6. APPLICABLE HISTORIC-CULTURAL MONUMENT CRITERIA

The proposed monument exemplifies the following Cultural Heritage Ordinance Criteria (Section 22.171.7):			
	1. Is identified with important events of national, state, or local history, or exemplifies significant contributions to the broad cultural, economic or social history of the nation, state, city or community.		
2	2. Is associated with the lives of historic personages important to national, state, city, or local history.		
	8. Embodies the distinctive characteristics of a style, type, period, or method of construction; or represents a notable work of a master designer, builder, or architect whose individual genius influenced his or her age.		

NOMINATION FORM

7. WRITTEN STATEMENTS

This section allows you to discuss at length the significance of the proposed monument and why it should be designated an Historic-Cultural Monument. Type your response on separate documents and attach them to this form.

- **A. Proposed Monument Description** Describe the proposed monument's physical characteristics and relationship to its surrounding environment. Expand on sections 2 and 3 with a more detailed description of the site. Expand on section 4 and discuss the construction/alteration history in detail if that is necessary to explain the proposed monument's current form. Identify and describe any character-defining elements, structures, interior spaces, or landscape features.
- **B. Statement of Significance** Address the proposed monument's historic, cultural, and/or architectural significance by discussing how it satisfies the HCM criteria you selected in Section 6. You must support your argument with substantial evidence and analysis. The Statement of Significance is your main argument for designation so it is important to substantiate any claims you make with supporting documentation and research.

9. SUBMITTAL

When you have completed preparing your nomination, compile all materials in the order specified below. Although the entire packet must not exceed 100 pages, you may send additional material on a CD or flash drive.

A	APPLICATION CHECKLIST		
1.	Nomination Form	5.	Copies of Primary/Secondary Documentation
2.	Written Statements A and B	6.	Copies of Building Permits for Major Alterations (include first construction permits)
3.	Bibliography	7.	Additional, Contemporary Photos
4.	Two Primary Photos of Exterior/Main Facade		
	(8x10, the main photo of the proposed monument. Also email a digitial copy of the main photo to:	8.	Historical Photos
	planning.ohr@lacity.org)	9.	Zimas Parcel Report for all Nominated Parcels (including map)

10. RELEASE

Please read each statement and check the corresponding boxes to indicate that you agree with the statement, then sign below in the provided space. Either the applicant or preparer may sign.			
I acknowledge that all documents submitted will become public records under the California Public Records Act, and understand that the documents will be made available upon request to members of the public for inspection and copying.			
I acknowledge that all photographs and images submitted as part of this application will become the property of the City of Los Angeles, and understand that permission is granted for use of the photographs and images by the City without any expectation of compensation.			
I acknowledge that I have the right to submit or have obtained the appropriate permission to submit all information contained in this application.			

Mail your Historic-Cultural Monument Submittal to the Office of Historic Resources.

HCM Nomination: King Taco, 1118 Cypress Avenue

Historic-Cultural Monument Nomination Written Statements

A. Proposed Monument Description

The building at 1118 Cypress Avenue is situated on the southwestern corner of the intersection of Roseview Avenue and Cypress Avenue in the Cypress Park neighborhood of northeast Los Angeles. The building is sited on a raised concrete patio on a corner lot.

The one-story vernacular 20th century commercial building has a generally rectangular plan and simple massing. It is composed of an original 1940s building and 1970s additions to the south and west. The 1940s building has fixed pitched steel windows and a shed roof clad in rounded clay tiles. Metal posts support the building's primary (northern) façade. The 1970s west addition is of concrete block construction with a smooth plaster cement exterior. It has a shed roof which meets the original roofline to create a butterfly style roof. The south addition has a corrugated metal exterior and roof with a large sign and awning. Fenestration along the 1970s additions is comprised of fixed steel windows and sliding aluminum windows. The primary entrance is centrally located and has a pair of glazed metal storefront doors. Rear entrances have metal slab doors. A metal pole sign is situated to the southeast of the building along Cypress Avenue.

Use History

The building opened in 1948 at 6427 Lankershim Boulevard and served as an ice cream store, Yukon Freeze, until 1954 when it was sold to Sally Rubens.¹ That same year, the business reopened as a hot dog stand known as "Sally's" which offered "a quick meal or snack."² The building again changed hands the following year; then-owner Charles D. Mendoza moved the food stand from Lankershim Boulevard to 4810 Tujunga Avenue.³ Five years later, the stand was again moved—this time to 1118 Cypress Avenue, where it remains. At the new location, the building reopened as "Windy's," which offered home cooked lunches in 1961.⁴ In 1975, King Taco first occupied the building; it continues to operate out of 1118 Cypress Avenue 50 years later.

Construction History and Alterations

The building was originally built in 1948 at 6427 Lankershim Boulevard, at which time it was described as a 20' by 20' commercial building constructed of steel sheets and glass. The building was relocated several times: first to 4810 Tujunga Avenue in 1955 and later to 1118 Cypress Avenue in 1960. An aluminum awning was added to the south of the building along Cypress Avenue in 1976. Additions were added to the west corner along Roseview Avenue in 1978 and in

1979. The south aluminum awning was enclosed in 1996, at which point the primary entrance to the restaurant was relocated from the 1940s building to the new addition. Rounded clay tiles were added to the roof sometime in the 2000s.

B. Significance Statement

Summary

King Taco, located at 1118 Cypress Avenue, meets the following criteria for designation as a Historic-Cultural Monument (HCM):

Criterion 1. It exemplifies significant contributions to the broad cultural, economic or social history of the nation, state, city, or community.

1118 Cypress Avenue is significant under Criterion 1 as the first and longtime brick-and-mortar home of King Taco, a long-standing restaurant in Cypress Park and an important Latino commercial institution. King Taco is identified as a known resource in the "Commercial Identity," theme of SurveyLA's *Latino Los Angeles Historic Context Statement.* The period of significance spans from its opening by Raul O. and Maria G. Martinez in 1975 to Raul O. Martinez's death in 2013.

The first King Taco was established by Raul O. and Maria G. Martinez in 1974 as a taco truck; the original brick-and-mortar location at 1118 Cypress Avenue opened six months later in the Cypress Park neighborhood of Los Angeles. At that time, the hard shell taco was largely sold in restaurants, and mobile trucks catered cold foods. In creating the first taco truck and introducing the Mexican style taco to the wider public, Raul O. and Maria G. Martinez created a new portable feast that would revolutionize the culinary scene of Los Angeles. Within a decade, there were over 3,500 hot food trucks and 500 taco trucks operating within the city limits and soft shell tacos were sold in an increasing number of restaurants. Raul O. and Maria G. Martinez capitalized on their loyal customer base and expanded the enterprise, including the first permanent location in Cypress Park, a symbol of neighborhood revitalization. By 1994, there were 14 King Taco locations; as of 2025, there are 24 locations. These restaurants reimagined the taco in Los Angeles: gone were the deep fried taco, and a new era of the soft shell taco began. The original King Taco #1 is still in operation at 1118 Cypress Avenue. King Taco continues to serve as a Los Angeles staple, with its original restaurant a pillar of Latino culinary identity in Cypress Park.

Historical Background

The subject property is located at 1118 Cypress Avenue. Below are brief histories of the surrounding Cypress Park neighborhood; the Latino community in Northeast Los Angeles in the post-World War II era; Mexican food and the taco in Los Angeles; and King Taco.

