

# LOS ANGELES CITY PLANNING COMMISSION

200 North Spring Street, Room 272, Los Angeles, California, 90012-4801, (213) 978-1300

[www.planning.lacity.org](http://www.planning.lacity.org)

## LETTER OF DETERMINATION

**MAILING DATE: MAY 4, 2026**

**Case No.: AA-2023-8121-PMLA-1A**  
CEQA: ENV-2023-8122-CE  
Plan Area: Bel Air – Beverly Crest

Council District: 5 – Yaroslavsky

**Project Site:** 1400 North Vista Moraga

**Applicant:** Tony Natsis  
Representative: Benjamin Eshaghian, Crest Real Estate

**Appellants:** 1. Daniel Hanasab  
2. Michael Talla  
Representative: Rob Glushon, Luna & Glushon

At its meeting **April 23, 2026**, the Los Angeles City Planning Commission took the actions below in conjunction with the following Project:

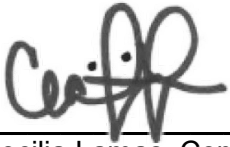

A Preliminary Parcel Map for the subdivision of one 143,359 square-foot lot into two new lots of 113,546 square feet and 29,812 square feet, to maintain one existing single-family dwelling on Parcel A and accommodate up to one new single-family dwelling on Parcel B, in the RE20-1-H-HCR Zone.

1. **Determined**, based on the whole of the administrative record, that the Project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines, Sections 15303 (Class 3) and 15332 (Class 32), and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines, Section 15300.2 applies;
2. **Denied** the appeal in part and **granted** the appeal in part, and **sustained** the Deputy Advisory Agency's Determination dated November 21, 2025;
3. **Approved**, pursuant to Chapter 1A Section 13B.7.5 of the Los Angeles Municipal Code, the attached Parcel Map (Parcel Map No. AA-2023-8121-PMLA stamp-dated March 28, 2025) for the subdivision of one 143,359 square-foot lot into two new lots of 113,546 square feet and 29,812 square feet;
4. **Adopted** the attached Modified Conditions of Approval; and
5. **Adopted** the attached Amended Findings.

The vote proceeded as follows:

Moved: Lawshe  
Second: Chavez  
Ayes: Choe, Johnson, Klein, Rosenstein, Saitman, Zamora  
Absent: Diaz

**Vote: 8 – 0**

Cecilia Lamas, Commission Executive Assistant II  
Los Angeles City Planning Commission

### **APPEAL PERIOD - EFFECTIVE DATE**

The decision of the Los Angeles City Planning Commission is final and effective upon the mailing of this determination letter and not further appealable.

Notice: An appeal of the CEQA clearance for the Project pursuant to Public Resources Code Section 21151(c) is only available if the Determination of the non-elected decision-making body (e.g., ZA, AA, APC, CPC) **is not further appealable** and the decision is final.

### **WHO CAN FILE AN APPEAL**

An applicant or any other person aggrieved by the Decision Maker's decision may file an appeal.

### **HOW TO FILE AN APPEAL**

An appeal application must be submitted and paid for before 4:30 PM (PST) on the final day to appeal the determination. Should the final day fall on a weekend or legal City holiday, the time for filing an appeal shall be extended to 4:30 PM (PST) on the next succeeding working day. Appeals should be filed early to ensure the Development Services Center (DSC) staff has adequate time to review and accept the documents, and to allow appellants time to submit payment. Appeals may be filed either online or in person as referenced below:

Forms are available online at <http://planning.lacity.gov/development-services/forms>.

### **ONLINE APPEAL FILINGS THROUGH ONLINE APPLICATION SYSTEM (OAS)**

QR Code to  
Online Appeal Filing

**Online Application System (OAS):** The OAS (<https://planning.lacity.gov/oas>) allows entitlement appeals to be submitted entirely online. Appeal fees may be paid for by credit card or e-check.

### **IN PERSON APPEAL FILINGS**

QR Code to Forms  
for In-Person Appeal  
Filing

**Drop off at DSC.** Appeals of this determination can be submitted in-person at the Metro or Van Nuys DSC locations, as well as the South Los Angeles DSC on Tuesdays and Thursdays only, and payment can be made by credit card or check.

- a. City Planning has established drop-off areas at the DSCs with physical boxes where appellants can drop off appeal applications;
- b. Alternatively, appeal applications can be filed with staff at DSC public counters.

**CITY PLANNING DEVELOPMENT SERVICES CENTERS – PUBLIC COUNTERS**

<b>Office</b>	<b>Address</b>	<b>Phone Number</b>	<b>Email</b>
Metro DSC	201 N. Figueroa St 4th Floor Los Angeles, CA 90012	(213) 482-7077	planning.figcounter@lacity.org
Van Nuys DSC	6262 Van Nuys Blvd Suite 251 Van Nuys, CA 91401	(818) 374-5050	planning.mbc2@lacity.org
South LA DSC <i>Tuesday and Thursday Only</i>	8475 S. Vermont Ave, 1st Floor Los Angeles, CA 90044	(213) 978-1465	planning.southla@lacity.org

City Planning staff may follow up with the appellant via email and/or phone if there are any questions or missing materials in the appeal submission, to ensure that the appeal package is complete and meets the applicable LAMC provisions.

If you seek judicial review of any decision of the City pursuant to California Code of Civil procedure Section 1094.5, the petition for writ of mandate pursuant to that section must be filed no later than the 90th day following the date on which the City's decision became final pursuant to California Code of Civil Procedure Section 1094.6. There may be other time limits which also affect your ability to seek judicial review.

**DETERMINATION EFFECTIVE DATE**

This determination will become effective after the end of the appeal period date on the first page of this document unless an appeal is filed with the Department of City Planning.

This grant is not a permit or license and any permits and/or licenses required by law must be obtained from the proper public agency. If any Condition of this grant is violated or not complied with, then the applicant or their successor in interest may be prosecuted for violating these Conditions the same as for any violation of the requirements contained in the Los Angeles Municipal Code (LAMC).

**SCHEDULING CASE CONDITION CLEARANCE AND BUILDING PERMIT SIGN-OFFS**

QR Code to BuildLA  
Appointment Portal for  
Condition Clearance

In order to clear conditions and/or obtain building permit sign-offs, you must make an [appointment](#) with the Department of City Planning's Development Services Center (DSC). You may schedule a Case Condition Clearance Appointment with the DSC at [appointments.lacity.org](https://appointments.lacity.org) after the effective date of the determination..

