Los Angeles Department of City Planning RECOMMENDATION REPORT

CULTURAL HERITAGE COMMISSION

HEARING DATE:	December 2, 2021			
TIME:	10:00 AM			
PLACE:	Teleconference (see			
	agenda for login			
	information)			

EXPIRATION DATE: The original 30-day expiration date of December 5, 2021, per Los Angeles Administrative Code Section 22.171.10(e)1 is tolled, and a revised date will be determined pursuant to *the Mayor's March 21*, 2020, Public Order Under City of Los Angeles Emergency Authority re: Tolling of Deadlines Prescribed in the Municipal Code and April 17, 2020, Public Order Under City of Los Angeles Emergency Authority re: Tolling HCIDLA Deadlines and Revising Expiration of Emergency Orders.

The time to act on this item has been tolled for the duration of the local emergency period.

Please note that other State law provisions may also apply.

PROJECT:	Historic-Cultural Monument Application for the PACIFIC DINING CAR
REQUEST:	Declare the property an Historic-Cultural Monument
OWNERS:	Wesley A. and Toby Idol II, Trustees Wesley II and Toby Idol Trust 1310 West 6 th Street Los Angeles, CA 90017
APPLICANT:	Douglas E. Vance Buchalter 18400 Von Karman Avenue, Suite 800 Irvine, CA 92612
PREPARERS:	Andrew Goodrich and Morgan Quirk Architectural Resources Group 360 East 2 nd Street, Suite 225 Los Angeles, CA 90012

CASE NO.: CHC-2021-9217-HCM ENV-2021-9218-CE

Location: 1300-1314 West 6th Street Council District: 1 – Cedillo Community Plan Area: Westlake Land Use Designation: Limited Commercial Zoning: CW Area Planning Commission: Central Neighborhood Council: Westlake South Legal Description: Orange Heights Tract, Lots 23-27

<u>RECOMMENDATION</u> That the Cultural Heritage Commission:

- 1. **Take the property under consideration** as an Historic-Cultural Monument per Los Angeles Administrative Code Chapter 9, Division 22, Article 1, Section 22.171.10 because the application and accompanying photo documentation suggest the submittal warrants further investigation.
- 2. **Adopt** the report findings.

Historic-Cultural Monument Application

SUMMARY

The Pacific Dining Car is a one- and two-story commercial building located on the southwestern corner of 6th Street and Witmer Street in the Westlake neighborhood of Los Angeles. The property consists of three connected volumes constructed at various dates between 1921 and 1950. The Pacific Dining Car restaurant operated continuously at the subject property from 1923 to 2020.

The Pacific Dining Car restaurant was established in 1921 at the corner of 7th Street and Westlake Street by Fred and Grace Cook in a building designed to resemble a railroad dining car. This extended to the interior, which included luggage racks among other characteristic features of railcars. The building was moved to its current location in 1923 and was expanded numerous times in the following decades with the construction of several additions and the incorporation of a neighboring commercial building. The Pacific Dining Car remained in continuous operation until 2020, and ownership of the restaurant and the subject property has remained in the Cook family since 1923. There were two additional locations of the Pacific Dining Car restaurant, in Santa Monica (closed in 2020) and Newport Beach (closed at an unknown date), which were also operated by the Cooks.

Irregular in plan, the subject property reads as three main volumes—central, west, and east. The central volume, oriented towards 6th Street, is the original 1921 restaurant building. It is one story in height and is of wood-frame construction with stucco cladding. This volume is capped by a jerkinhead roof clad in wood shingles with projecting eaves and wood fascia boards, and a flat roof clad in rolled asphalt. The southeast façade is asymmetrically composed and features a horizontal band of wood-framed fixed windows and the main entrance to the restaurant consisting of a partially glazed wood door with cross bracing, paneling, and a single sidelite set within a simple wood surround. The north-facing façade is symmetrical and has two multi-lite wood windows with stained glass transoms flanked by decorative wood shutters; turned wood posts connected by a wood railing that support a shed roof above the windows; and a porthole window within the gable end. Although most of the west-facing façade is not visible, at the north end there are two multi-lite wood windows with stained glass transoms set within a simple wood surround.

The west volume, appended to the west-facing façade of the 1921 building, was constructed in 1929 as a store building and was incorporated into the restaurant in 1964 by a small hyphen with a flat roof. It is one story in height and is of brick construction with a flat roof that has a parapet and is clad in rolled asphalt sheathing. The north-facing façade has a shed roof with clay tiles that is punctuated by two gabled dormers with decorative half-timbering. Though mostly unadorned, near the west end of this façade there is a single, solid door; there are no windows or other fenestration.

Appended to the east-facing façade of the 1921 building, the east volume was constructed in 1940 as a one-story addition and expanded in 1950 to include a second story. This two-story volume is of brick and wood-frame construction with textured stucco cladding. It is capped by a low-pitched hipped roof with asphalt sheathing and shallow eaves. The east-facing façade features an entrance accessed by a flight of stairs and a small stoop covered with a metal shed-roof that is supported by two slender steel posts. The entrance is a single, paneled wood door. Fenestration on this elevation consists of bands of wood windows on the first floor and multi-lite steel tripartite windows on the second floor. The north-facing elevation features boarded up wood windows on the first floor, and multi-lite steel casement windows on the upper floor. Brick pilasters divide the ground story of this façade into multiple bays. On the south-facing elevation there is an exterior staircase leading to a rear entrance on the second floor that is framed by a low stucco wall and covered by a pent roof with wood post supports.

The subject property also features rear additions to all three volumes, which are generally of wood-frame construction, are capped by flat and/or shed roofs with rolled asphalt sheathing and are clad in textured stucco. In addition, there is a wooden fence surrounding the perimeter, a signpost located near the corner of 6th Street and Witmer Street, and a small, wood-framed kiosk with a gabled roof and wood siding in the parking lot accessed from the east, via Witmer Street.

Over the years the subject property has experienced multiple alterations: the construction of a 25 square-foot restroom building, and a kitchen and storeroom addition in 1934; a dressing room building and a 60 square-foot screened addition in 1935; the construction of a refrigeration plant at the rear, the installation of cooling tower on the roof, and a sidewalk canopy in 1936; the addition of a cold storage unit in 1939; a 1,024 square-foot addition to expand the dining room and a barbecue pit in 1940, as well as the removal of the detached restroom building; a 1,280 square-foot basement addition in 1944; a brick dining room addition in 1945; the addition of a garbage room behind the refrigeration plant in 1946; a second-story above the 1940 addition in 1950; two-story kitchen addition connecting the restaurant and refrigeration plant in 1958; the demolition of the detached barbeque pit in 1961; the attachment of the adjacent 1929 store building to the restaurant in 1964; the infill of openings and change of doors in 1974; the addition of a new entrance vestibule on the north-facing façade of the 1921 building, a kitchen and storage addition, and an additional pole sign in 1977; and a rear kitchen addition in 1982. Furthermore, the backlit plastic sign reading "Pacific Dining Car" and accompanying two plastic cows were removed at an unknown date in 2020.

SurveyLA, the citywide historic resources survey, identified the subject property as individually eligible for local designation as the long-time home of a business significant to the Westlake community.

<u>CRITERIA</u>

The criterion is the Cultural Heritage Ordinance which defines a historical or cultural monument as any site (including significant trees or other plant life located thereon), building or structure of particular historic or cultural significance to the City of Los Angeles if it meets at least one of the following criteria:

- 1. Is identified with important events of national, state, or local history, or exemplifies significant contributions to the broad cultural, economic or social history of the nation, state, city or community;
- 2. Is associated with the lives of historic personages important to national, state, city, or local history; or
- 3. Embodies the distinctive characteristics of a style, type, period, or method of construction; or represents a notable work of a master designer, builder, or architect whose individual genius influenced his or her age.

FINDINGS

Based on the facts set forth in the summary and application, the Commission determines that the application is complete and that the property may be significant enough to warrant further investigation as a potential Historic-Cultural Monument.

BACKGROUND

On November 5, 2021, the Director of Planning determined that the application for the proposed designation of the subject property as Historic-Cultural Monument was complete. The original 30-day expiration date of December 5, 2021, per Los Angeles Administrative Code Section 22.171.10(e)1 is tolled, and a revised date will be determined pursuant to *the Mayor's March 21, 2020, Public Order Under City of Los Angeles Emergency Authority re: Tolling of Deadlines Prescribed in the Municipal Code and April 17, 2020, Public Order Under City of Los Angeles Emergency Authority re: Tolling HCIDLA Deadlines and Revising Expiration of Emergency Orders.* The time to act on this item has been tolled for the duration of the local emergency period. Please note that other State law provisions may also apply.

CITY OF LOS ANGELES Office of Historic Resources/Cultural Heritage Commission HISTORIC-CULTURAL MONUMENT NOMINATION FORM

1. PROPERTY IDENTIFICATION

Proposed Monument Name: Pacific Dining Car				Original historic name			
Other Associated Names: N/A							
Street Address: 1310 W. 6th Street				Zip: 90017 Co		uncil District: <u>1</u>	
Range of Addresses on Property: 1308-1312 W. 6th Street				Community Name: Westlake			
Assessor Parcel Number: 5143016010 Tract: Orange Heights			Block:			Lot: 25	
Identification cont'd:							
Proposed Monument Property Type:			ct C	Site/Open	Space	Natural Feature	
Describe any additional resources located on the property to be included in the nomination, here:							

2. CONSTRUCTION HISTORY & CURRENT STATUS

Year built: 1921 • Factual Estimated	Threatened? Select
Architect/Designer: None	Contractor:
Original Use: Restaurant	Present Use: Vacant
Is the Proposed Monument on its Original Site? • Yes	No (explain in section 7) Unknown (explain in section 7)

3. STYLE & MATERIALS

Architectural Style: Vernacular, Early 20th Century Commercial			Stories: 2	Plan Shape: Irregular	
FEATURE	PRIMARY	SECONDARY			
CONSTRUCTION	Type: Wood	Type: Brick			
CLADDING	Material: Brick	Material: Stucco, textured			
ROOF	Type: Flat	Type: Jerkinhead			
KOOF	Material: Rolled asphalt	Material: Wood shingle			
WINDOWS	Type: Fixed	Туре	: Casement		
WINDOWS	Material: Wood	Material: Steel			
ENTRY	Style: Off-center	Style: Hidden			
DOOR	Type: Paneled, glazed	Туре	: Slab

4. ALTERATION HISTORY

NOMINATION FORM

nd write a brief description of any major alterations or additions. This section may also be completed on a separate documer pies of permits in the nomination packet. Make sure to list any major alterations for which there are no permits, as well.
See attached.

5. EXISTING HISTORIC RESOURCE IDENTIFICATION (if known)

	Listed in the National Register of Historic Places			
	Listed in the California Register of Historical Resources			
	Formally determined eligible for the National and/or California Registers			
	Located in an Historic Preservation Overlay Zone (HPOZ)	Contributing feature Non-contributing feature		
	Determined eligible for national, state, or local landmark status by an historic resources survey(s)	^{Survey Name(s):} SurveyLA Westlake Community Plan Area		
Other historical or cultural resource designations:				

6. APPLICABLE HISTORIC-CULTURAL MONUMENT CRITERIA

The propose	The proposed monument exemplifies the following Cultural Heritage Ordinance Criteria (Section 22.171.7):					
~	1. Is identified with important events of national, state, or local history, or exemplifies significant contributions to the broad cultural, economic or social history of the nation, state, city or community.					
	2. Is associated with the lives of historic personages important to national, state, city, or local history.					
	3. Embodies the distinctive characteristics of a style, type, period, or method of construction; or represents a notable work of a master designer, builder, or architect whose individual genius influenced his or her age.					

CITY OF LOS ANGELES Office of Historic Resources/Cultural Heritage Commission HISTORIC-CULTURAL MONUMENT NOMINATION FORM

7. WRITTEN STATEMENTS

This section allows you to discuss at length the significance of the proposed monument and why it should be designated an Historic-Cultural Monument. Type your response on separate documents and attach them to this form.

A. Proposed Monument Description - Describe the proposed monument's physical characteristics and relationship to its surrounding environment. Expand on sections 2 and 3 with a more detailed description of the site. Expand on section 4 and discuss the construction/alteration history in detail if that is necessary to explain the proposed monument's current form. Identify and describe any character-defining elements, structures, interior spaces, or landscape features.

B. Statement of Significance - Address the proposed monument's historic, cultural, and/or architectural significance by discussing how it satisfies the HCM criteria you selected in Section 6. You must support your argument with substantial evidence and analysis. The Statement of Significance is your main argument for designation so it is important to substantiate any claims you make with supporting documentation and research.

8. CONTACT INFORMATION

Applicant

Name: Douglas E. Wance		Company:	Buchalter	
Street Address: 18400 Von Karman Avenue, Ste 800		City: Irvine		State: CA
Zip: 92612	Phone Number: (949) 224-6439		Email: dwance@buchalter.com	

Property Owner Is the owner in support		support of the nomination? Ves No OU				Unknown

9. SUBMITTAL

When you have completed preparing your nomination, compile all materials in the order specified below. Although the entire packet must not exceed 100 pages, you may send additional material on a CD or flash drive.

APPLICATION CHECKLIST

1.	✓	Nomination Form	5.	✓	Copies of Primary/Secondary Documentation
2.	✓	Written Statements A and B	6.	✓	Copies of Building Permits for Major Alterations (include first construction permits)
3.	✓	Bibliography	7.	✓	Additional, Contemporary Photos
4.	✓	Two Primary Photos of Exterior/Main Facade (8x10, the main photo of the proposed monument. Also email a digitial copy of the main photo to:	8.	✓	Historical Photos
		planning.ohr@lacity.org)	9.	✓	Zimas Parcel Report for all Nominated Parcels (including map)

10. RELEASE

 Please read each statement and check the corresponding boxes to indicate that you agree with the statement, then sign below in the provided space. Either the applicant or preparer may sign.

 I acknowledge that all documents submitted will become public records under the California Public Records Act, and understand that the documents will be made available upon request to members of the public for inspection and copying.

 I acknowledge that all photographs and images submitted as part of this application will become the property of the City of Los Angeles, and understand that permission is granted for use of the photographs and images by the City without any expectation of compensation.

 I acknowledge that I have the right to submit or have obtained the appropriate permission to submit all information contained in this application.