Early History of Cypress Park

The land that now includes Cypress Park is located within the ancestral homeland of the First Peoples known today by the names of Gabrieleno, Tongva or Kizh. For centuries, local Native

⁵ GPA Consulting and Beck Nicolaides, *Latino Los Angeles Historic Context Statement*, prepared for the City of Los Angeles, September 15, 2015, 38.

peoples occupied distinct but interrelated villages across their ancestral territory. Archaeological research indicates that habitation sites were hierarchically organized around estuaries, with settlement size dependent on resource availability. Because of its position on the Los Angeles River channel and floodplain, the area of present-day Cypress Park was a natural transportation corridor through the Glendale Narrows. Villages were likely politically autonomous and organized through shared kinship ties. Diets largely consisted of acorns, roots, leaves, seeds, and fruits of a variety of flora as well as both large and small mammals. Native Americans used land management practices such as woodland burning to augment ecosystems.

The first Europeans to pass through the region were led by Spanish officer and explorer Gaspar de Portolá, who was sent north from Mexico to establish settlements in the territory known as "Alta California" in 1769. The Spanish named the river "Rio de Porciúncula" and described the area marked by the confluence of the river and the Arroyo Seco as "a very lush green valley."

In 1781, the Pueblo de Los Angeles was founded adjacent to this location. As the town developed, pueblo citizens utilized San Fernando Road as a major transportation corridor for traffic passing into and out of Los Angeles. As part of the *El Camino Real* (The Royal Road), it linked the nascent town to the Mission San Fernando Rey de España and the northern coastal missions, presidios, and ranchos beyond. During this period of development, the Spanish government encouraged settlement of territory by the establishment of large land grants called ranchos. Largely devoted to raising cattle and sheep, the ranchos created a local economy based on livestock and agriculture.

Cypress Park and its environs straddles two land grants: Rancho San Rafael and Rancho Cañada de los Nogales. Rancho San Rafael was granted to Corporal Jose Maria Verdugo in 1784. De Spanning approximately 36,400 acres, the Rancho San Rafael was roughly bounded by the Crescent Valley on the north, the Arroyo Seco on the east, the Los Angeles River on the south, and the Verdugo Mountains on the west. Verdugo was successful in his ranching efforts, and in 1798, Governor Diego de Borica granted him the place called "La Zanja." Jose Verdugo passed away in 1831, leaving the rancho to his son Julio and unmarried daughter Catalina.

subsequently divided amongst the two, with Julio taking control of the southern half of the rancho while Catalina received the northern half.

In 1821, Mexico won its independence from Spain, and Alta California became a Mexican province. In 1833, the Mexican Congress passed the Act for the Secularization of the Missions of California, and lands were divided into land grants. In 1844, Mexican Governor Manuel Micheltorena granted the Rancho Cañada de los Nogales, a half league of land along the Los Angeles River, to José M. Aguila. Aguila.

The United States' war with Mexico culminated in the year 1848 with the signing of the Treaty of Guadalupe Hildalgo. This treaty was the basis for establishing the rights of Mexicans to land title within the conquered territories. Facing growing political pressure to make lands in the west available for settlement by Americans, in 1851, the United States Congress passed the California Land Act. Under the Act, all holders of Spanish or Mexican land grants were required to present their titles for verification by the Public Land Commission. Julio Verdugo was adamant to retain his holdings of the Rancho San Rafael, and in 1852, he filed his claim with the Public Land Commission. The title was confirmed in 1855. Jose M. Aguilar filed a claim for the Rancho Cañada de los Nogales in 1852, which was confirmed in 1856. Despite these claims, both of their lands ultimately passed to an American. Jessie D. Hunter, who had first arrived in Los Angeles in 1847 as a Captain in the Mormon Battalion during the Mexican-American War, purchased the Rancho Cañada de Los Nogales in 1854 and a southern tip of the Rancho San Rafael in 1859. Hunter's land encompassed what is today the Cypress Park neighborhood.

In 1882, Jessie D. Hunter's land was subdivided into the Hunter Highland View Tract. That same year, evangelical preacher Alexis B. Jeffries and his wife Rebecca relocated from Ohio to Los Angeles and purchased a large portion of the Hunter Highland View Tract. They built their home on the property, and in 1905, Rebecca Jeffries subdivided the Jeffries Highland View Tract and the Jeffries Avenue Tract from the original Jeffries land holdings. James J. Jeffries and Charles Jeffries – the sons of Alexis and Rebecca Jeffries – also built homes in the area.¹⁹

Subdivision of the Cypress Park area continued throughout the 1910s and 1920s. These included modestly scaled residential blocks intended for middle-class families. Scattered neighborhoodserving commercial development in Cypress Park appeared on Cypress Avenue and Figueroa

Street as both streets hosted streetcar lines. Parcels adjacent to the river developed with light industrial and manufacturing uses including several wholesale bakeries. In 1925, Southern Pacific shifted supervision of its entire Los Angeles freight handling operations to the expanded new freight yard in the area, referred to as Taylor Yard. For nearly forty years, Taylor Yard continued as the city's major railway hub and the surrounding community became home to hundreds of railroad workers. Many early residents of Cypress Park worked at Taylor Yard.²⁰

The demographics of Cypress Park shifted following World War II, when white residents migrated from areas that were becoming more racially or culturally diverse to more homogeneous suburban or exurban areas, a phenomenon known as "white flight." In this way, Cypress Park shifted in the 1960s and 1970s to serve a greater diverse, and largely Latino, population. In 1971, local librarian Marie Demeree described Cypress Park as a "predominantly Mexican-American neighborhood" and noted that the "community is changing... it is basically a transient neighborhood; people move in, stay a while and move away." Taylor Yard ceased operations in 1985; portions of the land were redeveloped as affordable housing, the Rio de Los Angeles State Park, a high school, and other uses; other parts are still used for railroad maintenance and freight storage. As of 2020, Cypress Park is 81% Latino. Latino.

Latino Community in Northeast Los Angeles

Latino settlement of Los Angeles reaches back to the 18th century, and by 1880, Mexicans and Mexicans Americans comprised nineteen percent of the city's population. This proportion dropped rapidly in the late 1890s and 1900s, as Anglo in-migration surged, but resumed high levels in the early 20th century following the 1910 Mexican Revolution.²⁴

In the 1920s and 1930s, the United States experienced a mass migration of people from Mexico. Dissatisfaction with economic and social conditions in Mexico, coupled with the relative ease of access to the United States, inspired thousands of Mexicans to emigrate to Los Angeles. These decades, the Mexican population tripled in the city from about 33,600 to 97,000, and the ratio of immigrant to native-born residents rose from 2:1 to 5:1. Throughout this period, Mexican immigrants faced rampant discrimination. Many residential tracts in Los Angeles had Covenants, Conditions and Restrictions (CC&Rs) that restricted the purchase and rental of homes to White residents. To compound this discrimination, lenders and insurers often followed "redlining maps" which outlined neighborhoods containing "subversive racial groups," or those they defined as

"deteriorating" due to the presence of non-white residents.²⁷ This restricted many Latino residents to certain areas of the city.