See instructions on how to prepare for your appointment at [planning.lacity.gov/project-review/case-filings](https://planning.lacity.gov/project-review/case-filings)

cc: Juliet Oh, Senior City Planner  
Ariel Jones, City Planner  
Jackson Olson, Planning Assistant

## CONDITIONS OF APPROVAL

(As Modified by the City Planning Commission at its meeting on April 23, 2026)

### BUREAU OF ENGINEERING - SPECIFIC CONDITIONS

1. That a Covenant and Agreement be recorded advising all future owners and builders that prior to issuance of a building permit, a Notice of Acknowledgement of Easement must be recorded and an application to do work adjoining any storm drain easements and to construct adjoining the existing draining facilities must be submitted to the City Engineer for approval.
2. That, if necessary, a Covenant and Agreement be recorded that a private sanitary easement be granted within Parcel B for the benefit of Parcel A of the parcel map.
3. That, if necessary, a Covenant and Agreement be recorded that a private drainage easement be granted within Parcel B for the benefit of Parcel A of the parcel map.
4. That any existing public easement(s) within the subdivision be delineated on the final map.
5. That the subdivider make a request to BOE West Los Angeles District to determine the capacity of existing sewers in this area.
6. This map may be subject to the following fees:
  - a. Final Parcel Map per LAMC 19.02-B3(a).
  - b. Final Parcel Map Very High Fire Hazard Severity Zone surcharge per LAMC 19.02-B3(b).

### DEPARTMENT OF BUILDING AND SAFETY, GRADING DIVISION

7. That prior to issuance of a grading or building permit, or prior to recordation of the final map, the subdivider shall make suitable arrangements to assure compliance, satisfactory to the Department of Building and Safety, Grading Division, with all the requirements and conditions contained in Geology and Soils Report Approval dated May 7, 2024, Log No. 130326 and attached to the case file for Tract No. 37150.

### DEPARTMENT OF BUILDING AND SAFETY, ZONING DIVISION

8. That prior to recordation of the final map, the Department of Building and Safety, Zoning Division shall certify that no Building or Zoning Code violations exist on the subject site. In addition, the following items shall be satisfied:
  - a. Provide dimensions for the property lines, and lot widths (as defined in Section 12.03 of the Zoning Code) for the proposed Parcels. Show compliance to the minimum lot width of 80 feet for the RE20 Zone per LAMC 12.07.01 C.4.
  - b. Provide copy of building records, plot plan, and certificates of occupancy of all existing structures to verify the last legal use and floor area on the proposed

Parcel A.

- c. Revise the Setback Matrix to show the prevailing front yard requirement per LAMC 12.07.01 C.1 or obtain approval from the Advisory Agency to approve the deviations from the Zoning Code.
- d. Show compliance with pool enclosure requirements per LABC section 3109.2 and 3109.4. The pool enclosure shall be located within in the proposed Lot A1.
- e. Provide a copy of affidavits AFF-51766, AFF-44656 and AFF-16032. Show compliance with all the conditions/requirements of the above affidavits as applicable. Termination of above affidavits may be required after the Map has been recorded. Obtain approval from the Department, on the termination form, prior to recording.
- f. Show all street dedications as required by Bureau of Engineering and provide net lot area after all dedications. "Area" requirements shall be rechecked as per net lot area after street dedications.

Notes:

This property is located in a Landslide Zone.

This property is located in a Special Grading Area.

This property is located in a Very High Fire Hazard Severity Zone.

This property is located within ZI-2438 Equine Keeping in the City of Los Angeles.

This property is located within the Santa Monica Mountains Zone.

The following permits are under plan check: 22010-10000-06196 and 22010-10000-06672.

Any proposed structures or uses on the site have not been checked for and shall comply with Building and Zoning Code requirements. Plan check will be required before any construction, occupancy or change of use.

## **DEPARTMENT OF TRANSPORTATION**

9. Reference is made to your request for review of this case regarding potential traffic access problems. Based upon this review, it is recommended that:
  - a. Driveway(s) and vehicular access for residential component of any development should be limited to the street with lowest classification or as shall be determined to the satisfaction of the Department of Transportation.
  - b. Parking stalls shall be designed so that a vehicle is not required to back into or out of any public street or sidewalk (not applicable when driveways serve not more than two dwelling units and where the driveway access is to a street other than a major or secondary highway), LAMC 12.21 A.

- c. A minimum of 20-foot reservoir space be provided between any security gate(s) and the property line when the driveway is serving less than 100 parking spaces, or as shall be determined to the satisfaction of the Department of Transportation.
- d. Driveway(s) should be located as far from the intersection as possible. At a minimum, driveways on Arterial Streets should not be placed within 150 feet (or to the extent feasible) from the prolongation of the curb line of the intersecting street. Driveways on Collector or Local Streets should not be placed within 75 feet from the prolongation of the curb line of the intersecting street (or to the extent feasible) or as shall be determined to the satisfaction of the Department of Transportation. Any proposed future vehicular access from Linda Flora Dr. shall be located in the straight away portion of the roadway where visibility is appropriate and away from any curvy portions of the roadway where visibility of approaching traffic is limited.
- e. Driveway approaches serving adjoining lots shall be separated by at least two feet of full height curb; except that, with the mutual consent of the affected property owners, two such adjacent driveway approaches may be merged into one. Spacing between driveways should not be less than 20 feet of full-height curb between driveways serving the same lot.
- f. Project shall consult with the Department of of Transportation's Western District (operations) office at [ladot.westerndistrict@lacity.org](mailto:ladot.westerndistrict@lacity.org) for any future potential construction activities interfering with roadway circulation, street maintenance related issues, missing or additional roadway regulatory signage, and general traffic concerns in the area.
- g. This determination does not include approval of the project's driveways and internal circulation or parking scheme. Adverse traffic impacts could occur due to access and circulation issues. A parking area and driveway plan be submitted to the Department of Transportation for approval prior to submittal of building permit plans for plan check by the Department of Building and Safety. Final DOT approval should be accomplished by submitting detailed site/driveway plans at a scale of 1"=40' to DOT's West LA/Coastal Development Review Section located at 7166 W. Manchester Ave., Los Angeles, 90045. For an appointment, email: [ladot.devreview.wla@lacity.org](mailto:ladot.devreview.wla@lacity.org).
- h. Pursuant to the LADOT Transportation Assessment Guidelines (TAG) Section 3.4 for new land use development projects requiring discretionary entitlements proposed in hillside communities on streets less than 24-feet wide and undergoing new construction or additions of more than 1,000 square feet that result in constraints in access to hillside properties during project construction, the applicant must develop a Traffic Management Plan that identifies measures to offset access, circulation, and parking issues for LADOT review and approval. The Plan should identify measures that will be implemented by the applicant to minimize the hours of construction impacts.
- i. That a fee in the amount of \$205 be paid for the Department of Transportation as required per Ordinance No. 180542 and LAMC Section 19.15 prior to recordation of any final map. Note: the applicant may be required to comply with any other applicable fees per this new ordinance.

