<sup>1</sup> One Hundred Affordable Housing Projects shall be processed pursuant to LAMC Section 12.22 A.39.

(ii) Incentives allowed per Table 12.22 A.37(f)(1)(i) and requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:

- a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for the targeted units to be set as specified in California Government Code Section 65915(c); or
- b. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
- c. The Incentive would be contrary to state or federal law.

(iii) To be eligible for the Menu of Incentives described in LAMC Section 12.22 A.37(f)(2) a Housing Development shall comply with the following:

A “No Further Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to utilize the Menu of Incentives.

(2) **Menu of Incentives.** A Housing Development may elect to request one of the following incentives not to exceed the allowed number of incentives pursuant to Table 12.22 A.37(f)(1)(i):

(i) **Yards.** Housing Developments eligible for the Base Incentives contained in this Subdivision may request a reduction of otherwise required yards as follows:

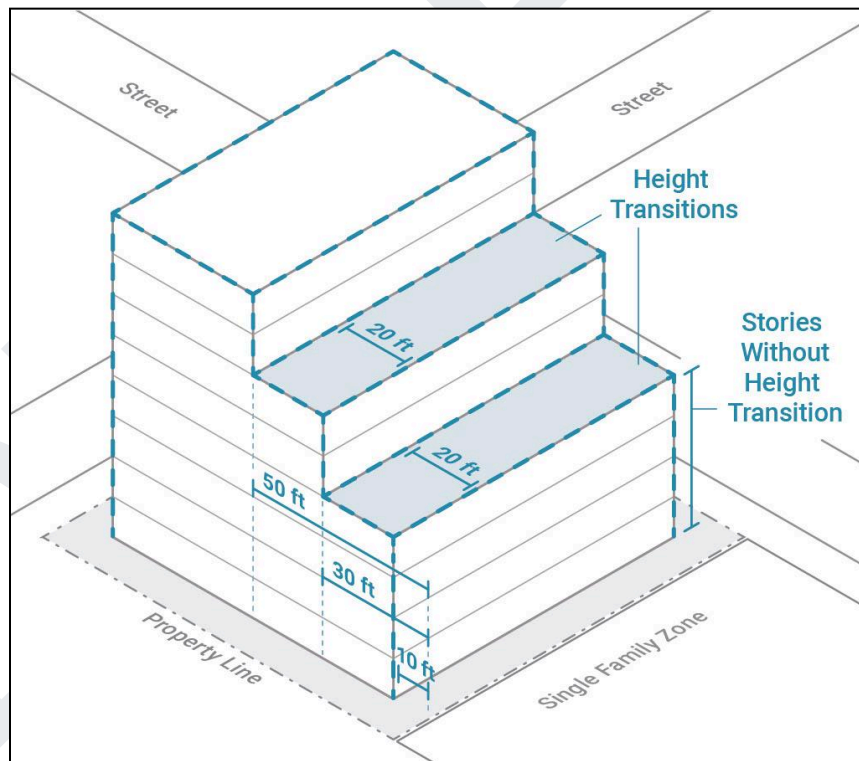

<b>Yards/Setbacks</b>	<b>C Zones</b>	<b>R Zones</b> (yard reductions in R zones may be combined and require the use of only one incentive)
	<p>In any Commercial zone, Housing Developments may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Housing Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.</p>	<p><b>Front Yards.</b> Front yard reductions are limited to no more than the average of the front yards, regardless of a required Building Line, of adjoining buildings along the same street frontage. Or, if located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted.</p> <p><b>Side and Rear Yards.</b> Up to 30% decrease in the required width or depth of any individual yard or setback.</p>

(ii) **Floor Area Ratio.** Housing Developments eligible for the Base Incentives contained in this Subdivision may request an increase in the otherwise allowed Floor Area Ratio (FAR) as follows. In a mixed-use development, the FAR bonus will apply only to the residential portion of the development and the nonresidential portion shall be limited to the FAR associated with a site’s underlying zoning prior to the application of any Incentive. Vehicle parking created above grade will be counted as floor area and included in the calculation of Floor Area Ratio for Housing Developments using this incentive.

Floor Area Ratio	C Zones	R Zones
	<p>A percentage increase in the allowable FAR equal to the percentage of Density Bonus for which the Housing Development is eligible, not to exceed 35% or 2.5:1 whichever is greater, provided the Housing Development includes the number of Restricted Affordable Units sufficient to qualify for a 35% Density Bonus.</p> <p><b>Exception.</b> Projects on sites with Designated Historic Resources, or Non-Contributing Elements as defined in LAMC Section 13B.8.1.C, shall not be eligible for an FAR incentive.</p>	<p>Not applicable.</p>

- (iii) **Height.** A height increase to permit a maximum of eleven additional feet or one additional story, whichever is greater. This increase in height shall be applicable over the entire parcel regardless of the number of underlying height limits, including Transitional Height or setback requirements, except when the Transitional Height Incentive below is also requested. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use Housing Developments.
- a. Notwithstanding Section 12.21.1, for Housing Developments where a rooftop deck is provided, roof structures for the housing of elevators and stairways may exceed the building height limit by up to seventeen feet in height on sites where the applicable Height District limits height to thirty feet or forty-five feet.

