

SOUTH LOS ANGELES CPIO
Corridors Subareas and Appendices Checklist

Related Code Section

Los Angeles Municipal Code (LAMC) Section 13.14 G (Administrative Review) of Chapter 1 authorizes ministerial review for projects in compliance with Community Plan Implementation Overlays (CPIOs). Ordinance No. 185,927 established the South Los Angeles CPIO. Refer to Chapter II and Appendix A in the CPIO and the Design Guidelines in the South Los Angeles (SLA) Community Plan, Appendix B, referenced below, when completing this checklist. The regulations listed here apply to all Corridors Subareas, unless stated otherwise. Procedures for Administrative Review are governed by LAMC Section 13B.3.1. of Chapter 1A.

Filing Instructions

This checklist is a supplemental form required for projects that fall within the South Los Angeles CPIO. Plan Sheet references are to be completed by the **applicant** in accordance with plans submitted for review. To submit this form for review by Project Planning Staff assigned to the Geographic Planning area, complete and upload this form to the [Online Application System \(OAS\)](#) portal.

This Corridors Subareas Checklist includes the following South Los Angeles CPIO Sections:

- Corridors Subareas Regulations (Chapter II), **CPIO, page 22**
 - Subarea A – Neighborhood-Serving Corridor
 - Subarea B – Parkway Corridor
 - Subarea C – General Corridor
 - Subarea D – Commercial Corridor
- Environmental Standards. See Appendix A on page 18 of this checklist and **CPIO, page 96**
- Design Guidelines
 - South Los Angeles Design Guidelines. See Appendix B on page 19 of this checklist and the **SLA Community Plan-Appendix B**
 - Citywide Design Guidelines, available at <https://planning.lacity.org>.

		Standard Met?	Staff Comments
(b) Projects that abut a freeway right-of-way shall provide a minimum 5-foot landscaped setback from the freeway right-of-way property line. Landscaping that is drought tolerant, evergreen, and capable of growing to a height of 10 feet shall be utilized. A decorative masonry wall, a minimum of six feet and a maximum of eight feet in height, shall be constructed along the property line.			
4. Active Floor Area. In Subarea A, for all Projects except 100% residential Projects, the Ground Floor of the Primary Frontage shall incorporate Active Floor Area, Pedestrian Amenities, or a combination of both, along at least 75% of the Primary Frontage to a depth of at least 25 feet (excluding areas used for vehicular access).		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
5. Street-Oriented Entrance. (a) Projects shall provide a Street-Oriented Entrance. Street-Oriented Entrances need not be parallel to the Primary Lot Line, provided that they are no more than 20 feet from the Primary Lot Line and augmented by entrance forecourts or other design features that establish a visual connection to the Primary Lot Line. (b) For non-residential Projects, Street-Oriented Entrances shall be accessible during business hours and shall be no more than three feet above or below the grade of the abutting public sidewalk grade.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
6. Building Materials. (a) Projects shall utilize two or more high-quality building materials and treatments on building exteriors such as brushed aluminum, brick, finished wood, or “Santa Barbara” smooth finish stucco.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A

(b) The following materials are prohibited: Styrofoam plant-ons and rough texture stucco (such as, lace, heavy dash, tunnel dash, heavy sand float). (c) The Primary Frontage may be comprised of no more than 80% stucco.			
E. Parking Design. In addition to any regulations set forth by the underlying zone and the LAMC, Projects with new construction or additions shall comply with the following parking design regulations:			
1. Surface Parking Screening. Where permitted, surface parking lots that abut public sidewalks shall provide a three-foot wide landscaped buffer, and a 3.5-foot-high decorative wall and/or hedge along the property line facing a street intended to screen headlights. The wall and/or hedge shall provide pedestrian entrances (separate from vehicular entrances) from the public sidewalk.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
*Figures are not to scale, illustrative only and not regulatory.			
2. Ground Floor Parking Level. Wherever at-grade or above ground parking is to be provided within a building's Ground Floor level fronting a public street (excluding alleys), the entire building shall be set back six feet from the adjacent public street and the setback shall be improved with diverse landscaping that is comprised of two or more plant types that, at maturity, screens the Ground Floor parking area up to a height of 10 feet. This requirement does not apply to that portion of the		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A