Please contact this section at (213) 485-1062 or by email at [ladot.devreview.wla@lacity.org](mailto:ladot.devreview.wla@lacity.org) for any questions regarding the above.

## FIRE DEPARTMENT

10. That prior to the recordation of the final map, a suitable arrangement shall be made satisfactory to the Fire Department, binding the subdivider and all successors to the following:
  - a. Access for Fire Department apparatus and personnel to and into all structures shall be required.
  - b. The entrance or exit of all ground dwelling units shall not be more than 150 feet from the edge of a roadway of an improved street, access road, or designated fire lane.
  - c. No building or portion of a building shall be constructed more than 150 feet from the edge of a roadway of an improved street, access road, or designated fire lane.
  - d. Address identification. New and existing buildings shall have approved building identification placed in a position that is plainly legible and visible from the street or road fronting the property.
  - e. One or more Knox Boxes will be required to be installed for LAFD access to project. Location and number to be determined by LAFD Field Inspector. (Refer to FPB Req # 75).
  - f. Fire lane width shall not be less than 20 feet. When a fire lane must accommodate the operation of Fire Department aerial ladder apparatus or where fire hydrants are installed, those portions shall not be less than 28 feet in width.
  - g. The width of private roadways for general access use and fire lanes shall not be less than 20 feet, and the fire lane must be clear to the sky.
  - h. Fire lanes, where required and dead ending streets shall terminate in a cul-de-sac or other approved turning area. No dead ending street or fire lane shall be greater than 700 feet in length or secondary access shall be required.
  - i. Submit plot plans indicating access road and turning area for Fire Department approval.
  - j. All parking restrictions for fire lanes shall be posted and/or painted prior to any Temporary Certificate of Occupancy being issued.
  - k. Plans showing areas to be posted and/or painted, "FIRE LANE NO PARKING" shall be submitted and approved by the Fire Department prior to building permit application sign-off.
  - l. Electric Gates approved by the Fire Department shall be tested by the Fire Department prior to Building and Safety granting a Certificate of Occupancy.

- m. All public street and fire lane cul-de-sacs shall have the curbs painted red and/or be posted "No Parking at Any Time" prior to the issuance of a Certificate of Occupancy or Temporary Certificate of Occupancy for any structures adjacent to the cul-de-sac.
- n. No framing shall be allowed until the roadway is installed to the satisfaction of the Fire Department.
- o. Construction of public or private roadway in the proposed development shall not exceed 10 percent in grade.
- p. Where above ground floors are used for residential purposes, the access requirement shall be interpreted as being the horizontal travel distance from the street, driveway, alley, or designated fire lane to the main entrance of individual units.
- q. The following recommendations of the Fire Department relative to fire safety shall be incorporated into the building plans, which includes the submittal of a plot plan for approval by the Fire Department either prior to the recordation of a final map or the approval of a building permit. The plot plan shall include the following minimum design features: fire lanes, where required, shall be a minimum of 20 feet in width; all structures must be within 300 feet of an approved fire hydrant, and entrances to any dwelling unit or guest room shall not be more than 150 feet in distance in horizontal travel from the edge of the roadway of an improved street or approved fire lane.
- r. The Fire Department may require additional vehicular access where buildings exceed 28 feet in height.
- s. Smoke Vents may be required where roof access is not possible; location and number of vents to be determined at Plan Review.
- t. Site plans shall include all overhead utility lines adjacent to the site.
- u. Where access for a given development requires accommodation of Fire Department apparatus, overhead clearance shall not be less than 14 feet.
- v. No proposed development utilizing cluster, group, or condominium design of one or two family dwellings shall be more than 150 feet from the edge of the roadway of an improved street, access road, or designated fire lane.
- w. On small lot subdivisions, any lots used for access purposes shall be recorded on the final map as a "Fire Lane".
- x. Any roof elevation changes in excess of 3 feet may require the installation of ships ladders.
- y. Provide Fire Department pathway front to rear with access to each roof deck via gate or pony wall less than 36 inches.
- z. Building designs for multi-storied residential buildings shall incorporate at least one

access stairwell off the main lobby of the building; But, in no case greater than 150ft horizontal travel distance from the edge of the public street, Private Street or Fire Lane. This stairwell shall extend onto the roof.

- aa. Where rescue window access is required, provide conditions and improvements necessary to meet accessibility standards as determined by the Los Angeles Fire Department.
- bb. Adequate off-site public and on-site private fire hydrants may be required. Their number and location to be determined after the Fire Department's review of the plot plan.
- cc. Any required fire hydrants to be installed shall be fully operational and accepted by the Fire Department prior to any building construction.
- dd. Mitigating measures shall be considered. These measures shall include, but not be limited to the following:
  - a. Boxed-in eaves.
  - b. Single pane, double thickness (minimum 1/8" thickness) or insulated windows.
  - c. Non-wood siding.
  - d. Exposed wooden members shall be two inches nominal thickness.
  - e. Noncombustible finishes.
- ee. Irrigated and managed greenbelts around the perimeter of all structures for a distance of 100' feet shall be considered as a buffer between the brush and the proposed project.
- ff. All landscaping shall use fire-resistant plants and materials. A list of such plants is available from the contact Brush Clearance Unit 6262 Van Nuys Blvd., Room 451, Van Nuys 91401, (800) 994-4444.
- gg. All structures shall have noncombustible roofs. (Non-wood)
- hh. The brush in the area adjacent to the proposed development shall be cleared or thinned periodically by the homeowner's Association under supervision to the Los Angeles City Fire Department in order to reduce the risk of brush fires spreading to the homes.
- ii. Title 14 Compliance. Prior to the issuance of building permits, the Applicant shall demonstrate compliance with Public Resources Code Section 4290 and its implementing regulations in Title 14, Division 1.5, Chapter 7, Subdivision 2 (State Minimum Fire Safe Regulations) and Chapter 7 of the California Building Code.