Following World War II, settlement patterns began to change. Whereas surrounding white suburbs had long been closed off to Mexicans and other non-whites, this began to change after Shelley v. Kraemer (1948), the U.S. Supreme Court decision that outlawed race restrictive covenants. This ruling enabled a small number of ethnic Mexicans to move into formerly all-white suburbs by the 1950s. At the same time, many of the older, established Mexican neighborhoods in and around downtown were displaced by redevelopment and freeway constructions. Freeway development decimated the Mateo/Cabrini district, a settlement of Mexican and Italian immigrants near downtown Los Angeles that was razed during construction of the Santa Monica Freeway in the 1960s. This forced many Mexicans to move to Boyle Heights, Lincoln Heights, and other eastside neighborhoods, accelerating white flight out of the area. A sargued by Eric Avila, in East Los Angeles, freeways framed the emerging identity of Mexican America:

It is hard to think of any part of any American city as hard hit by highway construction as East Los Angeles in the 1950s and 1960s. Although a handful of residents expressed early opposition to highway construction, their protests fizzled, leaving East Los Angeles to emerge, simultaneously, as the nation's largest Spanish-speaking barrio and the heart of Southern California's sprawling freeway system. By the 1970s, the Chicano movement had exploded beneath and between the ubiquitous freeways of East Los Angeles.³⁰

In the 1960s and 1970s, Northeast Los Angeles neighborhoods including Cypress Park and Highland Park were also hubs for the Latino community. Murals in Northeast Los Angeles reflected this growing identity and included *A History of Mexico* (1975) by Anthony Padilla at the Florence Nightingale Junior High School in Cypress Park and *History of Highland Park* (1978) by Judith Baca, Joe Bravo, Sonya Fe, and Arnold Ramirez in Highland Park.

Mexican Food and the Taco in Los Angeles

The history of Mexican food in Los Angeles reaches back to the 18th century but truly accelerated with the introduction of the tamale wagon in the 19th century. The tamale wagon was characterized by a two-by-four pushcart or eight-foot-long wagon from which cooks sold

³⁰ Eric Avila, *The Folklore of the Freeway: Race and Revolt in the Modernist City* (Minneapolis: University of Minnesota Press, 2014), 120, 146.

tamales. In 1880, the *Los Angeles Herald* wrote, "The experience of our Eastern visitors will be incomplete unless they sample" a Los Angeles street tamale.³¹

By the turn of the century, more than one hundred tamale wagons sold their wares on Los Angeles' street corners. Despite their popularity, attempts by businessmen to legislate the tamale wagons out of existence finally succeeded in the 1920s. As recorded in the *Los Angeles Times*, "One by one the old landmarks of Los Angeles pass out along the corridors of memory. They belong not to the new order of things—they were born of the pueblo—they perish in the metropolis. Tamale Row near the Plaza is the last relic to be discarded."³²

Mexican cuisine in the city transformed in the ensuing decades from the earlier mobile tamale wagons to more Americanized restaurants, often marketed as "Sonoran" or "Spanish" food.³³ Olvera Street particularly became a popular location in the city for this type of cuisine. Harry Chandler and Christine Sterling, developers of modern Olvera Street, forced all the vendors to dress in "native" costume and "affect the pomposity of Spanish dons and senoritas; those who refused faced eviction."³⁴ As recounted by Gustavo Arellano in *Taco USA*, those early restaurants signaled a shift in the available taco:

The style of the taco varied outside of Olvera Street in those early years; in the workplace and at home, Mexican laborers ate them from soft tortillas, fresh from the grill; in restaurants, Americans enjoyed tacos as tortillas dunked in the fryer, then stuffed. So-called taco houses popped up across Southern California, casual restaurants where patrons enjoyed them freshly made; everywhere else, the taco was just another dish on an increasing number of menus.³⁵

Hard shell tacos "offered outsiders an entrée that made the mysteries of Mexican food more accessible." A new mechanical taco fryer, invented by restaurateur Juvencio Maldonado, streamlined the production of hard-shell tacos. Founded in 1946, the Taco House of Los Angeles was quickly imitated by numerous one-off restaurants in the city, including Bert's Taco Junction and Frank's Taco Inn. These restaurants were soon competing with growing franchises; Glen Bell began his business in Southern California, making Taco Bell a household name.

Contemporaneously, Mexican families in midcentury Los Angeles took advantage of the rise of the automobile to sell tamales, enchiladas, and tacos, out of trucks. These foods were prepared beforehand at home, then sold throughout the course of the day.³⁸ These "cold trucks" were camper-like vehicles that largely catered to the working classes by parking near construction sites

or industrial buildings which were too far from food establishments for workers to leave for food or snacks.³⁹

It was not until the 1970s that tacos were sold fresh from a truck. In 1974, Raul O. and Maria G. Martinez, immigrants from Mexico City, repurposed a former ice cream truck with a stove and grill and sold fresh tacos from their truck. This invention revolutionized the culinary scene of Los Angeles, and the nation. The taco truck was born.⁴⁰

King Taco

Raul O. and Maria G. Martinez were both born in Mexico and moved to Los Angeles in 1969. With only 12 MX pesos in their pockets, they could not afford bus tickets and were briefly held up in Tijuana. A bystander overheard their situation and purchased tickets for them. Once in Los Angeles, Raul O. Martinez held several jobs, including as a dishwasher, before the couple purchased their truck and outfitted it to serve tacos in 1974.

With that purchase, Raul O. and Maria G. Martinez revolutionized the taco in Los Angeles, and their new food truck, also known as a *lonchera*, offered cuts that weren't even standard fare in Mexican restaurants such as *cabeza* and *al pastor*. ⁴² Al Pastor in particular became a favorite. Al Pastor is traditionally lamb meat prepared on an upright grill or spit; it arrived in Puebla, Mexico in the 1940s with the Lebanese community. ⁴³ Raul O. and Maria G. Martinez served as the sole operators of their taco truck, and sold their specialty *Carne Estilo de Mexico* in neighborhoods and commercial districts in the evening, an enterprising shift from the workplace lunch circuit. ⁴⁴ Their truck became a harbinger of authentic Mexican gastronomy in Los Angeles.

King Taco was one of the earliest, if not the first, taco truck in Los Angeles.⁴⁵ It has since become a Los Angeles institution, with more than 20 brick and mortar locations.⁴⁶ As historian Gustavo Arellano writes, King Taco's "success spurred other enterprising Mexicans to follow its example. By 1987, about five hundred *loncheras* served Southern California, all introducing the foods brought to the United States by the latest waves of Mexican immigrants." ⁴⁷

Within a decade of King Taco opening, the *Los Angeles Times* wrote that hot food trucks were ubiquitous in the Southland, with over 3,500 in operation. "Only in recent years—and mainly in

⁴⁵ Arellano, *Taco USA*, 164.

⁴⁶ Arellano, *Taco USA*, 164.

⁴⁷ Loncheras traditionally served the working class and were typically seen in the same place each day, providing lower class families access to fresh food in their own neighborhood. Arellano, *Taco USA*, 164; Jesús Hermosillo, *Loncheras: A Look at the Stationary Food Trucks of Los Angeles*, Master's Thesis, UCLA School of Urban Planning, 2010, 6.

Southern California—have hot trucks emerged to dominate the trade." **Loncheras* could "be found almost anywhere in the Los Angeles area, but they tend to congregate in heavily Latino areas... you'll find them in Van Nuys, Pacoima, Florence, Huntington Park, Wilmington and anywhere down Brooklyn Avenue [in East Los Angeles]." ** King Taco had started a Latino culinary revolution in Los Angeles.