Pacific Dining Car (1310 W. 6th Street)

Historic-Cultural Monument Nomination Continuation Sheet

A. Property Description

Site

The Pacific Dining Car is a restaurant located at 1310 W. 6th Street, in the Westlake neighborhood of Los Angeles, just west of Downtown. This property is located along a heavily-trafficked vehicular corridor that is primarily developed with low- and mid-scale commercial properties. It is also located in proximity to Good Samaritan Hospital – a medical center located on the opposite (east) side of Witmer Street. As a result, there are also various medical buildings and parking facilities in the vicinity. Like most of the Westlake neighborhood, the prevailing pattern of development generally adheres to a skewed orthogonal grid.

Located at the southwest corner of 6th and Witmer Streets, the property occupies a prominent commercial site spanning two legal parcels. This site is flat, moderate in size, and rectangular in shape, and because of its corner location it has frontage on both 6th and Witmer Streets. The north and east lot lines are bounded by 6th and Witmer Streets, respectively; the south lot line abuts a multi-level parking structure serving the adjacent hospital; and the west lot line abuts a paved surface parking lot.

Exterior

The Pacific Dining Car consists of multiple building volumes that were constructed at different times but have since been amalgamated and expanded - in some cases, multiple times - resulting in the property's characteristically eclectic configuration and appearance. From the street, the restaurant currently reads as having three main building volumes (central, east, and west), described as follows.

Central Volume (Original Dining Car)

The central volume is oriented toward 6th Street and constitutes the original portion of the restaurant. It contains the main entrance, a reception area, and dining space. This volume was originally constructed in 1921 and relocated to its current location in 1923. It is one story tall and constructed of wood frame, sitting on a concrete foundation with a long, narrow rectangular plan that emulates that of a rail car. This volume is capped by a jerkinhead roof clad in wood shingles, and a flat roof clad in rolled asphalt. The pitched section of roof features projecting eaves and wood fascia boards with decorative details. Mechanical equipment is installed atop the flat section of roof. Exterior walls are clad in textured stucco.

The east facade, which faces Witmer Street, is asymmetrically composed. This facade contains the main entrance to the restaurant. The entrance is approached by a shallow concrete ramp with a steel

handrail. The entrance is boarded up, but based on recent photographs, it appears to consist of a single wood door with cross bracing, partial glazing, and a single narrow sidelight, all of which are set within a simple wood surround. Adjacent to the door, on the east façade, is fenestration that is also boarded up but appears to consist of a horizontal band of squared, fixed wood windows that emulate those found on rail cars. A wood picket fence spans the east façade, largely obscuring it from public view.

The north façade, which faces 6th Street, is symmetrical. It has additional fenestration, which is boarded up but appears to consist of two multi-light wood windows with stained glass transoms. These windows are set within a wood surround, and are flanked by wood shutters with latticed details. They are surmounted by a pent roof, which in turn is supported by two spindled wood posts with wood scrollwork. A latticed wood rail is installed between the posts. At the top of this façade, within the gable end, is a single fixed wood window with a round opening and simple surround. Wood scrollwork is affixed to the exterior wall adjacent to this window. Address numbers are also affixed to the north wall.

Most of the west façade abuts an adjacent building volume and is not visible. However, at the north end of this façade is a window opening that is boarded up but appears to consist of two multi-light wood windows with stained glass transoms, identical to those on the north façade. These windows are set in a simple wood surround. The south façade has been enveloped by later additions and is not visible.

West Volume

This volume is appended to the west façade of the central volume/original dining car. It was built as a store building in 1929 and was incorporated into the restaurant in 1964 to accommodate an expansion of the dining room. It now contains dining room space. This volume is one story tall, is constructed of brick, sits on a concrete foundation, and is square in plan. It is capped by a flat roof with rolled asphalt sheathing; however, the front (north) face of the building volume has a shed roof with clay tile cladding. The shed roof is punctuated by two gabled dormers with faux half timbering. The roof is spanned by parapets that obscure mechanical equipment. Exterior walls consist of painted brick and lack cladding.

The north façade, which faces 6th Street, is publicly visible. It is utilitarian in appearance and lacking in articulation. Near the west end of this façade is a single, solid door. There are no windows or other fenestration on this façade. A second solid door is located in a small hyphen connecting this building volume with the adjacent central (dining car) volume. The north façade is approached by a partial set of shallow concrete steps and steel handrail that responds to the grade of the site.

The west façade also has some public visibility. It consists of a solid brick wall with no doors, windows, or other features of note. The entire east façade abuts the main dining car and is not visible. The south façade directly abuts rear additions and is also not visible.

East Volume

This volume is appended to the east façade of the central volume/original dining car. It was built in 1940 as a one-story dining room addition, and expanded in 1950 to include a second-story addition that was used as a residence. This volume is two stories tall, is constructed of brick (ground story) and wood frame (upper story), sits on a concrete foundation, and is rectangular in plan. It is capped by a low-pitched hipped roof with rolled asphalt sheathing and shallow eaves. Mechanical equipment is installed atop the roof. Exterior walls consist of painted brick surfaces and lightly textured stucco cladding.

The east facade, which faces Witmer Street, has an entrance that is approached by concrete steps with steel handrails. The stairs led to a small stoop that is surmounted by a metal hood, which is turn is supported by two slender steel support posts. The entrance is boarded up, but appears to consist of a single, paneled wood door with a blind sidelight. Ground story fenestration is boarded up but appears to consist of bands of wood windows. Upper-story fenestration consists of multi-light steel casement windows. Fuse boxes, electrical panels, ducting, and conduit are affixed to the east-facing exterior wall.

The north façade, which faces Sixth Street, is similar in appearance to the east façade. It also features boarded up wood windows on the ground story, and multi-light steel casement windows on the upper story. Brick pilasters divide the ground story of this façade into multiple bays. A wood picket fence is installed across the north facade and some of the east facade, partially obscuring the ground story from public view.

The south façade has limited public visibility and is more utilitarian in appearance. Like the other building façades, this façade features boarded-up wood windows on the ground story and multi-light steel casement windows on the upper story. There is also an exterior staircase leading to an upperstory rear entrance. The staircase is framed by a low stucco wall and sheltered by a pent roof with wood post supports. Ducting and mechanical equipment is affixed to the south-facing exterior wall.

Additional Building Volumes

Over time, multiple additions have been appended to the rear (south) of the three aforementioned building volumes. These additions accommodate the restaurant's kitchen, storage facilities, refrigeration plant, and various other back-of-house spaces. These rear additions have limited public visibility and are utilitarian in appearance, with no architectural features of note. They are generally built of wood frame, are capped by flat and/or shed roofs with rolled asphalt sheathing, and are clad in textured stucco.

Site and Landscape Features

The property contains a surface parking lot that wraps around the east and south perimeters of the restaurant. The parking lot is accessed from the east, via Witmer Street. Located in the parking lot is a small, wood-framed kiosk with a gabled roof and wood lap siding. The kiosk has door and window

openings that have been infilled. Also located in the parking lot, adjacent to Sixth Street, is a metal signpost. The post once supported a backlit plastic sign that read "PACIFIC DINING CAR" and was accompanied by two plastic cows; the sign was removed subsequent to the restaurant's closure in 2020.

On-site landscaping is minimal. There are flagstone planters and planter boxes adjacent to the main entrance of the restaurant, which feature small shrubs and ornamental plantings. There are also four small flagstone planters along the street-facing (north) façade of the west volume, two of which feature Hollywood juniper trees. The north parkway space along 6th Street contains truncated ficus trees; the east parkway space along Witmer Street contains bottlebrush and Mexican fan palm trees.

Development Chronology & Alterations

The following development chronology includes major alterations that were noted during a site visit conducted by ARG on September 8, 2021. Whenever possible, these alterations were corroborated by building permits from the City of Los Angeles Department of Building and Safety, Sanborn Fire Insurance Maps, historic aerial imagery, property data from the Los Angeles County Office of the Assessor, and other sources of archival information.

Based on its current appearance and available building permits, the subject property has undergone substantial alterations since its construction in 1921, although all were made within the property's period of significance of 1921-2020. The original restaurant structure was relocated to its present site at 1310 W. 6th Street in 1923 and initially consisted of a single-story, custom-built restaurant train car, for which there are no available original construction permits. Subsequent additions made over a period of many decades, reflect the growth and expansion of the restaurant operation under the continued ownership of the Cook/Idol family for multiple generations. The physical Pacific Dining Car restaurant property at 1310 W. 6th Street was closed in the Fall of 2020.¹

1921	Original owners Fred and Grace Cook build a custom railcar to house the Pacific Dining Car restaurant on a leased lot at the corner of Westlake and 7 th Streets. ²
1923	The dining car is relocated to its current site at 1310 W. 6 th Street, near the corner of 6 th and Witmer Streets. ³
1930	Fred Cook is issued a permit to re-roof the one-story dining car with composition roofing; the lot is developed with only one building. ⁴
1934	Fred Cook hires engineer S.B. Barnes to design a kitchen and storeroom addition, with general remodeling also performed; the lot is developed with the restaurant structure and a separate 5' x 5' restroom building at the northeast corner of the parcel. ⁵
1935	A 6' x 10' "open screen end" is added to the existing restaurant building and a new dressing room building is erected; the lot is developed with three buildings (restaurant, restroom, and dressing room). ⁶

⁴ Los Angeles Department of Building and Safety, Permit no. 1930LA22549, September 19, 1930.

⁵ Los Angeles Department of Building and Safety, Permit no. 1934LA01007, January 23, 1934; 1950 Sanborn Fire Insurance Map.

⁶ Los Angeles Department of Building and Safety, Permit no. 1935LA02376, February 13, 1935.

1936	Permits are issued to Fred Cook for the construction of a refrigerator box at the rear of the lot, as well as the installation of an iron cooling tower on the roof.; a sidewalk canopy constructed proper to 1935 is recovered. ⁷
1939	An "open shed" cold storage addition is constructed; the lot is developed with the restaurant building, "steel" building (refrigeration plant), and restroom building. ⁸
1940	Grace M. Cook is issued a permit to erect a 32' x 32' dining room addition and barbeque room addition to the dining car; the detached restroom building at the northeast corner of the lot is presumably demolished or altered to become a new brick barbeque pit. ⁹
1944	A 32' x 40' basement addition is made to the existing 1940 restaurant addition. ¹⁰
1945	A new roof is installed on the "icehouse" and "cutting room," while a brick dining room addition is also constructed. ¹¹
1946	A garbage room addition is constructed at the rear of the existing refrigerator plant structure. ¹²
1950	A permit is issued to Grace Cook for the construction of a second story residence addition designed by architect Howard Elwell above the existing 1940 brick building addition on the east façade; other permits are issued to repair fire damage to the rear refrigerator plant; architect Howard Elwell is also hired to design an addition to the barbeque and dining areas as well as a new canopy; the lot is developed with the restaurant building (including the dining car, dining room, and residence addition), a detached refrigerator plant, and a detached barbeque pit. ¹³

⁷ Los Angeles Department of Building and Safety, Permit no. 1936LA25295, September 21, 1936; Permit no. 1936LA26294, September 28, 1936; Permit no. 1936LA25151, September 18, 1936. The 1936 permits state that only two buildings are extant on the lot, including the restaurant structure and refrigeration plant. However, aerial photography from 1940 and 1952 indicates that the third, detached building at the northeast corner is still extant at this time and was subsequently converted to the barbeque pit according to later permits.

B. Statement of Significance

Summary

The Pacific Dining Car at 1310 W. 6th Street meets the following criteria for designation as a Los Angeles Historic-Cultural Monument (HCM):

Criterion A: It is identified with important events of national, state, or local history, or exemplifies significant contributions to the broad cultural, economic or social history of the nation, state, city or community.

The Pacific Dining Car satisfies Criterion A as one of the oldest family-owned restaurants in Los Angeles, having been in continuous operation since 1921 in the Westlake neighborhood. As a long-standing social and cultural institution, the building is significant to the commercial identity of the Westlake neighborhood and Los Angeles as a whole. Modeled after a train car and originally situated adjacent to historic streetcar lines, the structure was constructed by Fred and Grace "Lovey" Cook in 1921 at the corner of Westlake and 7th Streets, before being relocated to its present site at 1310 W. 6th Street in 1923. The family continued to own and operate the restaurant over multiple generations, eventually managed by the Cooks' son-in-law, Wesley A. Idol, Sr., until his death in 1970. The Cooks' grandson, Wesley A. Idol, Jr., took over operations until its physical closure in 2020. During its almost century-long existence under the ownership of the Cook/Idol family, the Pacific Dining Car became known as "Los Angeles' oldest steakhouse" and was established as an iconic legacy business. Throughout the years, a diverse clientele sought comfort in the ornately decorated restaurant as a social and cultural destination, where they could relish in a fine dining experience and order from a menu that included recipes dating back to 1921, all while taking in the historic charm of an old train car in a familial atmosphere. While the restaurant building expanded substantially throughout its history, the numerous additions and alterations are emblematic of the business' overall growth and development from a small mom and pop restaurant to a revered Los Angeles establishment. The Pacific Dining Car became – and continued to be until its closure in 2020 – an invaluable cultural asset and an integral part of Angelenos' sense of cultural and commercial identity.

In 2014, the Pacific Dining Car was identified in the SurveyLA citywide historic resources inventory as individually eligible for listing as a Los Angeles Historic-Cultural Monument. The property was found significant under Criterion A as a long-time restaurant in the Westlake neighborhood that is significant for the commercial identity of Los Angeles.

Development of the Westlake Neighborhood¹⁹

The Pacific Dining Car at 1310 W. 6th Street is located on three contiguous lots originally subdivided as part of the 1887 Orange Heights Tract in the center portion of the Westlake Community Plan Area. Situated just west of the historic core of Downtown Los Angeles, the Westlake neighborhood contains some of the oldest residential and commercial development in the city. The area was first recorded in 1857 by United States Deputy Surveyor Henry Hancock. At the time, the vast majority of the land was unoccupied, and Hancock divided the landscape into square tracts, extending the orthogonal grid planning which had been imposed by earlier surveys and was originally dictated by the Laws of the Indies. As the land passed into private ownership, the City constructed streets along the boundary lines between the tracts, giving rise to such present-day thoroughfares as Rampart Boulevard and Alvarado Street.²⁰

As the population of Los Angeles grew, the land immediately to the west of Downtown became increasingly desirable for residential development. The first subdivision in the Westlake area was recorded in 1877 with the creation of the Fairmount Tract, which established 132 residential lots east of Union Street, between 9th Street and present-day Wilshire Boulevard. By the mid-1880s, a large portion of the area had been subdivided and entire neighborhoods were under construction throughout the area. Additional tracts were developed along the railway line, and middle- and upperclass residents quickly came to appreciate the area's proximity to the Downtown commercial core and the easy access provided by the railway.