## **DEPARTMENT OF WATER AND POWER**

- 11. Satisfactory arrangements shall be made with the Los Angeles Department of Water and Power (LADWP) for compliance with LADWP's Water System Rules and requirements. Upon compliance with these conditions and requirements, LADWP's Water Services Organization will forward the necessary clearances to the Bureau of Engineering. (This condition shall be deemed cleared at the time the City Engineer clears Condition No. S-1.(c).)

**BUREAU OF STREET LIGHTING – SPECIFIC CONDITIONS**

12. Prior to the recordation of the final map or issuance of the Certificate of Occupancy (C of O), street lighting improvement plans shall be submitted for review and the owner shall provide a good faith effort via a ballot process for the formation or annexation of the property within the boundary of the development into a Street Lighting Maintenance Assessment District.
13. Construct new streetlights: one (1) on Vista Moraga and two (2) on Linda Flora Drive.

**BUREAU OF SANITATION**

14. Wastewater Collection Systems Division of the Bureau of Sanitation has inspected the sewer/storm drain lines serving the subject tract and found easement(s) within the property. Any proposed development in close proximity to the easement(s) must secure Department of Public Works approval, as stated in the memo dated November 5, 2025. Upon compliance with its conditions and requirements, the Bureau of Sanitation, Wastewater Collection Systems Division will forward the necessary clearances to the Bureau of Engineering. (This condition shall be deemed cleared at the time the City Engineer clears Condition No. S-1. (d).).

**INFORMATION TECHNOLOGY AGENCY**

15. To assure that cable television facilities will be installed in the same manner as other required improvements, please email [ita.cabletvclearance@lacity.org](mailto:ita.cabletvclearance@lacity.org) which provides an automated response with the instructions on how to obtain the Cable TV clearance. The automated response also provides the email address of three people in case the applicant/owner has any additional questions.

**DEPARTMENT OF RECREATION AND PARKS**

16. The applicant shall record a Covenant & Agreement, the language of which shall be subject to the approval of the Department of Recreation and Parks, stating that the future development of said property for residential purposes shall be subject to the Subdivision Park Fee prior to the issuance of Certificate of Occupancy, at whatever the applicable rate of the fee is at the time of issuance.

**URBAN FORESTRY DIVISION**

17. NATIVE PROTECTED TREES
  - a. All tree and shrub preservation measures shall be considered to retain all protected native species whenever possible. Project should include feasible alternatives in project design to retain native trees and shrubs. A permit is required for the removal of any native protected tree and shrub. Removal of any on site native tree or shrub shall be replaced in kind at a 4: 1 ratio as approved by the Board of Public Works and Urban Forestry Division. The tree replacement plan shall include all retained native trees and shrubs. All on-site tree and shrub replacements shall be planted in locations favorable to the long-term survival of the species.

- b. The applicant shall submit a Protected Tree Report with an acceptable tree and shrub replacement plan prepared by a reputable Tree Expert, as required by Ordinance No. 186,873 for approval by the Advisory Agency and the Bureau of Street Services, Urban Forestry Division. The Protected Tree Report (PTR) shall contain the Tree Expert's recommendations for the preservation of as many protected trees as possible and shall provide their species, health, size, and condition. The PTR shall include a topographical map (construction drawing) identifying tree and shrub location, drip line, and correctly numbered and plotted.

#### 18. STREET TREES

- a. Project shall preserve all healthy mature street trees whenever possible. All feasible alternatives in project design should be considered and implemented to retain healthy mature street trees. A permit is required for the removal of any street tree and shall be replaced 2:1 as approved by the Board of Public Works and Urban Forestry Division.
- b. Plant street trees at all feasible planting locations within dedicated streets as directed and required by the Bureau of Street Services, Urban Forestry Division. All tree plantings shall be installed to current tree planting standards when the City has previously been paid for tree plantings. The sub divider or contractor shall notify the Urban Forestry Division at: (213) 847-3077 upon completion of construction for tree planting direction and instructions.

#### DEPARTMENT OF CITY PLANNING - SITE SPECIFIC CONDITIONS

- 19. Prior to the recordation of the final map, the subdivider shall prepare and execute a Covenant and Agreement (Planning Department General Form CP-6770) in a manner satisfactory to the Planning Department, binding the subdivider and all successors to the following:
  - a. Limit the proposed development to a maximum of two (2) lots.
  - b. Future and/or subsequent development provide automobile parking as required by the LAMC.
  - c. That a solar access report shall be submitted to the satisfaction of the Advisory Agency prior to obtaining a grading permit.
  - d. That the subdivider consider the use of natural gas and/or solar energy and consult with the Department of Water and Power and Southern California Gas Company regarding feasible energy conservation measures.
  - e. INDEMNIFICATION AND REIMBURSEMENT OF LITIGATION COSTS.

Applicant shall do all of the following:

- (i) Defend, indemnify and hold harmless the City from any and all actions against the City relating to or arising out of, in whole or in part, the City's processing and approval of this entitlement, including but not limited to, an action to attack, challenge, set aside, void or otherwise modify or annul the

- approval of the entitlement, the environmental review of the entitlement, or the approval of subsequent permit decisions, or to claim personal property damage, including from inverse condemnation or any other constitutional claim.
- (ii) Reimburse the City for any and all costs incurred in defense of an action related to or arising out of, in whole or in part, the City's processing and approval of the entitlement, including but not limited to payment of all court costs and attorney's fees, costs of any judgments or awards against the City (including an award of attorney's fees), damages, and/or settlement costs.
  - (iii) Submit an initial deposit for the City's litigation costs to the City within 10 days' notice of the City tendering defense to the Applicant and requesting a deposit. The initial deposit shall be in an amount set by the City Attorney's Office, in its sole discretion, based on the nature and scope of action, but in no event shall the initial deposit be less than \$50,000. The City's failure to notice or collect the deposit does not relieve the Applicant from responsibility to reimburse the City pursuant to the requirement in paragraph (ii).
  - (iv) Submit supplemental deposits upon notice by the City. Supplemental deposits may be required in an increased amount from the initial deposit if found necessary by the City to protect the City's interests. The City's failure to notice or collect the deposit does not relieve the Applicant from responsibility to reimburse the City pursuant to the requirement in paragraph (ii).
  - (v) If the City determines it necessary to protect the City's interest, execute an indemnity and reimbursement agreement with the City under terms consistent with the requirements of this condition.