The importance of the taco truck as part of Latino culture in Los Angeles was cemented in the 1980s and 1990s. During this period, taco truck operators contributed to a sense of cultural identity in many immigrant communities and built foodways into Los Angeles. ⁵⁰ In discussing Latino vending landscapes, geographer Lorena Munoz suggests that "nostalgic memories are in part what is being consumed and what creates a certain 'sense of place' for the vendors as well as the consumers." ⁵¹ However, the introduction of Mexican food trucks into majority white areas and areas affected by white flight could "give a racial tinge to policy debates over food trucks," as Los Angeles sought to increasingly apply food safety rules and inspections. ⁵²

Despite challenges of running and maintaining a taco truck, Raul O. and Maria G. Martinez were successful and sought to expand King Taco. They opened their first brick-and-mortar King Taco restaurant in Cypress Park in 1975, six months after they started the taco truck business. The site's large parking lot was home to the King Taco trucks. The location originally prepared food for their fleet of vans, but it also became a restaurant in its own right as patrons often ate their meals on the hoods of their cars.

Raul O. Martinez described making a taco as an "art." ⁵⁴ He and his wife invested significant time and effort into running their business, and as a result, they were immensely successful and were quickly able to expand the restaurant into a chain with locations across East Los Angeles. The second King Taco location opened in 1978 on Ford and 3rd Street. By 1994, they had established 14 King Taco restaurants, grossing over \$21 million.

Raul O. and Maria G. Martinez also influenced the *type* of taco served in Los Angeles restaurants. Pulitzer-winning *Los Angeles Times* food critic Jonathan Gold perhaps said it best:

King Taco may have been the first place that solidified what we all think of as the modern Los Angeles taco sensibility. Sure, there had been *tacos al pastor* before he did them, but after the popularity of King Taco, everybody has *tacos al pastor*. People had had carnitas before, but suddenly, everybody had carnitas... It just seemed to form the template of what the modern Los Angeles taqueria should

be... [Before King Taco] when you talk about tacos, they were fried. Then suddenly, almost all at the same time, everybody in the city realized that a taco was not this sort of crunchy, pre-fried thing with orange cheese and lettuce that they'd grown up eating. But it was something else that was made with a fresh tortilla, that was soft, that had been rolled and filled with spicy meat and salsa, and cilantro.⁵⁵

Raul O. and Maria G. Martinez often took over existing, vacant fast food stands and gas stations for their new restaurants. As recounted by David Diaz in *Barrio Urbanism: Chicanos, Planning and American Cities,* King Taco thus "played a significant role in local economic revitalization by improving the urban landscape of aging commercial districts." While the King Taco food truck revolutionized Mexican mobile dining in Los Angeles, and the soft shell taco introduced authentic Mexican tacos into mainstream dining, the Martinez's brick-and-mortar stores also played a role in neighborhood revitalization. King Taco restaurants cropped up across Los Angeles County, and include locations in Cypress Park, East Los Angeles, Glendale, Baldwin Park, Walnut Park, and Bellflower, among many others.

King Taco has had a continued impact on the community, its workers, and the food scene in Los Angeles. "I've been eating here since it first opened...It feels like home here," remarked Cypress Park resident Emily Ramirez, "I'd rather come here than any other place." As remembered by long-time employee and accounting manager Felipe Mercado:

King Taco represents the introduction of the authentic Mexican taco to the public in Los Angeles... The quality of its ingredients, the consistency of its taste and flavor and the unique salsas have always been first and present, even in times of inflation and scarcity of ingredients, King Taco has never declined or accepted lower quality products, even if sacrificing profit margins. The drive for customer satisfaction, the hard work and efficiency installed by its founder Raul O. Martinez, is a trademark of all its operations, from production to distribution, customer service and administration, the high volume output is similar to none, separating King Taco from the quick service food industry standards.⁵⁸

After a long career of overseeing King Taco and its operations, Raul O. Martinez passed away in 2013. As of 2025, King Taco has 24 locations throughout Los Angeles and San Bernardino Counties. King Taco continues to serve as a Los Angeles staple, with its original restaurant a pillar of Latino culinary identity in Cypress Park.

Integrity

The building at 1118 Cypress Avenue retains sufficient historic integrity to convey its significance. Although the building has undergone several alterations, most of these occurred early in the business' lifetime, when the building was first purchased and expanded to accommodate King Taco's growth.

Eligibility standards in the *Latino Los Angeles Historic Context Statement* for properties that are potentially eligible under Criterion 1 within the theme of Commercial Identity (1910-1980) note that eligible properties must retain integrity of *location, design, feeling, materials,* and *association*. The historic context statement also notes that "integrity is based on the period during which the significant business occupied the property." King Taco retains the required aspects of integrity from the period of significance, which spans from its opening by Raul O. and Maria G. Martinez in 1975 to Raul O. Martinez's death in 2013.

Location

Although the building was previously moved, it has been located at the intersection of Cypress Avenue and Roseview Avenue in the Cypress Park neighborhood of Los Angeles since 1960, before the period of significance for King Taco (1975-2013). It has not been relocated since King Taco occupied the building in 1975. It therefore retains integrity of *location*.

Design

The building has undergone some alterations over the last 50 years. This includes additions to the south and west façades in 1976, 1978, and 1979, and the enclosure of the south awning in 1996. However, most of these alterations took place during the period of significance and reflect an expansion of the business necessitated by its growing popularity. Additionally, the building retains the character-defining features that reflect its intended design, such as the original fenestration pattern and shed roof from the 1970s. Although the primary entrance was relocated and infilled, the style and location of the door is in keeping with the original design. Moreover, the 1996 enclosure of the south awning was designed to be compatible with, but differentiated from, the original building. It therefore retains integrity of *design*.

Setting

At the time of its relocation to Cypress Park in 1960, the building was one of several low-rise commercial buildings located along Cypress Avenue in an otherwise residential area. The area remains commercial and residential in character with minimal development since that time. The building therefore retains integrity of *setting*.

⁵⁹ GPA Consulting and Becky Nicolaides, *SurveyLA: Latino Los Angeles Historic Context Statement*, prepared for the City of Los Angeles Office of Historic Resources, September 15, 2015, 39.

Materials

Although there have been alterations to the building overtime, most were completed for and by King Taco to accommodate the business' growth over the past 50 years. King Taco retains most physical elements from the period of significance including its brick cladding, cement plaster exterior, steel windows, and corrugated metal roof. It therefore retains integrity of *materials*.

Workmanship

The building retains the physical evidence of mid- to late-20th century construction techniques. This includes concrete block construction, metal support posts, and corrugated metal siding and roofing, completed during its period of significance. The building therefore retains integrity of *workmanship*.

Feeling

The building retains integrity of *location, design, setting, materials,* and *workmanship*. It therefore retains the significant physical features that convey its character and express the aesthetic and historic sense of a fast food restaurant established in Cypress Park. This feeling has remained intact from its relocation to the site in 1960 and its first occupancy by King Taco in 1975, to today. It therefore retains integrity of *feeling*.

Association

The building retains integrity of *location, design, setting, materials, workmanship,* and *feeling.* It thus retains the essential physical features that make up its character as a restaurant in Cypress Park associated with 1970s Mexican American culinary development in the area. From the mid-1970s to today, the building has served as the home of the King Taco franchise as location #1. It therefore retains integrity of *association*.

I is friends bad lost his mind. Martinez had lost his mind. Martinez had a plan to sell soft-shell tacos out of a renovated ice cream truck on the streets of East Los Angeles.