George Rufus Shatto developed the residential avenue of Orange Street as part of the Orange Heights Tract. Shatto made his fortune in mining and purchased Santa Catalina Island in 1887. In 1890, he began construction of a massive Victorian residence at Orange Street and Lucas Avenue, which included a four-story tower from which Shatto could see Catalina. Eventually, Good Samaritan Hospital would replace all of the residences along this stretch of Orange Street and is currently situated across Witmer Street from the Pacific Dining Car.

As more people began to move to Westlake, residents and developers alike began to campaign for the improvement of the area which now comprises present-day MacArthur Park. Originally developed as Westlake Park, the land occupied a saddle-shaped depression between two ridges and had once been the site of a naturally occurring alkali lake, which was fed by runoff from the

See also "The Hancock Survey," http://eng.lacity.org/aboutus/city engineers hist/hancock.htm and David Rumsey's discussion of the Map of the City of Los Angeles, http://www.davidrumsey.com/maps5294.html.

highlands to the north.²¹ Eventually the area became a dumping ground for all sorts of garbage, including household trash and animal carcasses. In 1886, an ordinance was passed dedicating the land as public parkland, and extensive grading and improvements commenced. Albert Hardcastle was hired to design the landscape, and an artificial lake was created. In 1890 Westlake Park – named in reference to its location near the western limits of the city – opened to the public. Westlake Park quickly became a destination for both Angelenos and tourists alike, with lush tropical landscaping and amenities such as buggy paths, boating facilities, a seal pool, and a bandstand which hosted Sunday concerts. The City of Los Angeles changed the name of Westlake Park in 1942 in honor of General Douglas MacArthur. The development of additional parks throughout the 1880s and 1890s confirmed Westlake's reputation as an affluent and desirable neighborhood.

While Westlake's parks played a critical role in drawing Angelenos westward, transportation also played an important part in the development of the area. The introduction of electric streetcar lines in the 1880s and 1890s provided easy access to and from the Downtown commercial core and made the development of residential neighborhoods in outlying areas to the west possible. During this period, Westlake was crisscrossed by numerous streetcar lines on most of its major roadways. Streetcars along east-west corridors included Temple Street, Beverly Boulevard, 3rd Street, 6th Street, Olympic Boulevard, Pico Boulevard, and Venice Boulevard; north-south streetcar lines included Rampart Boulevard, Alvarado Street, and Glendale Boulevard.

In 1892 the discovery of oil deposits in Westlake marked a turning point in the development of the neighborhood. Edward Laurence Doheny identified the first oil deposits in the city near the base of Crown Hill and later drilled the first successful oil well in Los Angeles. Along with his business partner, Charles A. Canfield, Doheny established the Los Angeles City Oil Field, which stretched across Westlake and grew to include 80 wells in the first two years of operation. By 1898, The Los Angeles City Oil Field accounted for 65 percent of the oil production in California.²² By the end of the 19th century, the field was the largest producer in the world and would become the most influential in the history of California. Doheny and Canfield's success sparked the petroleum boom which helped fuel much of the early development of Los Angeles, and derricks sprang up throughout the surrounding residential neighborhoods.

The film industry also played an early role in the development of Westlake. In the 1910s, actor Hobart Bosworth established Occidental Studios at 201 N. Occidental Boulevard. The studio hosted such pioneering early filmmakers as Cecil B. DeMille and D. W. Griffith, and today the facility remains one of the oldest continuously operating studios in Los Angeles. By the turn of the twentieth century,

²¹ Information on the development of Westlake Park was drawn primarily from "Westlake (MacArthur) Park: How A Neighborhood Dump Became a Civic Treasure," http://www.kcet.org/updaily/socal focus/history/la-assubject/westlakemacarthur-park-how-a-neighborhood-dump-became-a-civic-treasure.html.

²² Stephen M. Testa, "The Los Angeles City Oil Field: California's First Oil Boom During the Revitalization Period (1875-1900)," http://www.aegsc.org/chapters/inlandempire/pdf/LOS%20ANGELES%20CITY%20OIL% 20FIELD.pdf.

prosperity from the fledgling movie industry as well as the oil industry attracted newly wealthy residents from the emerging service and creative industries.²³ As residents flocked to Westlake, the demand for housing necessitated greater density in residential development, and the Westlake area contains one of the largest concentrations of early twentieth century multi-family residential development in the city.

As residential development migrated westward in the early 1900s, the more established institutions also relocated to outlying areas. Development in the area began to shift from almost exclusively residential construction to include a more varied mix of religious, institutional, and commercial development. Commercial development, which until the turn of the century had been confined primarily to tourism-related commerce such as restaurants, stores, and ice cream parlors, began to increase in the early 1900s in response to the demands of the growing community. By the 1920s, commercial development in the neighborhood was concentrated primarily along 7th Street, which benefitted from its proximity to the Los Angeles Yellow Car lines, and along the area's other east-west corridors and accompanying streetcar lines.

Wherever streetcar stops brought heavy pedestrian traffic, enterprising Angelenos could set up stores and restaurants and prosper. Commercial activity along streetcar lines intensified as the suburbs built up, and clusters of stores and restaurants became semi-independent nodes where residents could obtain many of their day-to-day needs. No other establishment in the Westlake area more directly symbolized the emerging streetcar commercial development of the period than the Pacific Dining Car's railcar restaurant setting, originally located along 7th Street in 1921 and subsequently relocated to W. 6th Street two years later. By the mid-1920s, the automobile had taken primacy over streetcars as the dominant mode of transportation shaping the City, but through the 1930s thousands of Angelenos still relied on local and interurban streetcars to get around.²⁴

By the 1930s, the Westlake area was largely built out. The widening of Wilshire and Olympic Boulevards, completed in the 1930s and 1940s, shifted development on the two major thoroughfares from largely residential uses to more commercial construction. However, in the years following World War II, builders responded to the sudden postwar population boom by developing the remaining infill lots with budget apartment buildings, which were typically designed in the "dingbat" style. Postwar commercial development also shared the street with earlier commercial buildings. Adjacent segments of the Hollywood (101) Freeway and the Harbor (110) Freeway were also completed in the 1950s, allowing Angelenos to bypass Westlake in favor of communities further west.

By the late 1960s, the neighborhood suffered from an aging infrastructure, widespread neglect, and private disinvestment. Senior citizens and immigrant families, many of whom had been displaced from Bunker Hill during its redevelopment from a residential district to the corporate heart of Downtown, were attracted by the low cost of housing and began to settle in the area. In 1971, City planners began to consider Westlake for potential redevelopment as an emerging urban center. Over the next several years, attempts were made to alleviate the demand for better and more extensive housing facilities for seniors and low-income families by adopting provisions in the 1990 General Plan that encouraged greater density in residential parcels. Immigrant families continued to be drawn to the area due to the low cost of housing and the proximity to Downtown Los Angeles, and Westlake soon established itself as a multicultural neighborhood, an identity which became central to the character of Westlake throughout the 1970s and 1980s.

Commercial Identity, the Legacy Business, and "Third Places"

The Pacific Dining Car is significant as one the oldest and most enduring family-run restaurants in Los Angeles. While physical operations ended in 2020, the restaurant was in continuous operation under the Cook/Idol family from 1921 to 2020 and became one of the city's most iconic and beloved businesses. Commonly referred to as "Los Angeles' oldest steakhouse," Angelenos flocked to the historic restaurant at all hours over the course of almost a century. ²⁵ Sitting in worn leather booths under luggage racks, patrons could order charcoal broiled steaks aged in-house, make small talk with a member of the Cook family, enjoy an array of homemade dishes, or make a selection from a robust list of California wines—all while surrounded by an elegant setting with framed memorabilia, paneled walls, and an overall weathered charm.²⁶

In Los Angeles and elsewhere, well-established legacy businesses like the Pacific Dining Car take on important social qualities and often, over time, they organically mature into iconic and revered cultural institutions. Their endurance becomes ingrained into a community's collective memory and plays an integral role in defining a community's sense of cultural and commercial identity. Businesses such as these "have the power to bring people together, provide a sense of continuity with the past, and lend [cities] a rich and layered identity" that is rooted in aspects of their history.²⁷ Though the reasons belying their significance are typically rooted in tradition, culture, and other intangible qualities, these businesses are important because they build a very tangible bridge linking the present with the past.

The Pacific Dining Car's long-standing presence and historic charm placed the restaurant in a unique position of being both a well-known legacy business coveted by locals, while also establishing a far-

reaching reputation, serving as a popular tourist destination and icon of Los Angeles culture.²⁸ At the center of this juxtaposition was, no doubt, the Cook and Idol family. The family's multi-generational management of the historic restaurant effectively made it both a fine dining establishment and a verifiable mom and pop joint. Their enduring presence created a familial atmosphere that appealed to a diverse clientele from all backgrounds, jobs, and social statuses, seeking an unpretentious fine dining experience.²⁹ Eventually, the restaurant became one of the first in the city, apart from coffee shops, to serve breakfast, as well as lunch and dinner. It began increasing its hours of operation until becoming a full-service restaurant, open 24 hours a day, seven days a week. More than a steak house with white linen, the Pacific Dining Car served as a community gathering spot and hub of social capital and cohesion.

Eminent urban sociologist Ray Oldenburg studied these venerable establishments at length, paying particular attention to the impact that these establishments had on community and social capital. From his research he concluded that to be healthy, members of a society must strike a balance between three key social realms: home life (called the "first place"), the workplace (the "second space"), and an intrinsically sociable setting that he named the "third place."³⁰ Third places, as defined by Oldenburg, included environments such as churches, restaurants, clubs, libraries, parks, and bars. These third places play an important social function by providing a space where one can relax in public, encounter familiar faces, and make new acquaintances and cultivate new relationships.³¹ Oldenburg argues that these third places are not only desirable, but are essential to maintaining a civil society. They act as anchors of community life by facilitating friendly interaction and fostering a sense of belonging.

Drawing on Oldenburg's pioneering body of research, other sociologists subsequently set out to enumerate what defines a third place. Very generally speaking, third places tend to have a low profile and are notably absent of extravagance, or pretense. They are patronized by regulars who set the tone of the establishment and also help to recruit and induct newcomers. All patrons, irrespective of any socioeconomic qualifier, are treated as equals. This egalitarian setting was especially evident at the Pacific Dining Car—an ideal celebrity haunt, where movie stars and famous Angelenos could be "guaranteed a pleasant evening with no interruptions."³² Celebrity or not, patrons often experience the same feelings of warmth, possession, and belonging as they would in their own home or amid their own family and friends.³³ These third spaces are ones where people

can brush their stresses and concerns to the side "and simply enjoy the company and conversation around them."³⁴

As one of Los Angeles's most long-standing family-owned restaurants, the Pacific Dining Car exemplifies the concept of a "third place" as defined by Oldenburg and others. It withstood the test of time, and evinced a sense of continuity amid successive waves of development that have changed the character of the surrounding neighborhood. Business grew and, as a result, so did the restaurant's footprint. All the while, the Cook/Idol family was at the heart of the company, continuing to serve up aged steaks and homemade pies to patrons from all walks of life. Longtime customers knew, if it got too hot in the summer months, they could find the restaurant closed with a colloquial sign on the door that read: "Too Damn Hot in L.A. Gone fishing! Why in the Hell Don't You go Too!"³⁵ Treated as an extension of the family, diners were welcomed to gather and take part in cultivating the enduring legacy of the Pacific Dining Car.

The Pacific Dining Car

The Pacific Dining Car's rich history spans over the course of almost a century, becoming an important fixture in Los Angeles' commercial identity since its establishment in 1921 and to this day. It remained under the continuous ownership of an enterprising family committed to the ongoing success and growth of their multi-generational legacy business.

The novel restaurant dining car was the product of Fred and Grace "Lovey" Cook's creative efforts upon arriving in Los Angeles in 1921.³⁶ Born in New York City in 1891, Fred met and married native Virginian Grace M. Harris at a young age and soon, the couple gave birth to their only child, Virginia, in 1908.³⁷ Fred initially worked as a professional singer, at one time joining the Metropolitan Opera Company, until a vocal injury ended his budding career, and the family took advantage of opportunity on the West Coast.³⁸

While the couple had no prior experience owning or operating a restaurant, they brought with them an earlier experience of dining in an authentic train car remodeled as a restaurant while still living in New York. Immediately after settling in Los Angeles, they decided to build a custom train car of their own, using an acquaintance's backyard and the help of another friend to construct the one-story, wood frame structure with steel wheels. They found an undeveloped lot for lease at the corner of 7th and Westlake Streets and wheeled the train car to the site where they began serving food to local

³⁵ Evelyn de Wolfe, "Dining Car Lore Cherished," *Los Angeles Times*, March 15, 1987.

³⁶ Throughout the company's history and in related primary sources (including obituaries, city directories, and census data), there is a common discrepancy with regards to the spelling of the family's last name, shown as both "Cook" and "Cooke." For the purposes of this nomination and to remain consistent, the spelling is written as the more commonly found "Cook." ³⁷ 1930 & 1940 United States Federal Census.

³⁸ "Frederick Cooke[sic]," Los Angeles Times, February 21, 1948.

customers.³⁹ Grace created and executed the restaurant's first menu of hearty homemade soups, steaks in a special sauce, and fresh baked pies. Serving patrons seven days a week and nine months out of the year, the Pacific Dining Car quickly grew in popularity throughout the neighborhood.