The City shall notify the applicant within a reasonable period of time of its receipt of any action and the City shall cooperate in the defense. If the City fails to notify the applicant of any claim, action, or proceeding in a reasonable time, or if the City fails to reasonably cooperate in the defense, the applicant shall not thereafter be responsible to defend, indemnify or hold harmless the City.

The City shall have the sole right to choose its counsel, including the City Attorney's office or outside counsel. At its sole discretion, the City may participate at its own expense in the defense of any action, but such participation shall not relieve the applicant of any obligation imposed by this condition. In the event the Applicant fails to comply with this condition, in whole or in part, the City may withdraw its defense of the action, void its approval of the entitlement, or take any other action. The City retains the right to make all decisions with respect to its representations in any legal proceeding, including its inherent right to abandon or settle litigation.

For purposes of this condition, the following definitions apply:

"City" shall be defined to include the City, its agents, officers, boards, commissions, committees, employees, and volunteers.

"Action" shall be defined to include suits, proceedings (including those held under alternative dispute resolution procedures), claims, or lawsuits.

Action includes actions, as defined herein, alleging failure to comply with any federal, state or local law.

Nothing in the definitions included in this paragraph are intended to limit the rights of the City or the obligations of the Applicant otherwise created by this condition.

#### **DEPARTMENT OF CITY PLANNING - STANDARD SINGLE-FAMILY CONDITIONS**

SF-1. That approval of this tract constitutes approval of model home uses, including a sales office and off-street parking. If models are constructed under this tract approval, the following conditions shall apply:

1. Prior to recordation of the final map, the subdivider shall submit a plot plan for approval by the Development Services Center of the Department of City Planning showing the location of the model dwellings, sales office and off-street parking. The sales office must be within one of the model buildings.
2. All other conditions applying to Model Dwellings under Section 12.22A, 10 and 11 and Section 17.05 O of the Code shall be fully complied with satisfactory to the Department of Building and Safety.

SF-2. That a landscape plan, prepared by a licensed landscape architect, be submitted to and approved by the Advisory Agency in accordance with CP-6730 prior to obtaining any grading or building permits before the recordation of the final map. The landscape plan shall identify tree replacement on a 1:1 basis by a minimum of 24-inch box trees for the unavoidable loss of desirable trees on the site.

In the event the subdivider decides not to request a permit before the recordation of the final map, a covenant and agreement satisfactory to the Advisory Agency guaranteeing the submission of such plan before obtaining any permit shall be recorded.

#### **BUREAU OF ENGINEERING - STANDARD CONDITIONS**

S-1.

- (a) That the sewerage facilities charge be deposited prior to recordation of the final map over all of the tract in conformance with Section 64.11.2 of the Los Angeles Municipal Code (LAMC).
- (b) That survey boundary monuments be established in the field in a manner satisfactory to the City Engineer and located within the California Coordinate System prior to recordation of the final map. Any alternative measure approved by the City Engineer would require prior submission of complete field notes in support of the boundary survey.
- (c) That satisfactory arrangements be made with both the Water System and the Power System of the Department of Water and Power with respect to water mains, fire hydrants, service connections and public utility easements.
- (d) That any necessary sewer, street, drainage and street lighting easements be dedicated. In the event it is necessary to obtain off-site easements by separate instruments, records of the Bureau of Right-of-Way and Land shall verify that such

easements have been obtained. The above requirements do not apply to easements of off-site sewers to be provided by the City.

- (e) That drainage matters be taken care of satisfactory to the City Engineer.
  - (f) That satisfactory street, sewer and drainage plans and profiles as required, together with a lot grading plan of the tract and any necessary topography of adjoining areas be submitted to the City Engineer.
  - (g) That any required slope easements be dedicated by the final map.
  - (h) That each lot in the tract complies with the width and area requirements of the Zoning Ordinance.
  - (i) That 1-foot future streets and/or alleys be shown along the outside of incomplete public dedications and across the termini of all dedications abutting unsubdivided property. The 1-foot dedications on the map shall include a restriction against their use of access purposes until such time as they are accepted for public use.
  - (j) That any 1-foot future street and/or alley adjoining the tract be dedicated for public use by the tract, or that a suitable resolution of acceptance be transmitted to the City Council with the final map.
  - (k) That no public street grade exceeds 15%.
  - (l) That any necessary additional street dedications be provided to comply with the Americans with Disabilities Act (ADA) of 1990.
- S-2. That the following provisions be accomplished in conformity with the improvements constructed herein:
- (a) Survey monuments shall be placed and permanently referenced to the satisfaction of the City Engineer. A set of approved field notes shall be furnished, or such work shall be suitably guaranteed, except where the setting of boundary monuments requires that other procedures be followed.
  - (b) Make satisfactory arrangements with the Department of Traffic with respect to street name, warning, regulatory and guide signs.
  - (c) All grading done on private property outside the tract boundaries in connection with public improvements shall be performed within dedicated slope easements or by grants of satisfactory rights of entry by the affected property owners.
  - (d) All improvements within public streets, private streets, alleys and easements shall be constructed under permit in conformity with plans and specifications approved by the Bureau of Engineering.
  - (e) Any required bonded sewer fees shall be paid prior to recordation of the final map.
- S-3. That the following improvements are either constructed prior to recordation of the final map or that the construction is suitably guaranteed:

- (a) Construct on-site sewers to serve the tract as determined by the City Engineer.
- (b) Construct any necessary drainage facilities.
- (c) Install street lighting facilities to serve the tract as required by the Bureau of Street Lighting.
  - (1) Construct new street lights: one (1) on Vista Moraga Drive and two (2) on Linda Flora Drive.

Notes:

The quantity of street lights identified may be modified slightly during the plan check process based on illumination calculations and equipment selection.

Conditions set: 1) in compliance with a Specific Plan, 2) by LADOT, or 3) by other legal instrument excluding the Bureau of Engineering conditions, requiring an improvement that will change the geometrics of the public roadway or driveway apron may require additional or the reconstruction of street lighting improvements as part of that condition.

