to the allegations made in the appeal.

Commented [DCP697]: Sec. 13B.9.2.G.1. restates the provisions of Sec. 13A.2.8. (Appeals) to emphasize that those provisions apply to this Section.

Commented [DCP698]: Sec. 13B.9.2.G.2. is based on Sec. 12.20.2.1 H.1 of Chapter 1.

Sec. 13B.9.2. Coastal Development Permit (Post-Certification)

3. Public Hearing on Appellate Decision

Before acting on any appeal of a Coastal Development Permit, the Area Planning Commission or Board of Public Works shall set the matter for hearing, giving notice in the manner specified in Subsection C. (Notice) of this Section.

Commented [DCP699]: Sec. 13B.9.2.G.3. is based on Sec. 12.20.2.1 H.2 of Chapter 1.

4. Time for Appellate Decision

The Area Planning Commission or Board of Public Works shall act within 75 days after the expiration of the appeal period or within any additional period mutually agreed upon by the Applicant and the Commission or Board.

Commented [DCP700]: Sec. 13B.9.2.G.4. is based on Sec. 12.20.2.1 H.3 of Chapter 1.

5. Appellate Decision

The Area Planning Commission or Board of Public Works may reverse or modify the initial decision, in whole or in part. In reversing or modifying the initial decision, the Commission or Board shall make the same findings required to be made by the initial decision maker.

Commented [DCP701]: Sec. 13B.9.2.G.5. is based on Sec. 12.20.2.1 H.3 of Chapter 1. The requirement that the appellate body state how the initial decision maker erred or abused its discretion has been removed to be consistent with the standard of a de novo review established in Sec. 13A.2.8.E. (General Procedural Elements; Appeals; Standards for Review and Required Findings) of Chapter 1A, and restated in Subsection G.1.w. above.

6. Appeal Procedures for Multiple Applications Including a Coastal Development Permit

- a. If a Coastal Development Permit is combined with another Quasi-judicial or Legislative approval, an appeal of the initial decision on a Coastal Development Permit application shall automatically constitute an appeal of the decision on the application for the other discretionary permits and approvals. Any appeal of the other permits and approvals also constitute an appeal of the Coastal Development Permit unless the appeal of the Coastal Development Permit would violate Sec. 563 (Conditional Use Permits and Other Approvals) of the City Charter. The time for appeal of the Coastal Development Permit to the Coastal Commission shall commence after action on the other permits and approvals becomes final.
- b. The Approving Authority for multiple applications for a Coastal Development Permit and other Quasi-judicial or Legislative approvals shall be as established in Sec. 13A.2.10. (Multiple Approvals). However, the appeal procedures for the consolidated action shall follow the procedural requirements for notice, public hearing, and final action of an initial decision on a Coastal Development Permit in accordance with Subsections C. (Notice) - E. (Standards for Review and Required Findings) of this Section.

Commented [DCP702]: Sec. 13B.9.2.G.6. is based on Sec. 12.20.2.1 D.6 and L. of Chapter 1.

H. Amendments to Permits

1. Immaterial Changes to a Coastal Development Permit

If the Approving Authority finds that the proposed change conforms to the original findings and conditions required for the Coastal Development Permit and is in substantial conformance with that Permit, then the Approving Authority may approve the proposed change.

Commented [DCP703]: Sec. 13B.9.2.H.1. is based on Sec. 12.20.2.1 P. of Chapter 1.

Sec. 13B.9.2. Coastal Development Permit (Post-Certification)

2. Permit Amendments

a. Application

If the Approving Authority that originally granted the Coastal Development Permit finds that a proposed change does not substantially conform to the original Coastal Development Permit, the holder of the Permit may apply for an amendment to the Permit in the same manner as an application for a new Coastal Development Permit. This application shall contain a description of the proposed amendment, the reason for the amendment, together with maps, plans or other material appropriate to the request, and shall be accompanied by evidence of a valid, unexpired permit and of the Applicant's continued legal ownership or interest in the property.

b. Procedures

The procedures for an amendment are the same as would be required of a new application at the same location in accordance with Subsections B. (Initiation) - E. (Standards for Review and Required Findings) of this Section.

c. Appeals

Decisions on amendment applications are appealable as provided in Subsection G. (Appeals) of this Section.

Commented [DCP704]: Sec. 13B.9.2.H.2. is based on Sec. 12.20.2.1 Q. of Chapter 1.