During the early 1920s, the Westlake neighborhood was increasingly sought after for the development of middle to upper-class residences, thanks in part to a burgeoning film industry and nearby discovery of oil. In addition to residential neighborhoods, small commercial districts were cropping up along streetcar lines, including those running along 7th and 6th Streets. Land speculators quickly grabbed the Cook's leased lot at 7th and Westlake and, in 1923, the couple was forced to move the train car to another nearby lot at the corner of 6th and Witmer, where it remains to this day. Lots were developed intermittently around the newly arrived dining car, with a Perley's Standard Oil Station nearby that facilitated a steady stream of lunchtime patrons. By 1925, Fred L. Cook, restauranteur, was listed for the first time in the Los Angeles City Directory at 1310 W. 6th Street.⁴⁰

In 1926, the Pacific Dining Car's legacy almost came to an early close. A classified advertisement was published in the *Los Angeles Times* for the sale of the train car and restaurant operations. It stated the café dining car had been under the same ownership for four years and was in a good location and "could be moved anywhere cheaply."⁴¹ Less than a year later, a second advertisement was published for the sale of the "dining car, counter, and tables" with a two-meal service and one kitchen—the advertisement further stated that, despite good business, the owners wished to retire.⁴² Even with these multiple attempts, the dining car was never sold and operations continued under Fred and Grace Cook. Perhaps the key turning point occurred in 1927, when Fred Cook met a rancher from San Diego who showed him how to pick the best kind of beef and how to age it properly.⁴³ Soon the Cook's honed in on their newfound expertise and began aging their own prime cuts of steak before throwing them onto the charbroiled grill, further solidifying the restaurant's reputation as a quality steakhouse with some of the best meats.

The Cook family weathered out the Depression years with the help of their daughter, Virginia, and son-in-law, Wesley A. Idol, who both began working in the restaurant in 1930.⁴⁴ The family continued to engrain themselves in the community, extending their generosity to whoever needed it by welcoming hungry individuals who couldn't afford a meal to dine with them for free after closing.⁴⁵

The surrounding area and much of Los Angeles also experienced change as the electric street cars were replaced with more bus services, eventually becoming obsolete into World War II. The restaurant's iconic train car would begin to resemble the physical remnants of a bygone era.

By 1934, the family had amassed a large enough clientele to embark on the first of many expansions, with a new kitchen, storeroom addition, and bar room known as the "Club Car" to celebrate the end of Prohibition.⁴⁶ With business back to normal, the family decided to open a second restaurant venture, Cook's Steakhouse, in 1935. Located at 645 S. Olive Street in downtown Los Angeles, the new restaurant seized an opportunity to cater to the upscale business clientele found in the city's Downtown financial and retail districts. Operations were overseen by Wesley A. Idol, while Fred and Grace continued to manage the Pacific Dining Car, adding a refrigerator plant to the W. 6th Street location to house even more aged meats.⁴⁷ Around this time, the Pacific Dining Car also became one of the first restaurants in the city, apart from coffee shops, to begin offering breakfast on their menu. Now with three meals served, the restaurant was a fixture for locals looking for good food and conversation at any point in the day.⁴⁸

A second period of significant expansion occurred in 1940, when the Cooks constructed a large dining room and barbeque addition along the eastern half of the train car structure. By this time, the restaurant was considered a cultural destination with regulars comprising local tradesmen, stockbrokers, journalists, hustlers, lawyers, city officials, and even the likes of more famous Angelenos. Regulars included columnist and screenwriter, Louella Parsons; film actor and dancer, George Raft; sports columnist, Sid Ziff; famed gangster, Mickey Cohen; and film actress, Mae West.⁴⁹ Advertisements and classifieds for the Pacific Dining Car from this period confirmed the restaurant's well-earned standing in the community as "Los Angeles' oldest steak house" made famous for the "world's best steaks to the discriminating."⁵⁰

During World War II, Wesley Idol left the restaurant to serve as a mess officer for the Army and Virginia began taking their young son, Wesley A. Idol, II, to the restaurant—introducing a third generation of the Cook/Idol family to the restaurant enterprise. To help business survive, a barbecue stand was added to the corner of the lot to support takeout options, and chicken became a main staple of the menu during the war rationing years. Towards the end of the War, several additions were made to accommodate more dining areas. The high cost of beef appeared to persist even after the War, with the Cook family putting out announcements in the local papers that "regardless of

rising prices in the meat industry, we will still, as always, maintain our high grade quality of food and service."⁵¹

In early 1948, Fred Cook passed away at the age of 50 years old, leaving sole ownership of the restaurant to his wife, Grace.⁵² While Wesley Idol continued to manage Cook's Steakhouse, Grace oversaw operations at the newly expanded Pacific Dining Car location. In 1950, she hired architect Howard Elwell to construct a second story addition over the 1940 dining room to serve as her new residence. For the next ten years, she would carry on with work at the restaurant, continuing to make "Lovey's famous pies," until her retirement in 1960 after almost forty years at the Pacific Dining Car.⁵³

In 1960, Virginia and Wesley Idol became the second generation of family owners and operators of the Pacific Dining Car, while their son, Wesley A. Idol II, joined as an official member of the restaurant's management.⁵⁴ With Grace's retirement, Virginia and Wesley Idol also became owners of Cook's Steakhouse in downtown Los Angeles. During this time, Wesley Idol, Sr. became known as a prominent restauranteur throughout Los Angeles, seen as a charismatic and gregarious proprietor. One 1964 *Los Angeles Times* profile described a "novel scheme" which entailed Idol's offer to buy patrons a meal or a cocktail by handing them blank checks.⁵⁵ The Idol couple also gained local fame for consistently outbidding competition for blue ribbon steers held up for auction at the annual Great Western Livestock show—another opportunity to market the family's successful steakhouses in the papers.⁵⁶

By 1964, the restaurant was continuing to evolve from the homegrown mom and pop setting of the 1920s into a respected and sought-after fine dining establishment. Wesley A. Idol, II, took off to Europe where he spent time learning about high quality wines. As a result, the Pacific Dining Car developed a robust list of imported and domestic wines offered to patrons looking to elevate their dining experience.⁵⁷ That same year, the senior Wesley Idol purchased an adjacent lot developed with a 1929 store building at 1312 W. 6th Street. He hired engineers Mackintosh & Mackintosh to help attach the existing store building to the dining car structure and convert the space into an additional dining area. Patrons could now select from an array of different dining rooms, unified by

⁵⁴ Art Ryon, "A Reporter Who Drinks? Never!," *Los Angeles Times*, June 20, 1960; In 1960, Grace Cook was listed in the Los Angeles Street Address Directory at 1310 W. 6th Street, with a separate line for the Pacific Dining Car attributed to the same address. By 1963, her grandson Wesley A. Idol, II was shown at 1310 W. 6th Street. It is unclear if this denoted a change in management only, or if Grace Cook moved out of the apartment and her grandson took up residence in her place.

⁵⁵ "Blank Checks for Diners," Los Angeles Times, March 21, 1965.

⁵⁷ "Our History," Pacific Dining Car Restaurant, https://pacificdiningcar.com/presskit/PDCSince1921-OurHistory.pdf (accessed September 2021).

the "forest greens and polished brass; burnished wood and tasseled window dressings, even stowage above some of the tables to mimic the true train compartment experience."⁵⁸ The additions, although plentiful, embodied the same historic theme and atmosphere throughout, while also creating an amalgamation of spaces fit for any number of late night meetups, early morning breakfasts, and the daily lunch rushes. By 1967, Grace Cook was able to witness the full extent of her own success in the growth of her family's restaurant over a lifetime and until her passing that year at the age of 90 years old.⁵⁹

In February 1970, Wesley Idol Sr. and his son, Wesley A. Idol II, entered into a joint partnership to open a second location called the Pacific Dining Car Newport at 501 30th Street in Newport Beach.⁶⁰ However, in July of the same year, the family lost another key figure when Wesley Idol, Sr. passed away at the age of 64 years old.⁶¹ It is unclear how long the Newport location was in operation. However, five years after the death of his father, Wesley A. Idol, II, purchased the remaining restaurants—both the Pacific Dining Car and Cook's Steakhouse—from his mother, Virginia. At the Pacific Dining Car, he carried out numerous alterations including hiring architect Robert Hanley to design a new entrance vestibule on the north façade of the original train car. By the late 1970s, Wesley A. Idol, II, had commissioned additional interior remodels and added seafood and lamb to the strictly a la carte menu, which continued to feature the restaurant's signature prime Eastern corn-fed beef aged in-house.

In 1981, the Pacific Dining Car's kitchen officially opened for twenty-four hours—making the familyowned restaurant one of the only establishments in the city offering fine dining around the clock.⁶² Only one other addition was made to the kitchen in 1982, leaving the restaurant in its final iteration. By 1990, Wesley A. Idol, II opened a third location in Santa Monica, also open twenty-four hours and featuring the same train car décor inspired by the original location's historic elegance.

The restaurant at 1310 W. 6th Street, as well as its Santa Monica counterpart, continued to operate under the third generation of the Cook/Idol family until they permanently shut the doors in 2020 as a result of widespread pandemic restaurant closures. For almost one hundred years, the Pacific Dining Car survived a changing social, economic, and physical landscape to persevere as an enduring cultural institution and long-standing legacy business. With its humble beginnings in a simple custom-built train car on leased land, the full impact of the restaurant's growth and overall significance is difficult to capture. The evolution of the property at 1310 W. 6th Street came to embody a community-centered establishment that was both colloquial and elegant in its cultural and physical execution— always sure to make patrons feel like part of the same family that started it all. Despite almost one

hundred years' worth of change, the Pacific Dining Car never lost the intangible cultural heritage that makes it an important asset to the city's commercial identity.

Period of Significance

The period of significance for the Pacific Dining Car is defined as 1921 to 2020, reflecting the date of the construction of the original dining car structure and the period that encapsulates the restaurant's continuous operation as the Pacific Dining Car restaurant under the sustained ownership and management of the Cook/Idol family. This period ends with 2020, the last year the restaurant was in physical operation at its location at 1310 W. 6th Street.

Character-Defining Features

- Minimal setback from the street
- Eclectic composition and appearance, composed of multiple building volumes and anchored by a long, narrow volume that emulates a rail car
- Variety of roof forms including jerkinhead, flat, and shed
- Variety of roof cladding materials including wood shingles, clay tile, and rolled asphalt
- Roof features include gables, dormers with faux half timbering, parapets, projecting eaves, and wood fascia boards with decorative details
- Variety of wall cladding materials, mostly textured stucco and painted brick
- Primary entrance set perpendicular to the street, facing east
- Single wood entrance door with cross bracing, partial glazing, and a sidelight
- Multi-light wood windows with stained glass transoms and latticed wood shutters
- Rounded wood window in the gable end (north façade)
- Spindled wood post supports and latticed wood rail between posts (north façade)
- Decorative wood scrollwork affixed to some exterior walls
- Flagstone planters and accent walls
- Metal signpost

Integrity

Integrity is the ability of a property to convey its significance, and is defined by the National Park Service (NPS) as the "authenticity of a property's historic identity, evidenced by the survival of physical characteristics that existed during the property's prehistoric or historic period."⁶³ NPS identifies seven aspects of integrity: location, design, setting, materials, workmanship, feeling, and association.

The Pacific Dining Car has experienced numerous alterations since its original construction in 1921, and subsequent relocation in 1923. The alterations reflect the business' expanding restaurant enterprise throughout its history, including dining room expansions; the installation of a refrigerator plant and kitchen wings; and the construction of a second story residence for the Cook/Idol family. Almost all alterations and additions occurred within the period of significance and were made at the behest of the Cook/Idol family; therefore, these changes over time continue to reflect the property's significance. The building retains all aspects of integrity.

• **Location** is the place where the historic property was constructed or the place where the historic event occurred.

The Pacific Dining Car was originally located at the corner of 7th Street and Westlake Avenue in 1921 and was relocated to its current location, less than one mile from its original location, in 1923. Both locations are in the same Westlake neighborhood and historically had the same urban character, adjacent to streetcar lines. The original 1921 structure remains on the current property, located at 1310 W. 6th Street, where it has sat for almost 100 years. Its relocation from a leased lot to a property ultimately purchased by the Cook family is a significant part of its history. The building thus retains integrity of location.

• **Design** is the combination of elements that create the form, plan, space, structure, and style of a property.

The building has undergone numerous expansions since its original construction in 1921. While the 1921 train car structure remains at the site, subsequent additions altered the building's overall massing, façades, and configuration over time, reflective of the restaurant's success and expansion. However, the additions to the building were all constructed within the property's period of significance and are characteristic of the restaurant, as it became known for its amalgamation of dining room areas and other notable programmatic features, such as the walk-in refrigerator plant where the restaurant's signature meats were aged in-

⁶³ U.S. Department of the Interior, National Register Bulletin 16A: How to Complete the National Register Registration Form (Washington D.C.: National Park Service, 1997), 4.

house. The current form, plan, space, and structure of the restaurant – while notably different than its original (1921) appearance – are reflective of changes made under original ownership as the restaurant grew and adapted over time. As a result, the building retains integrity of design.

• **Setting** is the physical environment of a historic property.

The building is located on W. 6th Street, which was a low-scale streetcar commercial corridor in 1923. Since the 1920s, the area surrounding 1310 W. 6th Street was developed with a mixture of small commercial businesses along 6th Street and single-family residences to the north and south. Over time, development in the area has become much larger, denser, and evocative of contemporary modes of architecture. Postwar development brought an influx of multi-family housing and large institutional buildings in the immediate vicinity, including the expansion of the Good Samaritan Hospital to the east of the subject property and the construction of the Rampart Police Station to the north of the subject property. Residences to the south of the subject property were also razed to accommodate a multi-story parking structure. Originally a complement to the area's prevailing development patterns and aesthetic character, the restaurant building, over time, has become somewhat anomalous as the context of the immediate area has changed and evolved. However, these setting changes have all occurred within the restaurant's period of significance, and in many ways its nostalgic character reminiscent of a bygone era was part of what made it unique in its context. Therefore, this aspect of integrity remains intact.

• Materials are the physical elements that were combined or deposited during a particular period of time and in a particular pattern or configuration to form a historic property.

The building has experienced numerous exterior alterations and expansions since its original construction in 1921. However, all materials date to its period of significance of 1921 to 2020, and reflect changes made to the restaurant over time as it expanded and evolved under the same family ownership. Therefore, its integrity of materials remains intact.

• Workmanship is the physical evidence of the crafts of a particular culture or people during any given period in history or prehistory.

Because the property's design and materials are reflective of multiple periods of development that all reflect its significance as a restaurant in operation for almost 100 years under the same family ownership, its workmanship also provides evidence of the multiple periods of history when the restaurant was originally established, grew, and expanded over the entire span of its history. Therefore, its integrity of workmanship remains evident.

 Feeling is a property's expression of the aesthetic or historic sense of a particular period of time.