"How will you sell those kinds of tacos?" he was asked. Despite the skepticism, Martinez, his wife and father at his side, parked the truck next to an East Los Angeles had not a summer night in 1974.

Martinez sold \$70 worth of tacos that first night and soon afterward was selling \$150 an evening. Six months later, he opened the first King Taco restaurant.

This year, Martinez's King Taco Restaurants Inc. will post about \$10 million in sales. The East Los Angeles company boasts three "Laco trucks"—including a \$100,000, 40-foot trailer—and 10 tacos stands and central Los Angeles stronghold to the rest of Southern California and the state.

"They told me I was crazy." said

to the rest of Southern California and the state.

"They told me I was crazy," said Martines, 46, sitting in King Taco's large conference and training room outfitted with a refrigerator, television monitors and videocassette recorders. "But here I am."

The company Martinez has built is one that takes every opportunity to promote its main product. A mural inside the chain's largest restaurants details the history of the taco. Need to call the main office! Dia 26-1AcOSs.

TACO TRUCKS PUT ASPIRING **IMMIGRANTS ON WHEELS**

By JESUS SANCHEZ, Times Staff Writer

There is no mistaking what Francisco Galvez sells. Painted across the front of his catering truck, in big red letters, is the word TACOS, and that says it

In of his catering truck, in big red letters, is the word TACOS, and that says it all.

Every weekend evening, Friday through Monday, Galvez and his wife Elvia serve up steaming soft tacos to the mostly Latino patrons of a neighborhood night-club on Lankershim Boulevard in North Hollywood. On a good night, Galvez's Tacos don Paco or ings up \$300 in sales. It's the couple's only source of income—a disability prevents Galvez from holding a full-time job.

"You're not going to get rich," said Galvez, 58, a Mexican immigrant who has been selling tacos out of the truck for the past year. "But you can maintain a comfortable life." And besides, he said, "There's always food around."

They are known as taco trucks, taco wagons and taco taxis. They are catering trucks, typically secondhand, whose owners work late into the night selling Mexican food primarily to the Los Angeles area's growing Latino population. The taco trucks have managed to survive and even grow in the highly competitive catering truck business, but owners worry that the future may not be as bright.

Unheard of in Mexico and other Latin American countries, taco trucks are a Los Angeles phenomenon—a nexample of how the area's immigrant groups have adapted to a society that prizes the automobile and mobility. There are also catering trucks that sell to other Los Angeles immigrant groups—from Armenians to Vietnam-ese—but taco trucks are by far the

predominant variety.

Of course, one need not seek out a taco truck to buy Mexican food. Tacos and burritos often share top billing with hamburgers and hot dogs on the menus of the estimated 4,300 catering trucks registered in Los Angeles County.

But "when you're serving a crowd that is sometimes 8% Latino, you can't expect to get by on cheeseburgers and lasagna," said Bob Bradbury, owner of Courtesy Catering, a Sunland commissary where catering trucks load up on supplies, including such popular Mexican food items as

Above, one of the many taco trucks doing business in Los Angeles; below, vendor carves meat for taco.

refried beans, carnitas (fried pork) and beefskirt.

Apparently, the owners of the estimated 200 to 500 taco trucks in the area find they can do without the burgers and potato chips and, instead, concentrate on tacos, many times filled with seasos (brains), cebeza (head) or lengua (tongue).

"This is a good business—people to cacos," said Ernesto Sanchez, 48, who sells an average of 300 tacos a day from his truck parked behind a supermarket in East Los Angeles. Like many other truck operators, Sanchez left behind a low-paying job in a restaurant to start his own business.

L.A. County Halts Securities Loan Program

Pooled Fund Had Profited, but Exposure After Oct. 19 **Crash Worried Treasurer**

By VICTOR F. ZONANA, Times Staff Writer

SAN FRANCISCO—Los Angeles Coun-ty, alerted to the dangers of one of its more esoteric money-making practices by last month's stock market panic and crash, is

month's stock market panic and crash, is suspending the program.

The Times has learned that the county treasurer has halted at least temporarily a controversial, billion-dollar securities-lending program that was started last year. The program was designed to boost income on the treasurer's pooled fund, a short-term account that contains money earmarked for schools, roads and other county expenditures.

expenditures.
"The volatility of the markets was such "The volatility of the markets was such that we did not want to have an exposure," said Sandra Tracey, the county's treasurer and tax collector, in an interview. "For the past two weeks, we have been unwinding our positions and instructing our agent, the Bank of America, to refrain from making further loans of securities."

Added George W. Jeffries, the county's chief investment officer. "On the heels of Black Monday, we thought it prudent to reassess."

reasses."

The decision applies only to the \$4 billion in the county's pooled fund, which invests in such short-term instruments as U.S. Treasury bills, Treasury notes and bank certificates of deposit.

Raul Martinez oversees preparation in a King Taco kitchen. "Making a taco is an art," he says.

KING: Restaurateur Started From Truck

Continued from Page 1

"Making a taco is an art," Martinez claims.

While that may be debatable, there is no debating the loyalty of King Taco's patrons, 80% of whom are Latino.

"These are the ultimate Mexican-style tacos," said Juan Camaney, 23, who visits King Taco No. 2—the chain's largest restaurant on Third Street in East Los Angeles—at least twice a week. "And they make salsa like you wouldn't believe."

King Taco No. 2 is the crown jewel in the King Taco empire. Open 22 hours a day, the restaurant—helped out by a King Taco catering truck on busy nights—serves 50,000 85-cent tacos a week during peak summer months. Industry executives estimate that the restaurant rings up an estimated \$4 million in annual sales.

The King Taco operation caught the attention of managers at Boys Markets, which invited the company to open an outlet in its new Lynwood store, geared to a primarily Latino clientele. If all goes well, Boys Markets might make room for King Taco outlets in its other supermarkets.

"They're running an excellent

operation," said Peter J. Sodini, president of the supermarket chain. The large crowds of customers that gather at King Taco No. 2 "say a lot about how the product and service are perceived in the community," he said

Martinez rules King Taco and its 220 employees from a cluster of buildings that occupy nearly an entire city block in a shabby industrial section of East Los Angeles. A large parking lot is home to the King Taco trucks (The first taco truck was destroyed a few years ago after a propane gas tank exploded). The prime parking space, however, is occupied by Martinez's gold-toned Mercedes 450 SL.

Uniformity Key

A large warehouse is being converted into a giant central kitchen, where batches of meat, rice, beans and salsa (made according to Martinez's secret recipe) will be prepared and trucked out to future King Taco franchises. Final preparation and cooking will take place at the restaurants themselves.

The central kitchen will ensure that a taco in East Los Angeles tastes the same as one sold in Huntington Park. Martinez notes that uniformity is the key to the franchise food game. "If you eat a hamburger at a Jack-in-the-Box in Los Angeles or in Las Vegas, it tastes the same."

Uniformity among the chain's outlets is what King Taco needs if it is to continue to grow, says Humberto J. Galvez, who founded the El Pollo Loco chain now owned by Denny's Inc. "The main store is a gold mine," he said. "But they need more uniformity, more profession-

Looking to the future, Martinez plans to reach out to Latinos in the suburbs—a restaurant in El Monte will open early next year—and possibly expand northward into San Jose. He eagerly shows a visitor blueprints of more elaborate restaurants, complete with arches, tile roofs and heavy beams. There are even plans to add salad bars to appeal to health-conscious consumers.