I. Emergency Permits

1. Applications

An application for an Emergency Coastal Development Permit shall be made to the Director or the City Engineer, whichever has jurisdiction, within 3 days of the emergency or discovery of the danger. The following information shall be included in the request:

- a. Nature of the emergency;
- b. Cause of the emergency, if this can be determined;
- c. Location of the emergency;
- d. The remedial, protective or preventive work required to deal with the emergency; and

Sec. 13B.9.2. Coastal Development Permit (Post-Certification)

3. Procedure

The Director or City Engineer shall provide public notice of the emergency work, with the extent and type of notice determined on the basis of the nature of the emergency. The Director or City Engineer shall not issue an emergency permit for any work that falls within the provisions of Sec. 30519(b) and 30601 of the Public Resources Code. The Director or City Engineer may grant an emergency permit upon reasonable terms and conditions, if the Director or City Engineer finds that:

- a. An emergency exists that requires action more quickly than the regular permit process would allow, and the work can or will be completed within 30 days, unless otherwise specified by the terms of the permit;
- b. Public comment on the proposed emergency action has been reviewed, if time allows; and
- c. The work proposed would be consistent with the certified Local Coastal Program and any adopted, relevant community or specific plans.

4. Compliance

An emergency permit shall be valid for not more than 60 days from the date of issuance. Prior to expiration of the emergency permit, the permittee must submit a Coastal Development Permit application for the Coastal Development or else remove the Coastal Development undertaken pursuant to the emergency permit in its entirety and restore the site to its previous condition. Failure to comply with the provisions of this Subsection or failure by the permittee to properly notice and report any emergency actions may result in the revocation of the emergency permit.

5. Reporting

The Director or City Engineer shall notify the Coastal Commission of the issuance of an emergency permit by phone or letter as soon as possible, but in any event within 3 days of the issuance of the emergency permit.

Commented [DCP705]: Sec. 13B.9.2.1. is based on Sec. 12.20.2.1 R. of Chapter 1.

DIV. 13B.10. DEPARTMENT OF BUILDING AND SAFETY

SEC. 13B.10.1. GENERAL PROVISIONS

A. Purpose

Commented [DCP706]: Sec. 13B.10.1.A. contains new language that was added for clarification purposes.

B. Permits and Vesting of Development Plan

1. Permits

No permit pertaining to the use of land or buildings shall be issued by any department, officer, or employee of this City, vested with such duty, unless the application for the permit has been approved by the Department of Building and Safety as to conformance of said use with the provisions of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code. Any permit or certificate of occupancy, issued in conflict with the provisions of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code shall be null and void.

Commented [DCP707]: Sec. 13B.10.1.B.1. is based on Sec. 12.26 A.2 of Chapter 1.

2. Vesting of Development Plan

- a. Whenever plans sufficient for a complete plan check are accepted by the Department of Building and Safety and a fee is paid, a vested right is granted to the project to proceed with its development in substantial compliance with the zoning, and development rules, regulations, ordinances and adopted policies of the City of Los Angeles in force on the date that the plan check fee is paid as indicated on a valid building permit application. These rights shall not include exemption from other applications or approvals that may be necessary to entitle the project to proceed (i.e., subdivision, zone variance, design review board review, etc.) and from subsequent changes in the Building and Safety and Fire regulations found necessary by the City Council to protect the public health and safety and which are applicable on a citywide basis, contained in Chapters 5 (Public Safety and Protection) and 9 (Building Regulations) of this Code and policies and standards relating to those Chapters or from citywide programs enacted after the application is deemed complete to implement State or Federal mandates.
- b. These rights shall end:
 - i. 18 months after the plan check fee is paid, or if a permit is issued during that time, when the building permit terminates pursuant to Sec. 98.0602 (Expiration of Permits) of this Code;
 - ii. When subsequent changes are made to those plans that increase by more than 5% or decrease by more than 10% the height, floor area, or occupant load of the proposed-structure;
 - iii. When the use of the property is changed;
 - iv. When changes exceed or violate the regulations of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code in force on the date the plan check fee was paid; or

Sec. 13B.10.1. General Provisions

- v. When the discretionary land use approval for the project terminates under the provisions of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code or any ordinance adopted pursuant to this Chapter or Chapter 1 (General Provisions and Zoning) of this Code.
- c. In the case that a discretionary land use approval is required, the vesting rights in plan check will be extended for the time period during which the discretionary land use approval is being processed. However, in no case will the extension of vesting rights exceed more than 18 months beyond the original vesting expiration timeline.