- (iv) **Transitional Height.** Housing Developments may select the following transitional height requirements in lieu of those found in Section 12.21.1.A.10 of this Code or any applicable transitional height limits in a Housing Development site’s applicable zoning ordinance, Specific Plan, or overlay including any requirements for reduced building heights or stepbacks when a building is adjoining a RW1 or more restrictive zone. A Height Incentive is not required in order to request this Incentive to modify transitional height. Furthermore, Housing Developments adjoining an OS zone may utilize this incentive to be exempt from the transitional height requirements found in Section 12.21.1.A.10 of this Code or any applicable Specific Plan or Overlay for the portion of the Housing Development abutting the OS zone.

	Setback/Step Back Distance*
<b>Side or Rear Setback</b>	10-feet
<b>4 Story Step-Back</b>	30-feet
<b>6 Story Step-Back</b>	50-feet

\*Setback and Step-back is measured from the property line.

- (v) **Space Between Buildings and Passageways.** Housing Developments eligible for the Base Incentives contained in this Subdivision and subject to the provisions set forth in LAMC Section 12.21 C.2 may request a reduction in space between buildings and passageways requirements as follows:
- a. Up to a 30% reduction in the space between buildings required pursuant to LAMC Section 12.21 C.2(a); and
  - b. Up to 50% reduction in the width of the passageway required pursuant to LAMC Section 12.21 C.2(b) or the space provided to meet a subject site's required side yard requirement, whichever provides a greater reduction. Passageways provided may extend from any public street adjacent to the Housing Developments site.
- (vi) **Lot Coverage.** Up to 20% increase in lot coverage limits, provided that the landscaping for the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, equivalent to 10% more than otherwise required by Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (vii) **Lot Width.** Up to 25% decrease from a lot width requirement, provided that the landscaping for the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, equivalent to 10% more than otherwise required by Section 12.40 of this Code, and the Landscape and Site Design Point System.
- (viii) **Open Space.** In lieu of the open space calculations set forth in LAMC Section 12.21 G.2, Housing Developments requesting this incentive may calculate their usable open space requirement as 15% of the total lot area or 10% of the total floor area confined within the perimeter walls of the provided Residential Units, whichever is greater, provided that the overall design of the Housing Development meets a minimum of 30 points under the Landscape and Site Design Ordinance, equivalent to 10% more than otherwise required by Section 12.40 of this Code, and the Landscape and Site Design Point System. Common Open Space shall constitute at least 50% of the usable open space calculated under this incentive and shall be provided as outdoor space and comply with applicable provisions of Section 12.21 G.2(a)(1-4). Usable open space provided as Private Open Space shall comply with Section 12.21 G.2(b).

- (x) **Averaging of Floor Area Ratio, Density, Parking or Open Space, and permitting Vehicular Access.** A Housing Development that is located on two or more contiguous parcels may average and permit the floor area, density, open space and residential and commercial parking over the Housing Development site, and permit vehicular use and access from a less restrictive zone to a more restrictive zone, provided that:
- a. The proposed Housing Development includes the number of Restricted Affordable Units sufficient to qualify for a 35% Density Bonus; and
  - b. No further lot line adjustment or any other action that may cause the Housing Development site to be subdivided subsequent to this grant shall be permitted.
- (xi) **Supplementary Parking Reductions.** An applicant may request the following reductions as a single incentive:
- a. **Commercial parking.** Housing Developments eligible for Base Incentives contained in this Subdivision may request to waive any requirement to provide new or maintain existing automobile parking spaces required by Chapter 1 of this Code associated with a commercial use that is proposed in conjunction with the Housing Developments.

The phrase “adjoining zone” refers to the zones of properties abutting, across the street or alley from, or having a common corner with, the subject property.
- (xiii) **Modification of Development Standard.** A Housing Development may request up to a 20% relief from a numerical based Development Standard or a deviation from a non-numerical based Development Standard contained in Chapter 1 of this Code, an Overlay, a Specific Plan, a Q Condition, or a D Condition. Housing Developments requesting this incentive must provide landscaping for the Housing Development that meets a minimum of 30 points under the Landscape and Site Design

Ordinance, equivalent to 10% more than otherwise required by Section 12.40 of this Code, and the Landscape and Site Design Point System. This incentive may be requested more than once.

- a. **Exception.** This incentive shall not apply to standards that regulate FAR, Height, yards/setbacks, ground story requirements, signs, parking in front of buildings, or usable open space. This incentive shall not apply to a Designated Historic Resource(s), or a Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C.

(g) **Public Benefit Options.** A Housing Development shall be granted any number of Public Benefit Options pursuant to the provisions described below in addition to the Base Incentives established in LAMC Section 12.22 A.37(e) and the Additional Incentives described in LAMC Section 12.22 A.37(f).