Although Martinez owes his success to tacos, he enjoys eating other foods such as Italian and Thai dishes. But he does not get many chances to do so.

After a recent meeting with his accountant, for instance, Martinez asked the man what he would like for lunch. His reply: "Let's go for some taquitos."

NYSE Clerks Agree to Talk; Strike Ends

NEW YORK (A)—A strike by 1,100 clerical workers at the New York Stock Exchange ended Friday after their union agreed to continue contract talks with the help of a federal mediator.

Supervisory personnel had taken over the jobs usually done by floor reporters, clerks, secretaries and maintenance workers, who began the strike Tuesday. Improvement in pensions was a key issue.

Patrick Hart, a mediator with the Federal Mediation and Conciliation Service, told a news conference that he met with representatives of the exchange and of Local 153 of the Office and Professional Employees International Union on Friday morning.

"They have agreed to accept a mediator's proposal to meet next Monday . . . with the return to work of striking employees this morning," he said.

He added that neither side

He added that neither side agreed to binding arbitration, although the union said there would be no further job actions and the exchange agreed not to lock out employees even though no contract is in effect.

Both parties also agreed not to discuss the talks with reporters.

"I made this proposal in the interests of the national economy, the employers, the employees and the investing public," Hart said, who became involved in the labor dispute three days before the contract expired on Oct. 31.

NYSĒ officials said trading had proceeded smoothly despite the strike.

Richard Torrenzano, a vice president of the exchange, said the number of employees showing up for work had increased steadily since the strike began.

Michael Goodwin, the union's secretary-treasurer, has said the union is seeking a pension of half pay at age 65, while the exchange has offered to move retirement up to age 62 and improve early retirement incentives. Under the previous contract, he said, a worker earning \$33,700 a year who retires at age 65 after 35 years of service would receive a pension of \$11,700.

SurveyLA Latino Los Angeles Historic Context Statement

City of Los Angeles
Department of City Planning
Office of Historic Resources

September 15, 2015

Prepared by:

and

Becky Nicolaides

Theme 1 – Commercial Identity, 1910 - 1980

Throughout much of the twentieth century, trends in the development of Latino-owned businesses in Los Angeles followed settlement patterns and trends in population growth. As populations in particular areas of the city increased, the demand for goods and services also increased, and entrepreneurial Latinos established businesses to meet the rising demand. Businesses ranged from small to large, though most were small and family-owned. Some served basic needs, while others provided entertainment. Typical businesses included bakeries, tortillerias (tortilla factories), barbershops, billiard halls, pharmacies, movie houses, restaurants, dance halls, hotels, printing shops, funeral homes, money transfer agencies, and auto repair shops, 83 After World War II, there was a steady rise in Latino businesses as a result of increased access to capital and the G.I. Bill. During the 1960s and 1970s, some Latino businesses expanded by broadening their markets or diversifying their services.

The first Latino population boom in twentieth-century California occurred in the 1910s when emigration from Mexico increased amidst political unrest and poor economic conditions. Many immigrants from this period worked in agriculture or on railroads. Because the work in the fields and along the tracks was temporary, seasonal, and low paid, it did not lead to permanent residential settlement for workers in rural areas. In search of steady work and better pay, many immigrants relocated to urban centers, such as Los Angeles in the 1920s, joining Mexican Americans who had been living in the city for generations.84

There was a concentration of Latino-owned businesses on North Main Street during the 1920s. (Los Angeles Public Library)

Mexican immigrants tended to settle in Downtown, Boyle Heights, and Belvedere (outside the L.A. City limits). The Latino populations in these areas grew over time, and people began to establish homes and businesses. The businesses served the needs of the community and often engaged in trade with Mexico in order to offer goods not available in the general market place.85 A look at the businesses in the North Main Street district of Downtown at the time provides a good understanding of Latino commerce during the period. Music store Repertorio

⁸³ Geraldo L. Cadava, "Entrepreneurs from the Beginning: Latino Business and Commerce since the 16th Century," in American Latinos and the Making of the United States: A Theme Study, (Washington, D.C.: National Park Service, 2013), 220-221.

Musical Mexicana, founded by Mauricio Calderón around 1920, was the center of the Latino music trade in the city.⁸⁶ La Ciudad de Mexico, a department store, offered shoppers "everything from clothing to chile to milk to lunch boxes."⁸⁷ Further down the street, Farmacia Hidalgo offered medicine, traditional Mexican remedies, and other common drugstore sundries, like Mexican sodas and ice cream.⁸⁸

Latino-owned businesses on Olvera Street during the 1930s included import stores and Mexican restaurants. (Los Angeles Public Library)

Whether they offered basic goods, entertainment, or professional services, Latino businesses in the 1920s rarely engaged in commerce outside of the barrio.89 Rather, most were insular and reflected the racially and ethnically segregated nature of Los Angeles at the time. Many businesses were established along major corridors or at intersections within barrio limits, forming commercial districts, such as the one that developed along East 1st Street, immediately west of the Los Angeles River and east of the Plaza. 90 While several Latino businesses existed along North Main Street and in the Plaza area in the 1920s and 1930s, rents along the railroad tracks, which followed the path of the Los Angeles River, were cheaper which made it easier for entrepreneurs to start new businesses. The proprietors of these

businesses often lived nearby, making the railroad barrio the area with the greatest proportion of white-collar Latino workers in the city.⁹¹

Latino business stagnated during the Depression, along with the rest of the Los Angeles economy. Some survived, many did not, and repatriation undoubtedly had a negative effect. It was during this period of economic strife that Olvera Street was transformed into a Mexican marketplace oriented toward tourists. The transformation of Olvera Street began in 1926 when Christine Sterling learned of a plan to demolish the Avila Adobe, the oldest existing home in the city. Sterling quickly found that renovating the adobe would be only the first step in attracting tourists to the Plaza area. Lured to Los Angeles by promotional literature that idealized California's past, she imagined Olvera Street as a place to experience "the romance of old Mexico." With the support of Harry

Chandler, publisher of the Los Angeles Times, she managed to have the street paved and the buildings rehabilitated. Most, but not all, of the businesses were operated by Mexican Americans. Although Olvera Street blurred the line between history and mythology, it allowed some businesses to survive during an especially bleak period for Mexican Americans.⁹²

The G.I. Bill helped to usher in a new era of Latino business after World War II. It offered veterans increased access to education, small business loans, and home ownership outside of barrios. ⁹³ This increased access, along with steady population growth, resulted in a boom period for Latino businesses. ⁹⁴ Returning veterans, along with second and third generation immigrants, created more businesses in the postwar period than any previous generation. ⁹⁵ Rafael Vega, for instance, opened Casa Vega in 1956. He was inspired to open the Mexican restaurant by his parents who operated Café Caliente on Olvera Street. Other Latino businesses established in the 1950s include La Mascota Bakery in Boyle Heights.

