OVERVIEW

CEQA, or the California Environmental Quality Act, is a statute that requires state and local agencies to identify the significant environmental impacts of their actions and to avoid or mitigate those impacts, if feasible. CEQA requires public agencies to conduct environmental review before making a determination on a project. The environmental review process examines the potential impacts your project will have on the property and its surroundings, and makes recommendations (mitigation measures) on how to minimize or reduce those impacts that are found to be significant. The purpose of this application is to assist staff in determining the appropriate environmental clearance for your project. Please fill out this form completely. Missing, incomplete or inconsistent information will cause delays in the processing of your application.

The Class 32 "Urban Infill" Categorical Exemption (Section 15332 of the State CEQA Guidelines), is available for development within urbanized areas. This class is not intended to be applied to projects that would result in any significant traffic, noise, air quality, or water quality impacts.

□ Check this box if you are requesting a Class 32 Exemption, and:

- You have read DCP's Specialized Instructions for the Class 32 Categorical Exemption (CP-7828) and,
- ☐ You have submitted the written justifications identified in the Specialized Instructions, and any supporting documents and/or technical studies to support your position that the proposed Project is eligible for the Class 32 Exemption and the project does not fall under any of the Exceptions pursuant to CEQA Section 15300.2.

Note that requesting the Urban Infill CE does not guarantee that the request will be accepted. The City may require additional studies and information if necessary to process the CE. The City reserves all rights to determine the appropriate CEQA clearance, including using multiple clearances and requiring an EIR if necessary.

INSTRUCTIONS: Environmental Assessment Form

REQUIRED SUBMITTAL MATERIALS:

The following materials are required when submitting an Environmental Assessment Form (EAF); materials must be consistent with the application. All materials should reflect the entire Project, not just the area in need of a zone change, variance, or other entitlement.

The submittal materials are IN ADDITION TO those required for any case/application for which the Environmental Assessment Form is being filed.

<u>Exhibits Required</u>: Please note that based on the circumstances of a particular project proposal, in order to adequately analyze the environmental impacts of the project, assigned staff may require any of the following reports even if the project does not meet the indicated threshold.

- A. <u>Plot Plans and/or Subdivision Map and/or Haul Route Map</u>: One full size plot plan, subdivision map or haul route map and two 11" x 17" copes; material must show the location and layout of proposed development including dimensions. Include topographic lines where grade is over 10%; and the location and diameter of all existing trees with a trunk diameter greater than four inches on the project site and the adjacent public right-of-way.
- **B.** <u>Vicinity Maps:</u> Two copies (8½" x 11") showing an area larger than the Radius/Land Use Map and depicting nearby street system, public facilities and other significant physical features with project area highlighted (similar to road maps, Thomas Brothers Maps, etc.).
- C. <u>Color Pictures:</u> Two or more color pictures of the project site (taken within the last 30 days) showing existing improvements, walls, trees and other structures on the property. Black and white or gray scale copies of color photos are not acceptable; internet "street view" images are not acceptable.
- D. <u>Notice of Intent Fee:</u> An UNDATED check in the amount of \$75 made out to the Los Angeles County Clerk for the purpose of filing a Notice of Intent to Adopt a Negative Declaration as required by Section 15072 of the State CEQA Guidelines.
- E. <u>Payment Receipt</u>: Fees must be paid at the time of filing the Environmental Assessment per Article 9, Section 19.05 of the LAMC for the purpose of processing the initial study and for the publication of the Negative Declaration or Mitigated Negative Declaration; provide one copy of the payment receipt.
- F. <u>Associated Application</u>: A duplicate copy of the application for the associated entitlement (e.g. zone change, general plan amendment, variance, conditional use, subdivider's statement) including entitlement justification and/or findings, if available.
- G. <u>Project Planning Referral Form</u>: A copy of signed Project Planning Referral form (<u>CP-7812</u>) if the proposed project is located in a specific plan area, Community Design Overlay (CDO), Neighborhood Oriented District (NOD), Sign District (SN), Pedestrian Oriented District (POD), Community Plan Implementation Ordinance area and/or involves small lot subdivision or affordable housing (e.g. Density Bonus, Conditional Use >35% increase, Public Benefit) type of project.
- H. <u>Radius/Land Use Maps</u>: Two full size and two 8½" x 11" reduced size radius maps, if required for discretionary filing. Maps shall be prepared in compliance with DCP's *Radius Map Requirements & Guidelines* (form CP-7826); 300' radius line is okay for site plan review applications.

- I. <u>Elevation Plans</u>: One full size and two 11" x 17" size plans. See DCP's *Elevation Instructions* form (<u>CP-7817</u>) for technical requirements and a listing of types of cases where elevations are <u>always</u> required. Exterior elevations can be required by planning staff as needed to illustrate and communicate the details of any case. Elevation plans must always show legible height dimensions.
- J. <u>Floor Plans</u>: One full size and two 11" x 17 size. Floor plans should include patios, balconies and, if proposed for use, portions of the right-of-way. Floor plans are always required for hillside projects, CUB's (seats must be numbered), projects where the City Planning Commission (CPC) or the Area Planning Commission (APC) is the decision maker and other cases when the request involves the interior lay-out of a project. Refer to the Floor Plan Instructions (<u>CP-7751</u>) for detailed information about technical requirements.
- K. <u>Tree Report</u>: Two copies of a tree report if project involves removal, relocation, or replacement of any protected trees on the project site or in the right-of way adjacent to the site.
- L. <u>Geology/Soils Approval Letter</u>: A copy of letter from Department of Building and Safety <u>and</u> copy of referenced geotechnical report, if located in hillside area and only if new construction is proposed.
- **M.** <u>Haul Route Approval</u>: Projects within a Hillside Grading Area involving import/export of 1,000 cubic yards or more shall submit a soils and/or geotechnical report reviewed & approved by LADBS.