- (d) Plant street trees and remove any existing trees within dedicated streets or proposed dedicated streets as required by the Street Tree Division of the Bureau of Street Maintenance. All street tree plantings shall be brought up to current standards. When the City has previously been paid for tree planting, the subdivider or contractor shall notify the Urban Forestry Division ((213) 847-3077) upon completion of construction to expedite tree planting.
- (e) Repair or replace any off-grade or broken curb, gutter and sidewalk satisfactory to the City Engineer.
- (f) Construct access ramps for the handicapped as required by the City Engineer.
- (g) Close any unused driveways satisfactory to the City Engineer.
- (h) Construct any necessary additional street improvements to comply with the 2010 Americans with Disabilities Act (ADA) Standards for Accessible Design.
- (i) That the following improvements are either constructed prior to recordation of the final map or that the construction is suitably guaranteed:
  - (1) Any proposed work in or adjacent to the retaining structure constructed in 1963 shown on City Plan D-18235 or within the lateral support influence zone for the ROW of this area between 1041 and 1071 Linda Flora Drive shall be reviewed and approved by GED prior to the granting of any permit.

Note: Any issues with any portion of the retaining structure constructed in 1963 shown on City Plan D-18235 possibly being partially constructed on private property between 1041 and 1071 Linda Flora Drive shall be reviewed and permitted by the Department of Building and Safety.

- (2) Improve Linda Flora Drive adjoining the subdivision by the repair and replacement of the existing damaged or off-grade asphalt concrete roadway pavement, and construction of a new integral concrete curb and gutter, including any necessary removal and reconstruction of the existing improvement satisfactory to the City Engineer.
- (3) Construct necessary house connection sewers to serve each parcel.

NOTES:

The Advisory Agency approval is the maximum number of units permitted under the parcel map action. However, the existing or proposed zoning may not permit this number of units.

Any removal of the existing street trees shall require Board of Public Works approval.

Satisfactory arrangements shall be made with the Los Angeles Department of Water and Power, Power System, to pay for removal, relocation, replacement or adjustment of power facilities due to this development. The subdivider must make arrangements for the underground installation of all new utility lines in conformance with Section 17.05-N of the Los Angeles Municipal Code (LAMC).

The final map must be recorded within 36 months of this approval, unless a time extension is granted before the end of such period.

The Advisory Agency hereby finds that this tract conforms to the California Water Code, as required by the Subdivision Map Act.

The subdivider should consult the Department of Water and Power to obtain energy saving design features which can be incorporated into the final building plans for the subject development. As part of the Total Energy Management Program of the Department of Water and Power, this no-cost consultation service will be provided to the subdivider upon his request.

## FINDINGS

(As Amended by the City Planning Commission at its meeting on April 23, 2026)

### FINDINGS OF FACT (CEQA)

The Advisory Agency determined based on the whole of the administrative record, that the Project is exempt from CEQA pursuant to CEQA Guidelines Sections 15303 (Class 3) and 15332 (Class 32) and there is no substantial evidence demonstrating that an exception to a categorical exemption pursuant to CEQA Guidelines, Section 15300.2 applies.

### FINDINGS OF FACT (SUBDIVISION MAP ACT)

In connection with the approval of Parcel Map No. AA-2023-8121-PMLA the Advisory Agency of the City of Los Angeles, pursuant to Sections 66473.1, 66474.60, .61 and .63 of the State of California Government Code (the Subdivision Map Act), makes the prescribed findings as follows:

- (a) THE PROPOSED MAP WILL BE/IS CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

The Land Use Element of the General Plan consists of the 35 Community Plans within the City of Los Angeles. The Community Plans establish goals, objectives, and policies for future developments at a neighborhood level. Additionally, through the Land Use Map, the Community Plan designates parcels with a land use designation and zone. The Land Use Element is further implemented through the Los Angeles Municipal Code (LAMC). The zoning regulations contained within the LAMC regulates, but is not limited to, the maximum permitted density, height, parking, and the subdivision of land.

The subdivision of land is regulated pursuant to Article 7 of the LAMC. Pursuant to LAMC Section 17.50, parcel maps are to be designed in conformance with the parcel map regulations to ensure compliance with the various elements of the General Plan, including the Zoning Code. Additionally, the maps are to be designed in conformance with the Street Standards established pursuant to LAMC Section 17.05 B. The project site is located within the Bel Air – Beverly Crest Community Plan, which designates the site with a Minimum Residential and Very Low I Residential land use designation. Corresponding zones for Minimum Residential are A1, A2, and RE40. The corresponding zone for Very Low I Residential is RE20. The Project Site is zoned RE20-1-H-HCR, which is consistent with the land use designation. The proposed subdivision will create two lots in excess of 20,000 feet to accommodate both the existing single-family dwelling on the proposed Parcel A and one (1) additional future single-family dwelling on the proposed Parcel B.

Pursuant to LAMC Section 17.51 A, a preliminary parcel map is not required to be prepared by a licensed land surveyor or registered civil engineer but is required to contain information regarding the boundaries of the project site, as well as the abutting public rights-of-way, hillside contours for hillside properties, location of existing buildings, existing and proposed dedication, and improvements of the tract map. The parcel map indicates the parcel map number, notes, legal description, contact information for the owner, applicant, and engineer, as well as other pertinent information as required by LAMC Section 17.51 A. Therefore, the proposed map demonstrates compliance with LAMC Sections 17.05 C, and 17.06 B, and is consistent with the applicable General Plan.

- (b) THE DESIGN OR IMPROVEMENT OF THE PROPOSED SUBDIVISION IS CONSISTENT WITH APPLICABLE GENERAL AND SPECIFIC PLANS.

For purposes of a subdivision, design and improvement is defined by Section 66418 and 66419 of the Subdivision Map Act and LAMC Section 17.02. Design refers to the configuration and layout of the proposed lots in addition to the proposed site plan layout. Pursuant to Section 66427(a) of the Subdivision Map Act, the location of the buildings is not considered as part of the approval or disapproval of the map by the Advisory Agency. Easements and/or access and "improvements" refers to the infrastructure facilities serving the subdivision. LAMC Section 17.50 and 17.05 enumerates the design standards for a parcel map and requires that each map be designed in conformance with the Street Design Standards and in conformance with the General Plan. As indicated in Finding (a), LAMC Section 17.05 C requires that the parcel map be designed in conformance with the zoning regulations of the project site. As the project site is zoned RE20-1-H-HCR, the existing lot could be divided into up to seven (7) lots with a minimum size of 20,000 square feet. As the map is proposed for a two-lot subdivision resulting in two lots over 20,000 feet in size, it is consistent with the density permitted by the zone.