As noted above, the property retains its essential character-defining features and appearance from its 1921-2020 period of significance. The period of significance is largely defined by the restaurant's expansion as an iconic Los Angeles dining establishment through its numerous additions and alterations over the span of almost a century. The building has been unchanged since the restaurant's closure in 2020, except for the removal of a pole sign and the temporary boarding up of doors and windows. It continues to retain the historic sense of its historical period, and therefore its integrity of feeling is intact.

• Association is the direct link between an important historic event or person and a historic property.

The building was continuously used as a restaurant, from its construction in 1921 until its closure in 2020. Despite the additions that were appended to the building over time as it grew and expanded, it is nonetheless recognizable as an iconic and long-lived family-run business known as "Los Angeles' oldest steakhouse" due to its long-standing and uninterrupted operation as the Pacific Dining Car restaurant at the 1310 W. 6th Street location. The character of the historic restaurant is reflected in its original dining car structure, still in place, and further expressed throughout its later additions. While its 1921 inception was directly linked with that period of development in the city, its further expansion reflected the extraordinary success of the restaurant and mirrored the growth of the city and its commercial landscape over the span of nearly a century. Therefore, it retains integrity of association.

Department of Building & Safety Earthquake Safety Division 200 North Spring Street Los Angeles, CA 90012

Attention: Mr. Jim Moore Sr. Structural Engineering Associate

Subject: Pacific Dining Car Restaurant Revision to New Seating Expansion Los Angeles, California

Dear Mr. Moore:

Due to the deteriorated condition of Mr. Osborn's health, he will not

be able to complete the revision to the new seating expansion at the Pacific Dining Car Restaurant.

It is therefore requested that this work be turned over to an Engineer of Mr. Wes Idol's choosing. We will be glad to cooperate in any way possible, and will furnish him with any drawings, calculations, specifications or correspondence he deems necessary in order to complete the work.

Very truly yours,

LEWIS K. OSBORN & ASSOCIATES

UNC 8 Lewis K. Osborn Mrs.

Misc. Permit	(1)	90.00

PERMIT EXPIRATION/REFUNDS : This permit expires two years after the date of the permit issuance. This permit will also expire if no construction work is performed for a continuous period of 180 days (Sec. 98.0602 LAMC). Claims for refund of fees paid must be filed within one year from the date of expiration for permits granted by LADBS (Sec. 22.12 & 22.13 LAMC). The permittee may be entitled to reimbursement of permit fees if the Department fails to conduct an inpection within 60 days of receiving a request for final inspection (HS 17951).

12. LICENSED CONTRACTOR'S DECLARATION

I hereby affirm under penalty of perjury that I am licensed under the provisions of Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, and my license is in full force and effect. The following applies to B contractors only: I understand the limitations of Section 7057 of the Business and Professional Code related to my ability to take prime contracts or subcontracts involving specialty trades.

License Class: C36

License No.: **218270**

Contractor: **RED LILLY PLUMBING INC**

13. WORKERS' COMPENSATION DECLARATION

I hereby affirm, under penalty of perjury, one of the following declarations:

I have and will maintain a certificate of consent to self insure for workers' compensation, as provided for by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued.

I have and will maintain workers' compensation insurance, as required by Section 3700 of the Labor Code, for the performance of the work for which this permit is issued. My workers' compensation insurance (\mathbf{X}) carrier and policy number are:

Carrier: STATE COMP. INS. FUND

Policy Number: 9166909

I certify that in the performance of the work for which this permit is issued, I shall not employ any person in any manner so as to become subject to the workers' compensation laws of California, and agree that if I should become subject to the workers' compensation provisions of Section 3700 of the Labor Code, I shall forthwith comply with those provisions.

WARNING: FAILURE TO SECURE WORKERS' COMPENSATION COVERAGE IS UNLAWFUL, AND SHALL SUBJECT AN EMPLOYER TO CRIMINAL PENALTIES AND CIVIL FINES UP TO ONE HUNDRED THOUSAND DOLLARS (\$100,000), IN ADDITION TO THE COST OF COMPENSATION, DAMAGES AS PROVIDED FOR IN SECTION 3706 OF THE LABOR CODE, INTEREST, AND ATTORNEY'S FEES.

14. ASBESTOS REMOVAL DECLARATION / LEAD HAZARD WARNING

I certify that notification of asbestos removal is either not applicable or has been submitted to the AQMD or EPA as per section 19827.5 of the Health and Safety Code. Information is available at Lead safe construction practices are required when doing repairs that disturb paint in pre-1978 buildings due to the presence of lead www.aqmd.gov (909) 396-2336 and the notification form at per section 6716 and 6717 of the Labor Code. Information is available at Health Services for LA County at (800) 524-5323 or the State of California at (800) 597-5323 or www.dhs.ca.gov/childlead

15. CONSTRUCTION LENDING AGENCY DECLARATION

I hereby affirm under penalty of perjury that there is a construction lending agency for the performance of the work for which this permit is issued (Sec. 3097, Civil Code).

Lender's Name (If Any):

Lender's Address:

16. FINAL DECLARATION

I certify that I have read this application INCLUDING THE ABOVE DECLARATIONS and state that the above information INCLUDING THE ABOVE DECLARATIONS is correct. I agree to comply with all city and county ordinances and state laws relating to building construction, and hereby authorize representatives of this city to enter upon the above-mentioned property for inspection purposes. I realize that this permit is an application for inspection and that it does not approve or authorize the work specified herein, and it does not auhorize or permit any violation or failure to comply with any applicable law. Furthermore, neither the City of Los Angeles nor any board, department officer, or employee thereof, make any warranty, nor shall be responsible for the performance or results of any work described herein, nor the condition of the property nor the soil upon which such work is performed. I further affirm under penalty of perjury, that the proposed work will not destroy or unreasonably interfere with any access or utility easement belonging to others and located on my property, but in the event such work does destroy or unreasonably interfere with such easement, a substitute easement(s) satisfactory to the holder(s) of the easement will be provided (Sec. 91.0106.4.3.4 LAMC).

By signing below, I certify that:

- (1) I accept all the declarations above namely the Licensed Contractor's Declaration, Workers' Compensation Declaration, Asbestos Removal Declaration / Lead Hazard Warning, Construction Lending Agency Declaration, and Final Declaration; and
- This permit is being obtained with the consent of the legal owner of the property.

SUPPLEMENTAL NOTES:	

IMPORTANT NOTICE

* Prior to the start of any construction work adjacent to any public way, pedestrian protection shall be provided (Sec. 91.3303 L.A.M.C.).

* Inspection(s) may be requested anytime via the internet or touch tone phone. To request an inspection via the internet, go to www.ladbs.org and click on "Request an Inspection" under Online Services. To request an inspection via touch tone phone, call toll free (888) LA4BUILD (888-524-2845) and select option 1 for Automated Request System. To request an inspection via the Customer Call Center, call 3-1-1 within the City of Los Angeles or (213) 473-3231 outside the City of Los Angeles between 7:00 a.m. and 10:00 p.m. When requesting an inspection, the following are required: (1)The job address, (2)Type of inspection, (3)Use of building, (4)Permit number, (5)Phone number of a contact person should the department need to reach someone.

- * Inspection requests received before 4:00 p.m. Monday through Friday (excluding holidays) will normally be made the next business day. Requests received after 4:00 p.m. will be made following the next business day. The Automated Inspection Call Back System (AICBS) will attempt to telephone the contact phone number to confirm the Inspection.
- * Permit fees provide for a limited number of inspections. A reinspection fee may be assessed when the work for which an inspection was requested is not complete, when the inspection record or plans are not available, or when there is failure to provide site access to department staff.
- No person shall perform any construction or repair work between the hours of 9:00 p.m. (6:00 p.m. grading) and 7:00 a.m. the following day which results in loud noises to the disturbance of persons occupying sleeping quarters in any dwelling , hotel, motel, apartment, or other place of residence (Sec. 41.40 L.A. M.C.).
- * No person, other than an individual homeowner engaged in the repair or construction of his/her single-family dwelling, shall perform any construction or repair work of any kind upon any building or structure located on land developed with residential buildings or perform work within 500 feet of land so occupied, before 8:00 a.m. or after 6:00 p.m. on any Saturday or at any time on Sunday (Sec. 41.40 L.A.M.C.).
- * Dust control measures to prevent dust from being blown or deposited over or upon any private property in any residential area must be implemented during any excavation or earth-moving phase of construction, sand blasting, or demolition.
- * A separate permit from the State of California Division of Industrial Safety is required prior to starting certain work involving substantial risk to workers such as: construction or demolition exceeding 3 stories or 36 feet in height, or excavations or trenches over 5 feet in depth involving entry by workers.
- Building permits are valid for two years or expire on the 180th day from the date of issuance if the work permitted has not commenced. The department
 reserves the right to expire any permit where work has been suspended for a period of 180 days or more.

* Inspection services will not be provided when there is an unleashed dog on the premises.

Frederick Cooke

Funeral services for Frederick Cooke, 50, who died Monday at his home, 669 S. Union Ave., were conducted yesterday in the Church of the Recessional, Forest Lawn Memorial-Park. Mr. Cooke was a professional singer and at one time sang with the Metropolitan Opera Company, He had been a resident of Los Angeles since 1921. He leaves his widow Grace and a daughter, Mrs. Virginia Idol of Los Angeles. Interment at Forest Lawn followed services. Ruppe Mortuary had charge of arrangements.

A Columnist Talks to Himself

Portrait of a Columnist Talking to Himself: Look, it's late at night, see? And I've got to get this thing in. And, the mail, while voluminous (Voice Offstage: "Lissen at 'im brag!"), has not been, shall we say, productive?

My wife has a TV dinner in the oven. I'm going to make some oyster stew for myself later. The stupid dog has his wet nose in my lap. And that's the situation.

Far be it from me to come up with any out-andout plugs (Voice from the Wings: "Ha!"), BUT when The Times Charities staged its first Grand Prix for Sports Cars at the Riverside Raceway a few years ago, it was a miserably hot day and everybody was dying of thirst. So? So, the Sparkletts people suddenly showed upcompletely unannounced, believe me-with a truck of bottled water. I'm not sure this unsolicited gesture didn't save a few lives because, boy, was it hot that day!

BY ART RYON

Well, as you undoubtedly know, we have another Grand Prix upcoming at Riverside this weekend and good ol' Sparkletts is going to be there with five trucks of water.

Of course, our promotion dept. asked me to mention this. They know that, unless under pressure, I'd never mention ugh!—water.

See you on the north turn . . .

*

Darndest party of the week was the Necktie Party at the Kings Arms Restaurant, Toluca Lake, Nobody got hanged. (But a lot of them got looped. And, oh, Ryon, you're clickin' tonight!) The ties came from the London Shops and were beautiful and I still don't understand it. I just gave the tab to the necks guy . . . Small somber social note: One of my favorite young girls, Linda Groves (and I was practically there when she was born), today marries Gordon Greenlee. What a wonderful gal! . . . Neil

Morgan, the Herb Caen of San Diego (and he may hate me for that), is busting around town getting stuff for a feature series for his paper . . . I went out to the Pacific Diner on W 6th St. the other night to see Wes Idol, who runs Cook's Steak House downtown. He's just taken over the Diner, LA's oldest steak house, from his mother-in-law, Lovey Cook. All this is only to preface a report that, outside of the Vernon stock houses, I never saw so much meat in my life. Hanging in the Diner's walk-in refrigeration room, all waiting to be aged seven weeks, is about \$40,-000 worth of meat. If you don't believe me, go look. (The Voice: "What're you beefing about, Ryon?") ... Hey, I don't know anyone connected with it, but there's a new travel agency opening here called Magic Carpet Travel, Inc. Kind of nice, huh? Magic Carpet Travel . . , bring your own dreams . . .

RSVP.

CHRISTY FOX

Autumn Getting in Swing

tumn activities are whipping into full swing!

What started out to be a relatively small breakfast Tuesday has mushroomed to huge proportions. Connie (Mrs. George) Hepburn, as chairman of the gathering sponsored by the Republican Finance Committee, first reserved a room at the California Club . . .

Since then it has outgrown not only the club but has moved twice to bigger quarters at the Biltmore! The final word: Tuesday, 8:30 a.m., the Biltmore. The speaker: Sen. Goldwater (R-Ariz.), who is campaigning for Nixon.

Once again Davy (Capt. Alan) Davenport chairmans the Armed Forces Day at Pacific Southwest Tennis tourney. It's set for Wednesday with Army, Navy, Marine Corps and Coast Guard officers, enlisted men and their ladies as honored guests. Should be quite a turnout of summer khaki and whites . . .

Looking forward to Oct. 1 and the Autumn Cotillion when we join Vicky and Tubby (Lionel, of course) and Helen and Jack Mann League and admissions for an evening of fun. Al- vice president, respectiveways starts the fall season ly, they'll install the 26th in a gay and informal way. chapter of the National As-Lots of long-time friends sistance League ... and good dancers, too. This year it's to be at the B.Hilton . . .

Jehanne and Gallatin Powers' annual midnight supper party at their Friendship Hill house on Martin St. The party is after the opening night of the Jazz Festival ...

Note from Junior League president Dodie (Mrs. Fulton) Haight with an invitation to the Oct. 19 fashionbrunch. Hurray - it's a brunch again. See you at 10 a.m. in Bullock's-Wilshire tearoom. What a list of patronesses. Quality and guantity!

Special Note: I'll bet Virginia and Wes Idol will be pleased to know how many people called to say "The Sixth St. diner ???" It's the "Fifth Street Diner," of course. We've just been munching steaks there for so long I'd almost forgotten the formal name was Cook's Pacific Dining Car. Anyway, good luck Virginia and Wes on your newest venture!

Milestone: When Sally (Mrs. Horace) Martin and Betty (Mrs. H. James) Kirby skyhop to Roswell, N.M., Sept. 27, it will be a special occasion. As president of the National Assistance

*

Hang on tight-the au- Monterey brings news of Pauley as chairman of sponsors, the UCLA Medical Center's Dodgers-Giants ball game Sept. 26 is off to a good start. Understand they have buses for "take me out to the ball game" fans that evening. Check with Mrs. Stafford Warren, who is in charge of tickets

> Around About: Up to Mrs. Virgil Davidson's Parklabrea Towers apartment the other a.m. (and a hot, hot, one!) to see Don Marshall's newest little coif hats. And it was worth it. Casting a professional eye: Charles LeMaire and Lou Bernhard, whose gowns and furs make news, too. Nice to see Nancy (Mrs. Gilbert) Morgan, a long-time friend . . .