As in the 1920s and 1930s, Latino businesses in the postwar period were mostly small and family-owned. The Latino population in Los Angeles continued to grow steadily, creating an increased customer base. Many new businesses continued the earlier trend of catering primarily to Latino customers. Pan American Bank, for example, was established in 1964 by Romana Acosta Bañuelos, who would later become the first Latina United States Treasurer in 1971. The bank's primary mission was to serve the "under-represented and under-served consumers and small businesses of East Los Angeles." Over time, the bank became a critical local business, providing loans and financial services and promoting economic growth in the area. 98

While most postwar entrepreneurs established their businesses to cater to Latino customers, some were able to expand into broader markets due to two important midtwentieth century phenomena. First, increasing numbers of Latinos were relocating from barrios to suburbs, and second, Latino goods, especially music and food, were becoming rapidly commoditized. A prime example of a Latino business from the postwar period that broadened its market and achieved great success was Sloan's Dry Cleaners & Laundry. The Latino heritage of Sloan's is largely unknown because the family surname is not Spanish. The company was founded by Edward and Vivian Sloan. Edward was born in Texas to a Canadian father and a Mexican American mother. Vivian was born in Arizona to Native American parents. Edward and Vivian moved to L.A. in 1935 and settled in Boyle Heights. Their first business was a shoe repair shop on

El Salvador Café was founded in 1950, making it one of the oldest Central American businesses in L.A. (www.goodcleanliving.com)

Whittier Boulevard near Euclid Avenue.¹⁰⁰ By 1940, the business had diversified into dry cleaning.¹⁰¹ Their son, Edward Jr. continues to operate the family business, which grew to multiple locations as far east as El Monte.

Beginning in the 1970s, L.A.'s Latino population diversified significantly with an increase in immigration from Central America, particularly El Salvador and Guatemala. Pico-Union in the Westlake district became an important hub of Central American commerce. Stores, bakeries, and restaurants were some of the earliest businesses. Examples include El Salvador Café, reportedly the first Salvadoran restaurant in Los Angeles, and Café Antigua Guatemala, a Guatemalan

bakery.¹⁰² Because the practice of sending remittances to relatives in home countries was an important aspect of Central American life, banks and wire transfer services became important community businesses. One such bank was Banco Agricola, a Salvadoran bank that established a Los Angeles branch on Vermont Avenue to facilitate transactions with El Salvador.¹⁰³

The following tables describe designated and known resources associated with the commercial development of the Latino community of Los Angeles. Eligibility Standards address a range of commercial property types.

Designated Resources

Resource Name	Location	Comments
Cielito Lindo	23 Olvera Street	This food stand has been serving Mexican food since 1934. Originally the food was cooked at the home of the owner and carried in bundles. The property is located in El Pueblo State Historic Park.

¹⁰⁰ Los Angeles City Directories, 1936 and 1938.

¹⁰¹ U.S. Census, 1940.

¹⁰² Rosamaría Segura, *Images of America: Central Americans in Los Angeles (Charleston, SC: Arcadia Publishing, 2009), 71.*

¹⁰³ Ibid, 76.

Resource Name	Location	Comments
El Paseo Inn	11 Olvera Street	El Paseo Inn restaurant was established in the 1930s and was originally located in another building on Olvera Street, W-23. In 1953, it moved to its current location at E-11, which had been occupied by Café Caliente. Original owners Mrs. Elena Pelufo and Mr. Frank Webb sold El Paseo Inn at E-11, to Andy M. Camacho. The property is located in El Pueblo State Historic Park.
La Golondrina Mexican Cafe	17 Olvera Street	La Golondrina opened as La Misión Café on South Spring Street in 1924. When the block was scheduled to be demolished for the construction of a new City Hall in 1928, the business moved to the Pelanconi House on Olvera Street. The property is located in El Pueblo State Historic Park.
La Luz del Dia	1 Olvera Street	La Luz del Dia evolved from a Mexican market with the same name that opened in 1915 at another location. The business has been at this location since 1959. The property is located in El Pueblo State Historic Park.

Known Resources

Resource Name	Location	Comments
Arturo's Fine Mexican Food	25720 S. Western Avenue	Opened in 1960, Arturo's is one of the oldest continuously operating restaurants in Harbor City. It has been a gathering place for the Latino community for more than fifty years.
Botica del Pueblo	2035 W. 7 th Street	This pharmacy has been serving the Latino community in Westlake since the late 1970s. Henry Albert Hernandez now runs the family business.

Resource Name	Location	Comments
Candela's Guitars	2724 E. Cesar Chavez Avenue	This guitar shop is one of the leading makers of handcrafted guitars for classical, flamenco, and mariachi music. One of their guitars is on display at the Smithsonian.
Casa Vega	13301 Ventura Boulevard	Opened in 1956, Casa Vega is the oldest Mexican restaurant in Sherman Oaks. The original owner, Rafael Vega was inspired to open the restaurant by his parents who operated Café Caliente on Olvera Street.
Casita del Campo	1920 Hyperion Avenue	Casita del Campo was established in 1963 by Rudy del Campo, a professional dancer best known for his role in the film version of Westside Story.
El Cholo	1121 S. Western Avenue The building at this location has been expanded and remodeled.	El Cholo is the oldest Mexican restaurant in L.A. It opened in 1923 as the Sonora Cafe on Broadway. The daughter of the owners opened another El Cholo on Western Avenue in 1927.
El Mercado de Los Angeles	3425 E. 1st Street	Built in 1968, El Mercado is a Mexican-style indoor marketplace that provides clothing, ingredients, and cultural items imported from Mexico that are difficult to find elsewhere. On the top level, mariachi groups provide music and folklore for diners and social gatherings.
El Piojito	2104 W. 7 th Street	This discount department store has been serving the Latino community in Westlake since the late 1970s.

Resource Name	Location	Comments
El Tepeyac Café	812 N. Evergreen Avenue	This restaurant has been an institution in Boyle Heights for over half a century. Originally called El Tupinamba Café, the restaurant was founded in 1942 in downtown Los Angeles. Then it moved to Lincoln Heights where it was called La Villa Café. The restaurant has been at this location since 1952.
Felipe Bagües Mortuary	4221 E. Cesar Chavez Avenue (East L.A. 1932- 2014) 1936 E. 1st Street (second location 1956-2014)	Bagües and Sons Mortuary opened in 1928 in an old burlap factory. Felipe and Lucy Bagües started the business, which catered to the Latino community. In 1932, the mortuary moved to Brooklyn Avenue. Manuel Bagües took over the family business, which closed in 2014.
King Taco	1118 Cypress Avenue	Founded in 1974, King Taco began its operation from a converted ice cream truck and now has twenty restaurants. The original and oldest location is in Cypress Park.
La Mascota Bakery	2715 E. Whittier Boulevard	This is the oldest Mexican bakery in Boyle Heights. Established in 1952, according to the owners, but the building was constructed in 1959.
La Cabaña	738 Rose Avenue	This is the oldest Mexican restaurant in Venice. The Haro family opened it in 1963.
Los Cinco Puntos	3300 E. Cesar Chavez Boulevard	This restaurant/meat market has been a Boyle Heights institution for over fifty years. Vincent and Connie Sotelo opened at this location in 1967.
La Favorita Bakery	2301 E. 4 th Street	Jorge Beltran and his father opened this bakery in 1971.
Sloan's Dry Cleaners & Laundry	3001 N. Main Street	Edward and Vivian Sloan incorporated this business in 1951. By 1956, they had stores all over Los Angeles.

Theme: Commercial Identity

Summary Statement of

Significance: A resource evaluated under this theme may be significant in the

areas of commerce, ethnic heritage, and/or social history for its association with the Latino community. Latino-owned businesses document the settlement patterns of different segments of the

population and were often popular meeting places.