building where internal parking structures are buffered by habitable floor area on the Ground Floor such as retail space or a community room.			
3. Parking Structure Façades. For stand-alone parking structures, provide an external skin or other material consistent with or complementary to the overall design of the building intended to improve the building's appearance over the basic concrete structure of ramps, walls, and columns on all visible façades. Examples of appropriate skin material include heavy-gauge metal screen, precast concrete panels, laminated glass, and photovoltaic panels.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
4. Shade Trees. Surface parking lots shall have at least one tree for every four uncovered parking spaces distributed throughout the parking lot to shade the parking area at maturity. A minimum of half of the trees planted shall be no less than a 24-inch box tree or a 15-gallon tree. Palm trees shall not be used to meet this requirement.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
5. Pedestrian Walkway. Within the surface-parking lot area, Projects shall provide at least one centrally located pedestrian walkway that runs the length of the parking lot from the sidewalk to the building entrance and is separated from the parking lot by landscaping and shade trees.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
6. Parking Lot Location, Subarea A. In Subarea A, surface parking areas shall not be located between the Primary Lot Line and the Primary Frontage of a building. Surface parking shall be located to the rear or side of buildings. Parking can also be enclosed within a structure or located entirely below grade. Below grade structures can occupy the entire footprint of a lot.		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A

CPIO STANDARD	See Plan Sheet (Completed by Applicant)	Administrative Use Only	
		Standard Met?	Staff Comments
<p>7. Vehicular Access, Subarea A. In Subarea A, projects involving new buildings shall provide vehicular access from an alley or side street when available. Vehicular access from the Primary Frontage is prohibited unless the LADOT determines that no other reasonable alternative exists.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
<p>8. Curb Cuts, Subareas A and B. In Subareas A and B, curb cuts shall be limited to the minimum number permitted as determined by LADOT and parking/loading entries into buildings shall be limited to the minimum number required and the minimum width permitted by the LAMC.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
F. Signs.			
<p>1. Prohibited Signs. The following types of signs are prohibited: pole signs; illuminated architectural canopy signs; Feather Signs; digital displays; and Canister/Can/Cabinet Signs.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
G. Equipment, Fencing, and Utilities.			
<p>In addition to any regulations set forth by the underlying zone and the LAMC, Projects with new construction and additions shall comply with the following equipment and utility regulations:</p>			
<p>1. Security Devices. Interior roll-down doors and security grilles must be at least 75% transparent (open), retractable, and designed to be fully screened from view during business hours are permitted. The following security devices are prohibited in all Projects:</p> <ul style="list-style-type: none"> (a) Permanently affixed exterior security grilles or bars. (b) Exterior accordion (or scissor) gates. (c) Exterior roll-down doors that are less than 75% transparent. (d) Exterior roll-down housing that is visible from the sidewalk. 		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A

		Standard Met?	Staff Comments
<p>2. Mechanical Equipment. Mechanical equipment shall be screened from public view using non-reflective materials or other materials consistent with or complementary to the overall design of the building.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
<p>3. Fencing. Chain link fencing (with or without slats), corrugated metal fencing, and barbed/razor wire is prohibited along a Primary Frontage or where a parcel is either directly adjacent to or across an alley from a property in the RD1.5 Zone or more restrictive zone or a property containing a Community Facility.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
<p>4. Refuse Enclosures. Areas where trash and recycling containers are stored outside shall be fully enclosed, including roofing, with solid masonry walls or other materials that have been determined to prevent the release of refuse odors.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
<p>H. Auto-Related Use and New Franchise Automobile Sales Standards. In addition to any regulations set forth by the underlying zone and the LAMC, Projects with Auto-Related Uses and New Franchise Automobile Sales Uses shall comply with the following regulations:</p>			
<p>1. A solid masonry wall, at least six feet in height, for security and visual screening shall be provided at the property line where a parcel is either directly adjacent to or across an alley from a residentially zoned property or a property containing a Community Facility.</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A	
<p>2. No permit shall be issued until a covenant has been recorded on the subject property in a form and manner approved by Los Angeles City Planning, for the life of the use, demonstrating that the following requirements shall apply: (a) All actual repair or installation work shall be conducted within an enclosed building. (b) All vehicles undergoing, or awaiting, repair or pick-up shall be parked on-site. Vehicles</p>		<input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> N/A