D. M. Farmer, Miss Raabe Wed

Miss Nancy Jean Raabe, daughter of Mr. and Mrs. Everett J. Raabe, became the bride of Donald Marshall Farmer, son of Mr. and Mrs. George M. Farmer of Reseda, in Rosewood Methodist Church.

After the reception in the garden of the Raabe home. the newlyweds left on a honeymoon in Santa Barbara.

Spurcks Celebrate

Mr. and Mrs. J. Selby Spurck of North Hollywood observed their 42nd wed-Baseball Benefit: With ding anniversary in Don the Mrs. Norman Chandler and Beachcomber with Mr. and Mrs. Randolph Hearst as Mrs. Warren G. Knieriem Invitation postmarked honorary chairmen, and Ed as hosts.

A Reporter Who Drinks? Never!

The Chamber of Commerce is distributing to key newsmen all over the country bulging folders ("press kits") containing information intended to help them cover the Democratic convention here next month — maps of the city, of the freeways, hotel and restaurant guides, etc.

One booklet, supplied by the Pacific Telephone Co., is titled "Phone Numbers for Press, Radio and Television." And, under Associations, it thoughtfully lists Alcoholics Anonymous.

One of the best stories of the month comes from Mrs. Mary Ryskind, wife of the Pulitzer prize-winning author of "Of Thee I Sing."

It seems that, at midnight, the plumbing in a doctor's home went haywire. The kitchen was flooded; the basement looked like an indoor swimming pool. The doctor called his plumber, explained the situation, and shrieked: "Please! Rush right over and do something!"

On the other end of the line, the plumber yawned and advised, "Oh, just give it a couple aspirin and I'll be around in the morning."

BY ART RYON

Los Angeles' oldest steak house is changing hands.

After running it for 42 years, Mrs. Grace (Lovey) Cook has sold the Pacific Diner, at W 6th St. and Whitmore, to her daughter's husband. Wes Idol, proprietor (with his wife, Virginia) of Cook's Steak House on Olive St. downtown. It's all pretty complicated-in a family sort of way. Furthermore, when he first came to Los Angeles years ago. Wes Idol was a cook (not a Cook) at the Pacific Diner. Anyway, Wes and Virginia are taking over the Diner. But, Lovey is going to stick around as hostess and, you can bet, look after things.

*

Inasmuch as Friday was the last day of school, it reminded Mrs. Marian Mong Neil of North Hollywood of her last day at Ohio University in 1957. She'd been working as receptionist in her dormitory. On the last day, she yielded to an impulse she'd had all year and answered the telephone with, "Good afternoon, Biddle Hall. Who in the hall do you want?"

The Arthur Murray people, without a lot of horntooting about it, are doing a great job for mental health. There's a troupe of them-most of them dance studio managers-who go around to mental hospitals, including Pacific Colony, the one for kids at Spadra, and not only put on a show, but also dance with the patients. Just recently, the Los Angeles County Assn. for Mental Health honored the Murray organization as the "No. 1 contributor" to the MHA in this area. I just thought you ought to know . . .

Lettered on the marquee of the North Hollywood Bowling Center: "Closed - Freeway Got Us" . . . And I don't know whether the flagman on Riverside Dr., adjacent to work on the Glendale and Golden State Freeways, is a hepcat or not. All I know is that his sign reads "Go-Go" . . . Literary Note: Melvin Belli, the personal injury attorney, has written another book, "Belli Looks at Life and Law in Japan" - with a foreword by Errol Flynn!

End Construction Zone.

Los Angeles Times, February 21, 1962

Los Angeles Times, December 11, 1965

A Blue Ribbon With Every Steak

Once again, Wes Idol, boss of Cook's Steak House on Olive St. and the Pacific Dining Car at 6th and Witmer Sts., was one of the big bidders in the auction that climaxed the Great Western Livestock Show. He bought the 4-H Club and the Future Farmers of America blue ribbon steers. Buy a steak from one of them in either of Wes' restaurants and you'll get a blue ribbon pinned to it.

Blank Checks for Diners

Only restaurateur I know who passes out blank checks is Wes Idol (pictured), owner of Cook's Steak House on Olive St. and The Pacific Diner at 6th and Witmer Sts. Wes has these checks, see?

And if he wants to buy someone lunch, dinner or a session at the bar, he simply makes the check in their name and leaves the amount blank. The novel scheme, however, is primarily for the benefit and convenience of his customers. (Incidentally, he has about 6,000 charge accounts on his books). Any of them, if

unable to accompany a friend to lunch, dinner or a Martini, can just fill out one of those checks for the friend and the bill will be charged to his account. Pretty nifty, eh? And, oh, at The Pacific Diner, they have a wonderful chili sauce made "from the ground up" on the premises that is great with their steaks, but—believe it or not—also delicious on the jackets of the baked potatoes.

Plenty of Bread

Recently we printed the plea of Jack Porter, a homesick New Yorker, who was searching for hot breads, specifically popovers, like the ones he enjoyed in Long Island. We haven't found any popovers for him, but Norma Case of Playa del Rey suggests some restaurants that serve freshly baked miniature loaves. "Charlie Brown's in Playa del Rey has a San Francisco sour dough; Santa Inez Inn on Sunset serves homemade white, the Hungry Tiger South on Sepulveda, a sesame seed loaf and La Fittes' on La Cienega, a good sour dough French." Happy sampling, Mr. Porter.

Highly Tooted Steaks

Every now and then it's fun to visit a place that's been around awhile so I popped into the Pacific Dining Car, 1310 W. 6th, for lunch the other day. The squib at the top of the menu says "Los An-

geles' Oldest Steak House ... since 1921." It was then that somebody got the idea of turning a railroad car into a restaurant and it has been chugging along

ever since, adding dining rooms along with customers. I sat at the counter where I could watch my steak sandwich (\$1.70) being cooked, but there are window tables, too, and paneled walls that lend a weathered charm. The quality of the steak lived up to the price. Tender, large. It was served with toast, great cole slaw and a chili sauce that's different. More elaborate sandwiches (Prime-Rib with salad is \$3.10), salads, cold plates and complete

luncheons are listed. Service starts at 11 a.m. weekdays, late afternoon on weekends.

Place Really Jumps

It sounds an age away from Mark Twain and his jumping frog contests, but Paul Simqu has come up with some rich diggings in the Mother Lode Country in Calaveras County . . . the Hotel Leger, Mokelumne Hill on Highway 49 at Highway 8 . . . "Entrees range from baked ham at \$1.50 to filet at \$5. Meals are complete with soup, salad, dessert and excellent vegetables from the area. Since going there last February, I've personally enjoyed the bouillabaisse, curried lamb, shrimp gumbo, German torte, chocolate mousse, a marvelous sole done in egg batter, and a surprise served on Monday, which is Washerwoman Special Night. Wines from nearby vineyards are excellent. Great area for a family vacation."

Mexican Food, Ole!

For devotees of Mexican food, a travel note from Morgan Gates: "We had a wonderful experience the other evening. Adjoining the Colony Kitchen on the west edge of Corona (just off the Riverside Freeway) is a small new Mexican restaurant called Comida The Pacific Dining Car, oldest steak house in the city (1921), has added a bright new room. This abandons the casual atmosphere of the old Dining Car with its counter, steaks cooked at one end of the room and small tables along the side. It is smart and modern

with good lights, polished woods, done discreetly in reds and blacks. The Dining Car has maintained a firm place in the esteem of the city, large-

ly because of the three generation devotion to fine meats, begun by Grace and Fred Cook. Mrs. Cook, who did not retire until she was 85, perfected the secret recipe for steak sauce and also the cheese cakes, which are still made at home by her daughter, Mrs. Wesley Idol. Wesley Idol now runs the business with Wesley Idol Jr. and his wife, Penny. The Idols select only Eastern choice or prime beef and age it in their own coolers, one of the few restaurants in town able to do this. The steaks are served on an a la carte menu from \$4.75 to \$11.75. Special steak sandwiches with soup or salad from \$3.75. The junior Idols have spent the last several years tasting and selecting wines for their new wine list-a project I find both commendable and exciting.

Mrs. Grace H. Cooke Rites to Be Thursday

Funeral services for Mrs. Grace H. Cooke, 90, longtime restaurant owner, are scheduled Thursday at 2:30 p.m. in All Saints Episcopal Church, Beverly Hills. She died Tuesday.

L.A. Presbytery Elects Moderator

The Rev. Ward Bjerke of the East San Diego Presbyterian Church Tuesday was elected moderator of the Los Angeles Presbytery.

He succeeds the Rev. Richard Irving of the North Long Beach Community Church.

Some 500 ministers and laymen representing 205 churches in Los Angeles, Orange and San Diego counties participated in the voting at La Canada Presbyterian Church. In 1921 Mrs. Cooke and her late husband Fred established the Pacific Dining Car at 6th and Witmer Sts. which became a favorite steakhouse for many celebrities in show business and sports.

She managed the business after her husband's death in 1948 until she was in her 80s, handing over the management eventually to a grandson.

Survivors include a daughter, Mrs. Wesley A. Idol, two grandchildren and four great grandchildren.

Interment is scheduled in Forest Lawn Memorial-Park, Glendale.

Los Angeles Times, February 8, 1970

New Restaurants

The Wesley Idols of Cook's Steak House, and the Pacific Dining Car have opened the Pacific Dining Car Newport in the former Karam's restaurant. They are retaining some items from Karam's but in general it will be Dining Car policies and charcoal broiled steak. 501 30th St., Newport Beach. *

Wesley Idol was well known in the city as an important link in the three-generation fami-

ly dynasty that owns Cook's Steak House and the Pacific Dining Cars in Los Angeles and Newport Beach. Three generations are rare in Los Angeles

restaurants, or anywhere. The continuum is established, I think, only where there is a point of pride. Wesley Idol was rightfully proud of the quality of his beef, which he selected and aged himself in special storage rooms. He had the traditional charm of the innkeeper and will be missed. Wesley Idol Jr. continues in management.

Wesley Idol; Restaurateur

Funeral services for Wesley Ashburn Idol, 64, owner of two of the city's oldest steakhouses, will be held at 2:30 p.m. Thursday at All Saints Episcopal Church, Beverly Hills. Interment will follow at Forest Lawn Memorial-Park, Hollywood Hills.

Mr. Idol collapsed while playing golf Monday and died at UCLA Medical Center.

In 1930 he joined his mother in operating the Pacific Dining Car, a restaurant opened in 1921 at 1310 W. 6th St. In 1935, Mr. Idol started another restaurant, Cook's Steakhouse, at 645 S. Olive St. He leaves his wife, Virginia; a son, Wesley A. Idol II; four grandchildren, six sisters and five brothers.

LOOKING FOR GOOD FOOD? TRY DOWNTOWN, NOT OUT OF TOWN BY GEORGE CHRISTY

Certainly there is no more pleasant way to get to know a city than to traverse its main arteries and sidestreets in search of good grub. Besides. it's a nourishing feast. Anyone with a teasing palate should know these old and new favorites in and around the downtown community. This is not to say that every dining room is perfect in every way. Some are better than others, several are amusing, one or two are nostalgic trips, and a couple are worth going to just for a specialty.

New dining rooms such as Francois in the Atlantic Richfield Towers, and Hugo's V in the Hyatt Regency are difficult to Judge at this time. Francois recently changed its staff, and the Hyatt Regency is brandnew and hasn't "settled" yet. Chinatown, regrettably, is a no-no-too touristy and without a real pull for the Chinese food buff. I like the food at the following places practically all of the time (remember, there can be off nights), and the service is generally good.

vice is generally good. NIKOLA'S has been around since the '30s, when Papa Nikola Rasic and his wife Eva immigrated from Yugoslavia and began serving their delicious soups and oldworld dishes to downtowners. Papa and Eva Rasic still cook, while their sons, Walt, Nick and Pete, run "the front." I recommend their grilled abalone steak (\$2.95 at luncheon, \$4.50 at dinner)-it's served with a mixed green salad or bowl of soup du jour at lunch; or with both soup and salad each evening. The abalone is breaded, then sauteed: it has a milky-sweet succulence-and is never tough as abalone often can be. On Wednesday nights, the special dinner of spareribs or ham with kale (\$2.95) is a good bet. Before the ballgames, Nikola's is a great hangout—and there is free bus service to all the Trojan home games. And, always, there's a spirited crowd at the friendly bar with its bright collage of local company logos (drinks are generous and a bargain).

Nikola's is at 1449 W. Sunset Blvd. Telephone: 628-8005. Lunch and dinner daily; closed Sunday.

PACIFIC DINING CAR dates back to 1921 when the late Grace Cook baked out-ofthis-world pies and prepared quality steaks for her regulars. Today, the dining car has expanded, and is managed by Wesley Idol, Mrs. Cook's grandson. There are several dining rooms besides the original diner where one may enjoy steaks that are without peer. Prime Eastern corn-fed beef is aged in the Pacific Dining Car's cooler (ask to see the aging cooler). Prices at dinner range from \$8.25 for the prime special Dining Car steak

Los Angeles Times, November 18, 1973 (2 of 2)

to \$10.95 for the prime Tbone — which weighs more than a pound and a half.

May I suggest an order of French-fried zucchini with your steak (it comes with a baked potato). Tiny large slices are dipped in flour and milk and lightly deep-fried; they're the best I've encountered in Southern California! There are homemade daily soups, and a nice variety of everyday specials (same prices at luncheon and dinner) such as chili and beans served with a hamburger patty (Tuesdays, \$3.25); barbecued prime rib bones (Wednesdays, \$3.25); beef stroganoff made with prime filet mignon (Thursdays, \$4.65); Yankee pot roast of prime beef (Fridays, \$4.55), leg of lamb (Sundays, \$4.65).

Bar drinks and cocktails are exceptional. The bar scotch is Chivas Regal, bar gin is Beefeaters, bar bourbon is Jack. Daniels Black Label, bar vodka is Smirnoff.

Another plus is the wine list, with its staggeringly complete cellar of California wines.

Pacific Dining Car is at 1310 W. 6th St. Telephone: 483-6000. Open weekdays for lunch, nightly for dinner. LE ST. GERMAIN is a pleasant 10-minute drive from downtown, and what a proud addition it is to our dining-out scene. Paul Bruggemans and Camille Bardet opened Le St. Germain nearly three years ago, and in its short history it has become world famous.