(1) **Child Care Facility.** A Housing Development that includes a Child Care Facility located on the premises of, as part of, or adjacent to, the Housing Development, and that complies with the requirements set forth in Government Code Section 65915(h)(2) shall be granted either of the following:

- (i) An additional Density Bonus that is, for purposes of calculating residential density, an increase in the floor area of the Housing Development equal to the floor area of the Child Care Facility included in the Housing Development; or
- (ii) An additional Incentive on or off the Additional Menu of Incentives that contributes significantly to the economic feasibility of the construction of the Child Care Facility; or
- (iii) Notwithstanding the Public Benefit available under this section, pursuant to California Government Code Section 65915(h)(3), a Density Bonus or Incentive for a Child Care Facility shall not be provided if it is found, based on substantial evidence, that the community has adequate Child Care Facilities.

(2) **Commercial Off-Site.** Pursuant to California Government Code Section 65915.7, a commercial development may request a development bonus set forth in California Government Code Section 65915.7 (b) if the commercial developer directly contributes affordable housing, or enters into a contract for partnered housing described in 65915.7(c) with a housing developer to construct affordable housing. If a commercial developer partners with a housing developer, an agreement, subject to approval by the Department of City Planning, shall identify exactly how the commercial developer will contribute affordable housing.

- (3) **Multi-Bedroom Units.** A Housing Development providing multi-bedroom units shall be granted one of the following so long as an affidavit declaring the qualifying multi-bedroom units will maintain the same bedroom count and will not be converted to additional dwelling units in the future is executed and recorded with the Department of City Planning:

If a range is permitted, the maximum number of units allowed by the specific zoning range, Specific Plan, or General Plan Land Use designation shall be applicable when determining a Housing Development's density prior to the application of a Density Bonus. Residential Units added using an incentive program contained in a specific plan or overlay shall not count toward a Housing Development's Maximum Allowable Residential Density.

- (4) The Project does not include any buildings located on parcels located in a single family or more restrictive zone (RW and more restrictive zone), or any parcels located in a manufacturing zone that does not allow multi-family residential uses, including sites with restrictions from an applicable planning overlay (CM, MR1, MR2, M1, M2, and M3).
- (5) Project sites that meet the definition of an Environmental Consideration Areas as defined in LAMC Section 12.22 A.37 shall not be deemed eligible until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (o) of Section 25403 of the Health and Safety Code, if warranted, is completed. A “No Further Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to participate in the Mixed Income Incentive Program.
- (6) The project site does not include any parcels located within a Very High Fire Hazard Severity Zone (VHFHSZ), within the Coastal Zone, or within a Sea Level Rise Area. Except that a project site that is located within a VHFHSZ or Coastal Zone shall be eligible for Opportunity Corridor Incentives as defined in Paragraph (f), if properties are abutting, across the street or alley, or having a common corner with the subject property are not in a VHFHSZ or Coastal Zone, and is eligible for the Opportunity Corridor Incentives as described in paragraph (f) below.

- (7) The Housing Development Project would not require the demolition of any of the following, as demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A of this Code.
- (i) A Designated Historic Resource, or
  - (ii) Any surveyed, eligible or architectural historic resource identified for any protection or special consideration or review by an applicable Overlay or Specific Plan including sites located in the South Los Angeles Community Plan Implementation Overlay (CPIO) Section 1-6.C.5.b, the Southeast Los Angeles CPIO Section 1-6.C.5.b, the West Adams CPIO Section 6.C.5.b, or the San Pedro CPIO Section 7.C.5.b, Westwood Village Specific Plan, Echo Park CDO District, or the North University Park Specific Plan.
- (8) Housing Development Projects involving Designated Historic Resources shall be consistent with the Secretary of the Interior's Standards for Rehabilitation.
- (d) **Procedures.** A Project that meets the provisions of this Subdivision shall be reviewed pursuant to the Procedures, as set forth below. Approval of a Density Bonus or Incentive pursuant to this Subdivision shall not, in and of itself, trigger a General Plan Amendment, zone Change, Project Review, or other discretionary review actions required by this Zoning Code.
- (1) **Los Angeles Department of Building and Safety Review.** Projects seeking Base Incentives described in Paragraphs (e)(ii), (f)(ii) or (g)(ii), and/or Incentives listed on the Menu of Incentives in Paragraph (h) shall be considered ministerial and processed by the Department of Building and Safety.
  - (2) **Expanded Administrative Review.** The following Projects shall be ministerially approved pursuant to Expanded Administrative Review, as set forth by the provisions of LAMC Section 13B.3.2 (Expanded Administrative Review) of Chapter 1A of this Code. As defined in this section, ministerial approval means an administrative process to approve a "use by right" as this term is defined in California Government Code Section 65583.2 (i):
    - (i) Projects that request the Public Benefit Options described in Paragraph (i).
    - (ii) Projects that request Incentives not listed on the Menu of Incentives described in LAMC Section 12.22 A.38(h)(2).
      - a. Projects requesting Incentives not listed in Paragraph (h) shall be required to meet a minimum of 35 points under the Landscape and Site Design Ordinance.