The parcel map was distributed to and reviewed by the various city agencies of the Subdivision Committee that have the authority to make dedication, and/or improvement recommendations. The Bureau of Engineering reviewed the parcel map for compliance with the Street Design Standards. The Bureau of Engineering has recommended improvements to the public right-of-way along Linda Flora Drive, consistent with the standards of the Mobility Element. In addition, the Bureau of Engineering has recommended the construction of the necessary on-site mainline sewers and all necessary street improvements will be made to comply with the Americans with Disabilities Act (ADA) of 2010. Further, the Bureau of Street Lighting has conditioned the project to improve Vista Moraga with one (1) additional streetlight and Linda Flora Drive with two (2) new streetlights. As conditioned, the design and improvements of the proposed subdivision are consistent with the applicable General Plan.

- (c) THE SITE IS PHYSICALLY SUITABLE FOR THE TYPE OF DEVELOPMENT.

The project site is a single, 3.29-acre parcel. The site is developed with an existing 13,169 square-foot single-family dwelling with an accessory pool house and pool. The project site is located within the 1.4 km (0.87 miles) from the Hollywood Fault but is not located within the Alquist-Priolo Fault Zone. The site is not located within flood zone, liquefaction, methane, or tsunami inundation zone. The site is located within a designated hillside area, a landslide area, a Very High Fire Severity Zone, and within the BOE Special Grading Area, and will be required to comply with all applicable regulations as it pertains to development within these zones. Prior to the issuance of any permits, the project would be required to be reviewed and approved by the Department of Building and Safety and the Fire Department. The site is not identified as having hazardous waste or past remediation. The site is not subject to the Specific Plan for the Management of Flood Hazards (floodways, floodplains, mud prone areas, coastal high-hazard and flood-related erosion hazard areas). The parcel map has been reviewed by Department of Building and Safety, Grading Division prior to the recordation of the map and issuance of any permits, which has determined that geology/soils reports are not required prior to planning approval of the Parcel Map as the property is exempt; and, although it is located within a City of Los Angeles Hillside Area does not require any grading or construction of an engineered

retaining structure to remove potential geologic hazards. Therefore, the site will be physically suitable for the proposed type of development.

- (d) THE SITE IS PHYSICALLY SUITABLE FOR THE PROPOSED DENSITY OF DEVELOPMENT.

The properties to the north and east have a land use designation of Very Low I Residential and are zoned RE20-1-H-HCR. The properties to the south and west are designated Minimum Residential and also zoned RE20-1-H-HCR. All adjacent properties are developed with single-family dwelling, and there is one vacant parcel to the south. The project site, which is comprised of one parcels, consists of approximately 143,359 square feet of land and is developed with a 13,169 square-foot single-family dwelling built in 1988. The Project does not propose any construction, but the proposed Parcel B will accommodate up to one (1) single-family dwelling as required by the zoning and land use designations. As proposed, the subdivision conforms to existing density restrictions placed on the site. The parcel map has been approved contingent upon the satisfaction of the Department of Building and Safety, Grading Division prior to the recordation of the map and issuance of any permits. Additionally, prior to the issuance of any future demolition, grading, or building permits, the project would be required to comply with conditions herein and applicable requirements of the LAMC. As conditioned the proposed parcel map is physically suitable for the proposed density of the development.

- (e) THE DESIGN OF THE SUBDIVISION OR THE PROPOSED IMPROVEMENTS ARE NOT LIKELY TO CAUSE SUBSTANTIAL ENVIRONMENTAL DAMAGE OR SUBSTANTIALLY AND AVOIDABLY INJURE FISH OR WILDLIFE OR THEIR HABITAT.

The project site is currently developed with a single-family home. There are 38 trees on the project site, none of which are protected as identified in a tree survey prepared by Arbor Care, Inc. in October of 2023. The surrounding area is substantially developed with low density residential structures in the hillside area. A revised Biological Resources Report dated April 15, 2025, prepared by Marcus A. England of England Ecology, was submitted for the environmental casefile ENV-2023-8122-CE in response to staff comments regarding the first Biological Resources Report dated and submitted March 26, 2025. The revised report concludes that no significant environmental impacts would occur from the proposed land division and any subsequent development of the site as allowed by-right pursuant to the parameters of the RE20-1-H-HCR Zone per the Los Angeles Municipal Code. The proposed subdivision does not include any new construction or disturbance of the existing property. In addition, a supplemental memorandum and photo exhibit was prepared on April 30, 2025 and submitted for the case file on June 23, 2025, providing additional evidence to support the original report's conclusion that wildlife movement through the subject property is unlikely to occur due to the subject site's existing conditions and obstructions. The proposed subdivision nor subsequent potential by-right construction will not cause substantial environmental damage or injury to fish and wildlife or their habitat.

- (f) THE DESIGN OF THE SUBDIVISION OR TYPE OF IMPROVEMENTS IS NOT LIKELY TO CAUSE SERIOUS PUBLIC HEALTH PROBLEMS.

There appears to be no potential public health problems caused by the design or improvement of the proposed subdivision.

The development is required to be connected to the City's sanitary sewer system, where the sewage will be directed to the LA Hyperion Treatment Plant, which has been upgraded to meet Statewide ocean discharge standards. The Bureau of Engineering has reported that the proposed subdivision does not violate the existing California Water Code because the subdivision will be connected to the public sewer system and will have only a minor incremental impact on the quality of the effluent from the Hyperion Treatment Plant.

- (g) THE DESIGN OF THE SUBDIVISION OR THE TYPE OF IMPROVEMENTS WILL NOT CONFLICT WITH EASEMENTS, ACQUIRED BY THE PUBLIC AT LARGE, FOR ACCESS THROUGH OR USE OF PROPERTY WITHIN THE PROPOSED SUBDIVISION.

As required by LAMC Section 12.03, the project site has a minimum of 20 feet of frontage on Linda Flora Drive, a public street. The project site consists of a parcel identified as Lot No. 5 of Tract 37150 and is identified by the Assessor Parcel Map No. 436-800-3021. There is an existing ten-foot pedestrian access easement connecting Vista Moraga, a private street, to Linda Flora Drive that is shared in part with an additional ten-foot drainage easement that traverses the proposed Parcel A, as delineated in the revised map. The shape of the parcels as designed accommodates these existing easements and will not prejudice them by allowing them to remain within the proposed Parcel A. There are no known easements acquired by the public at large for access through or use of the property within the proposed subdivision, as identified on the parcel map. Necessary easements for utilities will be acquired by the City prior to the recordation of the proposed parcel map.