There are three small dining rooms, and each is enchanting. Apricot velour walls, other-era tapestries, armsful of fresh flowers on every table. In a word, Le St. Germain has style in decor and in cuisine.

Whether you order the pheasant pate for a starter, the leeks with bay shrimp, or the mushroom salad (the best in the city) with the fabulous wine-vinegar dressing, your tastebuds will be rewarded. And the main courses are invariably superb. Chicken provencal. Fresh Columbia River salmon with an inspired sorrel sauce. Veal kidneys flambeed with Madeira wine and finished with fresh cream and mustard. Poached Idaho trout with a burgundy sauce. Contrefilet with a Bearnaise sauce. An aromatic bouillabaisse on Thursdays and Fridays. Chef Claude prepares what I consider to be among

the finest French food in the country.

The service is lively and personal. The waiters are knowledgeable and make excellent suggestions.

House wines are reasonable, and Dean the bartender has quite a following. A brick patio is new, and delightful for outdoor lunches on warm days. Everything is a la carte, with main courses ranging from \$3.50 to \$4.75 at luncheon, \$6.75 to \$9 at dinner.

Le St. Germain is at 5955 Melrose Ave. Telephone: 467-1108. Dinner nightly. Lunch weekdays. Closed Sunday.

EL CHOLOserves Tex-Mex fare and be forewarned that reservations are not taken here. You will have to wait your turn with an eclectic crowd before being seated in one of the five dining rooms, one with a fireplace. The margaritas are good, and the complete lunch or dinner sinfully cheap. On a chilly day or evening order the albondigas (meatball) or vegetable soup, and the chili relleno with the refried beans and Mexican rice (served piping hot-all for \$2.10 which includes coffee, tea or a glass of beer).

El Cholo is at 1121 S. Western Ave. Telephone: 734-2773. Open daily from 11 a.m. to 10 p.m. LANGER'S DELICATES -

LANGER'S DELICATES-SEN is a family-run operation with Big Daddy Al Langer and son Norman running the show. Their pastrami sandwich is my favorite (\$1.75), but the corned beef isn't far behind. A popular Langer's specialty is the grilled corned beef with sauerkraut and American or Swiss cheese on salty rye bread (\$2.05).

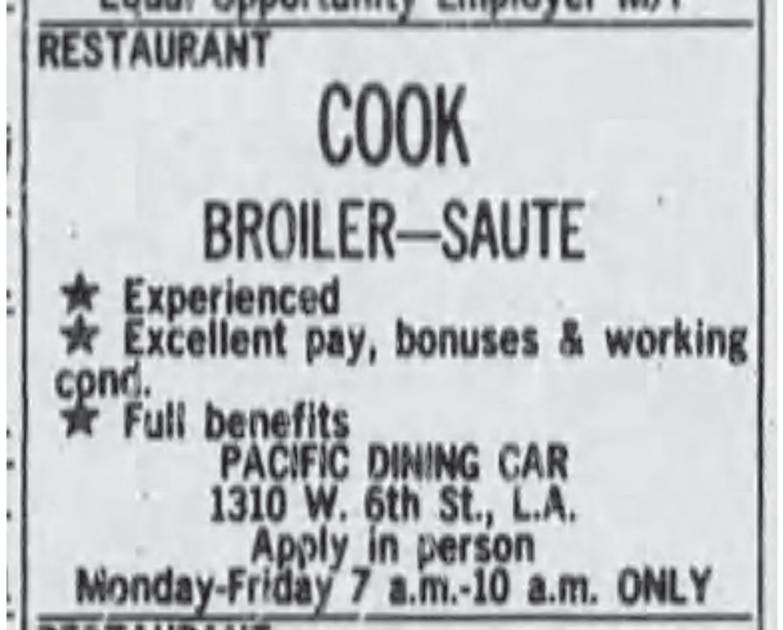

Langer's Delicatessen is at 704 S. Alvarado St. Telephone: 483 - 8050. Open S un d a y through /Continued on Pg. 28 Shown at the top of this page, is Angel's Flight bar, a circular revolving area situated atop the Hyatt Regency Hotel. During the course of one hour, the room makes one complete revolution. In addition to serving cocktails, Angel's Flight is open daily for lunch. Photographed directly above is a musical group, performing in the Hugo's V restaurant/bar, one of several restaurants within the Broadway Plaza, Seen at top on the opposite page is the Hyatt Regency's main ballroom. The room can be divided to accommodate two separate functions. In the photograph at left is a view of Hugo V's.

Los Angeles Times, September 20, 1977

PACIFIC DINING CAR-1310 W. 6th St., 483-6000. Hours, Monday-Friday 7 a.m.-11 p.m., Saturday 5-11 p.m., Sunday 4-10 p.m. Master Charge, BankAmericard. Valet parking. The strictly a la carte menu includes steaks, fresh fish, lamb and two daily specials. Prices start at \$6.50, and if you're really in the chips, you might want to try the double top sirloin at \$22.30. In the 56 years of its existence, the Pacific Dining Car has become something of an institution for serious eaters and serious spenders. Now being remodeled, the restaurant is built around a real dining car, but you may find dining more comfortable in one of the small adjoining rooms. The wine list is extensive. Time to the Music Center: 4 minutes.

Los Angeles Times, April 27, 1979

LA Weekly, January 16, 1981

Downtown, you could hide out in **The Pacific Dining Car**. It's been in the same family for three generations and still houses the original dining car that started it all. Menu features excellent steaks, aged on location and fired on hardwood charcoal; higher-priced veal with marsala or veal with white wine (\$14.50); fresh fish (fish gotta vary, daily); and salads. Or come in early for breakfasts like eggs Florentine. The kitchen is open 20 hours (6 a.m.-2 a.m.); dress is informal. *1310 W. 6th St.*, *483-6000*.

Meat

The Pacific Dining Car hasn't budged in three generations of the family that owns it, so take advantage: the steaks are superb. All are USDA prime, aged-on-premises, eastern, corn-fed - a compound modifier that means better marbling and flavor you don't need to romanticize; it's there. Most steaks are in the \$10 to \$17.95 range, ranging in dimensions from compact to freight (a 24-ounce T-bone is not a toy). Dinners for two are. such as the double New York, sliced at the table like a prime rib. And there's news; last time we listed them they were open 20 hours daily; now it's 24. Probably only a matter of time before they go for the full 26. Bar, fine wine list. 1310 W. 6th St., 483-6000.

LA Weekly, August 5, 1982

by Gloria Ohland

Getting up in the morning is never easy, but if you're going out to breakfast, it's easier. You have only to summon the strength to dress, pick up the newspaper and get in the car. Everyone has a favorite neighborhood breakfast place — you may swear by the fried potatoes at the Blue Nun or by the amiable atmosphere at Joe's or Lee's. But if you're ambitious enough to try someplace different, to drive a bit out of your way to eat a breakfast that is just a cut above the rest, there are some shining breakfast restaurants in town.

The Pacific Dining Car, 1310 W. 6th St., may escape your attention, hidden as it is behind wood siding, latticework and ivy - but it really is a beautiful old dining car that has been added on to so many times that there is a maze of back rooms to hide away in, and a secluded, lamp-lit bar way in the back. Best known as a steak house, breakfasts here are the real deal, and are served from 1 a.m. to 11 a.m. The menu includes eggs Florentine poached eggs with crumbled bacon and Hollandaise on sliced tomato, eggs scrambled with avocado, onion, tomato and chili pepper (all for under \$3.50), a roast beef hash for \$4.75 and, of course, an excellent breakfast steak (\$4.95). Three buttermilk pancakes with real maple syrup or boysenberry preserves cost \$1.65, and a big glass of freshly-squeezed orange juice is just 95t

Then there are the little extras that make a big difference — little pots of homemade unjelled fruit preserves, fresh flowers in real silver-plate vases and even peppermills on each table. The little windowside tables in the oak-panelled front room, which used to be the dining car, are the best. The sunlight filters in through the latticework and vines and if you aren't quite awake yet, you can half-close your eyes and imagine the countryside rolling past. (And check out the pictures of old Los Angeles in the back rooms.) Open 24 hours. 483-6000.

Delis are always a good het for breakfast and Langers, 764 S. Alvarado, puts the better-known Canter's to shame - breakfast, lunch or dinner. It's right across the street from MacArthur Park and the big, bright dining room has a good downtown feel to at. A sign outside

"When in doubt, eat ho exhorts: pastrami." You simply can't miss when you eat it here and Langers' corned beef is second only to Langers' pastrami. Either makes a fine breakfast when served "pancake style" with three eggs and their special "hand-sliced, doublebaked" caraway rye bread (with a really thick crust and especially tender inside) for \$4.95. Corned beef hash and three eggs is another sure hit for \$3.95. There are seven different kinds of fresh bagels (count 'em: onion, poppy, sesame, pumpernickel, egg, raisin wheat and water). There are also kippers, onions, and potatoes and potato pancakes with apple sauce and sour cream. Langers' lunch and dinner menu offers the world on a plate, and there's beer, a deli case and chocolate phosphates. What's more, you can walk the meal off in the park. And remember, when in doubt, eat hot pastrami. Open every day from 6:30 a.m. to 1 a.m. and until 3 a.m. on Friday and Saturday. 483-8050.

Duke's remains a Hollywood legend with the very best food and the most convivial atmosphere. So many interestinglooking Hollywood-types eat here, including whoever happens to be staying at the Tropicana Motel next door. There are a few tables and a lunch counter, but chances are you'll be seated along with others at the several large tables, where you can eavesdrop on conversations or join in, and it always seems like you're all part of a big, important Hollywood family. There was a panic when this restaurant changed management last year, but happily, not much has changed and even the staff remains the same.

Prices are a bit higher than those of most coffee shops but don't worry because Duke's food is not in the "average" class. Omelettes begin at \$2.25 and include a hot Indonesian version with rice and chutney (\$4.45). There are fresh fruit pancakes (blueberry, strawberry, raspberry, apple, banana and blackberry) for \$2.95, eggs benedic((\$5.35) and even Hangtown fries (eggs scrambled with fried oysters, bacon, mushrooms and onions) for \$5.25. Breakfast is served all day. Open 7 a.m. to 9 p.m. Monday through Friday and 8 a.m. to 4 p.m. Saturday and Sunday, 652-3100.

Now, the Musso and Frank Grill at 6667 Hollywood Blvd, is not a breakfast place, strictly speaking. But if you've stayed in bed all morning and have decid

Pacific Dining Car

Carrying on the tradition of quality food and service that began in 1921, the Pacific Dining Car is open 24 hours daily serving breakfast from 1 a.m. to 11 a.m. followed by lunch, dinner and supper.

Fresh seafood, live Maine lobster, lamb, pork, veal and chicken are featured, as well as prime beef broiled over mesquite charcoal.

Tea, sherry, finger sandwiches and pastries are available each afternoon from 3 to 5.

The address is 1310 W. Sixth St. Valet parking is available. Call (213) 483-6000 for information.

LA Weekly, February 20, 1986

PACIFIC DINING CAR, 1310 W. Sixth St., L.A.; (213) 483-6000. This establishment has been around for 65 years, and started broiling steaks over mesquite before most anyone else. The turn-of-thecentury ambience, with spacious booths and comfortable chairs, fits a menu out of the American Old West. The restaurant boasts about its chili and eggs, and serves USDA prime-grade Eastern corn-fed beef. Pacific Dining Car has been in the same family all along, and they never close. Open seven days, 24 hours. Full bar; reservations suggested; valet parking; takeout. MC, V.

Pacific Dining Car, Los Angeles, celebrated its 65th anniversary on March 4, and owner Wes Idol with manager Mike Green hosted a gala reception for family, friends, the press, and customers.

It was a great affair, with a handsome buffet in this landmark restaurant at 1310 W. Sixth St. George Falcon, publisher of Key Magazine was there to present a photo blow-up of a 50-year old picture of the train-like restaurant. Los Angeles councilmen were there to honor Idol and Pacific Dining Car on this special occasion.

This is a favorite restaurant with great American foods, and the restaurant is open 24 hours a day, seven days a week. Congratulations to Idol and his entire staff at Pacific Dining Car.

Back in 1921, when a cup of coffee was 5 cents, a large baked potato was 25 cents and a homemade pie cost 20 cents, Pacific Dining Car was a notch above on its prices over most other restaurants in Los Angeles. But everyone knew PDC served only the very best and tastiest steaks in town.

The restaurant has since expanded from a small dining car to include a wine room, a backroom bar and several other serving rooms.

The little restaurant was originally built at 7th Street and Westlake Avenue by Lovey and Fred Cook to resemble a railroad dining car. It was moved two years later on its own rubber wheels to the present site at 6th and Witmer streets. The wheels are still in place but haven't turned since.

In those early days, land speculation was booming in Los Angeles, the "Red Car" was in its heyday and ran along 6th Street, and the popular funicular railway Angels Flight was wending its way up and down Bunker Hill. By that time Pacific Electric had laid 1,200 miles of railroad tracks linking the Southland.

Pacific Dining Car soon became one of the most popular dining spots in the area and later was the first restaurant, outside a regular coffee shop, to serve breakfast, as well as lunch and dinner.

"We were doing hardwood charcoal broiling way before mesquite grills became fashionable," manager Michael Green said. "Our first grill lasted 55 years, and we're on our second now. There are old-timers who still remember "Lovey" Cook's light touch with a crust. Her pies were famous."

By the 1930s, Lovey's daughter Virginia had gone back East to school and married a young electrical contractor by the name of Wes Idol. The Idols were to carry on the restaurant tradition of her parents and, eventually, their son, Wes Idol II would also head the operation.

With the end of Prohibition, a three-stool bar was added to the dining car, and over the decades, other additions and renovations followed.

Longtime customers of Pacific Dining Car chuckle when they recall the sign posted on the front door each summer when it got too hot, and the owners closed the restaurant for a few weeks of vacation.

It read: Too D---- Hot in L. A. Gone fishing! Why in the H--- Don't You Go Too!

Munchin'

FROM PAGE E30

Holiday Inn, Torrance; and the Grand Hotel, San Pedro. Independent restaurants featuring music and dining also include the Bull Pen, Redondo Beach; Seafood Grotto, Redondo Beach; Velvet Turtle Restaurants, Redondo Beach and Torrance; and Babouch Moroccan, San Pedro.