- b. **Exception.** Projects that request an Incentive not on or in excess of the Menu of Incentives for relief from Floor Area Ratio (FAR), Height, Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements shall seek approval pursuant to the Procedures described in Section 3 of Paragraph (d).
- (3) **Director's Determination.** The Director of Planning shall review the following Projects pursuant to LAMC Section 13B.2.5.
  - (i) Projects requesting Incentives not listed on the Menu of Incentives for an Increase in Floor Area Ratio (FAR), Height, reduction in Open Space requirements, tree planting requirements, ground story requirements, and/or yards/setback requirements.

- (4) **City Planning Commission Review.** The following Projects must file an application pursuant to LAMC Section 13B.2.3.
  - (i) Projects that request more than one waiver or modification of any Development Standards not on the Menu of Incentives described in Paragraph (h). Waivers or modifications of any Development Standards shall be reviewed pursuant to the Findings described in LAMC Section 12.22 A.38(d)(5).
- (5) **Findings for Waivers or Modifications of Development Standards.** Waivers requested pursuant to the procedures described in this Paragraph shall be approved by the applicable decision making authority unless that decision making authority finds that:
  - (i) The Development Standard associated with a request for waiver(s) or reduction(s) in Development Standards will not have the effect of physically precluding the construction of a development meeting the Eligibility criteria described in Paragraph (c) at the densities or with the concessions or incentives permitted under Paragraphs (e), (f), or (g); or
  - (ii) The waivers or reductions of development standards would have a Specific Adverse Impact, as defined in paragraph (2) of subdivision (d) of Section 65589.5, upon public health and safety or on a California Register

of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the specific, adverse impact without rendering the development unaffordable to low-income and moderate-income households; or

- (iii) The waivers or reductions of development standards are contrary to state or federal law.

- (6) **Other Discretionary Approvals.** Applicable procedures set forth in LAMC Section 13A.2.10 (Multiple Approvals) of Chapter 1A of this Code apply for Projects seeking other discretionary approvals in conjunction with an application requested pursuant to the Procedures in Paragraph (d) . Regardless of any other findings that may be applicable, the decision-maker must approve the requested Base Incentives and Additional Incentives, either on or off the Menu of Incentives described in Paragraph (h), requested under this Subdivision unless the decision-maker, based upon substantial evidence, makes either of the findings in subsection (5) of Paragraph (d) of this subdivision.

**(e) Transit Oriented Incentive Area.**

- (1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Transit Oriented Incentive Areas described below.
  - (i) Each one-half mile radius (2,640 feet) around a Major Transit Stop, shall constitute a unique Transit Oriented Incentive Area.
  - (ii) Each lot within a Transit Oriented Incentive Area shall be determined to be in a specific subarea based on the shortest distance between any point on the lot and a qualified Major Transit Stop as delineated in Table 12.22 A.38(e)(1) below.
  - (iii) Each lot in a Transit Oriented Incentive Area shall be determined to be in a specific Transit Oriented Incentive Area (T-1 to T-4) based on the shortest distance between any point on the lot and a qualified Major Transit Stop.

Footnotes:

1 Required automobile parking applies for all Residential Units in an Eligible Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable. All

parking spaces provided shall comply with Subdivision 12.21 A.5 of the Code. Except that any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with Subparagraph 12.21 A.5(h)(2) of the Code may be provided in any configuration as long as a parking attendant or an automated parking system is provided.

2 Pursuant to California Civil Code Section 1947.1, provided parking shall be sold or rented separately from the units in properties with 16 or more units, as verified by the Los Angeles Housing Department.

3 The maximum increase in the allowable FAR permitted shall be equal to the table above, provided that any additional floor area provided through this section is utilized only by residential uses. Any nonresidential uses shall be limited to the FAR associated with a site's underlying zoning prior to the application of any Incentive. Flexible parking structure designs that would facilitate possible future conversion of parking areas to active uses and create zoning flexibility to allow by-right conversion would not count as floor area and not be included in the calculation of Floor Area Ratio. Vehicle parking areas above ground will be counted as floor area and included in the calculation of Floor Area Ratio for projects using this incentive.

4 The increase in height shall be applicable to an Eligible Project over the entire parcel regardless of the number of underlying height limits. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use Housing Developments.

(i) **Exceptions.**

- a. Sites with a Maximum Allowable Residential Density of less than 5 units, Designated Historic Resource(s), or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C shall not be eligible for an incentive to increase allowable FAR or height above one additional story, up to 11 additional feet.
- b. In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may utilize the Bonus FAR of the Specific Plan or overlay district in lieu of the FAR maximum described above in Table 12.22 A.38(e)(2).

(f) **Opportunity Corridor Incentive Area.**

- (1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Mixed Income Incentive Projects as described in Paragraph (c) and Opportunity Corridor Incentive Areas, described in Table 12.22 A.38(f)(1), below.

Table 12.22 A.38(f)(1)

- (i) **Corridor Access.** A Project must provide Direct Pedestrian Access to the eligible Opportunity Corridor.
  - (ii) **Frontage.** Each eligible parcel must provide a minimum 25 foot frontage along the eligible corridor, or be part of a Consolidated Development with a 25 foot frontage along the eligible corridor.
- (2) **Base Incentives.** A Project shall be granted Base Incentives established in this Paragraph as defined in Table 12.22 A.38(f)(2) below, in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph 12.22 A.38(c)(3) of this Subdivision. Projects that qualify for Base Incentives established in the table below shall also be eligible for Public Benefit Options listed in Paragraph (i) of this subdivision.