C. Yard Area Modifications

Sec. 98.0403.1(a)11. (Powers of the Department and the Board) of Chapter 9 (Building Regulations) of this Code provides in part that:

1. Any action granting a modification shall be recorded and entered in the files of the Department.
2. "For structures and additions constructed after January 1, 1995, slight modifications from the yard requirements shall be limited to deviations permitting portions of buildings to extend into a required yard or other open space a distance of not to exceed 20% of the width or depth of such required yard or open space. However, for structures and additions existing prior to January 1, 1995, slight modifications may be granted for yard deviations slightly over 20%.
3. "Except as expressly provided herein, the Superintendent of Building shall not grant deviations from the lot area, height, or density requirements. Further, the Superintendent shall not grant deviations from the yard requirements relating to the height of fences and walls, or including those for tennis or paddle tennis courts and other game courts.
4. "If the yard regulations cannot reasonably be complied with or it is difficult to determine their application on lots of peculiar shape or location, then the regulations may be modified or determined by the Superintendent of Building. The Superintendent may also waive all or part of the required loading space on unusually shaped lots, oddly located lots, or hillside lots, when such space cannot reasonably be provided or utilized.
5. "Requests for yard modifications as provided in this subsection shall be made in accordance with the procedures established in Sec. 98.0403.2 of the Los Angeles Municipal Code."

D. Inspection of Premises

1. Whenever it is necessary to make an inspection to enforce any of the provisions or to perform any duty imposed by this Code or other applicable law, or whenever the Superintendent of Building or his/ her authorized representative has reasonable cause to believe that there exists in any building or upon any premises any violation of the provisions of this Article or other applicable law, the Superintendent of Building or his/her authorized representative is hereby authorized to enter such property at any

The threshold for the loss of vesting rights has been changed from no more than a 5% increase or decrease in plans, to no more than a 5% increase or 10% decrease in plans. Additionally, up to an 18 month extension of the vesting rights time period will be granted in the cases that a discretionary land use approval is required.

reasonable time and to inspect the same and perform any duty imposed upon the General Manager by this Code or other applicable law, provided that:

- a. If such property be occupied, he/she shall first present proper credentials to the occupant and request entry explaining his/her reasons therefor; and
- b. If such property be unoccupied, he/she shall first make a reasonable effort to locate the owner or other persons having charge or control of the property and request entry, explaining his reasons therefor. If such entry is refused or cannot be obtained because the owner or other person having charge or control of the property cannot be found after due diligence, the Superintendent of Building or his/her authorized representative shall have recourse to every remedy provided by law to secure lawful entry and inspect the property.

Commented [DCP710]: Sec. 13B.10.1.D. is based on Sec. 12.26 D. of Chapter 1.

SEC. 13B.10.2. APPEALS FROM LADBS DETERMINATIONS

A. Applicability

1. The Director may investigate and make a decision upon appeals from determinations of the Los Angeles Department of Building and Safety (LADBS) in the interpretation or administration of this Chapter or Chapter 1 (General Provisions and Zoning) of this Code.
2. This Section does not apply to requests for extensions of time to comply with any order issued by LADBS.

B. Initiation

1. Any aggrieved person may file an appeal at a public counter of the Department of City Planning. For the purposes of this process, the person filing an appeal on the LADBS determination will be considered the applicant.
2. An appeal to the Director may only be made after the LADBS has rendered a decision in writing and provided written justification and findings on an appeal made pursuant to Sec. 98.0403.2(a) (Procedures for Appeals to the Department and to the Board) of this Code.
3. The appeal shall be filed within 15 days after the LADBS renders a decision in writing with justification and findings on the issues set forth in the appeal made pursuant to Sec. 98.0403.2(a) (Procedures for Appeals to the Department and to the Board) of this Code.
4. Filing an appeal stays, with respect to that site, all enforcement proceedings and actions pertaining to this Chapter or Chapter 1 (General Provisions and Zoning) of this Code, and other land use ordinances pending the Director's decision. However, filing an appeal will not prevent the issuance of a building permit or performance of work authorized by the permit when all Code and other land use requirements are met to the satisfaction of the LADBS, and only after consideration of the issues set forth in the appeal to the LADBS made pursuant to Sec. 98.0403.2(a) (Procedures for Appeals to the Department and to the Board) of this Code.. Filing an appeal does not delay enforcement proceedings or actions related to the abatement of imminent life safety hazards.

C. Notice

1. Notice of Appeal Filing

Commented [DCP711]: Sec. 13B.10.2.A. is based on Sec. 12.26 K.1 and 2 of Chapter 1.

Commented [DCP712]: Sec. 13B.10.2.B. is based on Sec. 12.26 K.1 and 2 of Chapter 1. (Appeals; Standards for Review and Required Findings) of Chapter 1A.

Commented [DCP713]: Sec. 13B.10.2.C.1. and 2. are based on Sec. 12.26 K.3 and 4. of Chapter 1. Since the applicant is also the appellant on Appeals from LADBS Determinations, the public hearing notice requirements have been amended to use the term "appellee and property owner" in place of "appellant." The public hearing notice requirements for notice by mail have been changed from 15 days to 21 days, and mail notification to the Certified Neighborhood Council representing the area in which the subject property is located is now required.