Therefore, the design of the subdivision and the proposed improvements would not conflict with easements acquired by the public at large for access through or use of the property within the proposed subdivision.

- (h) THE DESIGN OF THE PROPOSED SUBDIVISION SHALL PROVIDE, TO THE EXTENT FEASIBLE, FOR FUTURE PASSIVE OR NATURAL HEATING OR COOLING OPPORTUNITIES IN THE SUBDIVISION. (REF. SECTION 66473.1)

In assessing the feasibility of passive or natural heating or cooling opportunities in the proposed subdivision design, the applicant has prepared and submitted materials which consider the local climate, contours, configuration of the parcel(s) to be subdivided and other design and improvement requirements.

Providing for passive or natural heating or cooling opportunities will not result in reducing allowable densities or the percentage of a lot which may be occupied by a building or structure under applicable planning and zoning in effect at the time the tentative map was filed.

The lot layout of the subdivision has taken into consideration the maximizing of the north/south orientation.

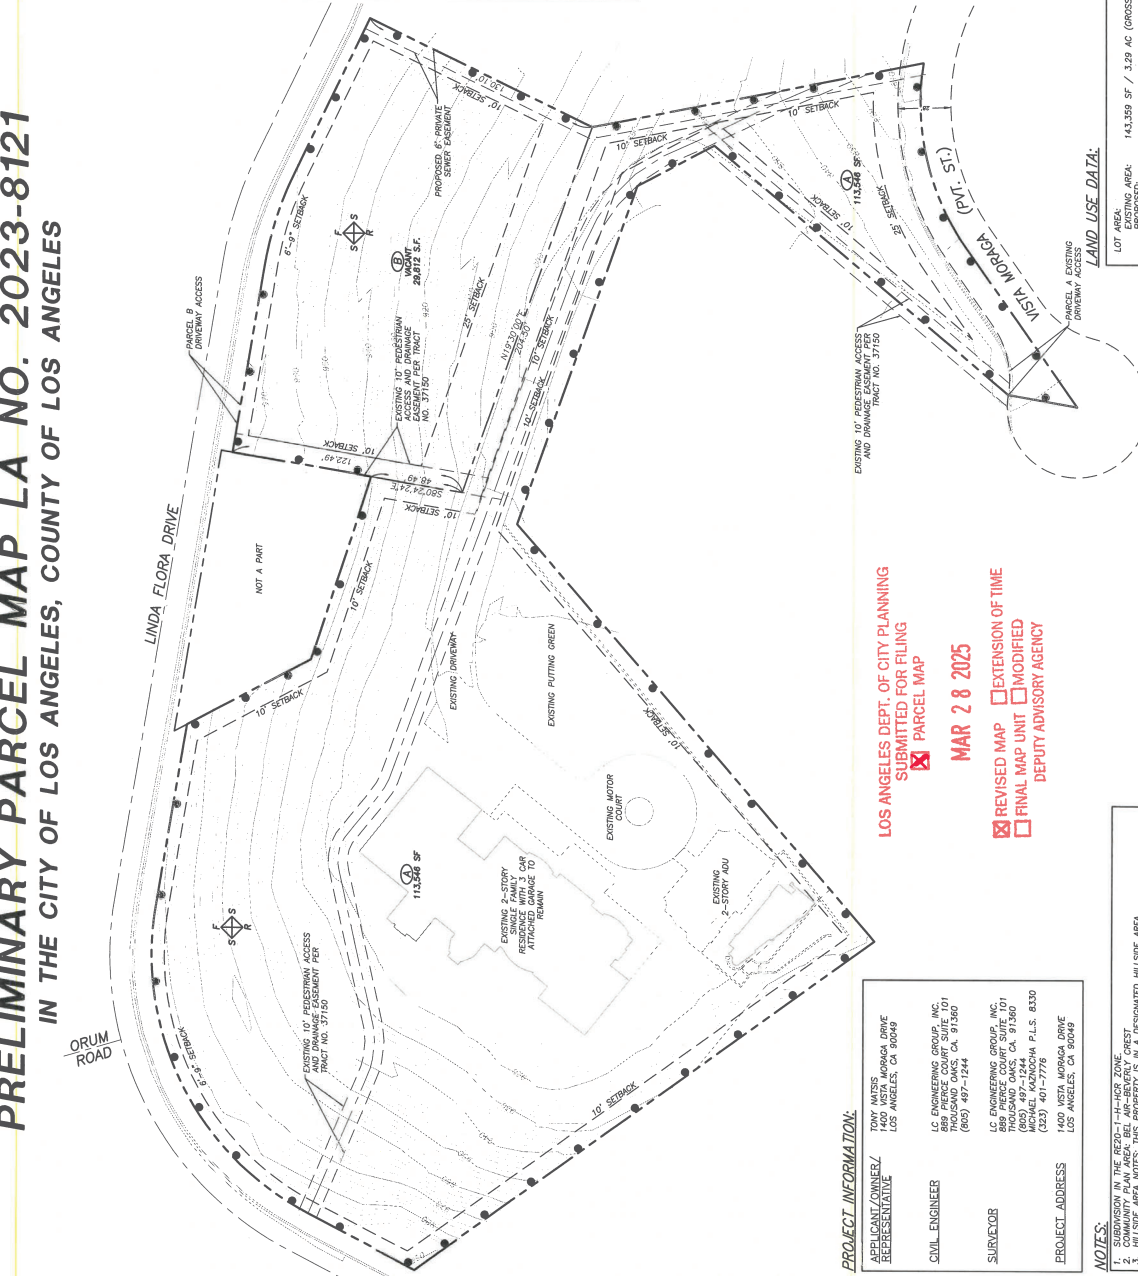

The topography of the site has been considered in the maximization of passive or natural heating and cooling opportunities.

In addition, prior to obtaining a building permit, the subdivider shall consider building construction techniques, such as overhanging eaves, location of windows, insulation,

exhaust fans; planting of trees for shade purposes and the height of the buildings on the site in relation to adjacent development.

# PRELIMINARY PARCEL MAP LA NO. 2023-8121

## IN THE CITY OF LOS ANGELES, COUNTY OF LOS ANGELES

### PROJECT INFORMATION:

**CLIENT/OWNER/RESPONSIBLE PARTY:**  
 TRACY WATERS  
 1400 VISTA MORAGA DRIVE