(i) **Exceptions.**

- a. Sites with Designated Historic Resource(s) or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C shall not be eligible for an incentive to increase allowable FAR or height above one additional story, up to 11 additional feet.
- b. In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may choose to utilize the Bonus FAR and affordability requirement of the Specific Plan or overlay district in lieu of the FAR maximum described above in Table 12.22 A.38(e)(2).

**(g) Opportunity Corridor Transition Incentive Area.**

- (1) **Eligibility.** Projects may seek Base Incentives according to the eligibility criteria for Opportunity Corridor Transition Incentive Areas, described in Table 12.22 A.38(g)(1), below.

Table 12.22 A.38(g)(1)			
Eligibility Subarea	Site Requirements	Eligible Underlying Zones	Geographic Criteria

CT-2	Sites within 500 feet of the rear property line of a lot located within an Opportunity Corridor Incentive Area		
CT-3	Sites within 250 feet of the rear property line of a lot located within an Opportunity Corridor Incentive Area.		

- (i) **Property Line Measurement.** Distance measured from the Opportunity Corridor Incentive Area shall be measured from the rear property line of the eligible lot located within the Opportunity Corridor Incentive Area. Where a parcel is a Reverse Corner Lot in an Opportunity Corridor Incentive Area, distance shall be measured from the property line parallel to the Opportunity Corridor. In the case that Opportunity Corridor sites are contiguous or are consolidated, the buffer measurement will not be adjusted to accommodate the new rear property line of site.

(ii) **Exceptions.**

- a. Sites Designated Historic Resource(s), or Non-Contributing Element(s) as defined in LAMC Section 13B.8.1.C shall not be eligible for CT-3 incentives.

- (2) Projects utilizing the Opportunity Corridor Transition Incentive Area Base Incentives as defined in Paragraph (g)(ii) are not eligible to request waivers or modifications of any Development Standard. Opportunity Corridor Transition Incentive Area Projects are not eligible to request Incentives on or off the Menu of Incentives.

- (3) **Base Incentives.** A Project shall be granted Base Incentives established in this Paragraph as defined in Table 12.22 A.38(g)(2) below, in exchange for the required minimum percentage of Restricted Affordable Units established in Paragraph 12.22 A.38(c)(3) of this Subdivision.

  - b. Minimum Lot Width: 15 feet
  - c. Minimum Lot Access: A 3-foot pedestrian access easement may be provided in lieu of vehicular access requirements.
- (ii) **Required Yards.** Projects are eligible for the following required yards:
  - a. Front yard setback of 10 feet.
  - b. Side yard setback of 4 feet, or 3 feet for a two-story structure.
  - c. No interior side yard setback shall be required for buildings that are part of the same development.
  - d. Rear yard setbacks of 4 feet, provided structures maintain a height of less than 26 feet within 15 feet of the rear property line.
  - e. Alley setbacks of zero feet for structures that maintain a height of less than 26 feet in height for at least the first 15 feet from the alley.
- (iii) **Multi-Bedroom Units.** A Project that includes a minimum of 40% of total Residential Units as 3-bedrooms or larger, shall be granted either additional Floor Area up to 0.5 FAR and an additional 11 feet in height.
- (iv) **Spaces Between Buildings and Passageways.** Projects do not need to meet zoning requirements related to spaces between buildings or passageways pursuant to section 12.21 C.2.
- (v) **Consolidated Development.** In the case that a Opportunity Corridor Transition Project consolidates multiple parcels, the Density Bonuses established in Table 12.22 A.38(g)(3) shall be available to each parcel, however, FAR and height bonuses shall not exceed the maximum permitted Incentive Area in Table 12.22 A.38(g)(2).
  - a. For example, if two CT-1 parcels are consolidated in one project, the project is eligible for up to 12 units, with 1.45:1 FAR maximum

and a height maximum of 2 stories; or if two CT-2 parcels are consolidated in one project, the project is eligible for up to 20 units, with a 2.0:1 FAR maximum and a height maximum of 3 stories.

- b. If a project consolidates 2 parcels of differing incentive areas, for example CT-2 and CT-3, the incentives of the more intense incentive area shall be permitted.

- (4) **Performance Standards.** Projects approved pursuant to this Subdivision shall meet the following performance standards, and no deviations from these standards shall be granted, except that any project resulting from the conversion of or an addition up to a maximum of 1,200 square feet to an existing structure need not comply with these standards.

- (i) **Common Outdoor Open Space Standards.** Projects shall provide at grade Common Outdoor Open Space that is accessible to all the residential tenants of a project. The Common Outdoor Open Space shall be open to the sky and have no structures project into the area, except for Outdoor Amenity Space areas as provided in Sec. 12.21 B and except for Projections into Yards, as provided in Section 12.22 C.20(b). This common open space requirement shall supersede the per dwelling unit calculation of common open space in LAMC Section 12.21 G.2. In lieu of the provisions of LAMC Section 12.21 G.2, a project must meet at least one Common Outdoor Open Space typology from the menu listed in Table 12.22 A.38(g)(4), below.