Period of Significance: 1910 - 1980

Period of Significance

Justification: The period of significance begins in 1910, the earliest extant

examples of Latino-owned businesses date from the first decade of the twentieth century. 1980 is the end date for SurveyLA and

may be extended as part of future survey work.

Geographic Locations: Throughout Los Angeles, but with the highest concentration in the

areas between Westlake and Boyle Heights

Area(s) of Significance: Commerce, Ethnic Heritage, Social History

Criteria: NR: A CR: 1 Local: 1

Associated Property Types: Commercial – Retail Building, Restaurant, and Market

Property Type Description: Property types under this theme include a variety of commercial

businesses, such as restaurants, markets and retail stores.

Property Type Significance: Properties significant under this theme played an important role in

the commercial development of the Latino community in Los

Angeles.

Eligibility Standards:

- Is associated with a Latino business that made important contributions to commercial growth and development
- Was the founding location of, or the long-term location of, a Latino business significant in commercial history

Character-Defining/Associative Features:

 For National Register, properties associated with events that date from the last 50 years must possess exceptional importance

- Retains most of the essential character-defining features from the period of significance
- Was the founding location of a business significant in Latino commercial history
- Was the long-term location of a business significant in Latino commercial history
- May have particular significance for its association with a Latino neighborhood or community in Los Angeles
- May be associated with a business/corporation that has gained regional or national importance

Integrity Considerations:

- Should retain integrity of Location, Design, Feeling, Materials, and Association from the period of significance
- Integrity is based on the period during which the significant business occupied the property
- Setting may have changed

CASE SUMMARIES

Note: Information for case summaries is retrieved from the Planning Department's Plan Case Tracking System (PCTS) database.

Case Number: CPC-2008-3991-ZC
Required Action(s): ZC-ZONE CHANGE

Project Description(s): A ZONE CHANGE TO IMPOSE QUALIFIED CONDITIONS THAT WOULD PROHIBIT AND/ OR LIMIT VARIOUS AUTO REPAIR AND

AUTO RELATED LAND USES WITHIN THE CYPRESS PARK AND GLASSELL PARK CDO BOUNDARIES.

Case Number: CPC-2008-3125-CA

Required Action(s): CA-CODE AMENDMENT

Project Description(s): THE ADDITION OF A RIVER IMPROVEMENT OVERLAY (RIO) DISTRICT AS SECTION 13.12 OF THE L.A.M.C. IN RESPONSE TO

THE LOS ANGELES RIVER REVITALIZATION MASTER PLAN (LARRMP) THAT WAS ADOPTED IN MAY 2007. THIS

SUPPLEMENTAL USE DISTRICT WOULD ESTABLISH STANDARDS FOR NEW DEVELOPMENT ALONG WATERWAYS

Case Number: CPC-2007-3036-RIO

Required Action(s): RIO-RIVER IMPROVEMENT OVERLAY DISTRICT

Project Description(s): THE ESTABLISHMENT OF AN ORDINANCE THAT FACILITATES DEVELOPMENT WITHIN THE LA-RIO BOUNDARIES TO

ENHANCE THE WATERSHED, URBAN DESIGN AND MOBILITY OF THE AREA. THESE BOUNDARIES ARE ADJACENT TO, NOT

INSIDE, THE LOS ANGELES RIVER ON LAND ALREADY ZONED FOR DEVELOPMENT.

Case Number: CPC-2007-1262-CDO-ZC

Required Action(s): CDO-COMMUNITY DESIGN OVERLAY DISTRICT

ZC-ZONE CHANGE

Project Description(s): COMMUNITY DESIGN OVERLAY DISTRICT SUPPLEMENTAL USE DISTICT AND ZONE CHANGE

Case Number: CPC-2002-5872-CDO-ZC

Required Action(s): CDO-COMMUNITY DESIGN OVERLAY DISTRICT

ZC-ZONE CHANGE

Project Description(s): THE CYPRESS PARK-GLASSELL PARK CDO AND ASSOCIATED ZONE CHANGES ARE INTENDED TO ENHANCE THE

PHYSICAL APPEARANCE THROUGH DESIGN GUIDELINES AND STANDARDS AND PERMANENT [Q] QUALIFIED CONDITIONS.

Case Number: CPC-1989-22490
Required Action(s): Data Not Available

Project Description(s):

Case Number: CPC-1989-177
Required Action(s): Data Not Available

Project Description(s): CONTINUATION OF CPC-89-0177. SEE GENERAL COMMENTS FOR CONTINUATION.

Case Number: CPC-1986-826-GPC

Required Action(s): GPC-GENERAL PLAN/ZONING CONSISTENCY (AB283)

Project Description(s): GENERAL PLAN/ZONING CONSISTENCY - ZONE CHANGES - HEIGHT DISTRICT CHANGES AND PLAN AMENDMENTS -

VARIOUS LOCATIONS

Case Number: ENV-2013-3392-CE

Required Action(s): CE-CATEGORICAL EXEMPTION

Project Description(s): THE PROPOSED ORDINANCE MODIFIES SECTION 22.119 OF THE LOS ANGELES ADMINISTRATIVE CODE TO ALLOW

ORIGINAL ART MURALS ON LOTS DEVELOPED WITH ONLY ONE SINGLE-FAMILY RESIDENTIAL STRUCTURE AND THAT ARE

LOCATED WITHIN COUNCIL DISTRICTS 1, 9, AND 14.

Case Number: ENV-2008-3992-ND

Required Action(s): ND-NEGATIVE DECLARATION

Project Description(s): A ZONE CHANGE TO IMPOSE QUALIFIED CONDITIONS THAT WOULD PROHIBIT AND/ OR LIMIT VARIOUS AUTO REPAIR AND

AUTO RELATED LAND USES WITHIN THE CYPRESS PARK AND GLASSELL PARK CDO BOUNDARIES.

Case Number: ENV-2008-3103-CE

Required Action(s): CE-CATEGORICAL EXEMPTION

Project Description(s): THE ADDITION OF A RIVER IMPROVEMENT OVERLAY (RIO) DISTRICT AS SECTION 13.12 OF THE L.A.M.C. IN RESPONSE TO

THE LOS ANGELES RIVER REVITALIZATION MASTER PLAN (LARRMP) THAT WAS ADOPTED IN MAY 2007. THIS

SUPPLEMENTAL USE DISTRICT WOULD ESTABLISH STANDARDS FOR NEW DEVELOPMENT ALONG WATERWAYS

Case Number: ENV-2008-146-ND

Required Action(s): ND-NEGATIVE DECLARATION

Project Description(s): A NEGATIVE DECLARATION FOR A COMMUNITY DESIGN OVERLAY THAT APPLIES DESIGN GUIDELINES AND

DEVELOPMENT STANDARDS TO AN ESTABLISHED DISTRICT WITHIN THE CYPRESS PARK AND GLASSELL PARK

COMMUNITIES.

Case Number: ENV-2007-3037-ND

Required Action(s): ND-NEGATIVE DECLARATION

Project Description(s): THE ESTABLISHMENT OF AN ORDINANCE THAT FACILITATES DEVELOPMENT WITHIN THE LA-RIO BOUNDARIES TO

ENHANCE THE WATERSHED, URBAN DESIGN AND MOBILITY OF THE AREA. THESE BOUNDARIES ARE ADJACENT TO, NOT

INSIDE, THE LOS ANGELES RIVER ON LAND ALREADY ZONED FOR DEVELOPMENT.