SEC. 13B.10.3. ANNUAL INSPECTION MONITORING (AUTO DISMANTLING YARDS, JUNK YARDS, SCRAP METAL or RECYCLING MATERIALS PROCESSING YARDS, RECYCLING COLLECTION AND/OR BUYBACK CENTERS, RECYCLING MATERIALS SORTING FACILITES, AND CARGO CONTAINER STORAGE YARDS)

A. Applicability

1. The provisions of this Section shall apply to every recycling center or yard operating pursuant to a valid certificate of occupancy. In addition, these provisions shall be applicable to every recycling center or yard operating with nonconforming status pursuant to Sec. 12.23 (Nonconforming Building and Uses) of Chapter 1 (General Provisions and Zoning) of this Code, and as to such recycling centers or yards, any revocation proceedings authorized by these provisions shall be deemed to be proceedings to revoke and void any rights otherwise granted by Sec. 12.23 (Nonconforming Building and Uses) of Chapter 1 (General Provisions and Zoning) of this Code.

2. Definitions

For the purpose of this Section the following words and phrases are defined:

Board. The Board of Building and Safety Commissioners.

Department. The Department of Building and Safety.

Superintendent. The Superintendent of Building or his or her authorized representative.

Yard. Any automobile or truck dismantling yard, junk yard, scrap metal or recycling materials processing yard or cargo container storage yard or any open storage location where used materials and equipment of any kind, including vehicles, boats, or airplanes, which are inoperable, wrecked, damaged, or unlicensed, i.e., not currently licensed by the Department of Motor Vehicles, are stored or processed.

B. Initiation

1. Annual Inspections

- a. The Department shall make an inspection of each recycling center or yard at least once a year to verify compliance with all applicable provisions of this Code.

jointly and severally responsible to ensure that code compliance is maintained, at all times, and that payment of all fees, fines, penalties, costs, or other assessments due for each qualifying business as specified by this Section, is made to the Department. If all fees, fines, penalties, costs or other assessments due pursuant to this Section are not paid, a lien may be placed upon the property as provided for in Sec. 98.0402(g) of this Code and Sec. 7.35.1 et seq. of the Los Angeles Administrative Code. In addition, failure to pay all fees, fines, penalties, costs or other assessments is sufficient cause to institute a certificate of occupancy revocation hearing.

- c. An inspection may also be made whenever a complaint is received by the Department concerning a violation of this Code or as needed to verify continued compliance with applicable Code requirements. Accessory storage only yards, where no business is conducted, which are nearby but not contiguous with a main yard may be approved and inspected with an additional fee of one half of the annual inspection fee for each yard.

- b. The compliance date as specified in the Order may be extended for an additional period not to exceed 45 days if the owner or operator of the recycling center or yard presents satisfactory evidence to the Superintendent that unusual difficulties prevent substantial compliance without an extension; and
- c. Failure to correct the violation on or before the compliance date or any authorized extension will lead to commencement of certificate of occupancy revocation proceedings. Such proceedings will terminate with a revocation hearing, which hearing may only be avoided if the violation is corrected and a fine paid according to the fine schedule in Subsection I. (Additional Standards and Provisions) of this Section.

3. Re-Inspection

The Superintendent shall re-inspect a recycling center or yard for which an Order was issued pursuant to this Section subsequent to the compliance date or any authorized extension thereof.

4. Citation Authority Prior to Revocation Notice

An arrest may be made or citation issued pursuant to Sec. 98.0408 (Issuance of Citations by Designated Employees) of this Code if the violations noted in an Order are not corrected on or before the due date noted upon such notice. 1. If any violation specified in an order or citation is not corrected prior to the compliance date or any extension thereof, or if the annual inspection fee has not been paid within 60 days of assessment, then certificate of occupancy revocation proceedings shall be commenced by issuance of a Notice of intent to Revoke ("Notice"), which shall be sent to the owner of the property and the operator of the recycling center or yard subsequent to any re-inspection pursuant to Subsection A (Applicability) of this Section.
2. The Notice shall state the following:

 - b. The owner or operator of the yard has paid the fine specified in Subsection I. (Additional Standards and Provisions) of this Section with respect to all violations listed in the Notice of Revocation.

F. Scope of Decision

1. Termination of Revocation Proceedings

The Superintendent shall terminate certificate of occupancy revocation proceedings upon a finding that each violation of this Code specified in the Notice has been corrected and the fine specified in such Notice has been paid. Termination may only occur on or before the date of the revocation hearing.

2. Loss of Non-Conforming Rights

Notwithstanding any provision of this Code to the contrary, where a certificate of occupancy is revoked pursuant to this Section, a new certificate of occupancy for the property may only be issued if all requirements of the Code in effect at the time of issuance of the new certificate are satisfied. In the case of a site which has no valid certificate of occupancy any and all rights which may be granted by Sec. 12.23 (Nonconforming Building and Uses) of Chapter 1 (General Provisions and Zoning) of this Code are revoked.