- a. **Minimum Planting Area.** The Common Outdoor Open Space provided shall comply with the provisions of LAMC 12.21 G.2.(a).(3) regarding minimum planting area.

The courtyard shall adjoin the minimum front yard setback creating a deep combined courtyard or wide connection between two spaces.</li> <li>3. The courtyard shall be an internal courtyard, entirely contained onsite.</li> </ol>
Paseo	<p>Paseo width (minimum): 10% of lot width or 10 feet wide, whichever is greater</p> <p>Paseo depth (minimum): 60% of the lot depth</p>	<p>A Paseo shall be located at the center of a site with a minimum 4 feet wide pedestrian pathway accessible from the ground floor frontage line.</p>
Rear Yard	<p>Rear Yard width (minimum): 50% of lot width</p> <p>Rear Yard depth (minimum): 10% of lot depth, or 15 feet, whichever is greater</p>	<p>Located adjacent to the rear property line</p>

(ii) **Entrances.**

- a. **Street-Facing Entrance.** Each Unit fronting a public street (provided there is no structure located between the lot line and unit) shall have an entrance facing the public street and one of the following entry features:

1. **Porch.** A wide, raised platform, projecting in front of a street-facing entrance, that is entirely covered but not enclosed. A porch shall have a minimum depth of four and one half feet, a minimum of 30% of the building width, and a finished floor elevation between two to five feet.
2. **Forecourt.** A yard screened with a short wall, fence or hedge that provides significant privacy for tenants located on the ground story, near sidewalk grade. A forecourt shall have a minimum depth of eight feet, a minimum width of 10 feet, required covered entrance, and a fence or wall height between two and one half to three feet and 6 inches.
3. **Recessed entry.** A space set behind the building face plane providing sheltered access to a street-facing entrance. A recessed entry shall have a depth between three to 15 feet minimum, and a maximum width of five feet, and a required covered entrance.

(iii) **Ground floor External Entrances.** Ground floor external entrances to units not located on a street fronting lot line, shall have an entrance oriented towards the open space when adjacent to the open space.

(iv) **Parking Areas, Garages, and Carports**

a. Location.

2. New detached garages and carports shall be located behind the main building(s) facade, furthest from the Ground Floor Frontage Line.

3. Attached parking areas shall be located either underground (subterranean or semi-subterranean) or behind any main building(s).
4. Access driveways shall be provided from alleys when present and determined feasible by LADOT.

**(h) Additional Incentives.** In addition to the Base Incentives established in Paragraphs (e) and (f), projects that satisfy eligibility criteria set forth in Paragraph (c) shall have the ability to select up to four Incentives from the Menu of Incentives provided in LAMC Section 12.22 A.38(h)(2) below or use an Incentive to seek a deviation from a Development Standard elsewhere in this Code. Refer to Paragraph (d) for the approval Procedure that is consistent with the Project's Incentive request. Projects utilizing the Opportunity Corridor Transition Incentive Area are not eligible for Incentives on or off the Menu of Incentives.

(1) Housing Development shall be eligible for up to four Additional Incentives. A Housing Development may request Incentives listed in Paragraph (f)(2) or use an Incentive to seek a deviation from a Development Standard elsewhere in this Code or a Housing Development project site's applicable zoning ordinance, Specific Plan, or overlay. Refer to Paragraph (d) for the approval Procedure that is consistent with the Housing Development's Incentive request.

- (i) Incentives requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:
  - a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for the targeted units to be set as specified in California Government Code Section 65915(c); or
  - b. The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
  - c. The Incentive would be contrary to state or federal law.

(2) Menu of Incentives. A Project may elect to request one of the following incentives not to exceed the allowed number of incentives pursuant to subsection (h)(1) above.

- (i) **Yards.** Projects eligible for the Base Incentives contained in this subdivision may request a reduction of otherwise required yards as follows:

<b>Yards/Setbacks</b>	<b>C Zones</b>	<b>R Zones</b> (yard reductions in R zones may be combined and require the use of only one incentive)
	In any Commercial zone, Eligible Projects may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Housing Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.	<b>Front Yards.</b> Front yard reductions are limited to no more than the average of the front yards of adjoining buildings along the same street frontage. If located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If there are no adjoining buildings, no reduction is permitted. If a Project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted so long as it is to the same dimension as a corresponding increase to the rear yard.
		<b>Side and Rear Yards.</b> Up to 30% decrease in the required width or depth of any individual yard or setback.

- (ii) **Ground Floor Height.** Projects involving the construction of a new building or additions may receive up to a 20% reduction in any Ground Floor Height restrictions contained in an overlay, Specific Plan, Q condition or D condition.

