INSTRUCTIONS

This form serves as the basis of an informational zoning assessment for projects using Universal Planning Review (UPR) services. Information on requesting Universal Planning Review services is [available online](#). A zoning assessment delivered on this form is part of UPR services and is not intended to be used separately from it. When submitting for UPR services, a draft of this form may be completed and submitted by a project proponent to facilitate City Planning's zoning assessment. Completion of a zoning assessment by City Planning staff is intended to determine compliance with City zoning and land use requirements necessary to achieve the proposed project and to identify any zoning issues or necessary approvals that would need to be resolved through a City Planning application.

The informational zoning assessment does not constitute a zoning approval and does not require compliance with development standards to be completed. City Planning staff will sign the zoning assessment form and the project plans once the informational zoning assessment is completed.

This form applies to sites subject to zoning established in Chapter 1 of the Los Angeles Municipal Code (LAMC). For more information on a property's applied zoning, visit zimas.lacity.org.