Dinner only, with special menus, will be featured at a variety of restaurants, including Golden Goose Restaurant, Torrance; Bit of Germany, Redondo Beach; Chalet de France, Torrance; Golden Lotus, Rancho Palos Verdes; Cafe Pierre, Manhattan Beach; the Bottle Inn, Hermosa Beach; Swedish Corner Smorgasbord, Torrance (also open New Year's Day for dinner); and Chez Melange, Redondo Beach.

Orleans, West Los Angeles, with Cajun cuisine, has spiced things up for the New Year's celebration; the marina hotels, Marina del Rey, including the Marina Beach Hotel, Marina International Hotel and Marina del Rey Hotel, will all feature festive New Year's Eve celebrations, plus Sunday brunches, early dining, dancing and live musical entertainment. And a final note about **Pacific Dining Car**, downtown Los Angeles, a 24-hour restaurant 365 days a year. **Pacific Dining Car** now packages and sells jars of (its own recipe) steak relish, barbecue sauce, orange marmalade and apple butter. It also will ship them for you from its location, 1310 W. Sixth St., says manager Mike Green.

Having a good time sitting around the dinner table, enjoying seafoods with all the trimmings at Golden Goose Restaurant, Torrance, were Bill Garrett, Elinka Keller, Dorian Bila, Shirley Haghighi, Ahmad Yousefi (owner of Golden Goose) and me. Broiled salmon. fried oysters, charcoal broiled berry bass, catfish and other succulent seafoods were acclaimed "perfectly wonderful" by all members at the table.... At the ever-popular Anna's Italian Restaurant, West Los Angeles, we dined on Italian green salads, linguine with clams and angel hair pasta with

an herb-tomato sauce, finishing dinner with cups of coffee and ricotta cheesecake. ... In Westwood, at the new Olive Garden Restaurant, the "vino novello arrived" for a special occasion, and guests sipped Riunite Novello 1988 white and red wines rushed to California from Italy. They're served only at the Olive Garden restaurants. We enjoyed luncheons of Crab Al-

Los Angeles Times, December 4, 1988

AROUND HOME

Notes on Fireplace Equipment, Dhurrie Rugs and Mirrors

IN THE KITCHEN Power Marmalade BY RUTH REICHL

There are two kinds of power breakfasts in Los Angeles. One features movie deals and fancy food: Walk into the Polo Lounge and you're likely to see moguls making multimillion dollar deals while munching on croissants and eggs Benedict. The other features political deals and down-to-earth eating: Walk into Pacific Dining Car downtown, and you'll see rooms filled with operatives chowing down on huge

portions of ham and eggs and plain old toast.

Croissants, of course, don't need jam. Toast, on the other hand, does. And at Pacific Dining Car, you'll find that the orange marmalade the powerful breakfasters are spreading on

their toast is homemade.

It has a unique flavor, not quite like the other marmalades around. This one is not too tart; if you like your orange marmalade on the sour side, it's not for you. It is, however, thick and chunky, and when you stick your spoon into the jar you get a good proportion of rind to fruit.

The restaurant has just started selling their orange marmalade for

home consumption. Available only at the restaurant, it's the perfect present for people who want to get up in the morning and eat a power breakfast without leaving home. Or, of course, for any faraway friend who yearns for a taste of the Big Orange.

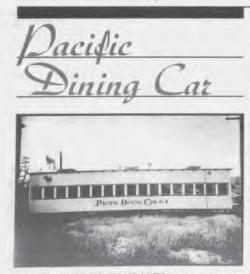

Pacific Dining Car Orange Marmalade, \$2.50 per 8-ounce jar. Available at Pacific Dining Car, 1310 W. 6th St., Los Angeles; telephone (213) 483-6000.

Antique Hearth Equipment

BY LOIS GIBSON

A TRADITIONAL. aesthetic and nostalgic center of American domestic life, the hearth was built into furnaced homes and steamheated apartments until the advent of prefabricated housing for veterans of World War II. Over the centuries, countless gadgets have been sold to tend and augment the hearth. Now

LA Weekly, July 22, 1999

26 SUMMER RESTAURANTS JULY 16-22,1999

You can take your hyper-hiptitudinous dining spots, stuffed with see-and-be-scenesters waiting agonizing amounts of time for the chance to chow. And when you finally do get that coveted table, which all too often is crammed uncomfortably close to other tables (makes me long for that New Agey L.A. of personal space), the decibel levels tend to shriek beyond Spinal Tap's take-it-beyondthe-max 11. Let's face it, all conversations, no matter how profound, sound ridiculous when should. Don't even get me started on the models-actors-whatevers who frequently think they're doing you a favor when they deign to take your order.

No, sirree. I'll take the spacious elegance of the Pacific Dining Car, with its classic booths, its waiters who aren't waiting for that big break but actually want to attend to you, its high-backed chairs at tables that allow discussions that don'i strain your vocal cords or your ears. In fact, as a friend of mine found out, the PDC is a place quiet enough to meet a man, converse, discover he's your soul mate and get married. And yes, they had the ceremony at the Din-ing Car, and it was one of the most wonderful weddings I've ever been to, followed by a superb spread. The PDC is all about meat: gorgeous slices of beef cut by a house butcher and grilled over mesquate. And it's open 24/7, in case you get a carniverous craving in the middle of the night. Fred and Grace Cook founded the Dining Car in 1921

(the family still owns it). In New York, they had supped in a railway dining car, which had been converted into a restaurant, and after their move to L.A., decided to build — in the back yard of a friend — a slightly larger replica of a dining car, with space for a long counter and rooms for tables and chairs in back, which was moved to Seventh and Westlake (the PDC moved to its current location in 1923). In the '20s and '30s, according to the PDC's Web site — check it out at www.moshix2.net/PDC/INDEX. Web site — check it out at www.moshiv2.net/PDC/INDEX. HTM — a fillet would set you back a buck and a half. To-day you might need a second mortgage to afford dinner (steaks start at \$30), which is why I prefer the more afford-able breakfast, to say nothing of the killer eggs Benedict. But then, what's a little dough when you could be sit-ting where Mickey Cohen and his bodyguard dined, or Louella Parsons, or George Raft, or Mae West and her bodymuch tables in the second for the bit of the set of the second secon

bodyguard, taking in the textures of L.A. history. Writer James Ellroy, another Dining Car regular, sets a scene in his comic noir novella, "Tijuana, Mon Amour" (collected in the recently published *Crime Wave*), in the PDC's parking lot, when *Hush Hush* editor Danny Getchell gets called out to meet a miffed Frank Sinatra to settle their differences. The Dining Car played an even older L.A. restaurant, the long-defunct Pig 'n' Whistle, in Chinatoun. That's Hollywood, Jake, 1310 W. Sixth St., L.A.; (213) 483-6000. -Kateri Butler

Los Angeles Times, January 20, 2000

Season of Change for Several Local Chefs

Restaurant News

By ANGELA PETTERA SPECIAL TO THE TIMES

Movable Feasts: Now that the holidays are over, it seems our L.A.area chefs are on the move. Never a settled bunch, these folks are particularly antsy right now. Par exemple: Alain Giraud has resigned as chef of Lavande and the rest of the Loews Santa Monica Beach "Hotel food operations. He will be gone by early February. Giraud opened Lavande and was chef for about three years; that's equivalent to about nine in chef years. Before Lavande, Giraud stayed at Citrus for eight years, so he's a stable worker compared with some of his peers. As for his future, he said, "I will be developing my restaurant in the coming months." Why leave Lavande without having a place he can immediately take over? It seems his new partner dangled a lucrative carrot. "It came in a way I couldn't say no to," said Giraud. Giraud doesn't know where his new place will be, but you can be sure the food will reflect his roots. He's from southern France, after all. And when we know more details, we'll pass them along.

Carrie Nahabedian is leaving as executive chef of the Four Seasons Hotel on Doheny Drive in L.A. to return to Chicago. She has a cousin, Michael Nahabedian, who has helped create two restaurants there and will develop a third with her at the helm. "We've been trying to keep it under wraps," Nahabedian said of her departure, but that didn't work out. She plans to

vacate her post by the first week of February. "It's a pretty big shock," she told us. "I've really settled into the hotel." But after living in California for eight years, she decided it was time to return to her family and hometown. And since the building she had been eveing in the courthouse district of Chicago became available, she had to grab it. Another cousin, L.A.-based home designer Tom Nahabedian, will fly to Chitown to design the place, which as yet has no name. The food will be very sunny for the Windy City. Said Nahabedian, "I'm trying to bring a little bit of California to Chicago."

Josie LeBalch, formerly chef of Saddle Peak Lodge in Calabasas and the Beach House in Santa Monica (where she lingered for about a year), has grabbed a restaurant for herself. She's taken possession of 2424 Pico Blvd. in Santa Monica, which used to house David Wolf's restaurant (called 2424 Pico). Interestingly, Wolf went to work for Liza Utter at the Beach House when LeBalch departed to search for her own place. So it seems they've traded places. Said LeBalch of her new space, "It needs a lot of work. . . . You always need to change the interior to put your identity on it."

So she'll put new appliances in the kitchen and move the entrance to the back. She'll hang on to the huge adjacent parking lot and offer free valet parking or the option to self-park. She hopes to have her restaurant, which will be called Josie, open by the end of March or early April. As for the cuisine, you can expect her brand of California

cooking crossed with classical French technique. And because this is the smallest venue she's cooked in (with about 100 seats), she's looking forward to hands-on cooking nightly.

What Do You Mean We're Expensive?: Pacific Dining Car, the venerable steakhouse with locations in downtown L.A. and Santa Monica. has reworked its pricing and ordering system. Mike Green, general manager of the downtown location, said, "We're just going to try to join the crowd." By "crowd" he means other prime steakhouses (like Morton's and Arroyo Chop House) that price meat separately from potatoes and vegetables at dinner. So now, Pacific Dining Car's prime-aged steaks will cost from \$25 to \$35, and sides will run \$3.50 to \$4.95. The plates out of the kitchen should look the same as they did before.

 Pacific Dining Car, 1310 W. 6th St., L.A., (213) 483-6000; and 2700 Wilshire Blvd., Santa Monica, (310) 453-4000.

Bite-Sized News: Perroche will be opening Sunday nights to serve dinner, and the corkage fee that night will be only \$2. Chef and owner Stuart Barker said he's bowing to the pressure of other Valley restaurants that keep their corkage fees low on certain nights. Perroche is at 11929 Ventura Blvd., Studio City: (818) 766-1179. . . . Granita is having its fourth annual black truffle dinner tonight. Chef Jennifer Naylor will incorporate the black diamond truffle from Italy into six courses. The price is \$98 per person plus beverages, tax, and a suggested 18% tip; seatings from 6 to 8:30 p.m.

 Granita, Malibu Colony Plaza, 23725 West Malibu Road, Malibu, (310) 456-0488.

So long, and thanks for all the steak

THE ICONIC PACIFIC DINING CAR RESTAURANT OPENED IN 1991 HAS CLOSED. DEPRIVING L.A. OF ONE OF ITS GREAT 24-HOUR HANGOUTS.

BY LUCAS KWAN PETERSON

N 1921, WHEN THE WORLD had just barely recovered from a pandemic, Fred Cook and his wife, Lovey, opened a restaurant inside a re furbished dining car on the outskirts of downtown Los Angeles. 9 Nearly 100 years later, a different pandemic has claimed it. Pacific Dining Car in Westlake, one of the oldest restaurants in the city, has closed, and we are the poorer for it. (The Santa Monica location, opened in 1990, shut in June.) Pots and pans, wall sconces. Santa wome a location, opened in large, and in anne, rois and pans, will sconees, valet uniforms and even the massive front signage — two plump bovines looking out placidly over the intersection of Witmer and West 6th streets — are all being sold at auction. As I write this, the bidding on the sign has closed at \$7,250. ¶ But however high that figure is, it won't save the restaurant. Nor will it save us from the rapidly growing list of closures of our beloved dining institutions. And while this isn't the first business to close due to COVID-19 and will not be the last, this one feels a bit different. It cuts a little deeper.

Theunabashed

The unabashed homer in measys LA, is the based sity in the coun-ting of the second second problem of the second second problem of the second second problem of the second second problem of the second secon

ena who reinforced in me an essential truth about L.A. dip

PACIFIC DINING CAR, with its clubby CAR, with its clubby lecor, attracted a wide range of customers.

ing: It's the best city in the county for restaurants that are allite of Ailter or quirky in some way— Clifton's, Cals'Juck, Dan Tanas, Inn of the Seventh Ray. The vastness of the city, of maligned, also supports idio-syntrasities: There's room for everybody. Weity body, was allorrest greens and pol-ished brass, burnished wood and tassleid window dressings, even atowage above some of the tables to minic the true train compartment desperience. The compartment experience. The size of the restaurant always summised me... there were so

many different dising rooms and bidden spaces, it was a pleasur to explore. On the walls you might see framed wine labels, miscella-neous Western-themed artwork, a mirror adorn ed with antlers or my favorite, above a table

CRAFT BEER IS THEIR CALLING

BY DOMASLANDS

RAIG BOWERS AND Samuel Chawings are

RAIG BOWERS AND Samuel Chawings are on a mission to create a craft beer community in South Los Angeles. Bowers, an anaketing execu-tive and events producer, and Chawinga, a long-time brever, are behind the new South Los Angeles Bevernage Company, an incubator, pro-duction and packaging facility scheduled to function and the area and for a prese-tion facility and durit have to travel outside the neighbor-tor, adidoor area with multiple food vendors, sofile rusatery

room, outdoor area with multiple food vendors, collee reastery and cidery. It will be part of the SoLA Beehive, a 92,000-square-foot retail and production space located in a federal Opportunity Zone, one of several thousand Opportunity Zones nationwide, created as part of the 2017 Tax Cuts and Jobs Act meant to promote investment in low-income areas.

"South Central in particular, it's always been the workingclass heartbeat of Los Angeles," said Bowers, whose parents

class learn theat of Los Angeles, suid Bowers, whose parents were born and risised in the area. The plan is to work with local nonprofits and government agencies to empiry at least 75% of the South Los Angeles Bower-age Company staff locally. It also is looking to local businesses to flit the various field-window populations at the facility. But Bowers and Chavings said they are still prepared for those who will inevitable ery gentrification at a shiny new development in the area.

"In this summer of 2020, we had a lot of com ersationsabout