- (iii) **Transitional Height.** Projects may select the following transitional height requirements in lieu of those found in Section 12.21.1.A.10 of this Code or any applicable transitional height limits in a Project site’s applicable zoning ordinance, Specific Plan, or overlay including any requirements for reduced building heights or stepbacks when a building is adjoining a RW1 or more restrictive zone. A Height Incentive is not required in order to request this Incentive to modify transitional height. Furthermore, Projects adjoining an OS zone may utilize this incentive to be exempt from the transitional height requirements found in Section 12.21.1.A.10 of this Code or any applicable Specific Plan or Overlay for the portion of the Project abutting the OS zone.

Footnotes:

1 Required automobile parking applies for all Residential Units in an Eligible Project (not just the restricted affordable units), inclusive of disabled and required guest parking, where applicable. All parking spaces provided shall comply with Subdivision 12.21 A.5 of the Code. Except that any combination of standard, compact or tandem spaces may be provided. Tandem parking spaces that do not comply with Subparagraph 12.21 A.5(h)(2) of the Code may be provided in any configuration as long as a parking attendant or an automated parking system is provided.

2 As part of a Faith Based Organization Project, the required parking for current or proposed religious-uses shall be reduced by 50 and be counted towards the housing project pursuant to California Government Code Sec. 65913.6. For consistency with and implementation of California Government Code Sec. 65913.6, parking required under a Class 2 Conditional Use Permit in LAMC Section 12.24.W or under a Class 3 Conditional Use Permit in LAMC Section 12.24.U for a “church” use may therefore be reduced by 50% and counted towards the Project to meet this requirement.

3 Provided that any additional floor area provided through this section is utilized only by residential uses. Any nonresidential uses shall be limited to the FAR associated with a site's underlying zoning prior to the application of any Incentive. Flexible parking structure designs that would facilitate possible future conversion of parking areas to active uses and create zoning flexibility to allow by-right conversion would not count as floor area and not be included in the calculation of Floor Area Ratio. Vehicle parking areas above ground will be counted as floor area and included in the calculation of Floor Area Ratio for projects using this incentive.

4 The increase in height shall be applicable to an Project over the entire parcel regardless of the number of underlying height limits. The height increase may be applied to the maximum allowable height in feet or stories permitted by the zone, including for mixed-use Housing Developments.

5 See LAMC Section 12.22 A.39 (e)(1).

6 Except if the development has paratransit service or unobstructed access, within one-half mile, to fixed bus route service that operates at least eight times per day, then no minimum parking required.

7 No minimum parking is required for Faith Based Organization Project if there is a car share vehicle within one block of the parcel.

(2) **Automobile Parking Zones.** In lieu of the limitations described in LAMC Section 12.12.1 and LAMC Section 12.12.1.5, in a P or PB zone, a Project may establish Maximum Allowable Residential Density, uses and area standards permitted in the least restrictive adjoining zone.

(i) **Lots with Dual Zoning.** In cases where a lot contains split zoning with a P or PB Zone, the entire parcel may utilize the least restrictive adjoining zone.

(3) **Public Land Project.** In lieu of the requirements in LAMC Section 12.24 U.21 and 12.04.09 B.9, a Public Land Project may either:

(i) Establish Maximum Allowable Residential Density, uses, and area standards as permitted in the least restrictive adjoining zone. Regardless of adjacent zoning, all Public Land Projects shall be granted a base Floor Area Ratio of 3.0:1 and a base height of three stories or 33 feet whichever is greater; or

(ii) Where specifically authorized through a resolution of City Council, a Public Land Project, shall be permitted to have multi-family residential uses and shall not be limited to the use and zoning requirements of the underlying zoning, Specific Plan or General Plan.

(4) **Exceptions.**

(i) A One Hundred Percent Affordable Housing Project shall not be eligible for the FAR and Parking Incentives available in Table 12.22.A.39(e)(1), and shall be limited to the Parking incentives set forth in California Government Code Section 65915(p) if any of the following is applicable:

- a. The Project is located in a Very High Fire Hazard Severity Zone or Sea Level Rise Area, or

(ii) A Project located in an Environmental Consideration Area as defined in LAMC Section 12.22 A.37 shall not be eligible for the FAR and Parking incentives available in Table 12.22.A.39(e)(1) until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the

Health and Safety Code, and/or a Phase II Environmental Site Assessment, as defined in subdivision (o) of Section 25403 of the Health and Safety Code, if warranted, is completed. A “No Further Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required. If warranted and not completed, Projects shall be limited to the Parking incentives set forth in California Government Code Section 65915(p).

- (iii) In a Specific Plan or overlay district that has a FAR available through a development bonus or incentive program to provide affordable housing, a Project may utilize the Bonus FAR of the Specific Plan or overlay district in lieu of the FAR maximum described in table 12.22 A.39(e)(1).

(f) **Additional Incentives.** A Project shall be granted a number of Additional Incentives pursuant to the provisions described below in addition to the Base Incentives established in Paragraph (e).

(1) A Project shall be eligible for up to five Additional Incentives. A Project may request Incentives listed in Paragraph (f)(2) or use an Incentive to seek a deviation from a Development Standard elsewhere in this Code or a Project site's applicable zoning ordinance, specific plan, or overlay. Refer to Paragraph (d) for the approval Procedure that is consistent with the Housing Development's Incentive request.

(i) Incentives requested pursuant to the applicable procedure in Paragraph (d) of this Subdivision shall be granted unless it is found, based upon substantial evidence, that:

- a. The Incentive does not result in identifiable and actual cost reductions, consistent with California Government Code Section 65915(k), to provide for affordable housing costs as defined in California Health and Safety Code Section 50052.5, or for rents for the targeted units to be set as specified in California Government Code Section 65915(c); or

The Incentive will have a Specific Adverse Impact upon public health and safety or the physical environment or on any real property that is listed in the California Register of Historical Resources and for which there is no feasible method to satisfactorily mitigate or avoid the Specific Adverse Impact without rendering the development unaffordable to low-income and moderate-income households. Inconsistency with the zoning ordinance or general plan land use designation shall not constitute a Specific Adverse Impact upon the public health or safety; or
- c. The Incentive would be contrary to state or federal law.

(ii) To be eligible for the Menu of Incentives described in LAMC Section 12.22 A.39(f)(2) a Project shall comply with all of the following:

- a. The Project shall not be located in a Very High Fire Hazard Severity Zone or Sea Level Rise Area.
- b. Project sites that meet the definition of an Environmental Consideration Area as defined in LAMC Section 12.22 A.37 shall not be deemed eligible for Menu of Incentives until a Phase I Environmental Site Assessment, as defined in Section 25319.1 of the Health and Safety Code, and/or a Phase II Environmental Site

Assessment, as defined in subdivision (o) of Section 25403 of the Health and Safety Code, if warranted, is completed. A “No Further Action” letter, or some other comparable documentation issued by the appropriate regulatory agency shall be required in order to utilize the Menu of Incentives.

- c. A Project would not require the Demolition, as Demolition is defined in LAMC Section 13B.8.1.C of Chapter 1A, of a Designated Historic Resource, or any surveyed, eligible or architectural historic resource identified for any protection or special consideration or review by an applicable Overlay or Specific Plan including sites located in the South Los Angeles Community Plan Implementation Overlay (CPIO) Section 1-6.C.5.b, the Southeast Los Angeles CPIO Section 1-6.C.5.b, the West Adams CPIO Section 6.C.5.b, or the San Pedro CPIO Section 7.C.5.b, Westwood Village Specific Plan, Echo Park CDO District, or the North University Park Specific Plan.
- d. A Project involving Designated Historic Resources shall be consistent with the Secretary of the Interior’s Standards for Rehabilitation.
- e. A Project shall not include any parcels located in a manufacturing zone that does not allow multi-family residential uses, including sites with restrictions from an applicable planning overlay (CM, MR1, MR2, M1, M2, and M3), except for Public Land Projects.

(2) **Menu of Incentives.** A Project may elect to request one of the following incentives not to exceed the allowed number of incentives pursuant to subsection (f)(1) above.

- (i) **Yards.** Projects contained in this subdivision may request a reduction of otherwise required yards as follows:

<b>Yards/ Setbacks</b>	<b>C Zones</b>	<b>R Zones</b> (yard reductions in R zones may be combined and require the use of only one incentive)
	In any Commercial zone, an Eligible Project may utilize any or all of the yard requirements for the RAS3 zone per LAMC Section 12.10.5. Housing	<b>Front Yards.</b> Front yard reductions are limited to no more than the average of the front yards of adjoining buildings along the same street frontage. Or, if

	<p>Developments on commercially zoned sites adjacent to properties zoned RD or more restrictive may provide a rear yard of not less than five feet.</p>	<p>located on a corner lot or adjacent to a vacant lot, the front yard setback may align with the façade of the adjoining building along the same front lot line. If a Project occupies all the lots on an entire street frontage, a reduction to the front yard is permitted so long as it is to the same dimension as a corresponding increase to the rear yard.</p>
		<p><b>Side and Rear Yards.</b> Up to 30% decrease in the required width or depth of any individual yard or setback.</p>

Section 8. Subdivision 26 of Subsection U of Section 12.24 of the Los Angeles Municipal Code is amended as follows:

**Density Bonus for a Housing Development in Which the Density Increase Is Greater than the Maximum Permitted in Section ~~12.22 A.25~~ 12.22 A.37. (Amended by Ord. No. 185,373, Eff. 2/26/18.)**

(a) In addition to the findings set forth in LAMC Section 13B.2.3. (Class 3 Conditional Use Permit) of Chapter 1A of this Code, the City Planning Commission shall find that:

(1) the project is consistent with and implements the affordable housing provisions of the Housing Element of the General Plan;

(2) the project contains the requisite number of Restricted Affordable Units sufficient to qualify for a 88.75% or 100% Density Bonus pursuant to 12.22.A.37, ~~based on the number of units permitted by the maximum allowable density on the date of application, as follows:~~

~~a. 11% Very Low Income Units for a 35% density increase; or~~

~~b. 20% Low Income Units for a 35% density increase; or~~

~~c. 40% Moderate Income Units for a 35% density increase in for-sale projects.~~

The project may then be granted additional Density Bonus ~~density increases~~ beyond 100~~35~~% by providing additional affordable housing units in the following manner:
